Accreditation

Roane State Community College is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award associate degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404-679-4500 for questions about the accreditation of Roane State Community College.

The college’s career preparation programs are accredited as follows:

**Business Management Technology**
Accreditation Council for Business Schools and Programs (ACBSP)

**Contemporary Management**
Accreditation Council for Business Schools and Programs (ACBSP)

**Dental Hygiene**
Commission on Dental Accreditation (CODA)

**Early Childhood Education**
National Association for the Education of Young Children (NAEYC)

**Emergency Medical Technician/Paramedic**
Committee on Accreditation of Educational Programs for the EMS Professions (CoAEMSP) and the Commission on Accreditation of Allied Health Education Programs (CAAHEP)

**Health Information Technology**
Commission on Accreditation for Health Informatics and Information Management Education (CAHIIM)

**Massage Therapy**
Commission on Massage Therapy Accreditation (COMTA)

**Nursing**
Accreditation Commission for Education in Nursing (ACEN)

**Occupational Therapy Assistant**
Accreditation Council for Occupational Therapy Education (ACOTE)

**Opticianry**
Commission on Opticianry Accreditation (COA)

**Pharmacy Technician**
American Society of Health System Pharmacists (ASHP)

**Physical Therapist Assistant**
Commission on Accreditation in Physical Therapy Education (CAPTE)

**Polysomnography**
Committee on Accreditation for Polysomnographic Technologist Education (CoAPSG) and the Commission on Accreditation of Allied Health Education Programs (CAAHEP)

**Radiologic Technology**
Joint Review Committee on Education in Radiologic Technology (JRCERT)

**Respiratory Therapy Technology**
Commission on Accreditation for Respiratory Care (CoARC)

**Statement of Mission and Purpose**
Roane State Community College’s vision is to be a premier learning institution that transforms lives, strengthens community, and inspires individuals to excellence.

Roane State Community College is a comprehensive, public, two-year postsecondary institution serving the higher education needs of a diverse eight-county service area, which includes Roane, Anderson, Campbell, Cumberland, Fentress, Loudon, Morgan, and Scott counties and expands to include Knox and Blount counties for the delivery of a broad range of health science programs. Roane State provides multiple staffed teaching locations and a wide range of flexible teaching delivery modes and distance education technologies to accommodate the diverse learning needs of students balancing multiple priorities in the pursuit of their educational goals.

Roane State Community College’s programs and services enhance individual lives and the economic development of the region by delivering a challenging and supportive collegiate experience. The college awards the Associate of Arts, Associate of Science, or Associate of Science in Teaching degree for students who wish to transfer to a four-year institution and provides career education for Associate of Applied Science degree or Technical Certificate graduates to enter the workforce. Roane State also upgrades employee skills with a wide range of continuing education and workforce development offerings, provides a pathway to postsecondary education for high school students through dual studies, and brings cultural, educational, and recreational opportunities to its communities.

Regardless of their program of study, Roane State students are provided a sound foundation in critical thinking and communication skills and exposed to a curriculum and experiences designed to broaden their understanding and respect for wellness, civic engagement, diverse ideas and cultures, a sense of the global community, and the technology required to succeed in 21st century society.

The college community affirms as its highest values honesty, integrity, respectful communication, and a commitment to personal and professional accountability and measures its institutional success by the success of its students.

**College History**

**Roane State’s Beginnings**

Beginning with the Pierce-Albright Report in 1957, which resulted in a $200,000 appropriation by the Tennessee General Assembly in 1963 to initiate the community college system, the philosophy of community colleges in Tennessee has been to provide higher education for all Tennessee residents. The first three community colleges were established in 1965, with one in each of Tennessee’s three grand divisions—Cleveland State in East Tennessee, Columbia State in Middle Tennessee, and Jackson State in West Tennessee. Additional community colleges opened in Dyersburg and Tullahoma in 1969. The sixth community college opened in Morristown in 1970.

In 1969, the General Assembly, upon the recommendation of Governor Buford Ellington and the state Department of Education, authorized three additional community colleges to be built in Sumner, Roane, and Shelby counties. After visits by Commissioner J. Howard Warf and other officials from the state Department of Education in 1969, a site on Patton Lane was chosen as the permanent location of Roane State Community College.

**Facilities Growth**

RSCC opened in temporary quarters at the former Fairmont Elementary School in Harriman in the fall of 1971. In the fall of 1973, the college moved into its first permanent building on the main campus in Roane County.

Groundbreaking for the second building on the Roane State campus was held in January 1977. This three-story Technology Building was occupied in December 1978.

Construction on Campus Expansion Phase II began in June 1978. The
Maintenance Building was completed in June 1979, and the Library/Learning Resource Center in September 1980. In addition to reference and audio-visual services, the center houses Distance Learning and the Center for Teaching Arts and Technology. A branch campus at Hardin Valley Road and Pellissippi Parkway was occupied in the fall of 1986. This campus was shared with a sister institution in Knox County.

With the establishment of Pellissippi State Technical Community College in the fall of 1988, Roane State moved its Oak Ridge campus to new sites in Oak Ridge.

Phase I of the East Tennessee Agricultural Exhibition Center was completed in 1988 at the Roane County campus. Phase II was completed in 2000. The facility continues to host a variety of agricultural, civic and community events.

In June of 1994, Roane State held a dedication ceremony for its first permanent Higher Education Center at the new facility in Huntsville. The Scott County Center was named after Earl McDonald, a former Scott Countian who generously provided a $1 million gift to help build the new campus. The center’s library was named after Scott County native Howard H. Baker, Jr., former senator and chief-of-staff for President Reagan. Baker’s memorabilia and world-renowned photographs are displayed throughout the facility. The 15,000-square-foot center is situated on 37 wooded acres provided by W.H. Swain.

In August of 1994, the college held its long-awaited groundbreaking for the new $6.3 million Humanities Building. Final approval of funding for the building came after 13 years of support by community and political leaders. The Humanities Building was opened for classes in the spring of 1997.

In December of 1998, Roane State held a dedication ceremony for its second permanent Higher Education Center in Crossville. The Cumberland County Center was named after Roy and Joanne Stone. The Stones donated the 40-acre tract of land for the new center and made significant financial contributions as well. The center’s library was named after the Cumberland Clinic Foundation in honor of this organization’s significant financial contribution.

Roane State occupied a new facility in Knox County to accommodate Health Sciences education that Roane State provides in the expanded service area of Knox and Blount counties. The facility houses classrooms for nursing, respiratory therapy, polysomnography, and EMT/paramedic programs.

Another hard-won dream of the college became a reality when the Oak Ridge Branch Campus celebrated the dedication of its permanent, state-of-the-art, 120,000 square foot facility on August 13, 1999. The building is named in honor of State Senator Randy McNally and former State Representative David Coffey in recognition of their contributions and leadership in the campaign for the permanent Oak Ridge Branch Campus. The campus’s Goff Health Sciences and Technology Building, named for former Roane State President Dr. Gary Goff, was completed in 2014.

In October 2001, dedication ceremonies were held to celebrate the opening of a multi-million dollar facility in which Roane State leases space for the Loudon County Higher Education Center. The college shares this facility with the Loudon County Career Center and the Lenoir City Public Library. City and county officials worked closely with the college to make this valuable community resource a reality after a 1999 fire destroyed the downtown block in Lenoir City where the center now stands.

In November 2004, a ribbon-cutting ceremony was held to celebrate the opening of the Fentress County Higher Education Center in Jamestown. The facility is located on property leased from York Institute and consists of five portable units provided by the Fentress County Board of Education. A bronze plaque was presented to Guy and Claudine Pinckley for their effort in providing most of the financial resources necessary to make the center a reality.

In 2005, the Campbell County Higher Education Center was completed. This 18,000 sq. ft. building in Lafollette replaced the college’s leased center in Woodson’s Mall. Thanks to a bequest by Lillian Michaelis and a land gift by Ed Wheeler, Campbell County now enjoys a permanent college campus.

In spring 2008, the Morgan County Higher Education Center opened thanks to the support of Wayne and Margaret Solomon whose significant financial contributions made the campus possible. Lawrence and Eva Hines gave the college the land on which the campus is located.

In July 2011, the $1.28 million Cumberland Business Incubator (CBI) opened on the Cumberland County campus. Financing for the CBI was supported with federal, state and local resources. The Cumberland County Commission and Crossville City Council each committed $250,000 for the construction of the CBI. In addition, Roane State received an $880,000 grant from the U.S. Commerce Department’s Economic Development Administration.

In May 2013, Roane State hosted a ribbon-cutting ceremony at the Clinton Higher Education and Workforce Training Facility. Roane State had begun offering courses in advanced manufacturing there earlier that year along with courses in continuing healthcare education and industrial safety courses.

**Student Population Growth**

Roane State was projected to be the second or third smallest two-year state college when it opened its doors in the fall of 1971 – enrolling 323 students in 35 classes taught by 20 faculty. Over the years, the college enjoyed a consistently upward trend in enrollment with two notable student growth areas - off-campus and distance learning. Roane State now serves more than 6,000 students who are enrolled for credit and thousands more who take various non-credit courses or participate in seminars, workshops, cultural activities, exposition events and special educational services offered by the college.

**Dual Studies**

Dual studies classes allow high school students to earn college credit and high school credit at the same time. Roane State first offered these courses in 1997. The college’s program, called First Class, has experienced tremendous growth. Approximately 1,200 students take dual studies classes at Roane State.

**International Education**

The college has made tremendous strides in preparing students to live and work in a global society. In 2008, the college brought in its first large group of visiting international students and has since welcomed many more. Roane State has also expanded international travel opportunities for students. Destinations have included Denmark, France, Italy, England, Ecuador and other countries.

**Technology**
In 1992, Roane State became the first Tennessee community college to offer classes through live video teleconferencing, and in 1996, RSCC offered its first Web classes. The college has continued to expand the number of courses offered through live video teleconferencing and online. In 2008, the college received a grant to add video classroom technology into area high schools, allowing students to take RSCC courses in their own high schools. Roane State made wireless Internet available on all campuses in 2011, and the college has expanded its use of mobile technology to enhance student learning. Roane State created its first mobile app in March 2013.

**Grant Funding**

Roane State, with the help of many partners, has been awarded several grants to support education initiatives in the college’s service area. For example, grants have supported the college’s efforts to offer training in advanced manufacturing such as composites and mechatronics. Roane State continues to succeed in winning grants and implementing grant-funded projects.

**The Presidents of Roane State**

In May of 1970, Dr. Cuyler A. Dunbar was selected as the first president of the college.

With 18 years of service to the college, President Dunbar left Roane State in 1988 to assume the presidency of Catawba Valley Community College in Hickory, North Carolina.

Dr. Sherry L. Hoppe was appointed on an interim basis and later named as Roane State’s second president in spring 1989.

In February 2000, Dr. Sherry Hoppe accepted an appointment as interim president at Austin Peay State University and was selected as the university’s permanent president in January 2001. During this period, Vice President for Financial Services William S. Fuqua, III served as interim president of Roane State.

On October 15, 2001, Dr. Wade B. McCamey became Roane State’s third president. In August of 2005, Dr. McCamey accepted the presidency of Walters State Community College in Morristown.

Dr. Gary Goff became Roane State’s fourth president on August 19, 2005 after serving as an academic dean and vice president for business at Hillsborough Community College in Tampa, Florida. He retired on October 31, 2012.

Dr. Chris Whaley became the college’s fifth president on November 1, 2012 after serving as the college’s vice president of student learning/chief academic officer.

**Milestones**

1974 The college was accredited by the Southern Association of Colleges and Schools to award the associate degree.
1976 77% of all students were taught on-campus.
1979 40% of all enrollment was off-campus.
1980-81 Roane State became the fourth-largest Tennessee community college.
1981 The governor stated that Roane State Oak Ridge and State Technical Institute at Knoxville should share a location on the Technology Corridor.
1981-82 Roane State became the third-largest Tennessee community college, by FTE.
1983-84 Women’s basketball team won the national championship, the first for a two-year Tennessee college.
1985-86 Roane State became the second-largest Tennessee community college with 40% of its enrollment off-campus.
1989 All faculty and staff offices were equipped with a personal computer or terminal.
1989-90 Roane State became the first college in Tennessee to have electronic telephone registration.
1990-91 RSCC has more health science programs than any other two-year college in Tennessee.
1990-91 The college won the AACJC Exemplary Program and Services Award for Excellence of Off-campus Higher Education Centers.
1991-92 Telecourse programming began with two video courses in the fall and three more in the spring. A total of 250 students enrolled.
1992-93 The first distance learning (IDEA) classrooms to be offered by any Tennessee community college were installed. By 1995, with five compressed video classrooms, RSCC became the largest user of this technology among TBR community colleges.
1994 Scott County Higher Education Center opened.
1994-95 E-mail access became available to all RSCC students.
1996-97 The Tamke-Allan Observatory was completed in June on the Schweinler property overlooking Watts Bar Lake.
1997 Roane State first offered dual studies classes.
1998 The Cumberland County Higher Education Center opened.
1998 The Knox County Center for Health Sciences opened.
1999 The Oak Ridge Campus opened.
2001 The Loudon County Higher Education Center opened.
2004 The Fentress County Higher Education Center opened.
2005 The Campbell County Higher Education Center completed.
2005-06 For an unprecedented fourth year, RSCC earned a perfect 100 points on the THEC Performance Funding Program evaluation.
2005-06 Career education programs had a 96% placement rate.
2005-06 RSCC students rated their entire educational experience higher than state or national peers.
2005-06 All former past presidents came “home” to kick off the college’s celebration of 35 years of academic excellence.
2007 Over $14 million was awarded in student financial aid.
2007 Bromma Pemberton Linville and Bill Swain, major benefactors of the college’s Scott County campus, became the first people to receive honorary degrees from Roane State.
2007-08 Morgan County Center for Higher Education opened.
2008-09 Roane State received $265,000 federal grant to add new interactive classrooms at area high schools and RSCC campuses.
2009 Roane State posted the highest retention rate of all community colleges in Tennessee, according to data from the Tennessee Board of Regents.
2009 Roane State established a college police department and named Matt Foster as its first Director of Public Safety and Chief of Police.
2009 The college received an $880,000 federal grant for the Cumberland Business Incubator (CBI), paving the way for construction to begin.
2009 The Tennessee Board of Regents awarded an Academic Excellence Award to Roane State for the college’s annual Academic Festival.
2009-10 Roane State experienced record enrollment with over 6,300 students attending.
2010 The college received a $2.86 million federal grant to support educating workers in advanced materials technician-level training.
2010 Roane State completed its fundraising campaign to support expansion of the college’s Oak Ridge campus.
Glossary

Add deadline - The latest date in a semester to add a course to a student’s class schedule.

Admission – The process of being admitted to Roane State allowing you to register for classes. Completion of the admissions process does not constitute registration for classes.

Admissions file – The documents collected for admission to the college. These documents include application, transcripts, test scores, immunization record, and any other information required by the Admissions or Records and Registration Offices.

Advisor – A full-time faculty member who meets with designated students to help make curriculum choices and discuss progress toward achieving educational goals.

Articulation agreement – A document that outlines the curriculum agreed to by Roane State and a four-year college or university to satisfy the degree requirements at Roane State and at the receiving four-year institution.

Associate’s degree – An associate’s degree is awarded to students after completion of a core curriculum. Students completing options in University Parallel (transfer) programs receive the Associate of Science (A.S.) or Associate of Arts (A.A.) degree. Students who complete options in Career Preparation programs receive an Associate of Applied Science (A.A.S.) degree.

Audit – Taking a course but not for credit. Students pay required fees and attend class but are not required to complete assignments or take exams.

Budget - The allotted amount a student can receive if receiving financial aid.

Career Preparation – An Associate of Applied Science degree program for students who wish to seek employment after completing two years of college work.

Census - 14th calendar day of each semester. Financial aid awards (for files that have been verified) are based on enrollment status at time of census date.

Compass Test – An assessment to identify a student’s academic strengths and weaknesses in reading, writing, and mathematics. This information is used to provide advisement and placement in courses that best help the student improve skills in these areas, as well as study skills.

Corequisite – A course that is required to be taken simultaneously with another.

Course – A subject or class in which instruction is offered within a given period of time for a semester and for which credit toward a degree is given.

Course load – The total number of semester hours or credit hours in which a student is enrolled for a semester.

Credit hour – One hour of classroom study per week over the period of a semester.

Curriculum – The whole body of courses offered for study by the college or by a particular department.
Drop deadline – The latest date in a semester to add or drop a course from a student’s class schedule.

Elective – A subject or course that is accepted toward fulfillment of credit for a degree or certificate but is not specifically required for that degree or certificate. So termed because a student elects or chooses to take the course.

Enrollment Verification for Entitlements Act (EVEA) - Tennessee House Bill 1379/Senate Bill 1325 requires that any applicant to a college or university that receives funding from the State of Tennessee and is classified as “In-State” for tuition purposes will be required to provide proof of U.S. Citizenship or proof of Permanent Resident Status.

Full-time student – A student enrolled in 12 or more credit hours of coursework per semester.

Grant – Financial aid that does not have to be paid back.

High School Equivalency (HSE) - A certified diploma which is equivalent to a regular high school diploma. Acceptable tests are the GED and the HiSET.

Humanities – Any course at Roane State in art, literature, humanities, music, philosophy or theatre.

Learning Support - Foundation courses in English, math, reading, and study skills designed for students who are not fully prepared for college level courses. Placement in Learning Support courses is determined by ACT, SAT or Compass test scores.

Loan – Financial aid that must be paid back, usually within a specified time.

Major – The academic area offered by Roane State in which one specializes.

NSO - New Student Orientation

Part-time student – A student enrolled in less than 12 credit hours of coursework per semester.

Physical/Natural Science – Any science that deals with phenomena observable in nature – biology, chemistry and physics.

Prerequisite – A course requirement to be completed or a level of skill or knowledge to be demonstrated prior to enrollment in a course or program.

Probation – The status of students when their cumulative GPA drops below college standards. Students may still enroll while on probation.

RaiderNet - Students’ one-stop hub for all of their college-related business. Students use RaiderNet to access course registration, financial aid information, e-mail and other services

Readmit – An Admissions form students must fill out if they have not attended Roane State for one or more semesters.

R# - A unique computer generated student identification number.

Registration – The process of officially enrolling in one or more courses. Students must be admitted to Roane State before they can register for classes.

Residency - 1. Refers to whether or not a student qualifies for in-state maintenance fees. 2. Refers to the amount of coursework that must be taken at Roane State in order to receive a degree or certificate from the college.

Satisfactory Academic Progress (SAP) - An appeal needed by students who have reached maximum hours (90 or more) at a community college level or those who are/have been on financial aid probation for low grades/GPA.

Semester – A period of instruction lasting 15 weeks at Roane State. Two semesters, fall and spring, ordinarily compose a college year. The third semester, summer, is optional and may be used as a time to catch up or get ahead.

Social Science – Any course at Roane State in anthropology, economics, geography, political science, psychology, or sociology.

Suspension – The status of students when their cumulative GPA drops below Roane State’s standards for two consecutive semesters. Students may not enroll while on suspension.

Transcript – An official record of academic history including coursework and grades.

University Parallel – Major programs of study designed primarily for students who wish to transfer to a four-year college or university and complete a baccalaureate degree. The credits earned from these programs lead to the A.S. or A.A degree.

Withdrawal - Officially dropping a course(s) for a given term. This action is to be completed before the published “Last Day to Withdraw” during the given semester.

BARRIGA, MARIA, Professor of Spanish
B.A., Universidad Catolica-Spanish
Ph.D., University of Tennessee-Spanish (1991)

BLEVINS, DAVID, Assistant Professor and Director, EMT and Paramedic Programs
A.A.S., Roane State Community College-General Paramedic
A.A.S., Community College of the Air Force - Emergency Management
B.P.S., University of Memphis-Fire Administration and Fire Prevention Technology (2009)
Licensed Tennessee State Paramedic Instructor/Coordinator (P/IC)
National Registered Emergency Medical Technician - Paramedic (NREMT-P)

BODINE, MARK, Instructor, EMT-Paramedic Program
A.A.S., Roane State Community College-General Technology (2001)
Licensed Tennessee State Paramedic Instructor/Coordinator (P/IC)

DELCUL, AMALIA, Associate Professor of Spanish
M.A., University of Tennessee-Spanish

DOYLE, JAMES A., Professor of Psychology
B.A., Aquinas College-Psychology
M.A., Xavier University-Clinical Psychology
Ph.D., University of Saskatchewan-Social-Clinical Psychology (1973)

DRAKE, GLORIA, Associate Professor of Business
A.S., Pearl River Junior College-Business
B.S., University of Southern Mississippi-Business Education

Elementary Education K-6
M.S., University of Tennessee-Teacher Education (2010)

BROWN, JOHN, Assistant Professor of Political Science
B.A., University of Tennessee-Political Science

BYRD, RODNEY, Instructor, EMT-Paramedic Program
A.A.S., Roane State Community College-General Technology (1996)
Licensed Tennessee State Paramedic Instructor/Coordinator (P/I/C)

BARRIGA, MARIA, Professor of Spanish
B.A., Universidad Catolica-Spanish
Ph.D., University of Tennessee-Spanish (1991)

BODINE, MARK, Instructor, EMT-Paramedic Program
A.A.S., Roane State Community College-General Technology (2001)
Licensed Tennessee State Paramedic Instructor/Coordinator (P/I/C)

DELCUL, AMALIA, Associate Professor of Spanish
M.A., University of Tennessee-Spanish
DUNCAN, LEA, Assistant Professor of Nursing
A.A.S., Roane State Community College
BSN, University of Tennessee
MSN, University of Tennessee (2010)

EASTRIDGE, DARRELL M, Associate Professor and Clinical Coordinator, Respiratory Therapy Technology Program
A.S., Cleveland State Community College
B.A., Ottawa University-Health Care and Education
M.A.T., Carson Newman College
Ed.S., Lincoln Memorial University-Curriculum Instruction (1994)
Certified Respiratory Therapy Technician (CRTT)
Registered Respiratory Therapist (RRT)

FARMER, WILLIAM, Assistant Professor of Accounting/Business
B.S., University of Tennessee - Accounting
M.B.A., University of Tennessee - Business Administration (1976)

FELTNER, KAREN, Associate Professor and Director of Health Information Technology Program
A.A.S., Roane State Community College-Medical Records
Registered Health Information Administrator (RHIA)
Certified Coding Specialist (CCS)

FIELDS, BECKY L., Assistant Professor of Nursing
B.S.N., University of Tennessee - Nursing
M.S.N., University of Tennessee - Psychiatric Mental Health
Ph.D., University of Tennessee - Nursing (2002)

FISHEL, JASON, Assistant Professor of Philosophy
B.A., Coastal Carolina University – English
B.A., Coastal Carolina University – Philosophy
M.A., Washington State University – Philosophy
Ph.D., University of Tennessee – Philosophy (2014)

FOLTZ-GRAY, DANIEL A., Associate Professor of English, Coordinator of Learning Support-English & Reading
B.A., University of Pennsylvania-English Literature
M.A., University of Chicago-English (1974)

FOX, BRADLEY, Associate Professor of Business
B.S., Salem State College-Management
M.B.A., DePaul University-International Business (1986)

GENNA, GARY, Assistant Professor and Director, Massage Therapy Program
B.S., College of Cortland-Biology (1982)
Licensed Massage Therapist (LMT)

GERGEN, THERESA D., Assistant Professor and Director, Occupational Therapy Assistant Program
B.A., Allegheny College-Psychology
M.S., University of North Carolina-Occupational Therapy
Ed.D., Nova Southeastern University - Instructional Technology and Distance Education (2012)
Licensed Occupational Therapist (OT/L)

GILL, MELINDA, Assistant Professor and Director, Dental Hygiene Technology Program
B.S.D.H., University of Southern Indiana, Dental Hygiene Education
M.P.A., Indiana State University, Public Administration (1998)
Registered Dental Hygienist (RDH)

GOGGIN, MICHAEL T., Associate Professor and Director, Opticianry Program
A.A.S., Erie Community College-Ophthalmic Dispensing
B.A., State University of New York at Buffalo - Anthropology (1975)
Licensed Optician (LDO)

GOLEBIEWSKI, MICHAEL, Associate Professor of Speech/Theatre
B.S., Troy State University-Speech and Theater

GOMEZ DELCAMPO, STELLA, Associate Professor of History
B.A., University of Mexico-History, Mathematics
M.A., University of Mexico-History, Art History (1969)

GOWAN, JOYE E., Associate Professor of Mathematics
B.S., Oklahoma Baptist University-Mathematics
M.Ed., Central State University-Secondary Education/Mathematics (1984)

GREENLEE, GEOL A., Professor of Music, Music Department Chair
B.S., University of Wisconsin-Music
M.M., University of Tennessee-Music
D.M.A., University of Cincinnati-College Conservatory of Music-Composition (1997)

HALL, JULIE, Assistant Professor and Director, Radiologic Technology Program
A.A.S., Roane State Community College-Radiologic Technology
B.S., University of Tennessee-Biochemistry, Molecular and Cellular Biology
M.P.H., University of Tennessee-Public Health (2007)
Registered Radiologic Technologist RT(R) (CT)

HANNON, TAMMY L., Assistant Professor of Nursing
B.S.N., Lincoln Memorial University - Nursing
M.S.N. Liberty University - Nursing
Registered Nurse

HARRIS, VICKIE F., Associate Professor of Nursing
A.D.N., Fayetteville Technical Community College
B.S., University of St. Francis-Health Science
M.S.N., University of Phoenix, Nursing (2006)
Registered Nurse

HEIDINGER, GARY L., Associate Professor of Sociology and Anthropology
B.S., Bethel College-History
M.A., George Peabody College-History (1965)
Certified in Thanatology

HENSLEY, VICKIE, Associate Professor, Radiologic Technology Program
A.S., Roane State Community College-Radiologic Technology
B.S., University of St. Francis-Health Science
M.S.N., University of Phoenix, Nursing (2006)
Registered Nurse

HERD, VALERIE, Associate Professor of Sociology
B.S., East Tennessee State University-Communications
M.S., University of Tennessee-Sociology (1995)

HILL, LESHA, Associate Professor and Director, Respiratory Therapy
Program
A.S., Roane State Community College-Respiratory Therapy
B.S., Tusculum College-Applied Organizational Management (1991)
Registered Respiratory Tert (RRT)

HILLIARD, PEGGY, Professor of English
B.A., Furman University-English Literature
M.A., University of Tennessee-English Literature
Ph.D., University of Tennessee-English Language (1989)

HINKLE, REGINA, Associate Professor
Missouri Baptist College of Nursing
B.S.N., University of Maryland-Nursing
M.S.N., University of Tennessee-Nursing (1991)
Registered Nurse

HYDER, DAN, Associate Professor, Program Director Environmental Health Technology/Coordinator, Honors Program
B.S., East Tennessee State University-Environmental Health
M.E.S., University of Oklahoma-Environmental Science (1980)

HYUN, PHILLIP JIN-KEE, Assistant Professor of Engineering/Physics
B.S., Yonsei University, Korea - Biochemistry
M.S., Washington State University - Physics
Ph.D., Washington State University - Physics (1996)

INSCO, APRIL, Instructor, Health Information Technology Program
A.S., Roane State Community College-Health Information Management
B.S., U.T. Health Science Center, Memphis-Health Information Management
Registered Health Information Administrator (RHIA)
Certified Coding Specialist (CCS)

JACOBS, STACY, Associate Professor of Art, Program Director, Computer Art and Design
B.A., Austin Peay State University-Fine Arts
M.A., University of Tennessee-Fine Arts (2002)

JENKINS, PATRICIA, Professor of Nursing and Dean of Nursing
B.S.N., University of Tennessee - Nursing
M.S.N., University of Tennessee - Nursing
Ed.D., University of Tennessee - Educational Administration (2001)
Registered Nurse

JONES, JOHNNY, Associate Professor of Physical Education
A.A., Martin College-Health/Physical Education
B.S., Middle Tennessee State University-Physical Education
M.S.S., United States Sports Academy-Fitness Management

JONES, MICHELLE, Associate Professor and Clinical Coordinator, Dental Hygiene Program
B.S., East Tennessee State University-Community Health (1978)
Registered Dental Hygienist (RDH)

JORDAN-HENLEY, JENNIFER, Associate Professor of English
B.S., Middle Tennessee State University-English
M.A., Middle Tennessee State University-English Literature (1988)

KING, ADOLF A., Professor of Chemistry
B.S., City of Leicester Polytechnic-Applied Chemistry
M.S., Imperial College of Science and Technology, London University-Analytical Chemistry
D.I.C., Imperial College of Science and Technology, London University-Analytical Chemistry
Ph.D., Imperial College of Science and Technology, London University-Analytical Chemistry (1976)

KING, BENJAMIN B., Associate Professor of Mathematics
B.A., David Lipscomb University-Mathematics
M.S., University of Tennessee-Mathematics (2006)

LAMAN, MICHAEL A., Professor of Health Sciences and Dean, Allied Health Sciences Division
B.S., University of Central Florida-Respiratory Therapy
M.S., Indiana University, Purdue University at Indianapolis-Allied Health Education
Ph.D., University of North Texas-Higher Education Administration (1989)

LANE, DAVID, Associate Professor of Psychology
B.S., Middle State University-Geosciences

LANZA, DONALD L., Professor of History
B.A., University of Tennessee at Chattanooga-History
M.A., University of Tennessee-History
Ph.D., University of Tennessee-History (1991)

LEE, ARTHUR C., Professor of Geology
B.S., Penn State University-Geosciences
M.A., Temple University-Geology
Ph.D., University of Southern California-Geology (1993)

LEWIS, ELIZABETH, Associate Professor/Program Director of Criminal Justice
A.S., Tennessee Technological University-Criminal Justice (1981)
B.S., Tennessee Technological University-Psychology (1981)
M.S., University of Tennessee, Chattanooga-Criminal Justice (1988)

LUGGIE, BRENDA M., Associate Professor of Music/Choral Director
B.M., University of Akron
M.M., Ohio University-Music (2001)

MABRY, MARIANNA, Associate Professor and Director, Pharmacy Technician Program
Certified Pharmacy Technician (CPht)

MAGILL, DEBORAH, R., Assistant Professor of Speech
B.A., Auburn University - Communications
M.A., Auburn University – Communications (1991)

MALVEAUX, KENNETH R., Associate Professor of English
B.A., University of Southwestern Louisiana-English
M.S., Tennessee State University/Vanderbilt University-Management of Social Service Programs (1976)

MANIS, TERESA, Instructor and Clinical Coordinator, Radiologic Technology Program
A.S., Asheville-Buncombe Technical Community College-Radiologic Technology
B.S., East Tennessee State University - Radiography (2011)
Registered Radiologic Technologist RT (R)

MARSH, LINDA, Assistant Professor and Director, Medical Transcription Program
A.S., Steed College-Medical Secretarial Science
B.S., College of St. Scholastica - Health Information Management (2012)
Registered Health Information Technician (RHIT)
MASCARO, MARYLIN L., Associate Professor of English/Coordinator, Honors Program
B.S., University of Tennessee-English
M.A., University of Tennessee-English (1984)

MEADOWS, SHANNON, Associate Professor of Biology
B.S., Union University-Medical Technology
M.S., Louisiana State University Medical Center-Microbiology (1996)

MEGHABGHAB, GEORGE, Professor of Computer Science
B.S., Institut Superior d’ Electronique du Nord, Lille, France-Computer Engineering
M.S., University of Pierre et Marie Curie, Paris, France-Computer Science
Ph.D., University of Pierre et Marie Curie, Paris, France-Computer Science
Ph.D., Florida State University-Computer Science (1988)

MILES, DEBORAH L., Associate Professor of Mathematics
B.S., Louisiana State University-Mathematics Education
M.M., University of Tennessee-Mathematics (1990)

MONDAY, RALPH, Associate Professor of English
B.S., University of Tennessee-English Education
M.A., University of Tennessee-British and American Literature
Ed.D., Northcentral University - Educational Leadership (2012)

MOWERY, S. MAMIE, Associate Professor of Speech
B.S., East Tennessee State University-Elementary Education
M.S., University of Tennessee-Adult Education (1983)

NESBIT, RANDY, Associate Professor of Business, Men’s Basketball Coach, Athletic Director
B.S., The Citadel-Business Administration

NEWBERRY, NIKKI, Assistant Professor, Health Information Technology Program
A.A.S., Roane State Community College - Medical Records
B.S., Tusculum College - Organizational Management (2006)
Registered Health Information Technologist (RHIT)

ORD, KAREN S., Associate Professor of Mathematics
B.S., University of Tennessee-Secondary Science Education
M.M., University of Tennessee-Mathematics (1991)

PALANTINUS, DEBORAH T., Associate Professor of Biology
B.S., University of Tennessee-Zoology
M.S., University of Tennessee-Zoology (1971)

PALMER, ALMA RUTH, Assistant Professor of Nursing
B.S.N., Western Carolina University-Nursing
M.S.N., East Tennessee State University-Nursing (2008)
Registered Nurse

PEAVYHOUSE, MYRA K., Professor of English, Dean, Humanities Division
A.S., Roane State Community College-Biology
B.S., Tennessee Wesleyan College-Biology
B.A., Tennessee Wesleyan College-English
M.A., East Tennessee State University-English
Certified Developmental Education Specialist

PLUMLEY, DONNA W., Assistant Professor and Director, Polysomnography Program
A.A.S., Draughons Junior College-Business
Registered Polysomnographic Technologist (RPSGT)
Registered Electroencephalographic Technologist (REEGT)

RAHMANIAN, M. SAEED, Associate Professor of Biology
B.S., University of Tennessee-Animal Science
M.S., University of Wyoming-Reproductive Physiology
Ph.D., Louisiana State University-Reproductive Physiology and Endocrinology (1996)

RAINES, B. DIANE, Professor of English
B.S., University of Tennessee-English Education
M.A., Tennessee Technological University-English (1995)
Ed.D., University of Tennessee-Instructional Technology and Educational Studies (2003)

RATH, DAVID E., Associate Professor of Business
A.A.S., Geneseen Community College-Travel & Tourism
B.S., State University College at Buffalo-Marketing and Distributive Education
M.S., State University College at Buffalo-Multi Disciplinary Studies (1982)

ROBERSON, VALEIRA, Associate Professor of Speech and Theatre
B.A., Berea College-History
M.F.A., University of Tennessee-Theatre (1991)

RUDOLPH, JOHNIE J., Associate Professor of Math/Science
A.S., Cleveland State-Design and Drafting
B.A., University of Tennessee-Architecture (1976)

SAFDIE, ROBERT, Associate Professor of Psychology/Business
B.A., University of Tennessee-Psychology
M.A., Middle Tennessee State University-General Clinical Psychology (1976)

SAIN, SUSAN J., Associate Professor and Fieldwork Coordinator, Occupational Therapy Assistant Program
B.S., University of Wisconsin-Occupational Therapy
M.S., University of Tennessee-Health Education/Promotion (1995)
Licensed and Registered Occupational Therapist (OTR/L)

SCHRAMM, WILLIAM, Professor of Economics
B.S., Rensselaer Polytechnic Institute-Geology
M.S., Louisiana State University-Geology
M.B.A., University of Texas-Concentration in Environmental Economics
Ph.D., University of Tennessee-Ecology (1997)

SEXTON, JEFF, Associate Professor of Mathematics, Coordinator of Math Learning Support
B.S., Tennessee Technological University-Business Administration
M.A., Tennessee Technological University-Educational Administration and Supervision (1991)

SHLOUSH, MARGIA G., Assistant Professor of Nursing
B.S.N., University of Tennessee-Nursing
M.S., University of Tennessee-Child Development
M.S.N., University of Phoenix-Nursing Education (2008)
Registered Nurse

SIERGIEJ, PAMELA, Professor of Biology
B.A., Seton Hill University-Biology
Ph.D., University of Tennessee-Biomedical Sciences (1994)

SPURGEON, MARCIA M., Assistant Professor of Nursing
B.S.N., West Indies College-Nursing
M.S., University of North Carolina at Greensboro-Nursing Administration (1998)
Registered Nurse

STEPHENS, DeANNA, D., Assistant Professor of English
B.S. - Tennessee Technological University – Secondary Education, English
B.S. - Tennessee Technological University – English, Journalism
M.A. - George Mason University – Creative Writing (2003)

STERNFELS, RONALD, Associate Professor of Chemistry
B.S., City College of New York-Chemistry
M.S., University of Rochester-Chemistry
M.B.A., University of New Haven-Business (1987)
Ph.D., New York University-Chemistry (1976)

STILES, SAUNDRA, Program Director for Early Childhood Education & Assistant Professor of Early Childhood
B.A., University of Maryland University College-Psychology
M.A., University of Concordia-Early Childhood Education (2005)

STOKES, SALVATRICE (SALLY) D., Assistant Professor, Opticianry Program
A.O.S., Albany Business College-Accounting and Business Administration
A.A.S., Mater Dei College-Ophthalmic Dispensing (1991)
Licensed Optician (LDO)

STRYK, THEODORE, Associate Professor of Philosophy and English
B.A., Carson Newman College-Religion and Philosophy
M.A., University of Tennessee-Philosophy
M.A., Northern Arizona University-English (2006)

THOMASON, SARAH K., Associate Professor of English
B.S., University of Tennessee-Education
M.S., University of Tennessee-English Education (1974)

TUCKER, JENNIFER D., Associate Professor, EMT-Paramedic Program and Coordinator, First Responder Dual Enrollment
B.S.N., University of Tennessee-Nursing
M.S., University of Tennessee-Exercise Physiology (1987)
Registered Nurse (RN)
Licensed Emergency Medical Technician (EMT-JV)
EMT Instructor/Coordinator (EMT-I/C)

VILLARREAL, SUSANNA C., Assistant Professor of Education
A.S., Roane State Community College - General
B.A., Brigham Young University - History
M.A., Tennessee Technological University - Curriculum and Instruction (2009)

WADDLE, JOETTE, Associate Professor of English
B.A., Tennessee Technological University-English
B.S., Tennessee Technological University-Secondary Education
M.A., University of Tennessee-English (1985)

WARD, DIANE, Associate Professor Education
B.S., West Virginia University-Secondary Education/Science
M.A., Tennessee Technological University-Education/Instructional Leadership
Ph.D. Capella University-Education/Instructional Design for Online Learning (2009)

WARD, A. STEVEN, Associate Professor of Chemistry
B.A., West Virginia University-Chemistry
M.S., West Virginia University-Chemistry (1985)

WATERS, MATTHEW, TV Station Manager-Channel 15 and Assistant Professor of Mass Communications
B.S., University of Tennessee-Communications
M.S., University of Tennessee-Communications (2000)

WILLIAMS, LINDA B., Assistant Professor of Nursing
B.S.N., Northeast Louisiana University
M.S.N., University of Southern Mississippi - Nursing
Registered Nurse

YAGER, KEN, Associate Professor, Paralegal Program Director
B.A., University of Tennessee-Liberal Arts
M.S.-University of Tennessee-Education
J.D.-Memphis State University College of Law-Law

YOUNG, MARTIN, Associate Professor, EMT-Paramedic Program
B.A., Mississippi State University-Communications (1989)
Licensed Tennessee State Paramedic Instructor/Coordinator (P-I/C)

ZHAO, Z. STEVEN, Associate Professor of Computer Science
B.S., Jilin University-Physics
M.Eng., National University of Singapore-Electrical Engineering
B.S., University of California Irvine-Electrical and Computer Engineering (2007)

PRESIDENT EMERITUS

GOFF, GARY, President Emeritus, 2012
B.S., Middle Tennessee State University-Political Science
M.B.A., Southwest Missouri State University-Management
Ed.D., University of South Florida-Education Leadership (2004)
PROFESSOR EMERITUS

MINTER, ANNE P., (Deceased), Professor Emeritus, 1988
B.S., Georgia College at Milledgeville-Chemistry
M.A., Duke University-Micro-biology
Ed.D., University of Tennessee-Science in Higher Education (1973-1988)

GLOVER, IRVING T., Professor Emeritus, 2003
B.S., University of North Carolina-Science Education
M.Ed., University of North Carolina-Education
Ph.D., University of Virginia-Chemistry (1964)

HOWARD, BENJAMIN S., Professor Emeritus, 2003
B.A., University of Tennessee-English
M.A., University of Tennessee-German
Ph.D., University of Georgia-Comparative Literature (1972)

KIRKPATRICK, MELVIN A., Professor Emeritus, 2004
B.S., Tennessee Technological University-Mathematics, Secondary Education
M.S.T., Middle Tennessee State University-Mathematics
Ed.D., University of Tennessee—Curriculum and Instruction, Mathematics Education (1978)

CHARTON, FRANK (PETE), Professor Emeritus, 2008
B.A., George Peabody College-Social Studies
M.A., Michigan State University-Geography
Ph.D., Michigan State University-Geography (1972)

MANNING, WANDA H., Professor Emeritus, 2008
A.S., Roane State Community College-Education
B.S., Tennessee Technological University-Secondary Education, Biology
M.S., Tennessee Technological University-Secondary Education
Ed.D., University of Tennessee-Curriculum and Instruction, Mathematics Education (1997)

SMITH, CHARLES E., Professor Emeritus, 2012
Ed.D., University of Tennessee-Educational Administration (1981)

BAILEY, PATRICIA. Professor Emeritus, 2013
A.S., Roane State Community College-General
B.A., University of Tennessee-Biology
M.S.S.W., University of Tennessee-Social Work
Ph.D., University of Tennessee-Instructional Theory and Practice in Mathematics (1996)

BROWN, PATRICIA, Professor Emeritus, 2013
A.S., Roane State Community College-Secondary Education/Mathematics
B.S., Tennessee Technological University-Secondary Education/Mathematics
M.S., Tennessee Technological University-Secondary Education
Ed.D., University of Tennessee-Curriculum and Instruction/Mathematics Education (1996)

MURRAY, WILLIAM. Professor Emeritus, 2013
B.S. University of Cincinnati-Chemical Engineering
M.S., University of Tennessee-Chemical Engineering (1970)

FACULTY EMERITUS

HOLDER, MABRE M., Faculty Emeritus (deceased), 2003
B.S., Middle Tennessee State University-Business (Marketing)
M.B.A., Middle Tennessee State University-Business (Marketing) (1974)

KRING, JAMES B., Faculty Emeritus, 2007
B.A., Maryville College-Biology
M.S., University of Tennessee-Botany (1965)

GARNER, SUSAN, Faculty Emeritus, 2008
B.S., Middle Tennessee State University-Health, Physical Education, Recreation

HOAGLAND, JUDY K., Faculty Emeritus, 2008
B.S., Middle Tennessee State University-Political Science
M.A., University of Tennessee-Political Science (1973)

HOWARD, REBECCA (BECKY) M., Faculty Emeritus, 2008
B.S., North Carolina State-Mathematics

PHILLIPS, BARBARA (Deceased), Faculty Emeritus, 2008
B.S., St. Bonaventure University-Math
M.S., St. Bonaventure University-Mathematics Education (1973)

POWERS, ANNE S., Faculty Emeritus, 2008
B.F.A., University of Tennessee-Painting
M.S., University of Tennessee-Art Education

HOAGLAND, WILLIAM M., Faculty Emeritus, 2011
M.S.S., University of Mississippi-History (1966)

ANDREWS, REBECCA L., Faculty Emeritus, 2012
M.S., Oklahoma State University-Accounting (1967)
C.P.A., State of Tennessee

BART, ROBERT C., Faculty Emeritus, 2012
B.S., Union University—Mathematics
M.S., University of Tennessee—Mathematics Education (1978)

BROWN, JAMES E., Faculty Emeritus, 2012
B.A., Athens College—Art
M.A., University of Alabama—Art (1966)

KNOX, JAMES M., Faculty Emeritus, 2012
B.S., Tennessee Technological University—Secondary Education, French
M.A., Tennessee Technological University—English (1978)

SMITH, BILLY L., Faculty Emeritus, 2012
M.M., University of Tennessee—Mathematics (1974)

THAIS, DAVID F., Faculty Emeritus, 2012
M.B.A., Indiana State University-Business Administration (1974)

CORDELL, SHARON, Faculty Emeritus, 2013
B.S., Cumberland College-Education/English
M.S., Tennessee Technological University-Education/Reading (1974)

Adjunct Faculty

The adjunct faculty listed have served Roane State Community College for five or more years.
ABRAHAMSEN, SVEND, **Biology**
D.P.M., New York College of Podiatric Medicine (1971)

ADCOCK, WADE, **Political Science**
M.S., Middle Tennessee State University - Public Administration (1986)

ALLRED, TRACY, **Psychology**
Ph.D., University of Louisville-Psychology (1991)

BAILEY, PATRICIA G., **Mathematics**
Ph.D., University of Tennessee-Instructional Theory and Practice in Mathematics (1996)

BAILEY-FOX, LILLIAN, **Health and Physical Education**
M.A., University of Central Florida-Health and Physical Education (1983)

BAIRD, SHARON, **Speech**

BELOW, QUENTIN, **Accounting**
M.B.A., Golden Gate University - Graduate Business (2008)

BOULDIN, C. LARRY, **Mathematics**
Ed.D., University of Tennessee-Curriculum and Instruction, Mathematics Education (1982)

BRASKI, DA VE, **MSC and Chemistry**
M.S., Virginia Polytechnic Institute-Metallurgical Engineering (1965)

BREWSTER, MARYANN, **Writing**
M.A., Cumberland College-English (1985)

BROWN, KYRA, **Health Information Technology**
B.S., Tusculum College, Organizational Management (2000)

BUCK, VELMA, **Mathematics**
M.A., Vanderbilt University-Mathematics (1968)

BUTCHER, KATHLEEN, **Health**
M.P.H., San Diego State University-Public Health (2006)

CHADWELL, CLIFFORD, **Accounting**

CHITWOOD, DORIS, **Mathematics**
Ed.S., Tennessee Technological University - Administration and Supervision (1987)

CHRISMAN, TED D., **Biology**
Ph.D., Vanderbilt University-Anatomy and Molecular Biology (1974)

CONDON, JAMES B., **Chemistry**
Ph.D., Iowa State University (1968)

CORDELL, SHARON, **Education**
M.S., Tennessee Technological University-Education/Reading (1974)

COY, DANIEL, **History**
M.A., University of Tennessee-History (2004)

CRAZE, LARRY, **Management**
M.S., University of Tennessee-Technological and Adult Education (1994)

CROWELL, GABRIEL, **History**
M.A., University of Tennessee - Knoxville - European History (2001)

DAVIS, J.C., **History**
Ed.S., Tennessee Technological University - Education (1982)

DAVIS, MICHAEL, **Law**
J.D., Memphis State University – Law (1986)

DENISON, DAVID B., **Mathematics**
M.S., University of Tennessee, Knoxville - Education (2003)

DESJEAN, TOM, **Sociology**
M.A., University of Florida-Anthropology (1986)

DUNAWAY, LOURDES, **Music**
M.A., Tennessee Technological University-Elementary Education (1988)

DUNIGAN, JAMES, **Economics**
Ph.D., University of Tennessee-Geography (1969)

DUNIGAN, FLORINDA, **Spanish**
M.A., Tennessee Technological University-Special Education (1977)

FICKEY, TINA, **Health Information Technology**
A.S., Roane State Community College (1983)

FIELDS, ANNEIL S., **Biology**
M.A.T., Vanderbilt University (1980)

FIELDS, DAVID E., **Astronomy**
Ph.D., University of Wisconsin-Solid State Physics (1972)

FISHER, BRUCE, **Biology**
Ph.D., University of Tennessee-Zoology (1974)

FRAGOPOULOS, PEGGY, **English**
M.A., Tennessee Technological University-English (1982)

GARMON, JEAN, **Mathematics**
B.S., Tennessee Technological University-Engineering (1979)

GARMON, JOSEPH, **Mathematics**
B.S., Middle Tennessee State University - Chemistry (1967)

GLENN, BETTY, **Business and Computer Science**
A.A., Roane State Community College-General Studies
B.A., University of Tennessee-English
M.B.A., Tennessee Technological University-Business Administration (1989)

GORE, J.R., **EMT Paramedic**
Licensed Tennessee State Paramedic

GOSLEE, BRENDA, **Music**
M.M, University of Tennessee-Organ Performance (1988)

GREER, RYAN, **Mathematics**
M.S., Tennessee Technological University - Civil Engineering (1980)

GURLEY, BRADLEY M., **Biology**
M.D., University of Memphis - Medicine (1990)

HANNON, TAMMY, **Nursing Clinical Instructor**
A.A.S., Roane State Community College-Nursing
B.S.N., Lincoln Memorial University-Nursing (1991)

HARJALA, DAVID E., **Mathematics**

Publication Statement

Weapons on Campus (felony)

State law prescribes a maximum penalty of six (6) years imprisonment and a fine not to exceed three thousand dollars ($3,000) for carrying a weapon on school property. “A...state or federal government entity or agent thereof is authorized to prohibit possession of weapons by any person at meetings conducted by, or on the premises owned, operated, managed or under control of such...government entity.” (TCA §39-17-1309).

Smoking & Tobacco Products Use – RSCC Policy GA-21-01

Roane State Community College has established, as allowed by legislation, a policy on smoking and use of tobacco products on campus. This policy is as follows:

1. Smoking is permitted outside of buildings in designated locations. Appropriate signage and ash urns will be provided at these locations. Smoking is not permitted within fifteen (15) feet of any building entrance except where physical layout does not permit.
2. Smoking or use of other tobacco products is prohibited inside any building or college vehicle.
3. Enforcement of this policy for staff will be the primary responsibility of supervisors. Security officers/guards will be responsible for enforcement at public events. Student offenders will be referred to the Assistant Vice President of Student Services/Dean of Students if disciplinary action is deemed necessary. All college personnel have the authority to enforce this policy.
4. This policy will be widely communicated through standard institutional communication channels.

Drug Free Environment – RSCC Policy GA-21-03

Sexual Harassment - RSCC Policy PA-02-01

Sexual harassment and racial harassment have been held to constitute a form of discrimination prohibited by Title VII of the Civil Rights Act of 1964, as amended and Title IX of the Educational Amendments of 1972. The institution may be held liable pursuant to Title VI or Title VII and/or lose federal funds pursuant to Title IX for failure to properly investigate and remedy claims of sexual or racial harassment. For the complete Harassment policy, visit www.roanestate.edu/deanofstudents.

For more information you can also call toll free 1-866-462-7722 ext. 4550 or 865-882-4550.
Roane State Community College is one of 46 institutions in the Tennessee Board of Regents system, the seventh largest system of higher education in the nation. The Tennessee Board of Regents is the governing board for this system, which is comprised of six universities, thirteen two-year colleges, and twenty-six Tennessee Technology centers. The TBR system enrolls more than 80 percent of all Tennessee students attending public institutions of higher education.

Roane State Community College offers employment and its programs of instruction to qualified persons regardless of race, color, creed, gender, national origin, disability, religion or age. Although sexual orientation is not included as a protected status under the law, the college is committed to equal employment and educational opportunities and applies this commitment to all aspects of recruitment, employment and education. The institution complies with Titles VI, VII and IX, the Americans with Disabilities Act, the Rehabilitation Act of 1973 and all other applicable federal, state and local statutes.

RSCC is a TBR Institution and an AA/EEO Institution.

Regulations

Admission Procedures

Admission to the College

RSCC can aid in the intellectual development of anyone who wants to take advantage of a high-quality, low-cost, state-supported educational experience. The following sections describe in detail the costs and procedures for admission to Roane State Community College.

The information included in this section of the catalog is provided to guide you through these steps. If you have questions which are not explained, please contact the Student Enrollment and Recruitment Office at (865) 882-4554 or 1-866-GO2-RSCC, ext. 4554. College tours may be scheduled at the Student Enrollment and Recruitment Office or at any off campus location.

Roane State Community College subscribes to the “open door” policy for admissions; however, prospective students must meet the admission requirement for the student classification for which they are seeking admission. If ACT or SAT scores and/or placement assessment results indicate any academic deficiencies, enrollment in certain courses could be limited. Regular admission is granted to those students whose ACT or SAT scores and/or placement results indicate there are no academic deficiencies.

The following general requirements apply, and more specific requirements are found under “General Student Classifications.”

1. Students must graduate from an approved high school, home school or receive a high school equivalency (HSE) diploma and submit to the Admissions Office an official high school transcript or an official copy of HSE scores. Transcripts for graduates from Tennessee public high schools must provide evidence that the student passed the required Tennessee Comprehensive Assessment Program (TCAP) or Gateway.

   NOTE: The high school transcript must be a regular or honors diploma. A special education diploma or certificate of attendance DOES NOT meet this requirement.

2. Students must file an application for admission. The application form must have all appropriate spaces completed. Knowingly supplying false information on the application may result in denial of admission or disciplinary action if already admitted.

3. All students must complete the Certificate of Immunization form or provide proof of two doses of Measles, Mumps, and Rubella (MMR) vaccines if born in or after 1957 and proof of two doses of the Varicella (Chicken Pox) vaccine if born in or after 1980.

4. All students must complete and sign the Hepatitis B Health History form.

5. All freshman applicants under 21 years of age must submit ACT or SAT scores. Information on the ACT may be obtained from the high school counselor, the Testing Center at RSCC, or by writing to American College Testing, Inc., P.O. Box 168, Iowa City, Iowa 52242. Roane State Community College’s ACT Code Number is 039850. This number should be used to request that scores be sent to RSCC.

6. Students who have graduated from a Tennessee high school and who have not earned one credit in American history while in the high school program are required to complete 6 semester
hours of American history during their first 30 hours of regular enrollment at Roane State. This requirement does not affect the student who enters the college with a HSE diploma.
7. Provide proof of U.S. Citizenship or lawful presence in the United States.

All correspondence concerning your admission file except college transcripts should be addressed to:

Admissions and Records Office
Roane State Community College
276 Patton Lane
Harriman, Tennessee 37748

A candidate for admission should request application forms early enough to allow ample time for required materials to be forwarded to the Admissions and Records Office.

When all required documents have been received, the applicant will be sent a letter indicating that he/she has been accepted for admission or he/she will be advised by letter that further action is necessary in order to establish eligibility for admission. Applicants will be also advised when to appear for testing, advising, and registration.

The Student Right to Know Act, 34 CFR 668.41, requires all institutions who participate in financial assistance programs under Title IV of the Higher Education Act of 1965 and who award athletically-related student aid to publish the freshmen rate of athletically-related financial aid and the graduation rate or completion rate for all first-time, full-time, degree or certificate seeking freshmen who entered college by fall of 1996 and subsequent years. This information is available upon request from the Admissions and Records Office.

ADDITIONAL ADMISSION AND RETENTION REQUIREMENTS ARE IN EFFECT FOR ALLIED HEALTH SCIENCES AND NURSING PROGRAMS. PREFERENCE FOR ADMISSION WILL BE GIVEN TO RESIDENTS OF THE STATE OF TENNESSEE.

General Student Classifications

Degree Seeking Student

Applicants who take courses for credit which will apply toward a degree. Categories for degree-seeking students are First-Time College Student, Transfer Student, Readmitted Student, International Student, and Permanent Resident.

First-Time College Student

A student pursuing a degree at Roane State* and has never attended college before must complete the following:

1. Submit an application for admission.
2. Submit official high school transcripts or official copy of High School Equivalency (HSE) scores. Transcripts must be mailed directly to the Admissions and Records Office and should include date of graduation as well as verification that the student passed the required proficiency examination. NOTE: The transcript of a home school student should be an official copy from an affiliated organization as defined by state law (T.C.A. 49-50-801). Transcripts from independent home school students must be accompanied by certification of registration with the superintendent of the local education agency which the student would otherwise attend. (A form is available upon request from the Admissions and Records Office.) Students unable to provide a satisfactory secondary school credential may substitute acceptable High School Equivalency (HSE) scores.
3. All applicants under 21 years of age will be placed by ACT or SAT scores. Please see the placement chart at the end of this section. Roane State prefers the ACT but will accept the SAT. These scores will be used to determine the areas in which the student will be required to undergo placement assessment. Enrollment in the courses indicated by results of the assessment is mandatory.
4. All applicants 21 years of age and older must undergo placement assessment. Students 21 years of age and older may choose to take the ACT and be placed according to the above-mentioned guidelines. Only ACT or SAT scores less than three years old as of the first day of the first term of enrollment will be used to determine placement.
5. All students enrolled in Composition I will be evaluated during the first week of classes. Students showing deficiencies will be referred to testing for possible placement in appropriate Learning Support courses.

* If you were dual-enrolled in college while still in high school and have not attended college AFTER high school graduation, then you would be considered as a new freshman, regardless of the number of college hours earned with dual-enrollment.

**SAT English 450-Above; SAT Math 460-Above

Transfer Student

A degree-seeking applicant who has attended another college or university will be considered a transfer student.

1. Submit an application for admission.
2. Transcripts from all previously attended institutions should be mailed directly to the Admissions and Records Office. Transcripts are not accepted from students. An evaluation of college credit will be completed. An official high school transcript or High School Equivalency (HSE) scores must also be submitted. Until official copies of all college transcripts have been received and evaluated by the Admissions and Records office, the student may not be eligible to receive Financial Aid.
3. Transfer students who have successfully completed a college-level English and mathematics course are exempt from the academic placement (COMPASS) test. Students who have completed neither, or only one, of these college-level courses will be required to take one or more parts of the COMPASS test. Transfer students whose ACT or SAT scores demonstrate appropriate levels may be exempt from parts of the COMPASS test. NOTE: Only ACT or SAT scores less than three years old as of the first day of the first term of enrollment will be used to determine exemption status.
4. Transfer students age 21 and older, who have less than 60 semester hours of credit, will have their course records evaluated for proof of competency in the areas of reading,
writing, and mathematics. Students lacking college course work in these areas will be required to undergo placement assessment. Enrollment in courses indicated by results of the assessment is mandatory.

5. Learning Support course work taken at other TBR institutions will be posted to the student’s RSCC transcript and will be considered in determining the number of attempts.

6. All transfer students with 60 or more semester hours will be exempt from placement testing.

7. Transfer applicants who do not meet the Roane State retention standards or whose last term of enrollment resulted in academic suspension may be required to undergo placement assessment. Enrollment in the courses indicated by results of the assessment is mandatory.

8. Transfer applicants whose last term of attendance resulted in academic suspension and who are currently serving a suspension at another institution must meet with the Admission and Retention Committee to request admission. If admission is recommended by the committee, the applicant may be required to undergo placement assessment as noted in section 3 above.

9. Credits for courses not corresponding with the curriculum at Roane State may be entered on the transcript as elective credit. All credit will be posted within the first term of enrollment.

Readmitted Student

Any former Roane State applicant or student not enrolled the previous two semesters (excluding summer) who wishes to return to the college will be considered a readmit student. Students seeking readmission should:

1. Submit an application for readmission. (PLEASE NOTE: Students who applied for admission but never attended should fill out the general application for admission in lieu of the readmission application if it has been more than 1 year since making application to the college.)

2. Degree seeking students must submit official transcripts from all colleges or universities attended since their enrollment at Roane State.

3. All applicants whose last semester of attendance resulted in academic suspension and who are seeking readmission within one calendar year of that suspension must meet with the Admission and Retention Committee to appeal the suspension prior to readmission. If reinstated, these students may be required to undergo placement assessment. Enrollment in the courses indicated by results of the assessment is mandatory.

4. Effective spring 1992, readmit students who took courses at RSCC prior to fall 1985 are no longer exempt from fulfilling Learning Support requirements in placement testing and course completion.

International Student

An applicant who is a citizen or a permanent resident of a country other than the United States is classified as an international student.

English Proficiency: An international student or permanent resident whose native language is NOT English must satisfy one of the following prerequisites:

1. Submit a minimum score of 500 on the Test of English as a Foreign Language (TOEFL) or 173 on the computer-based TOEFL (CBT) or 61 on the Internet-based TOEFL (IBT).

2. Submit a transcript showing graduation from an American high school.

3. Submit a transcript from another U.S. institution showing satisfactory completion (a minimum grade of C must be achieved in college-level English Composition I).

It is the responsibility of the international student to be familiar with the regulations of the Department of Homeland Security’s Bureau of Citizenship and Immigration Services and assume responsibility for complying with these regulations.

The following should be submitted to the Student Enrollment and Recruitment Office no later than 45 days prior to the beginning date of the term the applicant wishes to enroll.

1. Apply using the online application for admission located at www.roanestate.edu.

2. Official copies of academic records from secondary schools, colleges, or universities accompanied by notarized or certified English translation of these documents.

3. International students under 21 years of age must submit ACT or SAT scores.

4. Placement assessment may be required dependent upon age, admissions category (new or transfer), and ACT/SAT scores. Enrollment in courses indicated by results of the assessment is mandatory.

5. For F-1 (student) visas, evidence of financial resources adequate for all expenses for at least one year of enrollment is required. The first-year fees and expenses total $23,000. (This figure is an estimate and is subject to change.) Additional funds are required if the student plans to bring a spouse or dependent into the country. An official statement from a U.S. bank verifying these resources will meet this requirement. If original statement is in foreign currency, an official conversion to U.S. dollars from the foreign bank must accompany the statement.

7. All international students are required to have health and accidental insurance from a Roane State approved U.S. company.

8. Provide proof of two doses of Measles, Mumps, and Rubella (MMR) vaccines if born in or after 1957.

9. Provide proof of two doses of the Varicella (Chicken Pox) vaccine if born in or after 1980.

10. Submit a Hepatitis B form. (PLEASE NOTE: if you filed an online application and you were 18 or older, this requirement is waived.)

11. Submit proof of lawful presence in the United States unless you are an F1 student, which is verified through SEVIS. All other visa types should submit 2 of the following:
   - Arrival/Departure Record (Form I-94)
   - Valid, unexpired Foreign Passport with valid visa
   - Notice of Approval of Status with bottom I-94 portion attached (Form I-797)
   - Employment Authorization Document (Form I-766)
   - DS-2019 for J-1 visa holders
   - Non-Resident Alien Canadian Border Crossing Card
   - Any other document determined by the US Department of Homeland Security to be acceptable through the SAVE (Systematic Alien Verification for Entitlements) program.

NOTE: On October 26, 2001, Congress enacted the Uniting and Strengthening America by Providing Appropriate Tools Required to
Intercept and Obstruct Terrorism Act of 2001. The act amends the Family Educational Rights and Privacy Act to permit institutions to disclose education records to federal law enforcement officials without student consent if the appropriate United States official, certifying that “specific and articulable facts” support the request, obtains a court order that requires an educational institution to turn over education records that are considered relevant to a terrorism investigation.

Permanent Resident

The student must meet all applicable requirements for regular admission to the college.

Other requirements are as follows:

1. Permanent Resident Alien card must be presented in person to the Student Enrollment & Recruitment Office, One Stop Shop, or the campus nearest you for validation.
2. A permanent resident whose native language is NOT English must submit a minimum score of 500 on the TOEFL or 173 on the computer-based TOEFL (CBT) or 61 on the Internet-based TOEFL (IBT) or meet one of the requirements from the English Proficiency section listed above.
*Appeals concerning English proficiency may be made to the Director of Student Enrollment and Recruitment.

Non-Degree Seeking Student

Applicants who do not work toward a degree may be admitted as a non-degree student. Students in this category who wish to be reclassified to degree-seeking must submit appropriate transcripts and possibly undergo placement assessment. A change of status form must be completed. Forms are available in the Admissions and Records Office. Reclassification will not occur until all requirements of the new admissions category are met. Students may not change status during the first term of enrollment. These categories include: Technical Certificate, Transient, Audit, Personal/Professional Enrichment, Dual Studies (High School Students), and Academically Gifted (High School Students). To receive Financial Aid, students must be degree-seeking or seeking a certificate that has been approved for Financial Aid.

Technical Certificate Student

Students enrolled in the technical certificates credit programs are considered non-degree students. Since Allied Health Sciences are limited in enrollment, applicants to these programs must also complete an online Allied Health Sciences application. Some certificate programs may require additional testing before being admitted. Students wishing to enroll in a technical certificate program should:

1. Submit an application for admission.
2. Undergo placement assessment.

To receive Financial Aid in this student category, you must be seeking one of the certificates that has been approved for Financial Aid.

Audit Student

Students who want to enroll on a non-credit basis may choose to audit coursework at Roane State. Fees for audits will be assessed on the same basis as fees for credit courses. A student who attends a class with audit status will not receive a grade. Instead, enrollment is reflected on the academic record as ‘AU’ for audit. Transcripts of previous schoolwork are not required under this category. To enroll as an audit student:

1. Submit an application for admission.
2. Some disabled or elderly students may qualify for a special fee rate. Proof of age may be required by the Admissions and Records Office. For more information regarding fees for disabled and senior citizens, refer to Business Information.

NOTE: Learning Support courses as well as fast-track and freshman level English Composition courses may not be taken for audit.

Personal/Professional Enrichment

Students who do not wish to pursue a degree or certificate but want to enhance personal and/or professional skills may enroll in the non-degree seeking special categories of Non High School Graduate, High School Graduate, Student with Previous College Credit, and College Graduate.

Non High School Graduate

1. Applicant who has passed his/her 18th birthday and who does not have a regular high school diploma or GED and who wishes to pursue the GED through learning support instruction.
2. Students 21 or older who have not earned a high school diploma and not currently enrolled in high school.

To enroll:

1. Submit an application for admission.
2. Undergo placement assessment.
3. Take the prescribed Learning Support courses only.

Student may change to degree-seeking status by successfully completing the GED and completing a change of status form.

High School Graduate

An applicant who has earned a regular high school diploma or GED may enroll in any course except college-level math, English, or one that has college-level math or English prerequisite. Any student who plans to enroll in math or English courses must undergo placement assessment unless he/she has taken the ACT within the last 3 years and has scores which waive this requirement. (For ACT requirements, refer to “General Student Classifications” under “Admission Procedures”.) To enroll, students should submit an application for admission. (No transcript is needed.)

Student with Previous College Credit

Applicant who has earned college credit but does not have a degree may enroll after completing the following:
1. Submit application for admission.
2. Undergo placement assessment if enrolling in math or English courses unless student has already completed college-level math or English.

College Graduate

An application for admission should be submitted. The submission of a college transcript to verify the completion of prerequisite courses may be required.

Dual Studies Program

Dual Studies, or First Class, is a program which allows students who are currently enrolled in high school to earn college credit toward a degree or a certificate at a Tennessee public institution of higher education. Courses are taught by college faculty to high school juniors and seniors who have been admitted to the college. Tuition and fees are required as well as coursework for the summer. Letters are awarded on the store transcript and most credits are transferable to other colleges. The dual studies program includes dual enrollment and joint enrollment.

Dual Enrollment - refers to a class taken by a high school student who is enrolled simultaneously in college while seeking high school credit for the college course. High school credit is awarded in addition to the college credit, which may count towards a high school diploma.

Joint Enrollment - refers to a class taken by a high school student who is enrolled simultaneously in college without seeking high school credit for the college course. A student taking courses recognized as joint enrollment only receives college credit.

To enroll in the Dual Studies Program applicants should:

1. Submit an application for admission and required immunization records.
2. Complete First Class Registration form. This form requires school administrator and parental signatures.
3. Applicant must have a 3.0 GPA or higher on a 4.0 scale or 2.75 on a 5.0 scale to enroll in dual studies.
4. Submit high school transcript with ACT or PLAN scores. ACT/PLAN sub-scores in mathematics and reading must be 19 or higher, and English requires a score of 18 or higher to enroll in dual studies courses. Once the ACT test has been taken, the PLAN scores will no longer be considered.
5. Complete a Tennessee Dual Enrollment Grant form (online) if requesting lottery funding toward the cost of tuition.

Dual Enrollment students must submit a final high school transcript verifying high school graduation and work with the Student Enrollment Services staff to make the transition from dual enrollment status to college degree-seeking status.

To enroll in Dual Enrollment coursework students should contact their high school counselor. NOTE: procedure changes in the Dual Studies Program are ongoing. Please contact the Director of Dual Studies at Roane State for current information, 865-882-4504.

Academically Gifted Program

A student in grade 9 or 10 who has been classified as “academically gifted” by evaluation through the multi-disciplinary team process may earn college credit while in high school. To be eligible for the program the applicant must have an Individualized Education Plan (IEP) which approves specific college courses. Students will only be allowed to register for courses designated on the IEP.

To enroll as an Academically Gifted student applicants should:

1. Submit an application for admission.
2. Complete an application for the Academically Gifted program.
3. Have a grade-point average of 3.2 or better on a 4.0 scale.
4. Obtain approval from the high school principal and the Director of Student Enrollment and Recruitment.
5. Submit a copy of the student’s IEP showing those courses or a list of the approved courses from a school official must be sent to the Director of Student Enrollment and Recruitment before registration will be allowed. In lieu of the IEP, official letters from the secondary administration, specifically listing recommended college courses will be accepted.
6. Submit a high school transcript.

*Home-schooled students should contact the Student Enrollment Office for instructions regarding the Academically Gifted category.

Residency Classification

The following guidelines are used to determine “in-state” or “out-of-state” status for fees and tuition.

1. Every person having his or her residence in this state shall be classified as “in-state” for fee, tuition and admission purposes.
2. Every person not having his or her residence in this state shall be classified “out-of-state” for fee, tuition and admission purposes.
3. The residence of a dependent* is that of his or her parent. “Parent” shall mean a person’s father or mother. If there is a non-parental guardian or legal custodian of dependent, then “parent” shall mean such guardian or legal custodian provided there are not circumstances indicating that such guardianship or custodianship was created primarily for the purpose of conferring the status of an “in-state” student on the dependent.
4. The residence of a married person can be determined based on the residence of the spouse.
5. A recent graduate of any “out-of-state” high school must supply evidence of Tennessee residency before receiving “in-state” status. Copies of property deeds or property tax payment statements are acceptable evidence.
6. Dependent students of divorced parents shall be classified “in-state” when one parent’s residence, regardless of custodial status, is in Tennessee.
7. International students shall be classified “out-of-state” for tuition and admission purposes.
8. Students classified by Immigration as a Permanent Resident, Resident Alien, or Refugee may be classified as “in-state” if their residence is in Tennessee.
9. Persons not living in Tennessee but employed full-time in Tennessee shall be classified “in-state” for tuition purposes as long as their maintenance at least a part-time registration status. The student must provide appropriate documentation.
10. A veteran enrolled in RSCC shall not be required to pay out-of-state tuition or any out-of-state fee, if the veteran:
   1. Has not been dishonorably discharged from a branch of the United States armed forces or the national guard;
   2. Is eligible for Post-9/11 GI Bill benefits or Montgomery GI Bill benefits; and
   3. Enrolls in the TBR institution, after satisfying all admission requirements, within twenty-four (24) months after the date of discharge as reflected on the
veteran’s certificate of release or discharge from active duty, Form DD-214, or an equivalent document.

To continue to qualify for in-state tuition and fees, a veteran shall:
1. Maintain continuous enrollment as defined by the TBR institution at which the veteran is enrolled; and
2. Within one (1) year of enrolling in the TBR institution:
   a. Register to vote in this state; or
   b. Demonstrate by objective evidence intent to be a resident of this state by obtaining at least two (2) of the following:
      i. A Tennessee driver license;
      ii. A Tennessee motor vehicle registration;
      iii. Proof of established employment in the state; or
      iv. Other documentation clearly evidencing domicile or residence in the state, as determined by the Tennessee Higher Education Commission.

An application for In-State classification may be obtained from the Admissions and Records Office or at any Roane State location. All questions should be directed to the Admissions and Records.

Proof of U.S. Citizenship or lawful presence in the United States will be required from any student who receives In-State tuition.

* Dependent shall mean a person whose parents have not entirely surrendered the right to the care, custody and earnings of such person and who are still under obligation to support or maintain the dependent person. A person the age of 18 or older is considered to be independent by the state. If a person 18 or older is to be considered dependent, the parent must provide a copy of a federal income tax return claiming the dependent.

**Academic Fresh Start**

**Purpose**

The Academic Fresh Start program is designed to assist those students who have had a minimum 4-year separation from college and who demonstrate a greater level of academic maturity as a result of that separation. Students who did not realize their full academic potential during their first attempt at the college experience are being given a second chance to meet their educational goals without penalty. Through the Academic Fresh Start program, students are given a second chance to begin their academic careers by removing previously taken courses from the current academic statistics. Although the courses will not be physically removed from the student’s academic record, they will no longer be calculated in the quality point average (QPA) computation and will no longer apply toward the fulfillment of any college requirement.

**Minimum Criteria**

1. “Academic Fresh Start” is a plan of academic forgiveness which allows undergraduate students who have experienced academic difficulty to make a clean start upon returning to college after an extended absence.
2. The Academic Fresh Start allows eligible students to resume study without being penalized for his/her past unsatisfactory scholarship and signals the initiation of a new QPA/GPA to be used for determining academic standing.
3. Readmitted students who were formally enrolled in the institution as well as transfer students who meet institutional requirements for admission and who have been separated from all institutions of higher education for a minimum of four (4) years are eligible for the Fresh Start.
4. Institutional policies governing the readmission of former students and admission of transfer students must be in compliance with TBR policy 2:03:00:00 Admissions.
5. This policy requires that the “transfer applicant’s grade point average on transferable courses must be at least equal to that which the institution requires for the readmission of its own students.
6. Applicants who do not meet the institution’s standards may be admitted on scholastic probation or other appropriate condition. (2:03:00:00 Section II.B.3.)
7. Each institution may establish an Academic Fresh Start provision which must meet the following minimum criteria:

**Student Requirements**

1. Separation from all collegiate institutions for at least four (4) years.
2. Anytime after the readmission or admission as a degree student, file a formal application to the office as defined by the institution’s catalog requesting the Academic Fresh Start and describing academic plan. Forms are available in the Admissions and Records Office.
3. Only those students pursuing an associate degree are eligible for Academic Fresh Start.
4. Any student who has already earned an Associate degree or higher is not eligible for Academic Fresh Start.

**Terms of Academic Fresh Start**

1. Once the student has satisfied the above requirements, the institution may grant the Academic Fresh Start. The student may be granted a Fresh Start only once.
2. The student’s permanent record will remain a record of all work; however, courses taken and previously failed will be excluded from the calculation of the QPA/GPA. Courses with a D grade will also be excluded from the calculation when a grade of C or better is required in the student’s current major. GPA and credit hours will reflect courses for which passing grades were earned and retained.
   a. Retained grades will be calculated in the Fresh Start QPA/GPA.
   b. Courses with a D or F grades must be repeated at the institution when they are required in the student’s current major. All remaining courses for the current degree objectives must be completed at the institution. No transient credit will be accepted after invoking Academic Fresh Start.
   c. The application of retained credit toward degree requirements will be determined by the requirement currently in effect at the time the academic renewal status is conferred on the student. Specific program regulations must also be met.
   d. Previously satisfied Assessment and Placement Program (COMPASS) requirements will not be forfeited.
3. Upon degree admission, Fresh Start applicants who did not satisfy COMPASS requirements at the time of previous
The responsibility for selecting an educational program rests with each student. Designated RSCC faculty and staff assists students in program planning and course selection. Students who are planning to transfer from Roane State to a senior institution at the conclusion of two years' work should secure a copy of that institution's catalog to use in planning their transfer program. Final responsibility for direct planning of courses and every preparation necessary to graduate from RSCC and/or to transfer to other colleges and universities rests with the student.

Testing/Learning Support Policies and Guidelines

Basic Skills Assessment

In an effort to provide more effective educational services for students, the college participates in the Board of Regents’ Learning Support assessment program to assess basic skills. Placement is based on valid ACT or Compass scores. Through this assessment, Roane State can identify the students’ academic strengths and weaknesses in reading, writing, and mathematics skills. This information is used along with the student’s past educational history to provide academic advisement and placement in courses that best help the individual student to improve skills in these areas, as well as study skills.

All Tennessee State Board of Regents colleges and universities require that all first time degree-seeking students undergo assessment. Transfer students who have not successfully completed college-level reading, writing, and mathematics courses must also undergo assessment. For further information regarding ACT or COMPASS testing, contact the Testing Center on the Roane County or Oak Ridge campuses.

Any full-time degree-seeking student must be enrolled in the required Learning Support courses each semester until the student completes the requirements. Any part-time student must be enrolled in at least one of the required Learning Support courses each semester of enrollment until the student completes the Learning Support requirements.

Selective Service Requirements

1. Pursuant to federal law, every male who is between the ages of eighteen (18) and twenty-six (26), and is a citizen of the United States or a resident of the United States must register with the Selective Service.

2. Notwithstanding the provisions of paragraph (1), the requirement to register shall not apply to any alien lawfully admitted to the United States as a nonimmigrant under Section 101(a)(15) of the Immigration and Nationality Act, as amended, for so long as he continues to maintain a lawful nonimmigrant status in the United States.

Restricted Enrollment

Students whose assessment results require enrollment in Learning Support (LS) courses may not enroll in a regular college level course which requires that competency as a pre-requisite until they have satisfactorily met the exit criteria of the appropriate Learning Support courses. Exceptions to this policy require the approval of the Learning Support Director and completion of the related documentation.

Eligibility Verification for Entitlements Act

Effective October 1, 2012 any applicant to a college or university that receives funding from the State of Tennessee and is classified as “In-State” for tuition purposes will be required to provide proof of U.S. Citizenship or proof of Permanent Resident status. This is in accordance with House Bill 1379/Senate Bill 1325. Any student who receives “state public benefit” is required to comply with this act. “State public benefit” includes: in-state tuition, lottery scholarship, academic scholarship, common market, or any other form of tuition assistance or waiver funded with state appropriated dollars.

Academic Program Planning

change...
Any full-time degree-seeking student should be enrolled in ENGL 0891, ENGL 0892, or ENGL 1010 (or ENGL 1020 if required for your major) each term until the student completes these writing requirements. Any part-time degree-seeking student should be enrolled in ENGL 0891, ENGL 0892, or ENGL 1010 (or ENGL 1020 if required for your major) for each 12 hours taken.

**English Course Exemption**

Students with an ACT sub-score of 27 or better in English may enroll for both English 1010 and 1020, attend English 1020, and receive six semester hours credit for both courses with the grade earned in English 1020. In the event the student does not successfully complete or withdraws from one or both courses, he/she will no longer be eligible for the joint credit.

**New Student Orientation**

You can register online for upcoming New Student Orientation Sessions at www.roanestate.edu/nso.

If for any reason the date would need to be changed, the student will need to go back online and resubmit the form again. If you have questions regarding New Student Orientation, please contact the Student Engagement office toll free at 866-GO2-RSCC ext. 4638 or 865-882-4638.

Please note that attendance is mandatory for all first-time, degree seeking students.

During New Student Orientation, you will receive important information about Roane State resources and procedures, which will help you make a successful transition into college.

Each session will last a minimum of three hours so please make advance arrangements for childcare, etc.

Parents/Spouses/Significant Others are also invited but no more than one guest as seating space is limited.

**Academic Advising**

At Roane State, academic advising is a shared responsibility of the student and the faculty advisor. During the first semester of enrollment, students are assigned a faculty advisor from their major area of study. The advisor works closely with the student in determining his/her education goals and in developing a plan for completing these goals. Students can view the name of their faculty advisor through their RaiderNet account.

All students are encouraged to meet with their faculty advisor at least once a year. Not all RSCC locations have full-time faculty advisors for each major. Students need to contact his/her advisor to schedule an appointment well in advance of registration time periods. All sophomores are required to meet with their advisor to plan for graduation and to complete the Intent to Graduate form.

**Veterans Services**

Roane State’s Veteran’s Affairs Office is designed to assist veterans who desire to enroll at the college. You may contact the Coordinator for Veterans Services toll free at 1-866-462-7722 ext. 4539 or 865-882-4539. Roane State cooperates with the Veterans Administration in providing educational opportunities for veterans. The VA Certifying Official is responsible for certifying veterans’ eligibility and for providing a source of information regarding the “G.I. Bill.”

To receive benefits a veteran must:

1. Contact the Veterans Administration Regional Office at 1-800-827-1000 or 1-888-442-4551 to verify how much benefit money is available to him/her.
2. Provide the VA certifying official in the Advising Resource Center (ARC) member copy 4 of the DD214 (discharge papers) or NOBE form if actively in service.
3. Fill out the Veterans Administration online application (VONAPP).
4. Meet with an advisor to discuss class requirements.
5. Register for classes and pay fees.
6. Submit all academic transcripts and a copy of your DD214 to the Records Office for evaluation, even if you are in a certificate program.

NOTE: The certification process takes several weeks. The certifying official will not begin the process until after the first week of classes. Receiving benefits can take up to 2 months; therefore, veterans must make adequate arrangements to cover college expenses.

Once enrolled, veterans and other eligible persons should maintain close contact with the assigned VA certifying official in the Advising Resource Center. All changes of class schedule must be reported since dropping or adding classes may change the monetary amount the veteran is eligible to receive.

To maintain eligibility, the veteran must comply with the following rules:

1. Must be classified as a regular degree student or follow a VA approved certificate course of study. Special students for credit or non-credit do not qualify.
2. Must maintain the prescribed cumulative GPA listed under Academic Probation and Retention Standards in this catalog.
3. Courses may be claimed for pay only one time whether taken at RSCC or transferred from another institution.
4. Only courses specifically listed in the catalog (as per major) may be certified for payment. Courses taken for a student’s own personal enrichment will not be eligible for payment.
5. Course substitution forms must be processed and approved as described in this catalog before the substituted course is claimed for payment.
6. You must attend all classes for the entire semester or an overpayment with the VA may result.
7. Enrollment in classes which do not last 15 weeks will affect your pay (e.g. 5 week, Xpress, Maymester)

For more information: http://www.roanestate.edu/veterans

**Eligibility for Deferment of Payment of Tuition and Fees by Certain Eligible Students Receiving U.S. Department of Veterans Affairs or Other Governmentally Funded Educational Assistance Benefits**

Service members, veterans, and dependents of veterans who are eligible beneficiaries of U.S. Department of Veterans Affairs education benefits or other governmentally funded educational assistance, subject to the conditions and guidelines set forth in Tennessee Code Annotated 49-7-104 as amended, may elect, upon formal application, to defer payment of required tuition and fees until the final day of the term for which the deferment has been requested. Application for the deferment must be no later than 14 days after the beginning of the term, and the amount of the deferment shall not exceed the total monetary benefits to be received for
the term. Students who have been granted deferments are expected to make timely payments on their outstanding tuition and fees balance once education benefits are being delivered, and eligibility for such deferment shall terminate if the student fails to abide by any applicable rule or regulation, or to act in good faith in making timely payments. This notice is published pursuant to public Chapter 279, Acts of 2003, effective July 1, 2003.

Registration for Courses

Roane State Community College provides early registration through RaiderNet each semester for currently enrolled and readmitted students. **No student is officially enrolled until he/she has completed all requirements of enrollment including the payment of fees.** Exceptions for late registration or adding a class may be granted for good cause. **Late registration requires payment of the late fee.** No student shall receive credit for a course for which he/she is not properly registered. **A student may not be allowed to register until all required admission documents have been received.**

Student Identification Number

A student’s identification number (called the R#) will be a computer generated unique identifier or social security number. The use of social security numbers is optional. If, at the time of application, the student desires not to disclose the SSN, the institution will assign a unique SID for the student’s use. However, please note, if you receive federal and state financial assistance you are required to disclose your SSN.

RaiderNet

Upon acceptance to the college, students will be given instructions on how to log-in to their RaiderNet account. Through this system students can view their personal information, financial aid, and registration.

Course Load

The average semester hour load for a degree-seeking student should be 16 hours of credit. Individual programs may require more or less than 16 hours per semester for degree completion. A full-time student is one who is carrying 12 or more semester hours of credit. The following criteria apply to semesters by course loads:

1. Students may register for 20 hours of credit upon verification of a 2.5 cumulative grade point average by the Admissions and Records Office.
2. Students may register for 21 hours of credit subject to verification of a 3.0 cumulative grade point average by the Admissions and Records Office.
3. Students wishing to enroll for 22 hours or more must have the approval of the Vice President of Student Services and Enrollment Management.
4. Any exceptions to the above guidelines must have the approval of the Vice President for Student Learning.

Special for Credit students are limited to no more than 12 hours per semester with no limit to the total number of accumulated hours.

Academic Regulations

Student Records

Regulations

At Roane State Community College, academic records are considered confidential. The college’s policy regarding the use and release of student records is governed by Public Law 93-380, the Family Educational Rights and Privacy Act (FERPA) and the Tennessee Public Records Act.

Under the terms of these laws, the college and its employees are charged with protecting the confidentiality of the educational records of its prospective students, currently enrolled students, and former students. The college is empowered to disclose relevant portions of student records to faculty and staff determined to have a legitimate educational interest.

All exceptions to this policy, including disclosure to external persons or agencies, shall be administered by the Registrar, the Vice President of Student Services and Enrollment Management, the Vice President of Academic Services, or the President.

Definitions

Student: A person who attends or who has previously attended Roane State.

Student Academic Record: Educational information or data maintained by the college which relates to personally identifiable student.

Third Party: A third party is defined as anyone other than the student.

Access to Records

1. A student shall be permitted to inspect and review his/her academic records within 45 days following the date on which he/she notifies the Admissions and Records Office that he/she desires access to such records.
2. A student shall be provided with a copy of their academic record if they have no obligations to the college. If there is an obligation, the student will be allowed to view a copy of their academic record, but may not take the copy.
3. Students have the right to request explanation or interpretation of their academic record.
4. The student shall be entitled to challenge the content of his/her academic records.
   a. A challenge concerning the content of a student’s academic record must be submitted in writing to the office/department immediately in charge of maintaining the record in question.
   b. The challenge must be signed by the student.
   c. The office/department in charge of maintaining the record will mark the date of submissions on the challenge. A response will be sent to the student within 30 days noting the action to be taken by the office/department or the student.

Limitation on Access to Records

1. A student shall be denied access to a parent’s financial records.
2. A student shall be denied access to confidential letters and statements which were placed on a student’s record prior to January 1, 1975.
3. A student shall be denied access to confidential recommendations respecting his/her admission to the college or receipt of an honor or honorary recognition if he/she has signed
a waiver of access rights.
   a. Roane State shall not require any student to waive access rights.
   b. A party from which a recommendation is sought may require such a waiver.
   c. Confidential statements and letters shall be used only for the purpose for which they were solicited.
4. A student shall not be permitted to inspect records which personally identify other students even if he/she is personally identified on that record. In such a case he/she shall simply be informed of the information contained on the record.

Release of Transcripts or Information on Students' Academic Records
Policy

Roane State staff, faculty and other employees will be granted access to academic records on a need-to-know basis. All employees must abide by FERPA and the Tennessee Public Records Act when reviewing student records other than FERPA Directory Information and/or Solomon Amendment Directory Information.

Roane State employees who have direct access to these records are:
   President, All Records
   Vice Presidents, All Records
   Deans, All Records
   Division Heads, All Records
   Director of Counseling, Career, and Disability Services, All Records

Release of Information is subject to the following procedures:

1. Students may receive a copy of their transcript by appearing in person. A photo ID must be presented. Completion of a transcript request form with the student's signature is required prior to the release or mailing of the transcript. The student account will be checked for financial obligations, prior to release.
2. Students may receive a copy of their transcript by mailing or faxing their transcript request to:
   Admissions and Records Office
   Roane State Community College
   276 Patton Lane
   Harriman, TN 37748-5011
   Fax: 865-882-4527

A student's transcript request form should contain the following information:

   Full Name (and other names used since leaving the college)
   Student Identification Number or Social Security Number
   Date of Birth
   Date of Last Attendance
   Number of Transcripts Requested
   Address to which Transcript is to be Mailed
   Current Mailing Address and Phone Number

Assessment test scores can be sent to other TBR (Tennessee Board of Regents) schools upon request. Requests for non-credit transcripts need to be made in writing to the Office of Continuing Education. In all cases, obligations to the college must be fulfilled before a transcript will be issued.

Release of Records to Third Parties*

A third party is defined as anyone other than the student. The student’s parents or legal guardians are considered third parties. FERPA Directory Information shall be released to third parties without the written consent of the student.

FERPA defines directory information as:

   Student Name
   Address
   Email address
   Telephone Listing
   Date of Birth
   Participation in officially recognized activities and sports
   Weight and Height of athletic team members
   Dates of attendance
   Enrollment Status—Part-time, Full-time
   Degree and awards received
   Major field of study
   Most recent previous educational agency or institution

NOTE: Pursuant to the Federal Campus Sex Crimes Prevention Act and the Tennessee College and University Campus Sex Crimes Prevention Act of 2002 certain information concerning registered sex offenders is considered public information and therefore amend and supercede the Family Educational Rights and Privacy Act (FERPA) and other federal and state laws that previously prohibited the disclosure of such personal information.

Solomon Amendment** defines directory information as:

   Student Name
   Address
   Telephone Listing
   Date of Birth
   Participation in officially recognized activities and sports
   Date and Place of Birth
   Level of Education
   Academic Major
   Degree(s) Received
   Educational Institution in which student most recently enrolled

NOTE: On October 26, 2001, Congress enacted the Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act of 2001. The act amends the Family Educational Rights and Privacy Act to permit institutions to disclose education records to federal law enforcement officials without student consent if the appropriate United States official, certifying that "specific and articulable facts” support the request, obtains a court order that requires an educational institution to turn over education records that are considered relevant to a terrorism investigation.

Privacy

1. Directory information may be withheld as “no information available” if the student requests PRIVACY through the Admissions and Records Office. The request for privacy may remain in effect for the entire educational career of the student or until the student requests the privacy to be removed. Request for privacy should be given serious consideration. Students seeking privacy should discuss such action with the Registrar.
2. Information contained in Roane State records shall be provided without the student’s written consent to third parties engaged in the validation, development or administration of tests,
accreditation activities, or research conducted on behalf of the college provided such information is not revealed to any other party.

3. Records shall be released without the student’s written consent to college personnel authorized to have access to such records, authorized federal and state government officials, and/or officials of other institutions in which the student seeks to enroll.

4. Student academic records shall be released to any federal, state or circuit court having a judicial order. Subpoenas received will be held for review by TBR General Council. A reasonable effort will be made to contact the student prior to the release in response to such subpoenas or judicial orders.

5. Academic records shall be released by the college to any third party including the parent with written consent of the student.

6. Academic records shall be released to third parties in emergency situations involving health or safety.

7. Records shall be released to a third party without the written consent of the student in connection with the student’s application for, or receipt of, financial aid.

**Destruction of Academic Records**

All or part of a student’s record may be removed from the file and destroyed by the Admissions and Records Office. However, once a student requests access to review his/her files, such removal and destruction may not occur until access has been granted and the review completed by the student.

**Enrollment Verifications**

The Admissions and Records Office cooperates with various lending agencies, including the National Student Loan Clearinghouse, by certifying that their student clients are enrolled at Roane State. Student Loan Deferment forms should be delivered to the Admissions and Records Office at the beginning of the term. All medical and/or auto enrollment forms can be delivered to the Admissions and Records Office for completion. Forms should contain the policy-holder and student identification information. This is to ensure proper action upon receipt at the insurance company.

**Acquiring Credit**

The following explains ways enrolled students may receive credit other than taking the specific classes at RSCC.

**Transfer Credit**

Roane State accepts transfer credit from colleges and universities based on the following considerations:

- the comparability of the nature, content and level of credit earned to that offered by Roane State
- the appropriateness and applicability of the credit earned to programs offered by Roane State with regard to the student’s educational goals
- the education quality of the institution from which the credit was earned

The following policies and procedures govern the granting of credit for transfer coursework:

1. Official transcripts of all previous college coursework must be sent to the college at the time of application. Foreign transcripts not issued in English must be accompanied by a certified English translation.

2. Credit earned at a regionally or internationally accredited institution will be evaluated upon receipt of an official transcript for degree seeking students only.

3. Transfer credit (quality hours, quality points and GPA) will not be included on the Roane State academic record.

4. Courses earned with grades of A, B, C, D, or P will be considered for applicability toward a degree and certificate programs from Roane State. Only grades of A, B, C, or P will be accepted for Learning Support courses.

5. Roane State grants non-traditional credit for military service and service schools in accordance with the guidelines established in ACE (American Council on Education) and DANTES (Defense Activity for Non-Traditional Educational Support) published by the American Council on Education. Military service credit will be assigned a grade of P.

6. Roane State grants non-traditional credit for CLEP (College Level Examination Program) and AP (Advance Placement) examinations. CLEP and AP credit will be assigned a grade of P. See “Acquiring Credit” in this catalog for credit requirements.

7. Effective Fall 1999, Roane State will consider coursework from non-regionally accredited institutions as transfer coursework. Readmits and currently enrolled students may request credit consideration for coursework completed during or after Fall 1999. Credit requests must be made by completing an Application for Transfer of Credit form obtained from the Admissions and Records Office or any off campus location. A course competency examination may be required as part of the process. Students required to take a course competency exam will be notified after the request for transfer credit form has been reviewed by the appropriate academic department. To request a course competency exam, the student must complete a Credit by Proficiency form, available from the Admissions and Records Office or any off campus location. No fee is required for the exam when associated with transfer credit from a non-regionally accredited institution.

8. Students must complete at least 25 percent of the credit hours required for their degree program through RSCC. Completion of 30 percent of course work in a certificate program must be completed at RSCC.

Transfer information can be obtained from Admissions and Records Office. Advisement and information regarding inter-institutional articulation are available at http://www.roanestate.edu/articulation or call toll free at 1-866-462-722 ext. 4597 or 865-882-4597.

**Prior Learning Assessment (PLA)**

The following explains ways in which enrolled students may receive credit other than taking the specific course(s) at RSCC. A grade of “P” for passing will be assigned to any credit earned through PLA. No quality points will be assigned for such coursework, and coursework earned through this method will not be used in calculating the students grade point average (GPA).

**Maximum Alternative Credit Allowed**

A maximum of 30 semester hours credit for correspondence or extension courses, credit for Advanced Placement, CLEP, or CPS tests, and/or credit resulting from military service may be counted toward a degree. All correspondence or extension work must have the written, documented approval of the Director of Admissions and Records.

**Advanced Placement**
Roane State offers course credit for successful completion of Advanced Placement (AP) examinations administered by the The College Board to high school students. Course credit will be granted to students presenting Advanced Placement examination grades of three or higher. Inquiries concerning Advanced Placement should be forwarded to the Admissions and Records Office. A letter grade of “P” (Pass) will be assigned for credit granted.

Test scheduled for revision effective fall 2012
ROANE STATE COMMUNITY COLLEGE

U. S. Government & Politics 3, 4, 5 3 SCH
World History 3, 4, 5 6 SCH

Challenge Examinations

Currently enrolled students desiring to obtain credit by successfully completing challenge examinations must apply to the appropriate division and arrange to take the examination. A Credit-By-Proficiency form will be used. Credit-By-Proficiency cannot count toward residency requirements. Courses that contain a clinical or laboratory component, or whose competencies may not be assessed in a proficiency examination as in the regular course may not be challenged.

The student must take the form to the Business Office and pay the the $25 fee prior to taking the test. This fee is in addition to maintenance fees paid for courses in which the student is actually registered.

After fees are paid the student will take the form to the appropriate department to complete the test. When the test is complete, the grade assigned, and the appropriate signatures in place, the form will be sent to the Admissions and Records Office for recording of credit. Credit type will be noted as PFT and a grade of “P” (Pass) will be assigned. Other institutions are not obligated to accept these courses for transfer.

Fees are waived if the student desires to validate credit by examination for earned hours from an unaccredited institution or vocational school. Students must verify by official transcript that the credits have been earned previously when arranging to take the examination.

CLEP

Students should have official CLEP scores sent to the Admissions and Records Office from The College Board. An evaluation for possible credit will be made, and a copy of this evaluation will be mailed to the student. For information about taking CLEP examinations, contact the Testing Center at Pellissippi State Community College. A letter grade of “P” (Pass) will be assigned for credit granted.

Dual Credit

A dual credit course is taught by a high school teacher who incorporates college course objectives into the high school curriculum. Upon course completion, students have the option to sit for an assessment administered by the college. For the college, dual credit grades are based on pass/fail. If the student successfully completes the end-of-course exam, college credit is awarded. Credit by assessment grades may or may not transfer to other institutions; the grade is accepted by Roane State and applied to the student’s transcript upon admission to the college. Dual credit students do not apply for admission to Roane State until after high school graduation; therefore, no tuition or fees are paid as the student does not officially register for a course. There will be an assessment fee charged prior to the assessment.

Licensures/Certifications

Certified Administrative Professional

Persons passing the Certified Administrative Professional (CAP) examination will be granted 10 hours of credit at Roane State for the following courses.

ACCT 1010 Principles of Accounting I 3  
BUSN 2370 Legal Environment for Business 3  
BUSN 2350 Organizational Behavior 3  
BUSN 1380 Supervisory Management 3  
ECOM 2010 Macroeconomics 3  
INF 1010 Computer Applications 3  

Credits awarded are subject to change when the actual content of the CAP examination no longer corresponds to course content or when courses at RSCC are revised substantially.

In order to receive credit for these courses, the CAP applicant must follow the procedures listed below:

1. Submit an application for admission.
2. Enroll in classes.
3. Present to the Admissions and Records Office an official letter from the testing agent certifying student passed the examination.

Military Credit

Veteran students who have one year or more of honorable military service may submit a copy of their DD-214 to the Admissions and Records Office. Military credit will be awarded in physical education (4 semester hours) and military science (6 semester hours). Students who completed less than one year but received at least eight weeks of training will receive 2 semester hours of physical education credit. Additional credit for military training/occupational experiences may be awarded based on MOS credit listed on the DD-214.

Army, Coast Guard, Marine Corps, and Navy veterans will be awarded military credit based on training/occupational experiences listed on the Joint Services Transcript (JST). The JST a merger of the former AARTS, SMART, and CGI transcripts. Veterans may request a copy of their JST transcript by visiting https://jst.doded.mil.

RSCC follows all guidelines established by ACE (American Council on Education) and DSST (DANTES Subject Standardized Tests).

Prior Learning Credit

A currently enrolled student at Roane State may petition for credit through documented work experience or life experience in the field in which a degree is being pursued.

Prior learning credit may be obtained as elective credit or specific course credit as it relates to a course in the current Roane State course inventory. This credit cannot exceed 18 hours. Credit for prior learning is not designed for students pursuing an Associate of Arts or Associate of Science degree (University Parallel). This type of credit normally does not meet degree requirements at a senior institution.

Students interested in seeking prior learning credit should first contact the appropriate academic dean. The dean will then assign faculty in the discipline to meet with the student to begin preparation of the portfolio.

The portfolio should contain the following:

1. An introduction that describes the basic facts for the learning experience.
2. Specific course numbers and course names for credit requested.
3. A description of the types of formal training or instruction received in the subject since high school. This training could have occurred in classrooms, on the job, or through informal settings.
4. A detailed list of the kind of work done in the area. Explain the responsibilities and tasks successfully performed.
5. A detailed list of what was learned about the field as a result of the experience. Describe theories and practices developed.
6. Appropriate examples of work along with the product resulting from the work, the conditions under which it was created, and changes that might be made now based on the experience.
7. A description of critical events, outstanding managers and their styles, reading or lectures that made the experience noteworthy.
8. A summary of the major experiences and insights to substantiate significant learning.

After the portfolio is completed, the instructor will make a recommendation regarding the level of credit to the academic dean. The
meet with the TCAT counselor or teacher to decide on academic

In the academic division office for a period of five years.

Credit awarded will depend on the student’s ability to analyze personal

or professional significance. Awarding credit should be based on the

student’s experience as it relates to the years in the field, breadth of

exposure, or level of responsibility. When the evaluation is complete

and the appropriate signatures are in place, the form will be sent to the

Admissions and Records Office for the recording of credit. Credit type

will be noted as EXP and a grade of “P” (Pass) will be assigned.

A special fee for prior learning credit is assessed.

Prior learning or proficiency credit will not apply toward meeting

residency requirements for graduation.

TN College of Applied Technology Articulation (formerly known as

TN Technology Center)

Students who earn a diploma from one of the TN Colleges of Applied

Technology (TCAT) may be eligible to receive up to 30 credits when they

enroll in an A.A.S. degree program. TCAT articulated credits can be used to

fulfill general electives in the A.A.S. degree programs. Articulated credit

is not awarded for students pursuing the Associate of Arts/Associate of

Science (University Transfer) program.

UPDATE: Effective, October 2014, the Tennessee Board of Regents

placed a moratorium on the transference of TCAT articulation block

credit. Only those students who were enrolled in Fall 2014 are eligible to

receive the articulated credit as long as they maintain continuous

enrollment at Roane State (excluding summer terms). Students seeking

credit for TCAT courses should consult with their faculty advisor

regarding prior learning credit.

To receive articulation credits the following procedures should be

followed:

- Meet with the TCAT counselor or teacher to decide on academic

  plan.
- Complete TCAT diploma in a specific field of study.
- Enroll at Roane State and submit an official TCAT transcript to

  the Roane State Admissions and Records Office.
- Once the student successfully completes 15 college-level credit

  hours at Roane State, the TCAT articulated credit will be posted to

  the student transcript with a grade of “P” by the Admissions

  and Records Office.
- Meet with Roane State faculty advisor to further develop an

  academic plan for degree completion.

For additional information about TCAT Articulated credit, contact the

Director of Academic Advising/Articulation.

Grades

Grade Points

Grade points are numerical values assigned to letter grades in order to

provide a basis for determining grade (quality) point averages. The four-

point system is used.

Grade/Quality Points

A Outstanding

B Above average

C Average

D Passing

F Failing

Withdrawal

Passing*

C (2.0)

3.00

F (0.0)

(3x2) 6.0

(3x0) 0.0

1.00

GRADE EARNED

To meet degree requirements a student must maintain an overall grade

point average of 2.00. Generally, letter grades are awarded according to

the following scale:

A 90-100

B 80-89

C 70-79

D 60-69

F 0-59

Some specific exceptions to the above scale may apply and the college

reserves the right to adjust it accordingly. Students enrolled in Allied

Health Sciences or Nursing programs may not follow the same scale.

Students should refer to the grading scale included on the course syllabus.

*At the discretion of the Vice President of Student Learning, selected

courses may be offered using a pass-fail grading system. A “P” indicates

a passing grade in such cases. In addition to such courses, credit resulting

from military service or Prior Learning Assessments will not be assigned

quality points for computing the grade point average, and a letter grade of

“P” will be assigned for such instances.

**The grade of “I” indicates that the student was passing at the end of

the semester but has not completed the work of the course as required

by the instructor. An instructor may assign a grade of “I” in the event of

extenuating circumstances on the part of the student. Upon receiving such

grade, the student is on notice that he/she should contact the instructor

immediately in an effort to complete the course requirements. The

student should not register for the same course during the subsequent

term. A grade of “Incomplete” must be removed during the next regular

term, any student receiving a grade of “I” at the end of Spring semester

will have until the end of the succeeding Fall semester to complete his/

her coursework. Any course which has not been graded at the end of the

following term will convert to an “F”.

Calculating GPA

Your GPA is calculated by dividing the total number of Quality Points

you earned by the number of GPA Hours you attempted in courses in

which grades of A through F are assigned. Grades of I, P, S, U, and W do

not have Quality Point values and are, therefore, not included in the GPA

calculation.

The first two attempts of courses that have been repeated are excluded

from the cumulative GPA. The third and any subsequent grades will be

used in determining your GPA.

Each term, your semester and cumulative GPA will be indicated with your

grades.

GPA Calculation Example

COURSE  GPA HOURS  GRADE EARNED  QUALITY POINTS
ENGL 1020 3.00  B (3.0)  (3x3) 9.0
PHED 2050 1.00  A (4.0)  (1x4) 4.0
MATH 1130 3.00  C (2.0)  (3x2) 6.0
MUS 1030 3.00  B (3.0)  (3x3) 9.0
HIST 2020 3.00  A (4.0)  (3x4) 12.0
POL 101  3.00  F (0.0)  (3x0) 0.0
1. Add the GPA Hours: $3 + 1 + 3 + 3 + 3 = 16.00$ hours
2. Determine your total Quality Points:
   a. For each course, multiply the number of GPA Hours for that course times the number of Quality Points indicated on the grading scale above. Example: ENGL 1020 is a 3.0-hour course. Multiply 3.00 hours x 3.0 (the Quality Points for a B), the product will be 9.0 Quality Points earned for ENGL 1020.
   b. Add the Quality Points for all courses: $9.0 + 4.0 + 6.0 + 9.0 + 12.0 + 0 = 40.0$ Quality Points.
3. Divide the total Quality Points by the total GPA Hours to determine your GPA: $40.0 / 16 = 2.5$ (GPA is carried to two decimal places, with no rounding). This is your GPA for the term.

Lottery Scholarships

The GPA used to determine your continued eligibility for Lottery Scholarships is not the same as your RSCC GPA. This is because your Lottery GPA takes into account all of your attempts at a particular course whereas your RSCC GPA does not. Please be aware that “W” (Withdrawal) grades are counted as attempted courses for Lottery Scholarship purposes, and toward the maximum hours allowed by a Hope Lottery Scholarship but are not counted in the calculation of a student’s Lottery GPA.

Grade Type Change

To change a course grade type, from audit to credit or credit to audit, the student must do so by following the Change of Registration/Drop-Add procedures. The deadline dates listed below will be strictly enforced.

Audit to Credit: Permitted during late registration/add period.
Credit to Audit: Permitted during the withdrawal period.

Grade Appeal Procedure

Grades, as well as information, withdrawals and other data perceived by a student to be in error, must be protested within the subsequent semester after the information was posted. If a student believes there are circumstances which warrant an appeal of a grade received for other than academic misconduct, the student must appeal the grade within 45 calendar days following the last day of classes. The appeal process must be initiated by the student and includes the following steps which must be followed in this order:

1. Contact the instructor in writing to ensure that no calculation or administrative error occurred and if it is not possible to resolve the problem at this level
2. The student can submit in writing an appeal to the division dean or appropriate supervisor of the instructor and the student can expect a written response. If the issue is not resolved at this level, then
3. The student can submit the written appeal to the Vice President for Student Learning whose decision will be final.

Protests initiated after the allowed time frame of 45 days will not be reviewed.

Audit Courses

Any student enrolled at RSCC may register for audit courses. The student will attend class without being required to take examinations or prepare lessons or papers. Students auditing a course will receive a final grade of “AU” (audit) on the transcript. No credit will be received for the course or toward major requirements.

Withdrawals and Honorable Dismissals

Students finding it necessary to withdraw from the college must do so officially to maintain good standing and to assure honorable dismissal and/or readmission.

Withdrawal Limits

There will be a limit on the number of courses attempted and dropped per academic year based on semester hours attempted as follows:

<table>
<thead>
<tr>
<th>Semester Hours Attempted</th>
<th>Maximum Number of “W” Grades</th>
</tr>
</thead>
<tbody>
<tr>
<td>0-24</td>
<td>4</td>
</tr>
<tr>
<td>25-48</td>
<td>8</td>
</tr>
<tr>
<td>49-72</td>
<td>12</td>
</tr>
<tr>
<td>73-96</td>
<td>16</td>
</tr>
</tbody>
</table>

A student who exceeds the number of “W” grades for two (2) consecutive regular semesters will be notified accordingly and be required to attend mandatory advising sessions for one (1) semester. The intent of mandatory advising is to assist the student from withdrawing from courses when alternative solutions may be available.

At the end of the semester following the mandatory advising, a student who continues to exceed the maximum number of “W” grades for semester hours attempted will be required to return to mandatory advising for two (2) consecutive semesters or until the student’s course withdrawal rate meets the satisfactory standards for semester hours attempted.

Academic probation and/or suspension for students exceeding the maximum number of “W” grades for semester hours attempted will be based on the minimum cumulative GPA and not on the number of “W” grades received.

Late Withdrawals

The request for a late drop or withdrawal MUST be made on or before the last day of classes. A student who never attends or stops attending classes and fails to follow the proper withdrawal procedures will be carried on the roll until the end of the semester and a grade of “F” will be recorded.

After the withdrawal deadline published in the academic calendar, no student will be permitted to withdraw from the college or classes and receive the designation of “W” without providing documentation of one of the following unusual conditions or hardships and verification that the mitigating circumstances developed AFTER the withdrawal deadline:

1. Illness or injury of the student or serious personal problems as verified on office letterhead stationery by the attending physician or psychologist.
2. Necessary change in work schedule verified in writing on company letterhead by the student’s employer.
3. New employment as verified in writing on company letterhead by the employer.
4. Other mitigating circumstances presented with acceptable documentation to demonstrate the extenuating circumstances.

Students meeting the stated circumstances may apply for late withdrawal as follows:

1. Obtain Request for Late Withdrawal form from the Admissions and Records Office or download from the Records and Registration website at http://www.roanestate.edu/recordsforms.
2. Complete the form and attach documentation of circumstances
as stated above. Forms received without the required documentation cannot be considered.

3. Return the form to the Admissions and Records Office for review.

Any exceptions to this policy must be submitted in writing to the Registrar to be reviewed by a committee of the Vice President for Student Learning, the Vice President for Student Services and Enrollment Management and the Registrar. (No appeals will be accepted one calendar year after the semester in which the late withdrawal is being sought.)

NOTE: Learning Support courses may not be dropped except under extenuating circumstances. Anyone seeking to drop or withdraw from a Learning Support course must obtain permission from the Director of Learning Support and provide documentation of circumstances. The Learning Support drop application may be found at http://www.roanestate.edu/learningsupport.

All equipment belonging to the college must be accounted for or paid for and all financial obligations met. If it is impossible for the student to take these steps in person, they should be completed by a person acting as an agent for the student.

Late Withdrawal Requests are for grades only. Requests for refund of tuition or fees should be made directly to the Business Office. Students requesting Late Withdrawals should be aware that withdrawal from coursework may impact Financial Aid eligibility.

For more information please call toll free 1-866-462-7722 ext. 4526 or 865-882-4526.

Repeated Courses

A student may repeat a course with the intent of improving the grade previously earned. In computing the quality point average of a student who has repeated one or more courses, only the last grade received in the repeated course or courses will be used. The hours attempted will be counted only once, provided that the number of repeats in any single course does not exceed two (three attempts). In the event that a student attempts a course more than three times, the third and subsequent grades shall be used in determining quality point average.

In order that grade point averages may be adjusted appropriately, the student repeating a course may file a course repeat form with the Admissions and Records Office.

Veterans or other eligible persons repeating courses for which they have a passing grade ("D" or higher) and for which they have been paid are cautioned not to claim this course for pay the second time.

Students may be permitted to repeat a course in which a grade of "B" or higher was earned only with the approval of the Vice President for Student Learning.

Classification

Student classification levels for purposes of registration are:
Freshman: 0-26 credit hours
Sophomore: 27 or more credit hours

Change of Major/Status

Students may request to change their major/status after the first term of attendance. Change of status or major is not automatic. The new major will be in effect beginning with the next academic term. Students who are on hold with the Financial Aid office for SAP may not be eligible for change of major/status.

Currently enrolled degree or certificate-seeking students may request a change to non-degree status (special student category) once they have: 1) completed all learning support requirements, and/or 2) completed all admission requirements. Exceptions may be requested through the Registrar and will be decided on an individual basis. Special Student Category students are not eligible for federal financial assistance (Pell Grant, Veteran’s Benefits, etc.).

To request a Change of Major students should complete the following steps:

1. Review the RSCC academic programs on the RSCC website under the Academic Programs link.
2. Run a degree audit to learn what requirements you will lack and what requirements you have already met for the new major. You can run the audit from the Degree Evaluation link under Your Records in your RaiderNet account.
3. Meet with an advisor or career counselor to discuss your graduation plan and obtain their signature on the form.
4. Sign and submit the completed form with a copy of your program plan for the new major to the One Stop or to the front office of any satellite campus.

NOTE: Students are advised to consult with financial aid sources (VA, WIA, TAA benefits) prior to submitting a change of major to the Admissions/Records Office.

Good Standing

Good Standing status denotes that the student is not on probation and is also eligible to continue enrollment or is eligible to re-enroll. Letters of Good Standing can be requested through the Admissions and Records Office.

President’s List and Dean’s List

The President’s List and Dean’s List are the official mediums for the institution to recognize outstanding academic achievement by students. The Dean’s List recognizes full-time students (those completing 12 or more semester hours of college-level courses) who attain a quality point average of 3.50-3.99. In addition, the President’s List recognizes full-time students (those completing 12 or more semester hours of college-level courses) who attain a quality point average of 4.00. Only the semester average is considered in computing grades and achievement level. The President’s and Dean’s Lists are compiled at the end of each academic semester by the Registrar’s Office and are noted on the student’s academic transcript.

Academic Probation and Retention Standards

A student who fails during any term to attain a cumulative quality point average at or above the level indicated below for the GPA (Grade Point Average) hours (inclusive of any Learning Support courses) will be placed on academic probation for the following term.
GPA Semester Hours Attempted  Minimum Cumulative GPA
0-12            1.25
13-18           1.50
19-23           1.75
24 or more      2.00

Academic Suspension

At the end of the following term of enrollment, a student on academic probation who has failed to attain: 1) the above cumulative standard OR 2) a 2.0 grade point average for the current term will be suspended. Students who have satisfied the 2.0 GPA but have not yet achieved the standards as listed above will remain on academic probation for subsequent terms until the standards have been achieved. Students on probation or suspension who fail to attain the cumulative standard and the 2.0 GPA for the subsequent term will be placed on suspension.

Suspension terms are as follows:
First-time suspension   One term (semester)
Second suspension       Two terms
Third suspension         Dismissal

In all instances, the summer term does not apply as a term served for suspension. For the student who is suspended at the end of the spring semester, the following fall semester is considered to be the term of suspension.

A third suspension of “Dismissal” may be appealed to the Vice-President for Student Learning after a period of two years absence from enrollment at the college.

Appeals

A student who has been academically suspended either from RSCC or is currently suspended from another college or university may request an appeal through the Admissions and Retention Committee. If the student feels that there were extenuating circumstances (e.g. errors in their transcript, documentable medical or psychological problems, court or military duty, etc.) that caused the academic problems, they may appeal to the committee for reinstatement.

To request an appeal the student must contact the Admissions and Records Office for an appointment with the committee. If the Admissions and Retention committee grants the reinstatement, the conditions imposed by the committee will be clearly stated. These may include a reduced course load, regular meetings with an advisor or counselor, and course suggestions.

Students who voluntarily serve the time imposed by their suspension will be reinstated automatically and do not need to meet with the Admissions and Retention Committee. Their admission status will be Academic Probation for that semester.

Transfer Students

Students on academic suspension from another college or university must clearly designate this information on their application to Roane State. Falsifying this information may lead to dismissal. Transfer applicants whose last term of attendance at another institution resulted in academic suspension or dismissal and who have not served their required term(s) of suspension or dismissal, must meet with the Admissions and Retention Committee to request admission to Roane State. Meeting with the Admissions and Retention Committee is required only if application is made within two years after the academic suspension or dismissal. Transcripts from the suspended college/university are required.

While individual courses may transfer to RSCC and can count toward fulfilling degree requirements, the number of credit hours and quality points do not count toward calculating the GPA for academic probation and suspension.

Grounds for Dismissal

A student may be dismissed from the college for any one or more of the following reasons:
1. Failure to meet minimum academic standards as stated in the above section.
2. Conduct of an unacceptable nature.
3. Failure to meet Academic Development requirements for satisfactory progress through course requirements.

Graduation - Degree/Certificate Requirements

Students who have successfully completed 48 semester hours toward a degree or half of the coursework required for a certificate must complete an Intent to Graduate form by the deadline for the intended graduation semester. The student is required to complete the form in its entirety, and obtain his/her advisor’s signature.

An evaluation of the student’s status towards graduation will be sent to the student and the academic advisor. The student is encouraged to meet with his/her advisor to develop a plan for the completion of the program based on the results of the evaluation.

Degree Works - Degree Audit program

Students wanting to know the courses they need to complete a particular degree program or how their courses meet the requirements of another degree program should take advantage of the Degree Works in their RaiderNet. This computer program merges a student’s academic record with the degree requirements for a particular major. Information included on the printout includes: academic requirements remaining, requirements completed or in progress, and work that is not applicable to a particular major. Students can obtain a Degree Works printout from their RaiderNet account or from their assigned faculty advisor.

Degree and Certificate Requirements

In order to obtain a degree or certificate, students must complete the general requirements as prescribed by Roane State and specific requirements set forth for the program.

Requirements include:
1. **Minimum GPA.** An overall Grade Point Average (GPA) of 2.0 is required for the degree and/or certificate. Only college-level courses taken at Roane State are computed into the GPA for graduation.
2. **Minimum Credit Hours.** Each candidate must complete at least 60 semester hours to be eligible for the associate’s degree. All requirements specified in the catalog must be completed.
3. **Catalog Option.** The student must meet the requirements of (a) the current catalog or (b) the catalog in effect at the time the student entered a program. *Entering a program* is defined as being admitted, readmitted, or changing the major.
4. **Minimum Hours in Residence.** Students must complete at least 25 percent of the credit hours required for their degree
program through Roane State Community College. Thirty percent of the semester hours in a certificate program must be taken at Roane State. Experiential and Proficiency credit does not apply to this residency requirement. Separate Application for Graduation forms must be filed for each degree.

5. **Additional Degrees**: Requirements for more than one degree may be met. A minimum of 16 semester hours beyond the requirements for the first degree must be completed, as well as all course requirements for the additional degree. Separate Intent to Graduate forms must be filed for each degree.

6. **Additional options within a degree program**. A student may complete requirements for more than one option within an A.A.S. degree program by successfully completing all course requirements. Only one diploma will be issued for the degree.

7. **Obligations to the College**. All candidates must fulfill all financial obligations to the college including parking tickets, the return of library books, audio-visual tapes, college at home materials, etc.

8. **Exit Testing**. All students seeking a degree from Roane State will be required to take the Academic Profile exam prior to being granted their degree. Information regarding test administration dates will be sent to the student once his/her Intent to Graduate has been processed. Certificate students are exempt from the Academic Profile. A student may, as a condition of their graduation, be required to take additional tests designed to measure achievement in general education and in their major. The purpose of such testing is for evaluating institutional effectiveness or the academic program. Participation in testing may be required of all students, of students in certain programs, or of students selected on a sample basis. In order to comply fully with this provision, the student must authorize the release of his/her scores to the institution. Unless otherwise indicated, no minimum score or level of achievement is required for graduation and individual student scores will be treated as confidential.

**Course Substitutions**

Course substitutions require the approval of the student’s faculty advisor and the appropriate academic dean. A form for this approval is available from faculty advisors and should be processed prior to registering for the course in question. Students in a transfer program should consult with their senior institution prior to submitting a substitution. Senior institutions may or may not honor substitutions. Course substitutions are not approved for articulation agreements or TN Transfer Pathways.

**Graduation with Honors**

Degree-seeking students may be eligible for academic honors based on the quality point average of coursework completed at Roane State. Academic honors are reflected on the student’s transcript and diploma. Certificate students do not qualify for academic honors. Honors designations are based on the following grade point averages: 3.5-3.69 cum laude; 3.7-3.89 magna cum laude; 3.9-4.0 summa cum laude.

**Ceremony**

Commencement exercises are held at the end of the spring semester only. Students who anticipate completing their work during the following summer are eligible to participate in commencement exercises if a grade point average is sufficient for graduation and an Intent to Graduate has been officially processed by the spring deadline. Due to the early printing date of the program, academic honors are based on the previous term GPA. Fall graduates will be invited to attend the following spring exercises. Participation in the ceremony is optional, but strongly encouraged. Information will be available at [http://www.roanestate.edu/](http://www.roanestate.edu/commencement) in March.

**Business Information**

Tuition and fees are assessed and payable at registration each semester. Registration is not considered complete until all assessed tuition and fees have been paid. Tuition and fees paid by check are not considered to have been paid until the check has cleared the bank. Students who have not met all financial obligations at the college will not be permitted to attend classes. No student will be permitted to reenroll, graduate, or receive a transcript until all financial obligations to the college have been satisfied. All tuition and fees are subject to change by direction of the Tennessee Board of Regents and will be posted on Roane State’s website as changes are made. The current semester class schedule should be consulted for current tuition and fee rates. Any student who has a question or problem concerning tuition, fees, or other monetary transactions pertaining to the college should contact the Business Office at toll free 1-866-462-7722 ext. 4515 or at 1-865-882-4515.

**Tuition - Refundable**

All students will be assessed a tuition fee. Students classified as out-of-state residents will be assessed tuition plus out-of-state tuition fees. The definition of residency as determined by the Tennessee Board of Regents will apply. Information concerning residence classifications may be obtained from the Registrar. Non-resident students will be accepted if space permits. For the current tuition fees, visit [http://www.roanestate.edu/tuition](http://www.roanestate.edu/tuition) or call toll free 1-866-462-7722 ext. 4515 or 1-865-882-4515.

**Summer and Alternative Session Fees**

Each semester classes are offered as full session, express session, and/or accelerated session. Any session may vary in the number of weeks that the classes meet. Students may register for the full session, alternative sessions or any combination thereof. Tuition rates and fees are applied based on the total number of enrolled hours per semester regardless of individual session hours. Regents Online Campus Collaborative classes are not included in the calculation of fees for which there is a maximum charge. Fees for ROCC classes are computed on a per hour basis with no maximum rate being applied. For any student registering for any course(s) or adding course(s), the assessment of course fees and late fees is determined by courses (if any) for which the student registered before the first official day of classes for each session. The primary consideration in determining what fees are assessed is whether the student is registering for courses or adding courses. For this purpose the following definitions shall be used:

- **Registering for courses** - a student registers for a course(s) if he/she is not already enrolled in a course(s) meeting the same semester as the course(s) in which he/she is enrolling.

- **Adding courses** - A student adds courses when he/she is already enrolled in a course(s) meeting the same semester as the course in which he/she is enrolling and has paid for those courses.

**Audit Fee**

Fees for courses being audited are the same as those taken for credit. Students enrolled as audit are not required to take examinations and
receive no credit for the class. Students over 60 years of age may audit classes on a space available basis under a tuition waiver plan. Contact the business office at toll free 1-866-462-7722 ext. 4515 or 1-865-882-4515 or the center nearest you for more information.

Misellaneous Fees

There are several mandatory student fees associated with applying to Roane State and registering for classes. In addition, fees may be assessed for particular courses and activities. For the current list of miscellaneous fees and amounts, please visit http://www.roanestate.edu/tuition or call toll free at 1-866-462-7722 ext. 4515 or 865-882-4515.

Deferred Payment Plan

The deferred payment plan is available to students who meet certain criteria. For more information, please visit http://www.roanestate.edu/tuition or call toll free at 1-866-462-7722 ext. 4515 or 865-882-4515.

Discounts and Waivers

Senior Citizens and Disabled Persons

Disabled persons suffering from a permanent total disability and persons 60 years of age or older, who live in Tennessee, are eligible to enroll in courses for AUDIT without payment of tuition, technology, student activity fees, or registration fees. All remaining fees including special course fees will be assessed at the normal rate.

Disabled persons and persons sixty-five years of age or older, who live in Tennessee, are eligible to enroll in courses for CREDIT at the rate of one-half the credit hour fee per semester hour, up to a maximum of $77. This rate applies to tuition fees, technology fees, student activity fees and registration fees. Special fees (such as graduation fee, telecourse/ audio course fee, etc.) will be assessed at the regular rate. Arrangements should be made well in advance of registration day to provide documented evidence of disability or age.

Fees for all Community Service courses must be paid at the regular rate.

Veterans Dependents

Pursuant to TCA 49-7-102, certain statutory fee exceptions exist for dependents and spouses of military personnel killed, missing in action, or officially declared a prisoner of war while serving honorably as a member of the armed forces during a period of armed conflict. If these provisions are invoked by a student, the correct applicable law will be determined. Contact the Business Office for additional information.

Higher Education Employees—Public Chapter 191

Full-time employees of the Tennessee Board of Regents and the University of Tennessee are eligible to enroll, on a space available basis, in one credit class per term without payment of tuition, technology, student activity, student government or access fees. Information on this program is available from the Human Resources Office. An application for Waiver of Fees—Public Chapter 191 (fully executed by the employing institution) must be presented at the time of registration. Participants in this program may register beginning four weeks prior to the first day of classes.

State Employee Fee Waiver Program

Full-time employees of the State of Tennessee are eligible to enroll, on a space available basis, in one credit course per term without paying tuition charges, technology fees, student activity fees, student government fee or registration fees. At the time of enrollment, the state employee must present a completed “Public Higher Education Fee Waiver for Employees of the State of Tennessee” form certifying that the applicant is a full-time employee with at least six months continuous service. Information on this program and related eligibility requirements is available from the Business Office. Participants in this program may register beginning no earlier than four weeks prior to the first official day of classes.

Fee Discount Program for Spouses and Dependent Children of TBR Employees

Spouses and dependent children of certain retired employees and regular employees of Tennessee Board of Regents institutions who have been employed for at least one continuous year and work at least one-half time are eligible for up to a 50% discount on tuition, technology, student government, access and activity fees. The amount of the tuition fee discount is 50% for full-time employees. Spouses and dependent children of part-time employees will receive a pro-rata portion of the 50% discount based on the employee’s percentage of work effort. This program is applicable only to undergraduate credit courses. Certain special conditions must be met to qualify for this program. Information on the program is available from the Personnel Office. A Request for Fee Discount for Spouse and/or Dependent form (fully executed by the employing institution) must be presented at the time of registration.

Fee Discount Program for Children of Licensed Public School Teachers and for Children of State Employees

Students under the age of 24 may receive a 25% discount on tuition fees and technology fees at any state operated institution of higher learning if their parent: (1) is employed as a full-time licensed teacher in any public school in Tennessee or as a full-time employee of the state of Tennessee, (2) is a retired employee of the state of Tennessee who retired after a minimum of 25 years of creditable service, (3) was killed in the line of duty while a full-time employee of the state of Tennessee, or (4) died while a full-time employee, though not “in the line of duty.” Fee discounts will not be retroactive; eligibility for the fee discount is available only by application and approval prior to the beginning of the term for which assistance is being sought. Information on this program and related eligibility requirements is available from the Business Office.

Refunds

All refunds policies are subject to change by direction of the Tennessee Board of Regents and will be posted on Roane State’s website as changes are made.

Adjustments to all fees and charges must be in accordance with the following provisions except as previously stated, or when required by federal law or regulation to be otherwise.

Pursuant to T.C.A. § 49-7-2301 and 49-7-2302, students called to active military or National Guard service during the semester are entitled to a 100% adjustment or credit of mandatory fees. Housing and meal ticket charges may be prorated based on usage.

Maintenance Fee Refunds and Adjustments

Refunds are 100% for courses canceled by the institution.
Changes in courses involving the adding and dropping of equal numbers of SCH’s for the same term at the same time require no refund or assessment of additional maintenance fees. The change of course fee would be applicable.

The fee adjustment for withdrawals or drops during regular terms (fall and spring) is 75% from the first day of classes through the fourteenth calendar day of classes and then reduced to 25% for a period of time which extends 25% of the length of the term. There is no fee adjustment after the 25% period ends. Students enrolling in more than a full-time course load receive the benefit of additional course work at no additional cost. Dropping or withdrawing from classes during either the 75% or the 25% fee adjustment period will result in a fee adjustment of assessed maintenance fees based on the total credit hours of the final student enrollment as described in item 10 below.

For summer sessions and other short terms, the 75% fee adjustment period and the 25% fee adjustment period will extend a length of time which is the same proportion of the term as the 75% and 25% periods are of the regular terms.

All fee adjustment periods will be rounded to whole days and the date on which each fee adjustment period ends will be included in publications. In calculating the 75% period for other than the fall and spring and in calculating the 25% length of term in all cases, the number of calendar days during the term will be considered. When the calculation produces a fractional day, rounding will be up or down to the nearest whole day.

A full refund (100%) is provided on behalf of a student whose death occurs during the term. Any indebtedness should be offset against the refund.

A 100% refund will be provided for students who enroll under an advance registration system but who drop a course or courses prior to the beginning of the first day of class.

A 100% refund will be provided to students who are compelled by the institution to withdraw when it is determined that through institutional error they were academically ineligible for enrollment or were not properly admitted to enroll for the course(s) being dropped. An appropriate official must certify in writing that this provision is applicable in each case.

When courses are included in a regular term’s registration process for administrative convenience, but the course does not begin until later in the term, the 75%/25% fee adjustment periods will be based on the particular course’s beginning and ending dates. This provision does not apply to classes during the fall or spring terms which may meet only once per week. Those courses will follow the same refund dates as other regular courses for the term.

The fee adjustment is calculated as the difference between (1) the cost of originally enrolled hours and (2) the per credit hour cost of the courses at final enrollment after adjustments have been applied for all courses dropped. Adjustments are calculated at the full per credit hour rate less the fee adjustment credit at the applicable fee adjustment percentage (regardless of the original number of hours enrolled) with total costs not to exceed full-time tuition. For students dropping courses resulting in a change from full-time status to part-time status, a fee adjustment in the tuition and fees will result only if the new calculated charges are less than the original charges. Not all drops/withdrawals will result in a fee adjustment.

Financial Aid Return of Title IV Funds- Students who receive assistance from Title IV financial aid programs and drop classes may have funds returned to each grant and/or loan account in accordance with applicable federal regulations.* For additional information, contact the Business or Financial Aid Office.

*If a student does a total withdrawal, he/she may owe a portion of funds back to either Roane State and/or the Department of Education.

Refund Appeals Process- Students may appeal a refund by submitting a written request by email outlining the basis for the appeal to the wilmoth@roanestate.edu. Refund appeal requests will be decided by the Assistant Vice President of Fiscal and Auxiliary Services. The student will be notified in writing of the decision within ten (10) working days of receipt of the written appeal request. Students may appeal the decision of the Assistant Vice President of Fiscal and Auxiliary Services to the President by submitting a written request for a refund appeal review to the Vice President for Business and Finance. The student will be notified in writing of the decision within ten (10) working days of receipt of the request for refund appeal review.

Community Services Activities: Withdrawals and Refunds

Withdrawal Policy- Registrants must notify the appropriate Continuing Education Unit, either by phone or in writing, of the intent to withdraw from a non-credit program. Failure to attend does not constitute withdrawal.

Refund Policy (Community Services Non-credit Courses) – For courses that meet on a weekly basis, registration may be canceled without penalty prior to the first class meeting. After the first class and prior to the second class, an 80% refund will be given. No refund will be made after the second class meeting.

For one and two day courses, withdrawals received prior to the first class meeting will be refunded in full. No refunds will be given after the course begins.

Courses canceled by Roane State Community College will be refunded in full or the registrants may elect to transfer into another course.

Refund Policy (Community Services Non-credit Conferences, Workshops or Seminars)- Registrants in conferences, workshops or seminars should make withdrawals no later than five working days prior to the activity start date in order to receive a complete refund. If a notification of less than five working days is given, a refund, less 10% of the registration fee, will be returned to the registrant. No refunds will be made after the activity begins. Substitutions can be made without prior notification. Registrants should check all literature on the activity for any special exceptions.

Special Exceptions- Some Community Services non-credit courses, conferences, workshops, or seminars may have special deadlines and/or requirements established for registration or refunds. Registrants should check all literature received on the activity for exceptions to the general policies.

Centers for Training Refund Policy- The Centers for Training and Development (CTD) consist of three “Centers” within Roane State’s Continuing Education division, the Center for Business and Industry, the Center for Computer Training and Professional Development and the Center for Health Sciences. CTD strives for “Excellent Customer Service” and will work to ensure this happens by offering credible, timely courses led by field expert consultants. Our goal is to make lifelong learning exciting and worth your investment of both time and money. To do this
we design our classes to “make” with a small number of participants
and therefore it is critical that we know the commitment of each course
registration. Our Refund Policy serves participants by providing a 100%
refund when CTD personnel are notified of a cancellation within 48 hours
of the event, workshop, course, etc. It also serves the participants in the
class by letting CTD decide two days in advance if the class will “make”
or not.

Books and Supplies

The cost of books and supplies will vary from one program to another.
The bookstore sells both new and used books. Students are encouraged to
take advantage of savings which result when purchasing used books. The
College Bookstore will buy back used books in good usable condition in
quantities limited to the anticipated needs for ensuing semesters. Book
buy back periods are announced at the end of each semester. Students
selling books back to the bookstore will be required to furnish a Roane
State Community College ID card. For more information, visit http://
www.roanestate.edu/bookstore or call toll free at 1-866-462-7722 ext.
4671 or 865-882-4671.

Check Cashing/Acceptance Policy

Roane State provides a free check cashing service as a convenience to our
students and employees. Personal checks for an amount up to $25 will be
cashed at the cashiers window or bookstore at the Roane County and Oak
Ridge campuses with appropriate identification.

If a check written for payment of a student’s maintenance fee is returned,
the student has (10) days in which to make restitution to the college via
payment by cash, certified check, cashier’s check, or postal money order.
Failure to make such restitution will result in immediate disenrollment.
Suspension from classes could also result from checks returned on the
purchase of books or payment of other fees.

The college reserves the right to refuse to cash any check. Appeals
concerning the cashing of checks may be made to the Assistant Vice
President for Fiscal and Auxiliary Services.

Financial Aid Information

The financial aid program at Roane State Community College is designed
to aid students who would find it difficult or impossible to attend college
without financial assistance. Roane State offers a comprehensive program
of financial aid in the form of scholarships, work study, grants and loans.
Major emphasis is placed upon financial need, academic achievement,
character, and promise of future success. For assistance with your
Financial Aid needs you may call toll free 1-866-GO2-RSCC ext. 4545 or
1-865-354-3000 ext. 4545.

The basis for determining financial need is the result of an analysis of the
parents’ and/or student’s resources as provided by the Free Application
for Federal Student Aid (FAFSA). Students can access the form online
at http://www.fafsa.ed.gov. All campuses can assist families in filling out
the application.

Eligibility for financial aid is based on financial need, availability of funds
and ability to maintain satisfactory progress. To qualify a student must:

1. Be admitted to attend or currently attending Roane State in an
   approved degree or certificate program and
2. Submit academic transcripts from all previously attended
   colleges and
3. Submit the online Free Application for Federal Student Aid to
determine financial need
4. Submit verifying documents if requested by the Financial Aid
   Office and
5. Meet Roane State’s satisfactory progress standards as noted in a
   later section.

Roane State encourages students to complete the Free Application for
Federal Student Aid (FAFSA) as early as possible after January 1st
availability each year. Roane State has set the following priority dates for
file completion:

- Fall semester files should be completed by August 1st to ensure
  processing for fee payment.
- Spring semester files should be completed by December 15th to
  ensure processing for fee payment.
- Summer semester files should be completed by May 1st to
  ensure processing for fee payment.

Students applying after the priority dates listed above will be required to
pay for the tuition and fees, and possibly be reimbursed if they qualify for
financial aid assistance at a later date.

Federal Pell Grants

Federal Pell Grants are an made available through the Title IV Student
Financial Aid Programs and funded by tax dollars. Students should apply
early through the FAFSA (Roane State’s school code is 009914) and
make the Federal Pell Grant the primary source of financial aid since all
other sources of assistance are based upon this eligibility. The FAfSA is
available January 1st of each year. Effective 2012-13, a lifetime limit of
the Pell grant is equal to 12 full-time semesters and is monitored by the
Department of Education.

Federal Supplemental Educational
Opportunity Grant (FSEOG) and
Federal Work-Study Program (FWS)

As part of the federally funded Campus-based Programs of Title IV,
students may be considered for these additional funds after eligibility for
the Federal Pell Grant has been determined. These programs have limited
funding. Awards from these programs are made in the fall semester of
each year, on a first-come, first-served basis.

If a student wants to be considered for FSEOG funds, he/she must fill out
the FAFSA and complete the financial aid file as early as possible, since
these awards are made on a first-come, first served basis. The FAFSA is
available January 1st of each year.

If a student wants to be considered for the Federal Work-Study program,
he/she must fill out the FAFSA, have a completed financial aid file and
apply with the online Federal Work-Study application (accessible through
RaiderNet).

Tennessee Student Assistance Award

The Tennessee Student Assistance Award administered by the Tennessee
Student Assistance Corporation is a grant made available to Tennessee
residents attending college in the State of Tennessee. An application
deadline is assigned by the corporation each year. Funds are limited,
so early application through the FAFSA is important. The FAFSA is
available January 1st of each year.

Student Loans

If students are interested in applying for the student loan programs, they should file the Free Application for Federal Student Aid (FAFSA) and complete any additional requirements requested. In addition, a separate online loan application will be required, accessible through RaiderNet.

The Federal Stafford Loan Program is available to students who have been determined eligible through the above-mentioned need analysis system. All student loans will be handled directly through the U.S. Department of Education. There are 2 types of Federal Direct loans available to RSCC students: subsidized (interest is paid by the Department of Education while the student maintains half-time enrollment) or unsubsidized (a variable interest loan). Repayment begins six months after the student withdraws, graduates or drops to less than 6 credit hours. Loan limits are a minimum of $500 and a maximum allowed by the Department of Education. More details are available in the required reading for the online loan application.

The Financial Aid Office will strive to process loans quickly and accurately. Remember, a student loan is the student’s and it is beneficial to be informed, borrow conservatively, and ask questions.

For more information please call toll free 1-866-GO2-RSCC ext. 4545 or 865-882-4545.

Satisfactory Progress Standards

The regulations that students receiving financial aid must follow are:

1. Must be working toward an associate’s degree or certificate (some certificates may not be eligible pending approval of program). Special students for credit are not eligible for any funding.
2. May receive federal funding for: 30 attempted Learning Support hours; 90 attempted college credit hours if degree seeking OR up to the point when all courses required for the program have been completed, whichever occurs first. (All attempted hours at RSCC and any other college or university attended count whether you receive funding or not); hours vary if certificate seeking (ask about limits).
3. Class attendance will be monitored. If reported by instructor for non-attendance, a student may be billed.
4. Class attendance will be verified before aid is disbursed.
5. A student will be on financial aid suspension if (s)he does not pass 67% of total attempted hours (passing grades = A, B, C, D, P only!), or does not keep a 2.0 cumulative grade point average, or exceeds the limit for attempted hours for declared major. These requirements are checked after spring semester. The appeal process will be outlined in the notification sent to the student and available on the RSCC website.
6. If on financial aid suspension, a student may attend Roane State at their own expense.
7. No financial aid (including student loans) may be received if on financial aid suspension.
8. Suspensions may be appealed with documentation to the Financial Aid Office by submitting an online appeal form located in the students’ RaiderNet alert box. All appeals will be reviewed by the Financial Aid Appeal Committee.
9. A student can only receive financial aid at one school during a semester.
10. A student repeating a course(s) which was previously passed with a grade of A, B, C, or D, may repeat the course one additional time and receive federal financial aid. Incomplete (“I”) grades during the second attempt will count and exhaust financial aid eligibility for that course.
11. Financial aid awards are based on enrollment status at time of census date (defined as 14th calendar day of each semester) or enrollment status at time of verification, if after the 14th calendar day of the semester. Awards will not be adjusted after the census date or after verification if occurring after census. This includes adding mini-session courses after the census date.

Presidential Book and Material Scholarship Criteria

1. Two Students from the current graduating class of each public high school in Roane State’s service area (Anderson, Campbell, Cumberland, Fentress, Loudon, Morgan, Roane and Scott Counties) will be offered a $500 book and materials scholarship. The scholarship awards will be based on GPA (minimum of 2.5), financial need, acceptance to Roane State and the recommendation of the high school counselor. In case of a tie, the applicant with the earliest application submission date will be chosen.
2. The Foundation scholarship application must be completed by the last Sunday in March each year to qualify for this scholarship.
3. This is a one-time award and will not be renewed for an additional year.
4. A certificate which entitles them to choose either a $500 Presidential Scholarship for Books and Materials or a new IPAD will be presented at the High School awards night ceremony. The actual award ($250 fall & $250 for spring on the students’ account to purchase books and materials or a new IPAD to be received at the beginning of fall semester) will be granted to the student once he/she has completed enrollment at Roane State for fall and written a thank you letter to the donor.

Roane State Foundation Scholarships

Roane State has over 200 private scholarships through the Roane State Foundation. In selecting recipients for these scholarships, emphasis is placed upon scholastic achievement, character, future promise, and financial need. The scholarship application is available online at http://www.roanestate.edu/scholarships or call toll free at 1-866-GO2-RSCC ext. 4422 or 865-882-4507. The application deadline and scholarship regulations are also found there.

Diversity Scholarships

Students must be either economically disadvantaged, first generation college students, or part of an under-represented ethnic population either at the college or in a program of study, and who have applied for federal student aid through the FAFSA. The Diversity Scholarship will provide money to pay tuition and fees. This application is available on the scholarship website.

Athletic Scholarships

The college annually awards a number of athletic scholarships. For detailed information contact the Director of Athletics at http://www.roanestate.edu/athletics or call toll free at 1-866-GO2-RSCC ext. 4581 or
865-882-4581.

Tennessee Education Lottery Scholarship Program

The Tennessee Lottery Scholarship began in 2004 for high school students. Since that time with additional enhancements, other students are now potentially eligible. Apply by filing a FAFSA beginning January 1 of each year at http://www.fafsa.ed.gov. Application deadline is September 1 of each year for fall enrollment and February 1 for spring enrollment. For additional information and specific eligibility requirements, go to http://www.tn.gov/campusaid and http://www.roanestate.edu/financialaid, or call 865-882-4545 or toll free 1-866-GO2-RSCC ext. 4545.

Student Resources

Counseling/Career Services

Counseling and Career Services was established to aid students in successfully completing their college work and establishing good foundations for future growth. Counselors provide a wide range of services including; assistance with transitioning to college and basic college survival skills, short-term personal counseling for enrolled students, career assessments and individualized career counseling, resources and assistance with test anxiety issues, referrals to campus and community resources, and disability services. For more information please visit www.roanestate.edu/counseling or www.roanestate.edu/careerservices. The Roane County office may be reached toll free at 1-866-462-7722 ext. 4546 or 865-882-4546. The Oak Ridge office may be reached toll free at 1-866-462-7722 ext. 2003 or 865-481-2003.

Disability Services

Roane State complies with Section 504 of the Rehabilitation Act of 1973 and with the Americans with Disabilities Act (ADA) of 1990 (as amended in 2008). Any student who has a disability that would like to request reasonable accommodations must contact Counseling, Career, and Disability Services to self-identify and to provide appropriate documentation of the disability from a qualified professional. Participation in the services is on a voluntary basis, and accommodations are coordinated on a case-by-case basis through Counseling, Career, and Disability Services. Accommodations are not retroactive, and they do not roll from semester to semester. Students are required to schedule an appointment for accommodations with a Counselor each semester before classes begin. The Disability Services Handbook, which outlines policies and procedures for obtaining services, may be accessed online at http://www.roanestate.edu/disabilityservices. The Roane County office may be reached toll free at 1-866-462-7722 ext. 4546 or 865-882-4546. The Oak Ridge office may be reached toll free at 1-866-462-7722 ext. 2003 or 865-481-2003.

Food Services

The Raider Cafe at the main campus and Anderson’s Grille at the Oak Ridge Branch Campus are operated by private contractors for the express purpose of providing students with good quality food. When classes are in session, they are open from 9:00 a.m. until 2:00 p.m. Summer hours may differ.

RSCC provides vending machines stocked with drinks, candies, chips, sweets, soup, and other items through a contractual agreement with a private vending contractor. To ensure that all vending products are fresh and good-tasting, the vendor replaces all unsold machine items on a regularly scheduled basis.

Inclement Weather Information

RSCC recommends that students use their own discretion in attending classes when snow and icy conditions exist. Additional information on the cancellation of classes due to inclement weather is available from the Roane State homepage, local news media, and RaiderAlert, which sends safety and weather text messages to your mobile device. Students, faculty, and staff may enroll in RaiderAlert at http://www.roanestate.edu/raideralert.

Learning Centers

The Learning Centers support the classroom experience by providing individual assistance, learning technology and other resources for students, and support services for faculty. We promote a positive and confident attitude toward learning. We offer an environment designed to help students take responsibility for their learning, learn efficiently, persist in their efforts to reach academic and career goals, and achieve academic excellence. Our secondary mission is to make our resources available to students in their efforts to reach academic and career goals, and achieve academic excellence. Our secondary mission is to make our resources available to staff and community. There are Learning Centers on the Roane County Campus (second floor of the Library), the Cumberland County Campus (Rm. 152), and the Oak Ridge Branch Campus (in the Library). Visit our web site at http://www.roanestate.edu/learningcenter or call tollfree at 1-866-462-7722 ext. 4677 or 865-882-4677.

Tutoring in Math, Science and Other Disciplines - The Learning Centers provide tutoring in a variety of disciplines. Students can check the schedule for available tutors that is published in the Learning Center website, distributed around the campuses, and posted outside the Learning Centers. The software that accompanies the college’s math courses is loaded on Learning Center computers and is available to students.

Writing Help - Each center offers the following help to students: Writing consultations are available by appointment for one-to-one interaction with individual writers. The writing consultants (usually the director or a student writing tutor) do not edit or proofread writing assignments. When working with students, they focus on rhetorical and logical structure. Students are introduced to models of excellence in writing and challenged to think clearly and critically. We look for patterns of error and stress solid organization. To make an appointment, students may come by the centers or call 865-822-4677 in Roane County, 865-481-2026 in Oak Ridge, or 931-456-9880 in Cumberland County.

The RSCC Online Writing Lab (OWL) - It contains a number of online documents that students can access to help solve their writing and research problems. The documents include brief instructions for writing essays in various rhetorical modes, along with student samples; guidelines for writing research papers; help in using MLA style and quotations; tips for conducting interviews and for keyboarding; help with organization and writing introductions and conclusions; and information on conducting research on the Web. The OWL also includes a wealth of information for faculty, including links to other OWLs and professional sites across the country and to Web assignments. It can be accessed at http://www.roanestate.edu/owl.

Online Tutoring - The Learning Centers also provide free online learning assistance for Roane State students through SMARTTHINKING.COM.
SMARTTHINKING provides online tutoring in Mathematics (Basic Skills - Calculus II), Writing, General Chemistry, Organic Chemistry, Physics, Biology, Introduction to Human Anatomy and Physiology, Accounting, Economics, Introductory Finance, Spanish, and Statistics. Online Math tutors are available 24 hours a day, seven days a week during the school year.

**Group Study Rooms** - Students may sign up to use one of the Group Study Rooms located on the Roane County, Oak Ridge or Scott County campus.

**TV/VCR Use** - Students may use TV/VCR set-ups in the Learning Centers to watch course-related videos.

**Computer Use** - Each center is equipped with computers that have Microsoft Word, Excel, and other Microsoft products. Center staff members provide free basic computer instruction. It is not necessary to make an appointment to use a computer. The centers also provide RaiderNet access.

**Libraries**

Roane State Libraries are here to help all Roane State students in every discipline. The librarians can help you find the books, articles, videos, databases and website you need to succeed in your classes. They can also help you learn how to do research.

Roane State has libraries at the Harriman, Oak Ridge, and Scott campuses. They can send books from these three locations to any other Roane State teaching location. The libraries also offer eBooks, eJournals, online videos and other online resources to support students wherever they need to learn.

Using the library can make your life a lot easier. Phone: 1.866.462.7722, x 4553 (toll-free) or 865.882.4553. Our website is: [http://www.roanestate.edu/library/](http://www.roanestate.edu/library/). Twitter: @rscclibrary Facebook: rscclibrary

**Placement Office**

Roane State’s Placement Office offers a full range of job search services to students and alumni seeking employment opportunities. It is our goal to provide these services via the Placement webpage ([www.roanestate.edu/placement](http://www.roanestate.edu/placement)) as well as through contacting the Placement Office located on the Harriman campus. Services include assistance in resume and cover letter preparation; improving interview and presentation skills; providing individual counseling and group seminars to assist with a self-directed job search and any other necessary skills needed to help the applicant to be competitive in today’s job market. RaiderRecruit is our online system where employers post their job opportunities and students/alumni upload their resumes which in turn will auto-match applicants with employers. This program also assists with many other job search resources customized to each student’s preference. Career Spots employer/recruiter based videos focus on effective job search techniques as well as providing a Career Exploration library of 550 videos describing the specific job/occupation details of each.

Other services provided by the Placement Office include Co-op/Internship information and assistance; Federal Work Study placements; weekly job search articles and various other job search resources links to access when needed. Online services provide job search assistance 24/7. The Placement Director is always available to meet individual requests when needed.

---

**Student Handbook**

**Student Rights and Freedoms**

**Preamble**

Academic institutions exist for the transmission of knowledge, the pursuit of truth, the development of students, and the general well-being of society. Free inquiry and free expression are indispensable to the attainment of these goals. As members of the academic community, students should be encouraged to develop the capacity for critical judgment and to engage in a sustained and independent search for truth. Institutional procedures for achieving these purposes may vary from campus to campus, but the minimal standards of academic freedom of students outlined below are essential to any community of scholars.

Freedom to teach and freedom to learn are inseparable facets of academic freedom. The freedom to learn depends upon appropriate opportunities and conditions in the classroom, on the campus, and in the larger community. Students should exercise their freedom with responsibility.

The responsibility to secure and to respect general conditions conductive to the freedom to learn is shared by all members of the academic community. Tennessee Board of Regents institutions have developed policies and procedures which provide and safeguard this freedom. The purpose of this statement is to enumerate the essential provisions for students’ freedom to learn.

**Freedom of Access to Higher Education**

The admissions policies of each Tennessee Board of Regents institution are a matter of institutional choice, provided that each institution makes clear the characteristics and expectations of students which it considers relevant to success in the institution’s program. Under no circumstances should a student be barred from admission to a particular institution on the basis of race. Thus, within the limits of its facilities, each institution should be open to all students who are qualified according to its admissions standards. The facilities and services of a TBR institution should be open to all of its enrolled students.

In the Classroom

The professor in the classroom and in conference should encourage free discussion, inquiry, and expression. Student performance should be evaluated solely on an academic basis, not on opinions or conduct in matters unrelated to academic standards.

1. **Protection of Freedom of Expression**

Students should be free to take reasoned exception to the data or views offered in any course of study and to reserve judgment about matters of opinion, but they are responsible for learning the content of any course of study for which they are enrolled.

2. **Protection Against Improper Academic Evaluation**

Students should have protection through orderly procedures against prejudiced or capricious academic evaluation. At the same time, they are responsible for maintaining standards of academic performance established for each course in which they are enrolled.

3. **Protection Against Improper Disclosure**
Certain information about students is protected from public disclosure by Federal and state laws. Protection against improper disclosure is a serious professional obligation. Judgments of ability and character may be provided under appropriate circumstances.

1 Adapted from AAUP Statement of RIGHTS AND FREEDOMS OF STUDENTS

Student Responsibility

There are a number of established policies and regulations and student right-to-know information, developed by the College as well as mandated by the Tennessee Board of Regents, that exist for the welfare of both students and the College. It is the student’s responsibility to become familiar with these policies and regulations: GA-21-03 (Drug Free Environment); GA-08-01 (Admission to Buildings); GA-13-01 (Emergency Procedures-Fire & Bomb); GA-20-01 (Alcoholic Beverages); GA-21-01 (Smoking & Tobacco Products); GA-06-03 (Bulletin Boards); TBR Policy 3:02:00:01 (General Regulations on Student Conduct and Disciplinary Sanctions). Students may see the Assistant Vice President of Student Services/Dean of Students for clarification of these policies and regulations.

Policy Making and the Student

Students have the right to voice their opinions and ask questions concerning current issues or policies of the College. RSCC students may participate in the decision making process through the Student Government Association/Campus Activities Board, by representation on some standing college committee, as well as participation on the Academic Curriculum Council. In addition, RSCC has an “open door policy” which allows students the opportunity to express their views through college administration.

Student Complaints

Roane State Community College is committed to providing a quality educational experience for all students. Students are encouraged to take advantage of all relevant services and programs offered by the College, therefore RSCC is concerned that all students receive the best treatment possible by college personnel. However, if a student feels he/she has not received fair treatment, or has a complaint regarding some situation or condition (financial aid, tuition, refunds, parking tickets, advisement, records, admissions, facilities, classroom concerns, student conduct, etc.) at the College, the student may address the complaint in writing (student complaint form) to the Assistant Vice President of Student Services. The Assistant Vice President of Student Services will investigate the complaint, consulting with other RSCC personnel as needed and will notify the student of the outcome. If the student is not satisfied with how the Assistant Vice President of Student Services has tried to resolve the issue, the student may be heard by the Vice President for Student Learning and/or the Vice President of Student Services and Enrollment Management. The student complaint form may be accessed at http://www.roanestate.edu/studentcomplaints.

TBR Student Complaint Procedures

Students or prospective students who wish to file a complaint related to accreditation or regarding violations of state law not resolved at the institution may submit a Student Complaint Form to the Tennessee Board of Regents at 1415 Murfreesboro Road, Suite 340, Nashville Tennessee 37217, or by going on line and filling out the form electronically at http://www.tbr.edu/contact/default.aspx?id=2936. Under Tennessee’s open records law, all or parts of complaints will generally be available for review upon request from a member of the public.

Complaints regarding accreditation can also be made by contacting the Southern Association of Colleges and Schools Commission on Colleges, 1866 Southern Lane, Decatur Georgia 30033-4097, telephone: 404.679.4500 (www.sacscoc.org).

Complaints of fraud, waste or abuse may be made by email at reportfraud@tbr.edu or by calling the Tennessee Comptroller’s Hotline for Fraud, Waste and Abuse at 1.800.232.5454.

Student Conduct and Discipline

The Office of the Assistant Vice President of Student Services continually updates policies and procedures governing student conduct and disciplinary sanctions. Colleges recognize the student as an adult pursuing an education. Just as a student does not lose citizenship rights upon enrolling at a college, the student also does not become immune to society’s obligations and laws or to the responsibilities of daily living in a broader society. In general, the behavioral norms expected of the college student are those of common decency and decorum, recognition of and non-infringement upon the rights and property of others and of the college, honesty in academic work and all other activities, and observance of local, state and federal laws.

The Assistant Vice President also investigates conduct and discipline issues. Students are expected to conduct themselves in accordance with the rules and regulations of the college. Students, like all members of the college - faculty, administration, and staff members - assume the responsibility to conduct themselves in compliance with the objectives and standards of conduct established by the college. To locate the full version of the RSCC Student Disciplinary Policy SA-06-01, please visit http://www.roanestate.edu/deanofstudents or call toll free at 1-866-462-7722 ext. 4550 or 865-882-4550.

Student Right To Know

The Student Right-To-Know Act, 34, CFR668, 41, requires all institutions who participate in financial assistance programs under Title IV of the Higher Education Act of 1965, and who award athletically-related student aid to publish the freshmen rate of athletically-related financial aid and the graduation rate or completion rate for all first-time, full-time, degree, or certificate seeking freshmen who entered college by fall 1996 and subsequent years.

For current Student Right to Know and Crime on Campus reports, visit http://www.roanestate.edu/deanofstudents or call toll free at 1-866-462-7722 ext. 4550 or 865-882-4550.

Campus Safety and Security

Reporting Procedures for the Crime Awareness & Campus Security Act of 1990

Any student, employee, or visitor on campus should report the incidence of criminal activity to the Roane State Department of Public Safety (ext. 4500), toll free at 1-866-462-7722 ext. 4500 or 865-882-4500 and/or to the Office of the Assistant Vice President of Student Services (ext. 4550), toll free at 1-866-462-7722 ext. 4550 or 865-882-4550. Criminal activity at any satellite location should be reported to the campus director who,
in turn, will report to appropriate officials. For further details visit http://www.roanestate.edu/deanofstudents.

Additional Student Information

For more details on the following critical student information, visit http://www.roanestate.edu/deanofstudents or call toll free at 1-866-462-7722 ext. 4550 or 865-882-4550.

- Drug Free Communities Statement
- Federal Student Right to Know (Crime Statistics)
- Nondiscrimination on the Basis of Sex in Education Programs and Activities
- Sexual Offender Notification
- Subsidiary Use of the College Campus
- Other Student Support Services

Academic Standards and Expectations

Statement of Academic Integrity

An essential feature of any institution of higher learning is a commitment to maintaining an atmosphere of intellectual integrity and academic honesty. Plagiarism (the use of the intellectual property of someone else without giving proper credit), cheating, and other forms of academic dishonesty are prohibited. The instructor has the authority to assign an “F” or a zero for the exercise or examination, or to assign an “F” in the course, to a student found guilty of academic misconduct.

Each student is responsible for his/her own personal integrity and honor in academic life, and when accepting admittance to Roane State, affirms and subscribes to this commitment to neither knowingly give nor receive any inappropriate assistance in academic work.

Academic Program Opportunities

Cooperative Education

The Cooperative Education program provides students with meaningful work experience related to their major field of study. The Placement Office at Roane State works with students and/or area employers to develop cooperative education experiences for Roane State students. These experiences allow the student to get practical on-the-job training prior to entering the work force. Cooperative education work assignments at Roane State are concurrent, meaning that the student is enrolled in coursework leading to an associate degree while working.

Students must be in good academic standing and have completed 12 semester hours of coursework in their major (excluding Academic Development courses). A student may earn a maximum of 12 semester hours of co-op credit which may then be used toward general elective credit in the program of study. Students interested in receiving cooperative education credit must be registered with the Placement Office, however registration does not guarantee a successful co-op placement.

Co-op students must work a minimum of 10 hours per week over a 15-week period to receive co-op credit. While most co-op experiences are paid positions, some grant academic credit only.

All participants will be evaluated by the employing supervisor and will receive either a letter grade or pass/fail at the conclusion of the semester. Students are also asked to evaluate the employer and write a summary of the co-op experience. Visit http://www.roanestate.edu/placement for more information or to contact the Placement Coordinator toll free at 1-866-462-7722 ext. 4695 or 865-882-4695.

Honors Program

The Honors Program is the core of a variety of enrichment opportunities available at Roane State. The program offers a unique course of study to the most promising students at the college. The program, in affiliation with the National Collegiate Honors Council, is designed around the concept of student initiative and academic achievement. It is designed for students who want more from their collegiate experience. It provides opportunities to experience learning at a deeper level while having some responsibility for expression in creative academic projects. Honors serves students who work hard, raise questions, and seek answers.

The Honors Program maintains strict standards for admission and participation. However, there are no extra fees to pay and many services are provided at no cost to the students. The most important criterion for success is each student’s motivation and dedication to learning.

Admission Requirements

You may apply to the program if you are a:

- Freshman who has attained a 3.5 GPA in high school and/or scored 25 or higher on the ACT
- Current RSCC student who has attained a 3.5 GPA with a minimum of 12 college level credits
- Transfer student who has attained 3.5 GPA with at least 12 college-level credits from another accredited institution.

NOTE: Some exceptions to these requirements are made based on a personal interview.

Honors students enjoy benefits such as field trips, social gatherings, cultural events, special programs and presentations. Members of the Honors Program are invited to join Phi Theta Kappa International Honor Society, which provides many transfer scholarships to four-year institutions.

Those who earn twelve hours of Honors credit and maintain at least a 3.3 GPA graduate as an Honors Associate and receive a certificate. Those who earn eighteen hours and maintain a 3.3 GPA graduate from the Honors Program and receive an Honors diploma. All Honors graduates and Phi Theta Kappa members receive special recognition at graduation. For more information visit http://www.roanestate.edu/honorsprogram or call toll free at 1-866-462-7722 ext. 4271 or ext. 2010 or 865-354-3000 ext. 4271 or ext. 2010.

International Education

Roane State Community College strives to provide International Education opportunities by bringing the world to our students and by bringing the college and the beauty of the Tennessee mountains to the world.

The International Education Office offers our Tennessee students, faculty and staff the opportunity to experience other cultures and life-styles and, through friendship and knowledge, embrace the world. These are not simply tourist travels: our experienced faculty is dedicated to true cultural immersion and deep sociological experiences.
Our International Students Office welcomes international students and collaborates with academic deans to offer a wide range of the highest quality learning opportunities. See http://www.roanestate.edu/internationaleducation for more information or call toll free at 1-866-462-7722 ext. 4643 or 865-882-4643.

Classroom Expectations

Attendance Regulations
1. Attendance of classes and other official appointments is expected and may be included in the calculation of a student’s final grade.
2. An explanation of absences should be given to instructors. This information should be presented in advance if possible.
3. Absences are counted from the first scheduled meeting of the class. Non-attendance does not constitute a withdrawal from classes or from the college. Procedures to formally drop a course or to withdraw from the college must be followed. Following these procedures may prevent a failing grade on a student’s transcript.
4. Some Health Science and Nursing programs may have attendance requirements that affect progress or retention in the program. Contact the program director for detailed information.
5. Attendance will be monitored for students who receive Title IV financial aid funds. Lack of attendance could mandate administrative withdrawal and necessitate the repayment of financial aid funds.

Cell Phone Use

The use of cell phones or pagers within the classroom setting is expressly prohibited. All cell phones and pagers should be placed on silent mode, put away, and kept out of sight for the duration of the class.

Children on Campus

Children should not be brought to the classroom or left unattended in any RSCC location. Out of consideration to fellow students, faculty and staff, and for safety reasons, please secure appropriate baby-sitting services off-campus.

Student Emergency Calls

The only option the college has to locate a student on campus is via the student’s class schedule. We will not be able to locate you if you are not in class. Therefore there must be an extreme emergency to justify interrupting the classroom. The office of the Assistant Vice President and Dean of Students will determine the legitimacy of the emergency call. An extreme emergency would include a sick child needing to be picked up at daycare; a serious injury to a family member; a death in the family, or other traumatizing event. The classroom will not be disturbed to deliver a message to remind the student to take care of personal business matters such as your work schedule; keeping doctor appointments; to pay your bills; to stop by the grocery store. These issues have to be managed by the student outside the classroom. Please make sure you communicate daily with relevant family members and others about your whereabouts especially if your schedule changes in any way. Remember, we cannot locate you if you are not in class should a legitimate emergency arise. You may contact the office of the Assistant Vice President and Dean of Students if you have questions at 865-882-4550.

Academic and Classroom Misconduct

1. The instructor has the primary responsibility for maintenance of academic integrity and controlling classroom behavior, and can order the temporary removal or exclusion from the classroom of any student engaged in disruptive conduct or conduct that violates the general rules and policies of the institution for each class session during which the conduct occurs. Extended or permanent exclusion from the classroom, beyond the session in which the conduct occurred, or further disciplinary action can be effected only through appropriate procedures of the institution.
2. Plagiarism, cheating, and other forms of academic dishonesty are prohibited. Students guilty of academic misconduct, either directly or indirectly through participation or assistance, are immediately responsible to the instructor of the class. In addition to other possible disciplinary sanctions which may be imposed through the regular institutional procedures as a result of academic misconduct, the instructor has the authority to assign an appropriate grade, including an “F” or a “zero” for the exercise or examination. In cases where the instructor imposes Summary Academic Discipline by assigning an “F” for the course rather than a single exercise or assignment, the instructor shall make a written notification to the appropriate Academic Dean and the Assistant Vice President of Student Services/Dean of Students for an “F” to be assigned to the class in question. Disciplinary sanctions will be imposed only through appropriate institutional disciplinary processes coordinated by the Assistant Vice President of Student Services/Dean of Students when deemed necessary.
3. Students may appeal a grade assignment associated with a finding of academic misconduct, as distinct from a student disciplinary sanction, through appropriate institutional academic misconduct or grade appeal procedures. Courses may not be dropped pending the final resolution of an allegation of academic misconduct. At RSCC, an administrative hold may be placed on the student’s registration by the Registrar per notification to the appropriate Academic Dean pending final resolution of the allegation of academic misconduct. In order to initiate an administrative hold for suspicion of academic misconduct, an instructor will notify the appropriate Academic Dean. If the Academic Dean is satisfied that an administrative hold is warranted, he/she will notify the Registrar, who will implement the hold. The administrative hold may be implemented even if the student has dropped the course in question. If the allegation is disproven, the administrative hold will be lifted by the Registrar as directed by the appropriate Academic Dean or Vice-President of Student Learning. Grade appeal procedures can be found in the online RSCC catalog at http://www.roanestate.edu/catalog/, scroll to student handbook.
4. Disruptive behavior in the classroom may be defined as, but not limited to, behavior that obstructs or disrupts the learning environment (e.g., offensive language, harassment of students and professors, repeated outbursts from a student which disrupt the flow of instruction or prevent concentration on the subject taught, failure to cooperate in maintaining classroom decorum, etc.), text messaging, and the continued use of any electronic or other noise or light emitting device which disturbs others (e.g., disturbing noises from beepers, cell phones, palm pilots, lap-top computers, games, etc.).
5. Other conduct violations as described in handbooks for specific programs of study.

For further information regarding Academic Misconduct, please refer to the RSCC Academic Misconduct web page: http://www.roanestate.edu/?7825-Academic-Misconduct.
Academic Programs

General Education Mission and Purpose

General Education Philosophy

As productive members of a democracy, our students must accept the responsibility of making important decisions. The General Education curriculum is designed to enable students to develop the skills needed to identify problems, research and evaluate alternative solutions, and implement decisions. An ability to solve problems by using quantitative and qualitative reasoning and contemporary technologies is critical for success in the professional world and for evaluating matters of local, national, and global importance. Likewise, an ability to communicate well in a competitive and technological world is crucial to the success of our students. For communities to improve their social, economic, and physical environments, citizens must be able to express their ideas in writing and speech, listen and evaluate multiple viewpoints, and civilly debate possible courses of action. The General Education curriculum at Roane State is built upon objectives that prepare students to attain these skills.

RSCC General Education Mission

Roane State Community College’s teaching and learning mission is grounded in a commitment to provide students with learning experiences, built on general education competencies that will prepare them to become life-long learners. As a member of the Tennessee Board of Regents (TBR) System, Roane State supports the philosophy that students should develop broad knowledge and skills in the areas of communication, humanities/fine arts, social/behavioral sciences, history, natural sciences, and mathematics. Roane State’s general education core curriculum integrates these competencies into the courses for which they are appropriate.

Courses Fulfilling General Education Requirements

Although the courses fulfilling the minimum degree requirements may vary in actual design among institutions, many contain similar content. These courses are identified by common course rubrics (prefixes and numbers) in all TBR institutions to facilitate transferability. The actual courses designated by each institution to fulfill the Minimum Degree Requirements, including courses that may not be a part of the common course prefix and numbering pattern, are listed below. A complete matrix of courses that satisfy the Minimum Degree Requirements at all TBR institutions and an explanation of the common course rubric and numbering system are available on the TBR website (http://www.tbr.edu).

Communication
ENGL 1010 Composition I
ENGL 1020 Composition II
SPCH 1010 Fundamentals of Speech Communication

Humanities and/or Fine Arts
ARTH 1030 Art Appreciation
ARTH 2010 Survey of Art History I
ARTH 2020 Survey of Art History II
ENGL 2110 American Literature I
ENGL 2120 American Literature II
Transfer to a University

Students who desire to earn a Bachelor of Arts or Bachelor of Science degree at a four-year college or university may complete the first two years of study at Roane State by enrolling in an Associate of Arts (AA) or Associate of Science (AS) degree program. The advantages of taking the first two years at Roane State include:

- Roane State’s tuition and fees are among the lowest of any of Tennessee’s colleges and universities.
- Roane State’s class size is generally smaller which lends itself to more individualized instruction.
- Obtaining an Associate of Arts or Associate of Science degree allows a student to have credentials for employment while completing his/her baccalaureate degree.

Transfer Program Options

Tennessee Transfer Pathways
Tennessee Transfer Pathways (TTP) help students who plan to transfer to Tennessee public universities to complete their baccalaureate degrees. A student who completes all the courses listed on a TTP will earn an AA or AS degree from Roane State and is guaranteed that all the courses will count toward that university major. The Tennessee Transfer Pathways’ prescribed curriculum must be followed exactly to ensure all credit hours transfer. Particular universities or programs may have additional requirements that apply. Admission into a university does not guarantee acceptance of RSCC courses for transfer and the fulfillment of degree requirements rests with the four-year college/university. A complete listing of course-by-course equivalencies is available at www.roanestate.edu/articulation listing of course-by-course equivalencies is available at www.roanestate.edu/articulation

Articulation Agreements

Not all majors/programs are available through the Tennessee Transfer Pathways. Articulation Agreements exist to assist students with course selection for a particular senior institution and major. The agreements specify a curriculum that has been agreed upon by Roane State and a four-year college or university to satisfy degree requirements at both institutions. Completion of the first and second year of the agreement results in the completion of an AA or AS degree at Roane State. The remaining requirements for the third and fourth year are those required by the four-year college/university. For more information go to: www.roanestate.edu/articulation

Course Equivalencies

In the event that a student selects a major or college/university for which there is no Tennessee Transfer Pathway, or articulation agreement, the student may use the course equivalency tables to choose transferable courses and will follow the requirements for the AA or AS degree. The acceptance of RSCC courses for transfer and the fulfillment of degree requirements rests with the four-year college/university. A complete listing of course-by-course equivalencies is available at www.roanestate.edu/articulation
Associate of Arts (AA) and Associate of Science (AS) Degrees - Requirements

Communication: All Required
ENGL 1010 Composition I
ENGL 1020 Composition II
SPCH 1010 Fundamentals of Speech Communication

Literature: One course *(ENGL1020 is prerequisite)
ENGL 2110 American Lit I
ENGL 2120 American Lit II
ENGL 2210 British Lit I
ENGL 2220 British Lit II
ENGL 2310 World Lit I
ENGL 2320 World Lit II

Humanities/Fine Arts: 2 courses
ARTH 2010 Survey of Art History I
ARTH 2020 Survey of Art History II
ARTH 1030 Art Appreciation
MUS 1030 Music Appreciation
PHIL 1030 Intro to Philosophy
PHIL 121 Elementary Ethics
PHIL 201 Intro to Religions of World
THEA 1030 Intro to Theater
Any other ENGL Literature course* *(ENGL1020 is prerequisite)

Social Science: 2 courses
ANTH 2150 Native American Studies
ECON 2010 Macroeconomics
ECON 2020 Microeconomics
GEOG 1220 Human Geography
GEOG 2010 World Regional Geography
INTL 1010 Intro to Global Studies
POLS 1030 American Government
POLS 1025 Intro to Political Science
PSYC 1030 General Psychology
PSYC 2220 Biological Basis of Behavior
PSYC 2130 Life Span Psychology
SOCI 1010 Intro to Sociology
SOCI 1020 Social Problems
SOCI 2110 Cultural Anthropology
SOCI 2120 Prehistoric Archaeology
WELL 1010 Lifetime Wellness

History: 2 course sequence
HIST 1010/1020 Western Civilization
HIST 1210/1220 World History
HIST 2010/2020 US History
HIST 2030 TN History (may substitute for 1 US History course)
(With check with your senior institution before taking history)

Natural Science: 2 courses
ASTR 1010/1020 Astronomy
BIOL 1110/1120 Gen Biology
BIOL 2010/2020 Anatomy and Physiology
CHEM 1010/1020 Intro to Chemistry
CHEM 1110/1120 General Chemistry
GEOL 1040/1050 Phys/Historical Geology
PHYS 2010/2020 Non-Calc Physics
PHYS 2110/2120 Calculus-Based Physics

Mathematics: 1 course
MATH 1130 College Algebra
MATH 1410 Number Con/Alg Structures
MATH 1530 Probability and Statistics
MATH 1630 Finite Math
MATH 1720 Trigonometry
MATH 1730 Pre-Calculus
MATH 1830 Calculus for Business
MATH 1910 Calculus I

Transferrable Electives: 19 credit hours required
Students should select appropriate electives for their intended major at the four-year institution. For the A.A. degree, a student must complete 6 credit hours of foreign language as part of the electives.

Total Required credit hours for the AA or AS degree: 60

Transferability of Courses to Tennessee Board of Regents (TBR) Institutions

Although the courses designated by TBR institutions to fulfill the requirements of the general education subject categories vary, transfer of the courses is assured through the following means:

- Upon completion of an A.A. or A.S. degree, the requirements of the lower division general education core will be complete and accepted by a TBR university in the transfer process.
- If an A.A. or A.S. is not obtained, transfer of general education courses will be based upon fulfillment of complete subject categories. (Example: If all eight hours in the category of Natural Sciences are complete, then this “block” of the general education core is complete.) When a subject category is incomplete, course-by-course evaluation will be conducted. The provision of block fulfillment pertains also to students who transfer among TBR universities.
- Institutional/departmental requirements of the grade of “C” will be honored. Even if credit is granted for a course, any specific requirements for the grade of “C” by the receiving institution will be enforced.
- In certain majors, specific courses must be taken also in general education. It is important that students and advisors be aware of any major requirements that must be fulfilled under lower-division general education.

A complete listing of the courses fulfilling general education requirements for all TBR institutions is available on the TBR website (http://www.tbr.edu) under Transfer and Articulation Information.

Every TBR institution incorporates the 41 semester hours listed above into its degree program requirements and accepts all courses designated as meeting these requirements at other TBR institutions. By ensuring the transferability of courses fulfilling the Minimum Degree Requirements, the TBR has eliminated unnecessary repetition of these courses by students transferring to institutions within the TBR system. Because each TBR institution has a unique mission and its own distinctive curriculum, an institution may require students to complete additional courses in the Minimum Degree subject areas and in other areas that may comprise an institutional General Education Program. Students planning to receive a bachelor of arts or associate of arts degree must demonstrate proficiency in a foreign language as prescribed in the institutional degree requirements.
Academic Plans

Accounting

Students who follow this academic plan will receive an Associate of Science with a concentration in Accounting.

- Students are strongly encouraged to complete a course in Mechanics of Materials, also known as Strength of Materials, before transferring to a University.
- Courses in Engineering Technology do not fulfill any of the requirements for the Area of Emphasis in Civil Engineering.
- Although it is possible to complete the B.S. Degree in Civil Engineering in four semesters after earning an Associate’s Degree, students typically need five or six semesters to complete the requirements.

Early Childhood Education PreK-3

Students who follow this academic plan will receive an Associate of Science in Teaching.

The A.S.T. curriculum in Early Childhood Education is designed for students who wish to complete the first two years of a program toward teacher certification in PreK-3 and then transfer to a 4-year college/university for the completion of their Bachelor’s degree. Due to varying requirements of four-year institutions, students are encouraged to select courses in consultation with an education advisor.

Additional Degree Requirements:

1. Attainment of a 2.75 culmulative grade point average
2. Successful completion of Praxis Core Test or ACT score of 22 or higher (See note below)
3. Satisfactory rating on an index of suitability for the teaching profession.

1University of Memphis does not have Development of Exceptional Children in its PreK-3 Curriculum. Students transferring to UM will have to take one other course after transfer.

Praxis Core Test Information

1. If a student fails to receive the minimum score of 150 Math, 156 Reading, and 162 Writing on the first testing, 10 hours of tutoring per subject area not passed is required through approved tutorial support services for remediation purposes. Students will be required to re-test and show improvement through documentation, which will be stated in a form from the person providing tutorial services. For 2+2 students, the first Praxis Core Test attempt should be no later than January of the year they plan to enter the TTU portion of the program. All sections of the Praxis Core Test must be passed prior to an AST being granted.

2. If a student fails to make required score(s) on the second attempt, the following guidelines apply for the students to be eligible to appeal testing requirements:
   1. Two of the three sections of the Praxis Core Test have been successfully completed. The third section of the Praxis Core Test for a person within the following range(s) to be eligible for a waiver:
      - 2.99-2.75 cumulative QPA within one point of passing
      - 3.40-3.00 cumulative QPA within two points of passing
      - 4.00-3.50 cumulative QPA within three points of passing
   2. A formal written request for the waiver must be submitted by the student. In addition, documentation and evidence outlining the student’s progress attained during the tutoring sessions must be provided by the person or unit providing the required tutorial support. The required form(s) may be obtained from the Education Department faculty.
   3. A decision will be made by the Education Department based on all information provided by the student.
   4. If extenuating circumstances exist, an appeal of the department’s decision and meet with the Praxis Core Test Sub-Committee.
   5. The decision of the Sub-Committee is final.

Students transferring to a UT or TBR university may need to meet additional requirements to gain admittance to the university’s early childhood program. Transferring students should check with the university for specific program requirements.

**Elementary Education K-6**

Students who follow this academic plan will receive an Associate of Science in Teaching.

The A.S.T. curriculum is designed for students who wish to complete the first two years of a program toward teacher certification in K-6 (elementary education) and then transfer to a Tennessee Board of Regents University for the completion of their four year degree. This curriculum will meet the lower division requirements for transfer to a Tennessee Board of Regents senior institution granting the bachelor’s degree in elementary education. Due to varying requirements of four-year institutions, students are encouraged to select courses in consultation with an education advisor. Students who plan to transfer to the University of Tennessee or any other non-TBR university should contact their advisor for appropriate degree and transfer information.

**Additional Degree Requirements:**

1. Attainment of a 2.75 cumulative grade point average.
2. Successful completion of Praxis Core Test or ACT score of 22 or higher (See note below)
3. Satisfactory rating on an index of suitability for the teaching profession.

| MATH 2010 Matrix Algebra | 3 |
| MATH 2120 Differential Equations | 3 |
| CHEM 1110 General Chemistry I | 4 |
| ENGR 2110 Statics | 3 |
| ENGR 2120 Dynamics | 3 |

**TOTAL HOURS** 66

- Students are strongly encouraged to complete a course in Mechanics of Materials, also known as Strength of Materials, before transferring to a university.
- Courses in engineering technology do not fulfill any of the requirements for the Area of Emphasis in Mechanical Engineering.
- Although it is possible to complete the B. S. Degree in Mechanical Engineering in four semesters after earning the associate’s degree, students typically need five or six semesters to complete requirements.

This is a Tennessee Transfer Pathway: [www.tntransferpathway.org](http://www.tntransferpathway.org)

| MUS 215 Ear Training III                           | 1     |
| MUS 103 Class Piano I                              | 1     |
| MUS 104 Class Piano II                             | 1     |
| MUS Lessons (arrange with program director)        | 8     |
| MUS Ensembles (appropriate to applied area - consult with faculty advisor) | 4 |

**TOTAL HOURS**

61

*Students will complete the remaining six credit hours of the humanities requirement, including one course in literature, at universities upon transfer.

**Students who plan to transfer to the University of Memphis should complete a course in literature rather than Music Appreciation.

Students must successfully complete placement requirements in music theory, ear training, and piano at the university where transfer is planned. Students must also successfully complete required university auditions as appropriate.

This is a Tennessee Transfer Pathway: [www.tntransferpathway.org](http://www.tntransferpathway.org)

**TOTAL HOURS** 60

*Elective courses should be carefully selected in consultation with a faculty advisor.

**The University of Tennessee, Knoxville does not accept transfer students. Nursing students are admitted in the freshman year at UTK.

***Community college students may also pursue various RN to BSN programs as a means of attaining the BSN degree. These programs assume the completion of the Associate of Applied Science degree with a major in nursing, licensure as a Registered Nurse, and fulfillment of other criteria. Information concerning these programs is available in university catalogs.

****Students who plan to attend the University of Tennessee, Chattanooga and the University of Tennessee, Martin are strongly encouraged to complete BIOL 2230 (Microbiology) and CHEM 1110 (General Chemistry I) before transferring to these institutions.

This is a TN Transfer Pathway: www.tntransferpathway.org

Career Preparation Programs

The Associate of Applied Science programs are designed primarily for students who wish to seek employment after two years of college. These programs are not designed for transfer to a senior institution. Although the general education core is transferable, senior institutions may grant elective credit for other courses in the curricula, and all are college courses. Students planning to graduate with an Associate of Applied Science Degree are required to complete the general education courses of the core curriculum for career preparation programs listed at the beginning of this section.

Core Curriculum for Career Preparation Programs

NOTE: Some degree programs may require more than the minimum 60 hours. See the individual program descriptions.

Areas          Courses

English Composition  3 hours
Humanities/Fine Arts*  3 hours
Social/Behavioral Sciences*  3 hours
Natural Science/Mathematics*  3 hours
One additional course from the categories of: Communication, Humanities/Fine Arts, Social/Behavioral Sciences, or Natural Science/Mathematics*  15 or 16 hours

*Specific courses satisfying these requirements must be the same courses that satisfy the general education requirement for the A.S. and A.A. degrees.

A certain number of credit hours in each program must be completed at Roane State in order to meet the graduation residency requirement. Contact your faculty advisor for the requirement of your program.
Associate of Applied Science Degree Programs

Allied Health Sciences

This is an Associate of Applied Science (AAS) degree program in Allied Health Sciences that will provide a pathway for students who are currently enrolled in or have completed a certificate-level program in an Allied Health Sciences discipline from any TBR institution, or are currently credentialed as allied health/nursing practitioners who wish to continue their formal education and earn an Associate of Applied Sciences degree. Allied Health Sciences discipline-specific core credits may be earned by current enrollment in appropriate allied health sciences courses, or transferring credits earned in a health science-related program at a TN College of Applied Technology, or an allied health sciences certificate program from a community college, or portfolio assessment of college-level learning gained through employment related to an allied health discipline.

UPDATE: Effective, October 2014, the Tennessee Board of Regents placed a moratorium on the transference of TCAT articulation block credit. Only those students who were enrolled in Fall 2014 are eligible to receive the articulated credit as long as they maintain continuous enrollment at Roane State (excluding summer terms). Students seeking credit for TCAT courses should consult with their faculty advisor regarding prior learning credit.

In addition to the 15 credit hours of General Education core courses currently required for an A.A. S. degree, students will complete a 3 credit hour course in Management and Leadership for Allied Health Supervisors (ALH 211). Two additional Allied Health courses (Contemporary Issues in Healthcare-ALH 212, and Special Topics in Healthcare Management-ALH 213) as well as general electives may be taken, depending on the number of credit hours earned from a allied health sciences certificate/ diploma program, allied health science courses, or experiential portfolio evaluation. For more information and detailed admissions procedures visit the Allied Health Sciences departmental webpage.

Class Location: The ALH classes are hybrid (on-line) with the orientation session held each semester at the Oak Ridge campus.

TOTAL HOURS 60

1 The number of electives required will vary depending on the credits transferred in from a health science certificate program, from a TCAT health science-related program, or a combination of transfer credit from other higher education institutions and credit awarded for life experience learning (Experiential Portfolio Assessment), or allied health science courses. Elective courses will be determined in consultation with the academic advisor consistent the personal career goals of the student.

2 The maximum number of college credits awarded for TCAT health sciences-related diploma programs will be 30, in accordance with TBR policy.

3 Experiential portfolio assessment (to give college credit for professional work experiences) will be done using the Council for the Assessment of Experiential Learning (CAEL) guidelines and assessment instruments. The maximum number of college credits awarded for experiential learning is 18 credit hours in accordance with RSCC policy.

This program is designed for students who plan to enter their chosen field upon graduation. Student intending to transfer to a baccalaureate program are advised to check with their academic advisor and the four-year institution regarding specific transfer of courses.
Business (no concentration)

This degree is designed to give students greater flexibility in completing an A.A.S. degree while assuring a business focus within the program. The discipline-specific electives may be earned by taking appropriate courses as indicated or by articulating credits earned in a diploma program at a TN College of Applied Technology (formerly known as Tennessee Technology Center). Students should seek assistance from their business faculty advisor to choose appropriate electives.

**UPDATE:** Effective, October 2014, the Tennessee Board of Regents placed a moratorium on the transference of TCAT articulation block credit. Only those students who were enrolled in Fall 2014 are eligible to receive the articulated credit as long as they maintain continuous enrollment at Roane State (excluding summer terms). Students seeking credit for TCAT courses should consult with their faculty advisor regarding prior learning credit.

Business, Concentration: Accounting

The accounting concentration provides intensive training to qualify a student for various accounting positions in profit and not-for-profit organizations such as service industries, merchandising businesses, manufacturing companies, and governmental and educational facilities. Areas of responsibility may include cash control, accounts receivable, inventory management, accounts payable, tax returns, budgeting and cost controls.

Students pursuing any of the Business Management Technology programs will be advised by the Social Science, Business and Education Division.

This program is accredited by the Accreditation Council for Business Schools and Programs (ACBSP).

This program is designed for students who plan to enter the field upon graduation. Students intending to transfer to a baccalaureate program are advised that they should check with their faculty advisor and the four-year institution regarding specific transfer of courses.

Students in this major must take the MAPP and the Business Graduate Exam prior to graduating.

Students pursuing any of the Business Management Technology programs will be advised by the Social Science, Business and Education Division.

This program is accredited by the Accreditation Council for Business Schools and Programs (ACBSP).

This program is designed for students who plan to enter the field upon graduation. Students intending to transfer to a baccalaureate program are advised that they should check with their faculty advisor and the four-year institution regarding specific transfer of courses.

Students in this major must take the MAPP and the Business Graduate Exam prior to graduating.
Business, Concentration: Business Administration

The Business Administration concentration is designed for those students who do not currently have as their focus the direct supervision of personnel but want to obtain the necessary education and skills to own and operate a small business or to become a significant contributor to a business owner or entrepreneur. A variety of business courses are provided for the student to accomplish these goals. The student may also choose to gain on-the-job experience by selecting cooperative education (COE) as a business elective.

Business, Concentration: Management

The Business Management concentration is designed to provide students with the necessary education and skills to function as a first-line manager or improve their knowledge of the management function that could be applied to all levels of management within a business. A variety of business courses are provided for the student to accomplish these goals. The student may also choose to gain on-the-job experience by selecting cooperative education (COE) as a business elective.

Contemporary Management

The Contemporary Management Program, designed specifically for working adults, provides the academic credentials and advanced skills necessary for upward mobility in area businesses. This “accelerated” degree program combines reduced in-class instruction with outside assignments; therefore, each 4-credit course meets only one night per week for five weeks plus an additional eight-hour summary session. This unique program design allows working adults to earn a degree in a short period of time while keeping their full-time job. In addition, individuals may receive credit through a portfolio process for prior college-level learning whether in a classroom or on the job. Faculty assessors will review each participant’s background and grant credit if applicable.

Because of its fast-paced format, a very high level of maturity and dedication will be required of students in this program. Each student should discuss his/her interest in taking these accelerated courses with a faculty advisor from the business department.

TOTAL HOURS 60

The following is a list of four Contemporary Management courses from which you may choose to apply toward satisfying this requirement: MGT 208-Training and Development; MGT 209-Interpersonal Communication; MGT 225-Resolving Conflict/Negotiation. These elective hours may also be obtained through Prior Learning Credit, Cooperative Education, and/or the successful completion of various other courses, and/or by articulating credits earned from a diploma at a TN College of Applied Technology. For more information, go to www.roanestate.edu/mgt, or call toll free 1-866-462-7722 ext. 4332 or 865-354-3000 ext. 4332.

UPDATE: Effective, October 2014, the Tennessee Board of Regents placed a moratorium on the transference of TCAT articulation block credit. Only those students who were enrolled in Fall 2014 are eligible to receive the articulated credit as long as they maintain continuous enrollment at Roane State (excluding summer terms). Students seeking credit for TCAT courses should consult with their faculty advisor regarding prior learning credit.

Students pursuing this area of study will be advised by the Social Science, Business and Education Division.

This program is accredited by the Accreditation Council for Business Schools and Programs (ACBSP).
This program is designed for students who plan to enter the field upon graduation. Students intending to transfer to a baccalaureate program are advised that they should check with their faculty advisor and the four-year institution regarding specific transfer of courses.

Students in this major must take the MAPP and Business Graduate Exam prior to graduating.

Criminal Justice

The two-year Criminal Justice program is designed to provide students with a variety of career opportunities. Careers available include: state and local law enforcement, school resource officers, park ranger, sheriff’s deputies, corrections officers, federal agencies such as U.S. Border Patrol, U.S. Marshalls, U.S. Secret Service, Transportation Security Administration, and other U.S. Department of Homeland Security jobs (some of these agencies require a four-year degree).

According to the U.S. Bureau of Labor Statistics, criminal justice employment opportunities will increase as much as 22% through 2018. The two-year associate degree is formed to meet the needs of society for personnel capable of entry and advancement into these career opportunities.

1. Students must complete all Math Learning Support requirements before the degree will be awarded.

Students pursuing this option will be advised by the Social Science, Business and Education Division.

This program is designed for students who plan to enter the field upon graduation. Students intending to transfer to a baccalaureate program are advised that they should check with their academic advisor and the four-year institution regarding specific transfer of courses.

Proficiency Credit for Criminal Justice

Currently enrolled criminal justice students may petition for the granting of academic proficiency credit, based on previous experiential work in the field in which a degree is being pursued. The student is responsible for assembling and presenting a portfolio of materials to support the request. Academic proficiency credit may be awarded for in-service training at specialized schools or academies; contingent upon how the training curriculum corresponds to the competency based curriculum objectives for individual criminal justice courses.

Academic proficiency credit awarded will not exceed 15 semester hours. Copies of training certificates and other portfolio materials should be sent to the Criminal Justice Department for evaluation by the Program Director. The Admissions and Records Office will assign course credit. A grade of “P” will be assigned to proficiency credit. Proficiency credit
cannot be granted until the student is enrolled (full- or part-time) for classes at Roane State.

Students who complete a Law Enforcement Training Academy will receive the following proficiency course credit.

2 To be selected from the RSCC General Education listing or another unduplicated course from the list in footnote #1.

Students pursuing this area of study will be advised by the Social Science, Business and Education Division.

This program is designed for students who plan to enter the field upon graduation. Students intending to transfer to a baccalaureate program are advised that they should check with their academic advisor and the four-year institution regarding specific transfer of courses. Students planning to transfer should major in the Associate of Science in Teaching (AST) degree with a concentration in Early Childhood Education.
Environmental Health Technology

This program is designed to prepare students for careers in the growing fields of environmental protection, health and safety, and site remediation. Students receive specialized training in environmental law, waste management, protection of human health and safety, industrial hygiene, radiation protection, emergency response, environmental remediation techniques and methods for evaluating environmental quality.

Students pursuing any of the Business Management Technology programs will be advised by the Social Science, Business and Education Division.

This program is designed for students who plan to enter the field upon graduation. Students intending to transfer to a baccalaureate program are advised that they should check with their faculty advisor and the four-year institution regarding specific transfer of courses.

Students in this major must take the MAPP and the Business Graduate Exam prior to graduating.
General Technology

This degree program provides a foundation for students who wish to pursue individual career goals and an alternative for currently employed adults who wish to continue their formal education. The electives in this program may be earned by taking appropriate courses, by transferring credit earned in a diploma program at a Tennessee College of Applied Technology or technical certificate at a community college, through recognized industry, certification programs, and by portfolio assessment of college-level learning gained through employment.

UPDATE: Effective, October 2014, the Tennessee Board of Regents placed a moratorium on the transference of TCAT articulation block credit. Only those students who were enrolled in Fall 2014 are eligible to receive the articulated credit as long as they maintain continuous enrollment at Roane State (excluding summer terms). Students seeking credit for TCAT courses should consult with their faculty advisor regarding prior learning credit.

\(^1\) Students should seek advisement from the Math/Science division faculty or Business Technology division faculty in order to choose appropriate electives based upon their area of interest.

This program is designed for students who plan to enter the field upon graduation. Students intending to transfer to a baccalaureate program are advised that they should check with their academic advisor and the four-year institution regarding specific transfer of courses.

Geographic Systems

This degree program prepares students for careers as Geographic Information Systems (GIS) analysts. Students receive specialized training in geographic fundamentals, GIS database design, spatial analysis, demographic analysis, computer programming, digital image analysis, cartographic design and global positioning system (GPS) principles. Students become skilled in using popular GIS software packages and GPS mapping products.

Students pursuing this area of study will be advised by the Social Science, Business and Education Division.

This program is designed for students who plan to enter the field upon graduation. Students intending to transfer to a baccalaureate program are advised that they should check with their academic advisor and the four-year institution regarding specific transfer of courses.
Paralegal Studies

*ABA Approved*

A legal assistant or paralegal is a person qualified by education, training or work experience who is employed or retained by a lawyer, law office, corporation, governmental agency or other entity who performs specifically designated substantive legal work for which a lawyer is responsible. (American Bar Association Standing Committee on Legal Assistants.)

The paralegal studies program is designed to prepare students to be proficient in paralegal duties and responsibilities. Students who complete this curriculum will be able to apply basic legal concepts and become familiar with Tennessee’s court system and its substantive and procedural laws. Competency objectives include skills in legal ethics, research, writing, problem solving, and communication. Students will participate in an internship for practical experience. Admission to this program will require students to meet the minimum course standards for other two-year technical degree programs.

Roane State’s Paralegal Studies program supports the general principles of ethical legal practice, professional responsibility, and the prohibition against the unauthorized practice of law by non-lawyers (including paralegals).

The objectives of the Paralegal Studies program are to educate and make students proficient in the following areas: legal ethics, procedural law, substantive law, and working in a legal environment.

These objectives are met by requiring students to complete: (1) legal introductory courses; (2) legal specialty courses; and (3) a required internship and by exposing them to (4) quality instruction in each of these areas that promotes mastery of the procedural aspects of legal work. Upon completion of the Paralegal Studies program, students will be able to: recognize, evaluate, and appropriately respond to ethical dilemmas; perform legal research tasks; perform legal writing tasks (including pleading, briefs, correspondence, real property documents, bankruptcy documents, business organization documents, and internal memoranda); interview clients and witnesses; investigate legal matters; work closely with supervising attorneys in a wide variety of substantive legal matters; and quickly familiarize themselves with and work well in a variety of legal office settings.

After successful completion of coursework within the major, all students will be required to take a final comprehensive exam to measure program competency achievement. The exam is designed to determine to what degree students have achieved program objectives and competencies. Students should demonstrate a minimal level of competence to satisfy the requirements to graduate. Graduates of this program will be eligible to sit for the National Association of Legal Assistants (NALA) certified legal assistant exam.

1 Students must complete all Math Learning Support requirements before degree will be awarded.
Nursing

The Associate of Applied Science degree program in Nursing emphasizes patient-centered approaches to nursing care. The graduate nurse is able to provide highly skilled nursing care for patients and families in a variety of health care delivery settings. The program of learning includes the study of clinical application of nursing theory and principles. The graduate is eligible to apply to take the NCLEX examination to become a registered nurse.

Admission Policies for Associate of Applied Science

The RSCC Academic Council has established (for both beginning and transfer students) the following requirements in considering applicants for admission into the Associate of Applied Science Degree Nursing Program:

I. Applicants must:
   A. Apply and be accepted to RSCC.
   B. Submit high school transcripts or GED equivalent and transcripts of all previous college work to the Admissions and Records Office.
   C. Take the ACT exam (for applicants under 21 years of age).
   D. Complete Learning Support courses prior to the application deadline to the nursing program as determined by the requirements specified in the Admission Requirements of the RSCC catalog under “General Student Classifications.”
   E. Pass the nursing pre-admission test by the application deadline. Preadmission testing for entrance into the Nursing program is waived for those applicants with a previously earned associate degree or above from an accredited college (SACSCOC or equivalent accrediting body.)

II. In addition to requirements above, applicants must meet requirement A, B and C below prior to the published application deadline.
   A. Complete at least 13 of the 27 required credit hours of Nursing general education courses including the college math requirement (MATH 1130 or 1530 or higher level), BIOL 1010, and PSYC 2130. MATH 1410 will not fulfill the math requirement.
   B. Complete the required math and science courses with a grade of “C” or above.
   C. Achieve a 2.75 GPA (GPA is calculated only on the required general education courses).
   D. Licensed Practical Nurses may be admitted by fulfilling the following:
      1. Meet requirements A, B, C, and D in the above Section I.
      2. Meet requirements A, B, and C in Section II.
      3. Pass a proficiency exam.

III. Only nursing specialty courses which were completed within three years prior to applying for admission or readmission will be considered. Science courses more than ten (10) years old will not be considered.

IV. An information session will be scheduled in early summer (date to be published) for all accepted students. Students will receive information about health requirements, background checks, CPR, uniforms and other program requirements. Students will be permitted to register for nursing classes after attending the information session.

V. A mandatory orientation to the nursing program will be scheduled prior to the first day of classes. Prior to this orientation students must submit:
   A. A completed physical examination providing evidence of physical status necessary for practice in all areas of nursing care.
   B. Proof of current CPR certification that includes one-person, two-person and infant and child CPR (Health Care Provider).
   C. Evidence of background check.
   D. Students who do not attend this orientation and submit physical examinations and proof of CPR certification by the first day of class will be withdrawn from the program.

VI. Health/age:
   A. Even though preliminary admission to the Nursing Program has been granted, a student will be required to undergo a physical exam/health verification before final admission to the program. Students will be required, during the course of the program to demonstrate their physical and/or emotional fitness to meet the essential requirements of the program. Such essential requirements include freedom from communicable diseases, the ability to perform certain tasks and suitable emotional fitness. Any appraisal measures used to determine such physical and/or emotional fitness will be in compliance with Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990. Core performance standards for admission and progression which comply with the Americans with Disabilities Act of 1990 are listed in the catalog under Career Preparation Programs.
   B. Students will be required to meet all health/age guidelines of the affiliating agencies. For example, health insurance may be required by some affiliating agencies. Not having health insurance could limit a student’s educational experience. Students are responsible for costs incurred from injury or illness while in the Nursing Program.

VII. Other
   A. Criminal background checks may be a requirement at affiliated clinical sites utilized for training in the nursing program. Based on the results of these checks, an affiliated clinical site may determine to not allow your presence at their facility. This would result in your inability to successfully complete the requirements of the Nursing Program. Students will be responsible for the costs of the background check. Additionally, a criminal background may preclude licensure or employment. More information is available from the Nursing Division Dean or program director.
   B. Students will be required to provide nursing care under supervision, for patients with infectious diseases. Any student refusing assignment to an infectious patient may be subject to dismissal from the program.
   C. The applicant must report if any license in any health care field has been suspended, revoked or denied.
   D. Additional testing and counseling may be recommended on an individual basis.
   E. The RSCC policy of Student Conduct and Disciplinary Sanctions applies to all students.
regardless of the program in which they are enrolled. In cases where alcohol and drug violations occur, disciplinary action, as well as the decision whether to test for alcohol or drugs, will be processed through the Division Dean and the office of the Dean of Student Services and Multicultural Affairs. Please refer to the nursing handbook for further information. Failure to correct the problem will result in termination from the Nursing Program.

F. There are additional expenses for the nursing program. Uniforms are required. Financial Aid may be available. Questions should be directed to the Financial Aid office.

The Nursing Admissions Committee considers all eligible applicants and recommends applicants for acceptance into the Nursing Program. Students who have not met minimum requirements will not be considered. All students meeting minimum criteria will be considered competitively, based on ACT score or GPA in required general education courses completed. It will be to the applicant’s benefit to complete as many general education courses as possible by application deadline. The earlier application date will also be considered if other criteria are equal.

MEETING MINIMUM REQUIREMENTS DOES NOT GUARANTEE ACCEPTANCE. Preference will be given to Tennessee residents.

Transferring Nursing Students

RSCC General Student classification admission policies for transfer students apply to transferring nursing students. Students wishing to transfer nursing credits must meet RSCC general admissions requirements. Nursing Program admission requirements must also be met with the exception of the nursing pre-admission test. A letter of recommendation including evidence of clinical and lab competency must be submitted from the director of the previous nursing program. The student must be eligible to progress in their previous program. No nursing courses earned in a school of practical nursing may be credited by transfer, although academic courses, if earned through a college or university, will be evaluated for transfer. Nursing courses from an ACEN accredited or state approved School of Nursing will be evaluated for transfer on an individual basis.

Retention Policies

1. The student must maintain a cumulative GPA of 2.0 or better. A “C” must be achieved in science, math and nursing courses in order to progress.
2. A student must satisfactorily complete each clinical rotation in order to continue in the program. A grade of “incomplete” must be removed prior to the first clinical day of the following semester in order to progress to the next nursing course.
3. The student must carry professional liability insurance while enrolled in nursing courses.
4. The student must maintain CPR Certification while enrolled in the nursing program.
5. The student must abide by the course and clinical policies as outlined in the Nursing Student Handbook. Failure to do so may result in dismissal from the program.

Readmission Procedures

1. Only one readmission to the nursing program is permitted. Readmission to the nursing program is also contingent upon the availability of space. Requirements for initial admission to the nursing program must be met in order for a student to be considered for readmission. Students with previous unsatisfactory clinical performance must be recommended for readmission by consensus of the nursing faculty. Students seeking readmission to the nursing program must have an exit interview and state their intention in writing to the Dean of Nursing or Program Director. For fall readmission, the exit interview and statement are due by April 1. For spring semester readmission, the exit interview and statement are due by October 1.
2. If two “D” grades or below are received in nursing courses, the student will be dismissed from the program and is not eligible for readmission into the nursing program.
3. Those students who fail to maintain a cumulative GPA of 2.0 may be considered for readmission to the nursing program only after removing all grades of less than “C” in required general education courses.
4. Students repeating nursing courses must repeat both theoretical, clinical, and laboratory components of the course.
5. Students readmitted who have not been continuously enrolled in clinical courses must submit a new criminal background check and physical exam form.
6. Readmitted students must complete all graduation requirements in effect for the program at the time of readmission.

Legal Limitations for Licensure

A graduate of an approved school of nursing who has been convicted of a violation of the law other than a minor traffic violation may be denied a nursing license. A graduate’s eligibility for licensure is determined on an individual basis. Applicants for initial licensure in Tennessee must obtain a criminal background check no more than 6 months prior to making application. Information about this process is supplied to students in the final year of the program. The Tennessee Board of Nursing Web site has more detailed information about this requirement. Interested parties should consult the Board of Nursing Rules and Regulation.

Academic Advisement

Nursing faculty provide academic advisement for prospective nursing students as well as for those students admitted into the program. The faculty assist students with scheduling classes and dealing with academic concerns. Faculty members have office hours posted on their office doors. Students should contact a faculty member for advisement as needed. It is recommended that students experiencing academic difficulties make an appointment and discuss this with a faculty member as soon as possible.

Core Performance Standards for Admission and Progression

The Roane State Community College Nursing Program has adopted the following core performance standards. Admission to and progression in the nursing program is not based on these standards, rather they will be used to assist each student in determining whether accommodations or modifications are necessary.

If a student believes that he or she cannot meet one or more of the standards without accommodations or modifications, the nursing program will determine, on an individual basis, whether or not the necessary accommodations or modifications can be made reasonably.

Below are the issues, standards and some examples of necessary activities:

Critical Thinking - Critical thinking ability sufficient for clinical judgement. (Identify cause-effect relationships in clinical situations, develop nursing care plans.)
Interpersonal - Interpersonal abilities sufficient to interact with individuals, families, and groups from a variety of social, emotional, cultural, and intellectual backgrounds. (Establish rapport with patients/clients and colleagues.)

Communication - Communication abilities sufficient for interaction with others in verbal and written form. (Explain treatment procedures, initiate health teaching, document and interpret nursing actions and patient/client responses.)

Mobility - Physical abilities sufficient to move from room to room and maneuver in small spaces. (Moves around in patient’s room, work spaces, and treatment areas, administer cardio-pulmonary procedures.)

Motor Skills - Gross and fine motor abilities sufficient to provide safe and effective nursing care. (Calibrate and use equipment; position patients/clients.)

Hearing - Auditory ability sufficient to monitor and assess health needs. (Hears monitor alarm, emergency signals, auscultatory sounds, cries for help.)

Visual - Visual ability sufficient for observation and assessment necessary in nursing care. (Observes patient/client responses.)

Tactile - Tactile ability sufficient for physical assessment. (Perform palpation, functions of physical examination and/or those related to therapeutic intervention, e.g. insertions of a catheter.)

Accreditation

The Roane State Nursing Program is accredited by the Accreditation Commission for Education in Nursing (ACEN), Inc., 3343 Peachtree Road NE, Suite 850, Atlanta, GA, 30326 Phone: 404.975.5000 www.acenursing.org

Traditional Program Option

These classes may be taken prior to being accepted into the program.

**Second Year Total** 17

**TOTAL HOURS** 66

1 Strongly recommend completion of these courses prior to taking NSG 105.

2 MATH 1530 is recommended for students planning to complete a BSN. A minimum grade of “C” is required prior to the application deadline. MATH 1410 does not fulfill the math requirement.

Special articulation agreements exist for students who complete this program and wish to pursue a bachelor’s degree. See http://www.roanestate.edu/articulation or call toll free at 1-866-462-7722 ext. 4597 or 865-882-4597 for more information.

With the exception noted above, this program is designed for students who plan to enter the field upon graduation. Students intending to transfer to a baccalaureate program are advised that they should check with their academic advisor and the four-year institution regarding specific transfer of courses.

**LPN Mobility Program Option**

LPN Career Mobility may not be offered every year. Availability of this option is dependent upon the number of qualified applicants.

This program is designed to facilitate the achievement of a registered nurse level education by LPNs who qualify for admission. LPNs who wish to qualify for this program are required to pass the proficiency examination. The examination will cover fundamentals of nursing.

Examination scores are valid for three (3) years. Candidates who do not enter the program after three (3) years will be required to repeat the examination process.

Admission to the Career Mobility program is not automatic. Academic qualifications as well as test scores will be considered in the selection process. Admission is also contingent on available space in the program. Other admission, progression, readmission, and retention policies are the same as those for the regular nursing program.

A grade of “C” or better must be achieved in the required math and science courses.

**These classes may be taken prior to being accepted into the program.**

Academic Advisement: Student pursuing this option will be advised by the Nursing Division. A mandatory orientation to the Nursing Program will be scheduled prior to the first day of nursing classes.

Allied Health Sciences Admission Policies for A.A.S. Degrees

Admission to the Programs

Due to limited enrollment, there are special admission policies for Allied Health Sciences (AHS) programs. The following policies are for: Dental Hygiene Technology, Health Information Technology, Occupational Therapy Assistant, Opticianry, Physical Therapist Assistant, Radiologic Technology, and Respiratory Therapy Technology, Surgical Technology. (Admissions policies for Technical Certificate programs can be found on the individual program pages.)

1. Complete the Roane State Community College (RSCC) admissions process to become an admitted student AND
2. The applicant must meet one of the following minimum academic requirements:
   1. Students under 21 years of age must attain a composite score of 20 or above on the ACT taken within the last 3 years OR attain a GPA of 2.50 or better after completion of at least 9 semester hours of general education courses required in the selected degree program.
   2. Students 21 years of age or older must attain a GPA of 2.50 or better after completion of at least 9 hours of general education courses required in the selected degree program.
3. Meet the admission requirements as specified for the selected degree program.
   Note: Some degree programs have required prerequisites in addition to the 9 hours of general education courses and/or a minimum GPA greater than 2.50. These prerequisites are listed in the college catalog under the appropriate degree program.
   Note: Some degree programs require an interview, if applicable, before the review date by the AHS Admissions Committee.
   Note: Completing math and science courses required in some Allied Health Sciences degree programs with a grade of B or better may enhance the applicant selection ranking. Completing additional general education courses (i.e. English Composition I, College Algebra, Speech, etc.) may also result in a higher selections ranking.
   Note: All Learning Support requirements must be completed for all degree programs prior to acceptance into the selected program.
   Note: Applicants must be able to physically meet the demands of the job as defined by the discipline, available industry standards and the public’s expectations.
4. The applicant must complete the electronic AHS Application by the published program deadline (listed below). Go to RaiderNet and click on “Apply for a Health Science Program”.
   Note: When choosing the Planned Course of Study, you may select up to three programs. If a program is not selected as a Planned Course of Study you will not be considered for the that program.
5. Complete all other entrance requirements detailed on the applicable AHS degree webpage.
6. Each Program Director will complete a list of recommended candidates for admission to their program indicating that all of the general and program admission criteria and required documents have been verified.
   Note: Some degree programs require documented clinical observations or discipline-specific work experiences. Special consideration may be given to applicants with work experience. Each Program Director requiring clinical observation or discipline-specific work experience will verify clinical
observations and/or discipline-specific work experience has been completed satisfactorily.

7. Final selection of students will be made by the Allied Health Sciences Admissions Committee.
8. Admission to the degree program is required prior to enrolling in AHS program discipline-specific courses.
9. Students will be notified electronically via RaiderNet email of acceptance to an AHS degree program. Students must acknowledge their acceptance via reply email by the designated response date stated in the acceptance email.
10. The Allied Health Sciences/Nursing Admissions Advisor will change the major of all accepted students to accurately reflect their program of study. Students may not register for discipline-specific courses until their major has been changed.

All students meeting minimum criteria will be considered competitively, based on ACT score or GPA in required general education courses completed in some Allied Health Sciences programs. Completing math and science courses required in some programs with a grade of A or B could enhance your chance of being accepted. It will be to your benefit to complete as many general education courses as possible by application deadline. MEETING MINIMUM REQUIREMENTS DOES NOT GUARANTEE ACCEPTANCE. Students that do not meet minimum requirements will only be considered under special circumstances and on a space available basis. Preference will be given to Tennessee residents.

Criminal Background Checks

Criminal background checks and drug screening may be a requirement at affiliated clinical sites utilized for training in Allied Health Sciences and Nursing programs. Based on the results of these checks, an affiliated clinical site may determine to not allow your presence at their facility. This would result in your inability to successfully complete the requirements of the program. Students will be responsible for the costs of the background check. Additionally, a criminal background may preclude licensure or employment. More information is available from your program director.

Health Guidelines

Students may be required to undergo a physical exam/health verification prior to enrollment. Students will be responsible for the cost of the physical examination and required immunizations and/or testing.

Students will be required to meet all health guidelines of affiliated clinical agencies. Personal health insurance may be required by some agencies. Students are highly encouraged to carry personal health insurance and are responsible for costs incurred due to injury or illness while enrolled.

Program Application Deadlines

In order for applicants to have priority consideration for entrance into the Allied Health Sciences programs for the following fall semester, applications should be submitted as follows:

<table>
<thead>
<tr>
<th>Program</th>
<th>Degree</th>
<th>RSCC Deadline for Fall</th>
<th>RSCC Deadline for Spring</th>
</tr>
</thead>
<tbody>
<tr>
<td>Dental Hygiene Technology</td>
<td>A.A.S.</td>
<td>February 28</td>
<td></td>
</tr>
<tr>
<td>Diagnosis and Procedural Coding</td>
<td>Technical Certificate</td>
<td>June 15</td>
<td></td>
</tr>
<tr>
<td>Advanced EMT</td>
<td>Technical Certificate</td>
<td>March 31</td>
<td>October 31</td>
</tr>
<tr>
<td>EMT</td>
<td>Technical Certificate</td>
<td>March 31</td>
<td>October 31</td>
</tr>
</tbody>
</table>

Incomplete applications will not be processed. Any applications received after the published application deadline may be considered by the Program Director on a space available basis. It is the student’s responsibility to assure that all records and documentation are received by the appropriate department by the published application deadline.

Conditional Admission

Students that do not meet minimum requirements may be considered for conditional acceptance status on a space-available basis.

Retention Policies

A student must maintain the following standards or he/she will be dismissed from his/her respective program.

1. A grade of “C” or better in each specialty course.
2. Completion of specialty courses as specified by the degree checklist. A student must be able to complete courses with the class in which he/she was admitted. A student who cannot graduate with the class in which he/she was admitted will be dropped from that class and must reapply to a subsequent class.
3. Evidence of malpractice insurance and physical examination prior to clinical training.
4. Be physically and mentally capable of performing the essential functions of the program as defined in each program’s Core Performance Standards.

The RSCC policy of Student Conduct and Disciplinary Sanctions applies to all students regardless of the program in which they are enrolled. In cases where alcohol and drug violations occur, disciplinary action, as well as the decision whether to test for alcohol or drugs, will be processed through the Dean of Allied Health Sciences and the Assistant VP/Dean of Students.

Readmission Procedures

1. Students applying for readmission must meet all admissions criteria for the selected degree program.
2. The applicant must submit a readmission request in writing to the Program Director at least thirty (30) days prior to enrollment. The request must be a detailed personal reflection of the reason(s) for the unsuccessful performance and a plan of correction.
3. One (1) readmission to an AHS degree program will be
Note: Some degree programs may have a time limitation on discipline-specific or general education courses. This requirement is listed in the program’s admission information located on the program web page. The applicant must meet this requirement, if applicable.

4. The applicant applying for readmission may be required to interview with the Program Director and other program faculty, if applicable, before the review date by the AHS Admissions Committee. Interview requirements are listed on the program webpage.

5. An acceptable level of discipline-specific competency may need to be demonstrated prior to readmission. A student with previous unsatisfactory clinical performance must be recommended for readmission by consensus of the program faculty. 
   Note: The Program Director will verify that all readmission documents including licensure/credentials are current and valid.

6. Readmission to an AHS degree program is contingent upon the availability of space.

7. Students who are dismissed for reasons associated with academic misconduct or code of ethics violations will not be considered for readmission.

Meeting Minimum Requirements Does Not Guarantee Acceptance. Preference will be given to Tennessee residents.

Successful admission and completion of any RSCC Allied Health Sciences program does not guarantee state or national licensure or registration to practice as there may be additional state/national criteria required for attainment of various allied health licenses/certifications.

---

**Dental Hygiene Technology**

The Dental Hygiene Program includes a background of general studies, dental science, and clinical skills with which the student becomes a proficient provider of oral health care while working under the supervision of a dentist.

The goals of the Dental Hygiene Technology (DHT) program are:

1. Provide the didactic and clinical instruction that prepares students for the practice of dental hygiene.
2. Provide students with the skills to effectively interact with dental and other health care providers.
3. Encourage students to commit to lifelong learning.
4. Provide necessary skills that prepare students to become effective members of the dental health team.
5. Encourage students to assume active leadership roles in community and professional organizations.

In addition to the special admission policies for Allied Health Sciences programs, the Dental Hygiene Program utilizes the following factors in ranking and acceptance of applicants:

1. The number of required course hours completed in the DHT Degree Plan
2. The student’s grades for required science courses completed
3. Work experience in the field of Dentistry
4. Registry/Certification in Dental Assisting
5. GPA in the DHT degree plan
6. Results of a personal interview and writing sample. Interviews will be granted only to the top twenty selected applicants who have met the minimum requirements for admission to the program.

7. Preference will be given to Tennessee residents.

All DHT courses must be taken in sequence. All required science courses must be taken in the semester as listed if applicant is admitted to the program OR any of the courses may be completed prior to the beginning of the program in August. Admission to the DHT program is required prior to enrolling in any DHT courses. All DHT courses are taught on the Oak Ridge Branch Campus.

The program in dental hygiene is accredited by the Commission on Dental Accreditation. The Commission is a specialized accrediting body recognized by the United States Department of Education. The Commission on Dental Accreditation can be contacted at (312) 440-4653 or at 211 East Chicago Avenue, Chicago, IL 60611.

**This first group of classes may be taken prior to being accepted into the program.**

1. BIOL 2010 and CHEM 1010 must be taken by fall semester of the first year.
2. BIOL 2020 must be taken by spring of the first year.
3. Higher level math course may be substituted.

Students pursuing this option will be advised by the Allied Health Sciences Division.

**Program Application Deadline:** February 28

This program is designed for students who plan to enter the field upon graduation. Students intending to transfer to a baccalaureate program are advised that they should check with their academic advisor and the four-year institution regarding specific transfer of courses.

---

**Health Information Technology**

The field of health information management is rapidly growing with a predicted growth rate above average over the next ten years according to the Bureau of Labor Statistics. The health information management professional ensures completeness and accuracy of the patient record in all health care settings. Development of specialized skills needed to perform as a health information technician is the focus of the health information technology (HIT) program. The HIT degree program is accredited by the Commission on Accreditation for Health Informatics and Information Management Education (CAHIIM). Students who successfully complete the degree requirements for the HIT degree program are eligible to sit for the national certification examination to become a Registered Health Information Technician.

HIT107 or HIT 1010 Medical Terminology is a prerequisite for the degree program. Students must also obtain a grade of C or better in each required science course, as well as, each HIT course to be accepted and remain in either the DPC or HIT program.

Part time and full time academic plans are available for the HIT degree student.

---

1. Recommended to be completed prior to acceptance.
2. An open course that may be taken by any student and is required to be completed prior to acceptance.
3. May be taken prior to being accepted into the program.

**Program Application Deadline:** (A.A.S. Degree)—May 15 (Fall Semester); October 31 (ROCC)

Only HIT courses which were completed within three years prior to applying for admission or readmission will be considered for credit toward graduation. This does not apply to open enrollment HIT courses.

This program is designed for students who plan to enter the field upon graduation. Students intending to transfer to a baccalaureate program are...
advised that they should check with their academic advisor and the four-year institution regarding specific transfer of courses.

### Medical Informatics

The Medical Informatics program will provide a pathway for students who are interested in a career in Medical Informatics as either a technician or a developer. The discipline-specific courses offered during the first year will be the same for either specialty track and required for the medical informatics career options in the second year. Following the first year and upon acceptance into the program, students will select which specialty track they wish to pursue.

Students completing this program will not only meet all prerequisites to continue their education to become a medical informatics professional, they will have earned an Associate of Applied Science degree in Medical Informatics.

Faculty Advisor Approved Elective 1

**Second Year Total** 30

**TOTAL HOURS** 60

* Courses required to be completed prior to admission to the program. A grade of “C” or better is required.

1 The faculty advisor approved elective is required and can be used to take an additional CISP or HIT course to meet a student’s academic and professional goals. Students should consult with their faculty advisor for acceptable courses. A course substitution will be required for graduation.

**Program application deadline:** October 31 (for Spring term admission), May 15 (for Fall Term admission)
Students pursuing this option will be advised by the Allied Health Sciences Division.

This program is designed for students who plan to enter the field upon graduation. Students intending to transfer to a baccalaureate program are advised that they should check with their academic advisor and the four-year institution regarding specific transfer of courses.

Occupational Therapy Assistant

The Occupational Therapy Assistant (OTA) is a health professional who uses purposeful activity to enhance functional abilities of individuals limited by physical injury or illness, psychosocial dysfunction, developmental or learning disabilities, poverty and cultural differences, or the aging process. The OTA works under the supervision of an occupational therapist (OT) and collaborates with others to maximize independence, prevent disability, and maintain the health of individuals who require services. Students are trained in the skills and techniques necessary to participate in assessment and treatment in accordance with the occupational therapy plan of care.

In addition to meeting the general requirements for the college and the Allied Health Sciences programs, applicants to the Occupational Therapy Assistant (OTA) program must:

1. Obtain a minimum GPA of 2.5 in the general education courses included in the OTA degree plan.
2. Complete eight (8) observational or volunteer hours in two (2) different practice settings and submit a recommendation form from each of the two (2) supervisors. Supervisors who complete the recommendation form must be either an OT or OTA with a minimum of one (1) year of clinical experience and may not be related to the applicant.
3. Ensure that all application materials are received by the March 31 application deadline.
4. If selected, participate in an interview with OTA program representatives. Students will receive notification of the interview through their RaiderNet email.

Up to twenty (20) students are typically admitted to the traditional program. Up to ten (10) qualified students may be admitted through the East TN Alliance. Students seeking admission through the East TN Alliance must be a current or former student of Cleveland State or Chattanooga State Community Colleges.

The OTA curriculum includes a blend of online and hybrid courses coupled with face-to-face labs. All students are required to travel to the Oak Ridge campus one day per week for labs. Level I and Level II fieldwork experiences are completed in community-based practice settings. Placement decisions are based on factors such as site availability, alignment with program philosophy, and geographic proximity to the student.

NOTE: All OTA students must complete Level II Fieldwork within 18 months following completion of academic preparation.

Graduates of the program will be able to sit for the national certification examination for the occupational therapy assistant administered by the National Board for Certification of Occupational Therapy (NBCOT). After successful completion of this exam, the individual will be a Certified Occupational Therapy Assistant (COTA). Initial certification is a requirement for licensure in all states.

NOTE: A felony conviction may affect a graduate’s ability to sit for the NBCOT certification examination.

Roane State Community College’s OTA program is accredited by the Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA), located at 4720 Montgomery Lane, P.O. Box 31220, Bethesda, MD 20824-1220. (301) 652-AOTA.

Applicants are advised to complete general education requirements prior to seeking admission to the OTA program.

Students who are required to take 12 credit hours for federal financial aid are advised to take ALH 118 in the first semester of the first year in the OTA program. Note: Completion of ALH 118 prior to admission does NOT influence admission points.

Program Application Deadline: March 31

This program is designed for students who plan to enter and work in the field upon graduation. It is not intended as a transfer pathway into an occupational therapy program. Students who intend to transfer to a four-year institution should follow the TN Transfer Pathway in Pre-Occupational Therapy.

**Opticianry**

The Opticianry program is a two-year associate of applied science degree career preparation program. Graduates of this program will be eligible to sit for the Tennessee State Board Licensing Examination in Ophthalmic Dispensing and the national board certification examinations. The total educational program will include general studies, technical, and field work components.

Opticians are licensed professionals who design and fit glasses, contact lenses and other specialized optical devices, based on the doctor’s prescription and the patient’s visual needs. Fashion is also a factor in designing eyewear.

The Opticianry program is nationally accredited by the Commission on Opticianry Accreditation.

Admission to the program is required prior to enrolling in any OPT course. Courses must be taken in sequence. All professional opticianry courses are taught at the main campus in Harriman.

**These classes may be taken prior to being accepted into the program.**

¹Business elective may be chosen from the following: ACCT 1010, BUSN 1305, 1330 or 1380.
²Higher level math course may be substituted.

Program Application Deadline: May 15

This program is designed for students who plan to enter the field upon graduation. Students intending to transfer to a baccalaureate program are advised that they should check with their faculty advisor and the four-year institution regarding specific transfer of courses.
Physical Therapist Assistant

The Physical Therapist Assistant (PTA) Program prepares students to assist the supervising physical therapist in providing physical therapy care. The 1+1 curriculum design includes the equivalent of one year of general education coursework and a second year of physical therapy technical courses. All first-year program prerequisites must be completed prior to being considered for admission into the second year. The program is competitive and draws many applicants. A maximum of twenty students are selected based on academic performance, recommendation scores (based on clinical observation assignment as a part of ALH 102-Introduction to Physical Therapy) and interview scores. Those not accepted can apply for the following year or seek advisement on other possible career options.

Once accepted into the PTA program, the students begins the second year (technical phase) which includes academic and laboratory components taught at the Oak Ridge campus, and clinical components located in regional healthcare facilities. The second year requires full-time participation and lasts one calendar year from August to August. Second year students will be required to attend an orientation session and be certified (and maintain certification) in Basic First Aid (Red Cross or AHA) and CPR through the American Heart Association prior to the start of classes. Classes taken during the second year must be taken in sequence and require a full-time course load. During the second year, students may be required to travel within the East Tennessee region to clinical facilities.

In addition to general entrance requirements for the Allied Health Sciences programs, the applicants for the PTA program must:

1. Complete all first-year general education courses (prerequisites) by the program application deadline.
2. Submit all admission materials, including applications, final transcripts and spring semester grades by May 15th of the year applying (May 15, 2015 for Fall 2015 admission). Those applicants who fail to have documents in by the deadline will not be considered in the applicant pool.
3. Obtain a cumulative GPA of 2.5 or better in the required general education courses for the program.
4. Obtain a “C” or better in each of the required first year general education courses.
5. Complete 12 hours of clinical observation under the supervision of a licensed PT or PTA (completed in ALH 102-Intro to Physical Therapy)
6. If selected, participate in an interview with PTA program representatives. Students will receive notification of the interview through their RaiderNet email.

**Second Year Total** 42

**TOTAL HOURS** 67

**Program Deadline:** May 15

Students pursuing this program will be advised by the Allied Health Sciences Division.

This program is designed for students who plan to enter the field upon graduation. Students intending to transfer to a baccalaureate program are advised that they should check with their academic advisor and the four-year institution regarding specific transfer of courses.

The Physical Therapist Assistant Program at Roane State Community College is accredited by the Commission on Accreditation in Physical Therapy Education (CAPTE), 1111 North Fairfax Street, Alexandria, Virginia 22314; telephone: (703) 706-3245; email: accreditation@apta.org; website: http://www.capteonline.org
Radiologic Technology

The radiographer is a health care professional that performs radiographic procedures that provide information to assist in the diagnosis and treatment of the patient. The Radiologic Technology Program consists of five semesters of full-time study which includes supervised clinical coursework in a radiology department. The program is affiliated with 17 area hospitals. Each student will be assigned to a variety of clinical sites during the two years of clinical coursework. Clinical experiences will include evening rotations.

Applicants for the program may begin working on the general education courses at any time. The professional courses must be taken in sequence and are offered only at the Oak Ridge Branch Campus except for the clinical courses.

Along with the general entrance requirements of the Allied Health Sciences programs, the applicants for Radiologic Technology Program must also:

1. Submit all admission materials including applications, transcripts, and Spring grades by May 15 of the year you are applying. Applicants who fail to have documents in by the deadline will not be considered for admission.
2. Obtain a GPA of 2.5 or better in the required courses.
3. Obtain a “C” or better in each required course.
4. Complete 8 hours of clinical observation under the supervision of a registered radiologic technologist in a diagnostic radiology department. A completed observation form must be submitted to the program director prior to the application deadline. The form for documentation of observation hours may be obtained on the program’s webpage.

The Radiologic Technology Program is accredited by the Joint Review Committee on Education in Radiologic Technology (JRCERT) 20 N. Wacker Drive, Suite 2850, Chicago, IL 60606-3182; (312) 704-5300; www.jrcert.org. Graduates of the program are eligible to take the certification examination administered by the American Registry of Radiologic Technology.

These classes may be taken prior to being accepted into the program:

Students pursuing this program will be advised by the faculty in the Radiologic Technology Program.

This program is designed for students who plan to enter the field upon graduation. Students intending to transfer to a baccalaureate degree program are advised that they should check with their academic advisor and the four-year institution regarding specific transfer of courses.
Respiratory Therapy Technology

The Respiratory Therapy program prepares an individual to perform the staff responsibilities of the respiratory care profession. General education courses and respiratory care courses which include supervised clinical experience in area hospitals make up the building blocks of this exciting curriculum. All respiratory therapy courses are taught at the Knox County campus.

Along with the general entrance requirements of the Allied Health Sciences programs, the applicants for Respiratory Therapy must also:

1. Obtain a GPA of 2.75 or greater in the general education courses required in the Respiratory Therapy curriculum.
2. Complete BIOL 2010 Anatomy and Physiology I with a grade of “C” or better.
3. Obtain a “C” or better in each required science course.
4. Complete ten (10) hours of clinical observation in area respiratory therapy departments. Students should contact the program director for more information. A completed observation form must be sent back to the program director prior to the application deadline. The form for documentation of observation hours may be obtained from the Allied Health Sciences admissions technician, Admissions and Records Office or Respiratory Therapy faculty.
5. Only respiratory therapy courses which were completed within three years prior to applying for admission or readmission will be considered for transfer. Science courses more than ten years old will not be considered.

Students that have been admitted into the program must attend an orientation to the Respiratory Therapy program prior to the first day of class. Students must submit physical examination forms at this time. Students who fail to attend orientation or submit physical examination forms and CPR certification may be dropped from the program. Proof of CPR certification must be submitted prior to beginning RTT 132.

All students must pass a mock written registry to graduate from RSCC. Upon graduation, students are eligible to take the credentialing examinations offered by the National Board of Respiratory Care. The program is accredited by the Commission on Accreditation for Respiratory Care.

These classes may be taken prior to being accepted into the program.

Students pursuing this option will be advised by the Allied Health Sciences Division.

Program Application Deadline: May 15

This program is designed for students who plan to enter the field upon graduation. Students intending to transfer to a baccalaureate program are advised that they should check with their academic advisor and the four-year institution regarding specific transfer of courses.
**Surgical Technology**

Surgical technologists are allied health professionals who work under medical supervision to facilitate the safe and effective conduct of invasive surgical procedures. A surgical technologist possesses expertise in the theory and application of sterile and aseptic technique and combines the knowledge of human anatomy, surgical procedures, and implementation tools and technologies to facilitate a physician’s performance of invasive therapeutic and diagnostic procedures.

The Surgical Technology program is co-sponsored by Walters State and Roane State Community Colleges through the Smoky Mountain Health Sciences Consortium. The program consists of five semesters of full-time study which includes lecture classes held at the Oak Ridge Campus via distance delivery from Walters State Community College Sevierville campus and supervised clinical coursework in an operating room. Labs are conducted on the Oak Ridge campus.

Applicants for the program may begin working on the general education courses at any time. The professional courses must be taken in sequence and are offered only at the Oak Ridge Branch Campus except for the clinical courses. The program is affiliated with several area hospitals and each student will be assigned to a variety of clinical sites during the two years of clinical coursework. Clinical experiences may include evening rotations.

Applicants to the Surgical Technology Program must:

1. Review and complete all admissions requirements as listed in the Allied Health Sciences Admissions policies.
2. Complete BIOL 2010 and 2020 as part of the 9 credit hours of general education courses required for admission to the program.
3. If selected, participate in an interview process with Surgical Technology program representatives.

For additional information, review the Surgical Technology Web page.

The Smokey Mountain Health Sciences Consortium will pursue accreditation by the Accreditation Review Council on Education in Surgical Technology and Surgical Assisting (ARC/STSA) and the Commission on Accreditation of Allied Health Education programs (CAAHEP). Graduates of the program will be eligible to take the certification examination administered by the National Board of Surgical Technology and Surgical Assisting upon the program receiving accreditation.

This first group of classes may be taken prior to being accepted into the program.

**TOTAL SEMESTER HOURS** 60

1 An open enrollment course available to any student interested in a healthcare profession.

**Program Deadline: May 15**

Students pursuing this option will be advised by the Allied Health Sciences Division.

This program is designed for students who plan to enter the career field upon graduation. It is not designed for students who intend to transfer to a baccalaureate degree program.
Technical Certificate Programs

No placement testing is required of the Technical Certificate programs except for some of the specialized Allied Health Science Certificates. Financial Aid may not be available for all certificates pending approval. Contact the Financial Aid Office for more information. For students to receive a certificate at the end of the program, a 2.0 GPA must be maintained. Certificate programs do not qualify for academic honors. A certain number of credit hours in each program must be completed at Roane State in order to meet the graduation residency requirement. Contact your faculty advisor for the requirement of your program.

Computer Science Certificate

The Computer Science Technical Certificate encompasses applications in databases, networking, JAVA programming, webpage design, and Visual Basic programming. The certificate is designed to add value to existing computer professionals and allow for career mobility.

F: Class is typically offered during the Fall Semester
Sp: Class is typically offered during the Spring Semester

Students pursuing this certificate will be advised by the Mathematics and Sciences Division.

Early Childhood Education

The Early Childhood Technical Certificate is designed to prepare professionals in the field of early childhood education. Students in this program will gain knowledge in areas such as child development, family and community involvement, and curriculum development. Graduates will be prepared to work in various early childhood settings and conduct themselves as members of the early childhood profession.

**Mechatronics**

Technology has advanced the manufacturing process to a point where skilled workers are in high demand to both operate and maintain the wide range of machinery used in parts production today. Our courses will train you in mechanics, automation, robotics, electronics, computer programming, hydraulics, pneumatics, and many other skills you will need to have a successful career in this field. You will learn to operate, test, fine-tune, service and repair equipment that is critically important to any manufacturing company.

This program is offered in a cohort format with classes during the day and evening. Review the Mechatronics webpage for additional information and course scheduling options.

Allied Health Sciences Certificate Programs

Diagnosis and Procedural Coding

The Diagnosis and Procedural Coding (DPC) program is a nine month certificate program designed to prepare students to perform medical diagnosis and procedure coding in an outpatient or ambulatory health care setting. The courses completed in the Diagnosis and Procedural Coding certificate program correspond to the first year course for the Health Information Technology (HIT) degree program. DPC students may elect to continue into HIT degree program after successful completion of the certificate courses. All admission requirements for the HIT degree program must also be met for acceptance into the HIT program after completion of the DPC Certificate.

All Diagnosis and Procedural Coding courses are taught at the Harriman Campus and Knox County Campus Center for Health Sciences. Enrollment is limited.

Admission Requirements

1. Complete the Roane State Community College (RSCC) admissions process to become an admitted student.
2. Complete the electronic Allied Health Science (AHS) application on RaiderNet and submit by the published application deadline.
   Note: When choosing the Planned Course of Study, select 'Diagnosis and Procedural Coding'. If 'Diagnosis and Procedural Coding' is not selected as a Planned Course of Study you will not be considered for the Diagnosis and Procedural Coding Program.
3. Complete the COMPASS. All Learning Support requirements must be completed before a student can enroll in Anatomy and Physiology.
   Note: Some applicants may be exempt from COMPASS testing. COMPASS scores within the last three years are accepted. COMPASS scores from other colleges must be turned into the RSCC Admission and Records Office by published application deadline. See the COMPASS webpage for registration directions, exemptions, and more.
4. Complete all other entrance requirements detailed on the Diagnosis and Procedural Coding webpage.
5. The following factors are utilized in ranking and accepting applicants:
   1. Completion of HIT 107
   2. Completion of BIOL 2010 and BIOL 2020
6. Only HIT courses which were completed within three years prior to applying for admission or readmission will be considered for credit toward graduation.

Note: Students may not register for discipline-specific courses until their major has been changed.
Note: Meeting minimum requirements does not guarantee acceptance. Preference will be given to Tennessee Residents.

Program Application Deadline

June 15. Late applications may be considered on a space-available basis.

Criminal Background Checks

Criminal background checks and drug screening may be a requirement at affiliated clinical sites utilized for training in the Diagnosis and Procedural Coding Program. Based on the results of these checks, an affiliated clinical site may determine to not allow your presence at their facility. This would result in your inability to successfully complete the Diagnosis and Procedural Coding Program. Students will be responsible for the costs of the background check. Additionally, a criminal background may preclude employment. More information is available from your program director.

Health Guidelines

Students will be required to meet all health guidelines of affiliated clinical agencies. Personal health insurance may be required by some agencies. Students are highly encouraged to carry personal health insurance and are responsible for costs incurred due to injury or illness while enrolled. Students will be responsible for the cost of the physical examination and required immunizations and/or testing.

Students will be required, during the course of the program to demonstrate their physical and/or emotional fitness to meet the essential requirements of the program. Such essential requirements include freedom from communicable diseases, the ability to perform certain tasks, and suitable emotional fitness. Any appraisal measures used to determine such physical and/or emotional fitness will be in compliance with Section 504 of the Rehabilitation Act of 1973 and the American Disabilities Act of 1990. Students will be required to meet all health guidelines of the affiliating agencies. Students are responsible for cost incurred from injury or illness while in the Diagnosis and Procedural Coding Program.

Retention

A student must maintain the following standards or he/she will be dismissed from the program.

1. A grade of “C” or better is required in each HIT course and required science course.
2. Completion of specialty courses as outlined by the degree checklist. Exceptions to this must be approved by the program director.
3. Evidence of malpractice insurance and physical examination must be provided prior to clinical training.

The RSCC policy of Student Conduct and Disciplinary Sanctions applies to all students regardless of the program in which they are enrolled. In cases where alcohol and drug violations occur, disciplinary action, as well as the decision whether to test for alcohol or drugs, will be processed through the Dean of Allied Health Sciences and the office of the Dean of Student Services and Multicultural Affairs.

Readmission Procedures

A student must request readmission after a grade of “D” or “F” is received in a core course or after withdrawal from the program at anytime during the semester.

A student may be considered for readmission to the program if all of the following criteria are met:

1. Students applying for readmission must meet all admissions criteria listed above. The applicant must submit a readmission request in writing to the Program Director at least thirty (30) days prior to enrollment. The request must be a detailed personal reflection of the reason(s) for the unsuccessful performance and a plan of correction.
2. One (1) readmission to the program will be permitted.
3. The applicant applying for readmission may be required to...
Emergency Medical Technician

The Emergency Medical Technician (EMT) program is a one-semester certificate program. The lecture and lab consists of approximately 240 clock hours. The clinical/field internship is approximately 134 clock hours. The program has a Fall and Spring start.

The program consists of four components of instruction: lecture, skills laboratory, clinical education and field internship. The successful completion of these components will prepare the students for National Registry exams and enable him/her to demonstrate competence as an entry level EMT. Graduates of this program may work in fire/rescue, industrial positions, and are eligible to apply for the Advanced EMT certificate program after they become credentialed as an EMT.

The Emergency Medical Technician (EMT) Technical Certificate program is offered on the Knox Center for Health Sciences and designated RSCC satellite campuses.

Admission Requirements

1. Complete the Roane State Community College (RSCC) admissions process to become an admitted student.
2. Complete the COMPASS. If COMPASS results indicate a reading deficiency, all Learning Support requirements for reading comprehension must be successfully completed before applicant will be considered for admission to the program. Note: Some applicants may be exempt from COMPASS testing. COMPASS scores/transcripts from other colleges must be turned into the RSCC Admission and Records Office by published application deadline. See the COMPASS webpage for registration directions, exemptions, and more.
3. Complete the electronic Allied Health Science (AHS) application on RaiderNet and submit by the published application deadline.
4. Qualified applicants will be interviewed prior to acceptance.
5. Students must follow the admissions process regarding interviews and testing in compliance with EMS rules and regulations as set forth by the Tennessee Department of Health, Division of Emergency Medical Services and the RSCC Paramedic program. A Paramedic Admissions Committee considers all eligible applicants and recommends applicants to the Allied Health Science Admission Committee. Applicants must report if their license in any health care field has been suspended, revoked, or denied.

Note: Students may not register for discipline-specific courses until they are accepted to the program and their major has been changed. Note: Meeting minimum requirements does not guarantee acceptance. Preference will be given to Tennessee Residents.
*Tennessee Emergency Medical Services Board requirement.

Program Application Deadlines

Fall Admission: March 31, late applications may be considered on a space-available basis.
Spring Admission: October 31, late applications may be considered on a space-available basis.

Criminal Background Checks

Criminal background checks and drug screening may be a requirement at affiliated clinical sites utilized for training in the Paramedic program. Based on the results of these checks, an affiliated clinical site may

1 Recommended to be completed prior to acceptance and must be completed with a grade of C or better.
2 An open course that may be taken by any student & is recommended to be completed prior to acceptance.

Students pursuing this certificate will be advised by the Allied Health Sciences Division. Students wishing to pursue an A.A.S. Allied Health Sciences with an emphasis in Diagnosis and Procedural Coding should contact their advisor.

Any Learning Support course requirements must be completed before taking BIOL 2010.

A certain number of credit hours in each program must be completed in order to meet the graduation residency requirement. Contact your advisor for the requirement of your program. Only HIT courses which were completed within three years prior to applying for admission or readmission will be considered for credit toward graduation.

http://www.roanestate.edu/?6028-Diagnosis-and-Procedural-Coding
determine to not allow your presence at their facility. This would result in
your inability to successfully complete the Paramedic program. Students
will be responsible for the costs of the background check. Additionally,
a criminal background may preclude licensure or employment. More
information is available from your program director.

Health Guidelines

Students will be required to meet all health guidelines of affiliated clinical
agencies. Personal health insurance may be required by some agencies.
Students are highly encouraged to carry personal health insurance and
are responsible for costs incurred due to injury or illness while enrolled.
Students will be responsible for the cost of the physical examination and
required immunizations and/or testing.

Students will be required, during the course of the program to demonstrate
their physical and/or emotional fitness to meet the essential requirements of
the program. Such essential requirements include freedom from
communicable diseases, the ability to perform certain tasks, and suitable
emotional fitness. Any appraisal measures used to determine such physical
and/or emotional fitness will be in compliance with Section 504 of the
Students will be required to meet all health guidelines of the affiliating
agencies. Students are responsible for cost incurred from injury or illness
while in the Paramedic program.

Retention

1. Maintain current Tennessee licensure as EMT and maintain
current CPR certification at the level of American Heart
Association-Health Care Provider level or American Red Cross-
Professional Rescuer.
2. Maintain 80% in didactic, lab and clinical areas.

The RSCC policy of Student Conduct and Disciplinary Sanctions applies
to all students regardless of the program in which they are enrolled. In
cases where alcohol and drug violations occur, disciplinary action, as
well as the decision whether to test for alcohol or drugs, will be processed
through the Dean of Allied Health Sciences and the office of the Dean of
Student Services and Multicultural Affairs.

Readmission Procedures

A student must request readmission after a grade of “D” or “F” is received
in a core course or after withdrawal from the program at any time during
the semester.

A student may be considered for readmission to the program if all of the
following criteria are met:

1. Students applying for readmission must meet all admissions
criteria listed above. The applicant must submit a readmission
request in writing to the Program Director at least thirty (30)
days prior to enrollment. The request must be a detailed
personal reflection of the reason(s) for the unsuccessful
performance and a plan of correction.
2. One (1) readmission to the program will be permitted.
3. The applicant applying for readmission may be required to
interview with the Program Director for consideration of
readmission before the review date by the AHS Admissions
Committee.
4. An acceptable level of discipline-specific competency may need
to be demonstrated prior to readmission.
5. A student with previous unsatisfactory clinical performance
must be recommended for readmission by consensus of the
program faculty.

Note: The AHS Program Director will verify that all
readmission documents and criteria including licensure/
credentials are current and valid.
6. Readmission to an Allied Health Sciences program is contingent
upon the availability of space.
7. Students who are dismissed for reasons associated with
academic misconduct or violations of a code of ethics will not
be considered for re-admission.
8. A student must repeat the specialty course or courses for which
he/she was dismissed and attain a “C” or better in the course.
9. A student may be readmitted to the program within two
years from the semester they failed. Before being considered
for readmission they will be required to take a competency
exam for those course(s) which they previously successfully
completed. Upon successful completion of those exams they
will be considered for readmission to the program and be
required to take only the course(s) they failed. If they do not
successfully complete the competency exam(s), they can
reapply for admission but will have to repeat all courses.
Successful completion of a competency exam(s) would mean a
grade of 70 or greater.

Note: Students must follow the admissions process regarding interviews
and testing in compliance with EMS rules and regulations as set forth
by the Tennessee Department of Health, Division of Emergency Medical
Services and the RSCC Paramedic program. A Paramedic Admissions
Committee considers all eligible applicants and recommends applicants
to the Allied Health Science Admission Committee. Applicants must report
if their license in any health care field has been suspended, revoked, or
denied.

order to meet the graduation residency requirement. Contact your faculty
advisor for the requirement of your program.
Advanced Emergency Medical Technician

The Advanced Emergency Medical Technician (AEMT) program is a one-semester certificate program. The lecture and lab consists of approximately 270 clock hours. The clinical/field internship is approximately 134 clock hours. The program has a Fall and Spring start.

The program consists of four components of instruction: lecture, skills laboratory, clinical education and field internship. The successful completion of these components will prepare the students for National Registry exams and enable him/her to demonstrate competence as an entry level AEMT. Graduates of this program may work in emergency medical services (EMS), fire/rescue, hospital emergency departments, medical clinics, sports medicine, industrial medicine, or similar occupations. Students are eligible to apply for the Paramedic Certificate Program after they become credentialed as an AEMT.

The Advanced Emergency Medical Technician (AEMT) Technical Certificate program is offered on the Knox Center for Health Sciences and designated RSCC satellite campuses.

Admission Requirements

1. Complete the Roane State Community College (RSCC) admissions process to become an admitted student.
2. Complete the COMPASS. If COMPASS results indicate a reading deficiency, all Learning Support requirements for reading comprehension must be successfully completed before applicant will be considered for admission to the program. Note: Some applicants may be exempt from COMPASS testing. COMPASS scores within the last three years are accepted. COMPASS scores/transcripts from other colleges must be turned into the RSCC Admission and Records Office by published application deadline. See the COMPASS webpage for registration directions, exemptions, and more.
3. Complete the electronic Allied Health Science (AHS) application on RaiderNet and submit by the published application deadline. Note: When completing the application, select “Advanced EMT”
4. Be currently licensed as an Emergency Medical Technician in the State of Tennessee or have successfully completed an EMT education program within 120 days of beginning the Advanced EMT education program and have successfully completed a Tennessee EMS Board approved EMT competency written and practical examination.
5. EMTs who have shown competency in basic knowledge and skills through completion of Board approved written and practical examination and wish to progress to AEMT training without obtaining an EMT license shall submit evidence of good moral character (two letters of reference). Such evidence shall attest to the EMT’s good moral character and be two recent (within the preceding 12 months) original letters from medical professionals attesting to the applicant’s personal character. Preferably, one letter should be from current employer and the second letter should be a character reference. In the situation of unemployment, two character letters may be submitted. Family references will not be accepted.
6. A copy of the CPR healthcare provider level certificate must be submitted that includes one-person, two-person, infant and child CPR.
7. Submit proof of medical malpractice insurance and health insurance as required.
8. Complete a physical exam, along with all required vaccinations and/or titers.
9. Students must follow the admissions process regarding interviews and testing in compliance with EMS rules and regulations as set forth by the Tennessee Department of Health, Division of Emergency Medical Services and the RSCC Paramedic program. A Paramedic Admissions Committee considers all eligible applicants and recommends applicants to the Allied Health Science Admission Committee. Applicants must report if their license in any health care field has been suspended, revoked, or denied.

Note: Students may not register for discipline-specific courses until they have been accepted to the program and their major has been changed. Note: Meeting minimum requirements does not guarantee acceptance. Preference will be given to Tennessee Residents.

*Tennessee Emergency Medical Services Board requirement.

Program Application Deadlines

Fall Admission: March 31, late applications may be considered on a space-available basis.
Spring Admission: October 31, late applications may be considered on a space-available basis.

Criminal Background Checks

Criminal background checks and drug screening may be a requirement at affiliated clinical sites utilized for training in the Paramedic program. Based on the results of these checks, an affiliated clinical site may determine to not allow your presence at their facility. This would result in your inability to successfully complete the Paramedic program. Students will be responsible for the costs of the background check. Additionally, a criminal background may preclude licensure or employment. More information is available from your program director.

Health Guidelines

Students will be required to meet all health guidelines of affiliated clinical agencies. Personal health insurance may be required by some agencies. Students are highly encouraged to carry personal health insurance and are responsible for costs incurred due to injury or illness while enrolled. Students will be responsible for the cost of the physical examination and required immunizations and/or testing.

Students will be required, during the course of the program to demonstrate their physical and/or emotional fitness to meet the essential requirements of the program. Such essential requirements include freedom from communicable diseases, the ability to perform certain tasks, and suitable emotional fitness. Any appraisal measures used to determine such physical and/or emotional fitness will be in compliance with Section 504 of the Rehabilitation Act of 1973 and the American Disabilities Act of 1990. Students will be required to meet all health guidelines of the affiliating agencies. Students are responsible for cost incurred from injury or illness while in the Paramedic program.

Retention

1. Maintain current Tennessee licensure as EMT and maintain current CPR certification at the level of American Heart Association-Health Care Provider level or American Red Cross-Professional Rescuer.
2. Maintain 80% in didactic, lab and clinical areas.

The RSCC policy of Student Conduct and Disciplinary Sanctions applies to all students regardless of the program in which they are enrolled. In
cases where alcohol and drug violations occur, disciplinary action, as well as the decision whether to test for alcohol or drugs, will be processed through the Dean of Allied Health Sciences and the office of the Dean of Student Services and Multicultural Affairs.

**Readmission Procedures**

A student must request readmission after a grade of “D” or “F” is received in a core course or after withdrawal from the program at any time during the semester.

A student may be considered for readmission to the program if all of the following criteria are met:

1. Students applying for readmission must meet all admissions criteria listed above. The applicant must submit a readmission request in writing to the Program Director at least thirty (30) days prior to enrollment. The request must be a detailed personal reflection of the reason(s) for the unsuccessful performance and a plan of correction.
2. One (1) readmission to the program will be permitted.
3. The applicant applying for readmission may be required to interview with the Program Director for consideration of readmission before the review date by the AHS Admissions Committee.
4. An acceptable level of discipline-specific competency may need to be demonstrated prior to readmission.
5. A student with previous unsatisfactory clinical performance must be recommended for readmission by consensus of the program faculty.
   *Note: The AHS Program Director will verify that all readmission documents and criteria including licensure/credentials are current and valid.*
6. Readmission to an Allied Health Sciences program is contingent upon the availability of space.
7. Students who are dismissed for reasons associated with academic misconduct or violations of a code of ethics will not be considered for re-admission.
8. A student must repeat the specialty course or courses for which he/she was dismissed and attain a “C” or better in the course.

Massage Therapy

Massage therapy is a nine-month certificate program to prepare students for entry level careers in the growing field of massage, bodywork and somatic therapies. Graduates will be eligible for a Tennessee Massage Therapy License and eligible to sit for the National Certification in Therapeutic Massage and Bodywork Examination.

The focus of this program will be Swedish Massage and Neuromuscular Therapy with an overview of the many other modalities practiced by Licensed Massage Therapists. More than 100 different approaches to therapeutic manipulation of muscles, tendons, ligaments, fascia, and circulatory structures are available in the market. Most require advanced training beyond the scope of this certificate program.

Massage therapists practice in a wide variety of settings: health clubs and wellness centers; chiropractic and physical therapy offices; hotels, resorts and cruise lines; health food stores and sports outfitters; pain management and sports injury clinics; psychological and psychiatric clinics; and private homes and offices. Some work under the supervision of other licensed health care providers. Some are in business for themselves as private contractors. Many work part-time. Many work exclusively from their home offices.

All Massage Therapy courses are taught at the Oak Ridge Branch Campus. Enrollment is limited.

Admission Requirements

1. Complete the Roane State Community College (RSCC) admissions process to become an admitted student.
2. Complete the electronic Allied Health Science (AHS) application on RaiderNet and submit by the published application deadline.
   Note: When choosing the Planned Course of Study, select Massage Therapy. If Massage Therapy is not selected as a Planned Course of Study you will not be considered for the Massage Therapy Program.
3. Complete the required program admission examination. See the TEAS V for AH webpage for registration directions, exemptions, and more.
4. Complete all other entrance requirements detailed on the Massage Therapy webpage.
5. Qualified applicants will be interviewed prior to acceptance.

Note: Students may not register for discipline-specific courses until their major has been changed.
Note: Meeting minimum requirements does not guarantee acceptance. Preference will be given to Tennessee Residents.

Program Application Deadline

June 15. Late applicants may be considered on a space-available basis.

Criminal Background Checks

Criminal background checks and drug screening may be a requirement at affiliated clinical sites utilized for training in the Massage Therapy Program. Based on the results of these checks, an affiliated clinical site may determine to not allow your presence at their facility. This would result in your inability to successfully complete the Massage Therapy Program. Students will be responsible for the costs of the background check. Additionally, a criminal background may preclude licensure or employment. More information is available from your program director.
Health Guidelines

Students will be required to meet all health guidelines of affiliated clinical agencies. Personal health insurance may be required by some agencies. Students are highly encouraged to carry personal health insurance and are responsible for costs incurred due to injury or illness while enrolled. Students will be responsible for the cost of the physical examination and required immunizations and/or testing.

Students will be required, during the course of the program to demonstrate their physical and/or emotional fitness to meet the essential requirements of the program. Such essential requirements include freedom from communicable diseases, the ability to perform certain tasks, and suitable emotional fitness. Any appraisal measures used to determine such physical and/or emotional fitness will be in compliance with Section 504 of the Rehabilitation Act of 1973 and the American Disabilities Act of 1990. Students will be required to meet all health guidelines of the affiliating agencies. Students are responsible for cost incurred from injury or illness while in the Massage Therapy Program.

Retention

Students’ grades will be evaluated at the end of each semester by the Program Director. A student must maintain the following standards or he/she will be dismissed from the program:

1. A grade of “C” or better in each specialty course.
2. Completion of specialty courses as specified by the certificate checklist. A student must be able to complete courses with the class in which he/she was admitted. A student who cannot graduate with the class in which he/she was admitted will be dropped from that class and must re-apply to a subsequent class.
3. Evidence of malpractice insurance and physical examination must be provided prior to clinical training.

The RSCC policy of Student Conduct and Disciplinary Sanctions applies to all students regardless of the program in which they are enrolled. In cases where alcohol and drug violations occur, disciplinary action, as well as the decision whether to test for alcohol or drugs, will be processed through the Dean of Allied Health Sciences and the office of the Dean of Student Services and Multicultural Affairs.

Readmission Procedures

A student may request readmission after a grade of “D” or “F” is received in a core course or after withdrawal from the program at any time during the semester.

A student may be considered for readmission to the program if all of the following criteria are met:

1. Students applying for readmission must meet all admissions criteria listed above. The applicant must submit a readmission request in writing to the Program Director at least thirty (30) days prior to enrollment. The request must be a detailed personal reflection of the reason(s) for the unsuccessful performance and a plan of correction.
2. One (1) readmission to the program will be permitted.
3. The applicant applying for readmission will be required to interview with the Program Director for consideration of readmission before the review date by the AHS Admissions Committee.
4. An acceptable level of discipline-specific competency may need to be demonstrated prior to readmission.

5. A student with previous unsatisfactory clinical performance must be recommended for readmission by consensus of the program faculty. Note: The AHS Program Director will verify that all readmission documents and criteria including licensure/credentials are current and valid.
6. Readmission to an Allied Health Sciences program is contingent upon the availability of space.
7. Students who are dismissed for reasons associated with academic misconduct or violations of a code of ethics will not be considered for re-admission.
8. A student must repeat the specialty course or courses for which he/she was dismissed and attain a “C” or better in the course.
9. A student may be readmitted to the program within two years from the semester they failed. Before being considered for readmission it will be required to take a competency exam for those course(s) which they previously successfully completed. Upon successful completion of those exams they will be considered for readmission to the program and be required to only take the course(s) they failed. If they do not successfully complete the competency exam(s), they can reapply for admission but will have to repeat all courses. Successful completion of a competency exam(s) would mean a grade of 70 or greater.

Summer Semester Total 4
TOTAL SEMESTER HOURS 29

Students pursuing this certificate will be advised by the Allied Health Sciences Division. Students wishing to pursue an A.A.S. Allied Health Sciences with an emphasis in Massage Therapy should contact their advisor.

A certain number of credit hours in each program must be completed in order to meet the graduation residency requirement. Contact your advisor for the requirement of your program.

http://www.roanestate.edu/?5983-Massage-Therapy
Healthcare Documentation Specialist

The Healthcare Documentation Specialist Program is a three-semester certificate program. Classes may also be scheduled to provide opportunity to complete the program in 9 months if certain conditions are met and with the permission of the Program Director. Graduates of this program are prepared to transcribe medical record reports dictated by physicians. They are also prepared to edit speech-generated medical reports. Medical transcriptionist/speech recognition editors work in hospitals, clinics, doctor’s offices, and transcription services. Graduates are eligible to take the AHDI (Association for Healthcare Documentation Integrity) RHDS certification examination. The program is approved by the ACCP (Approval Committee for Certificate Programs). The ACCP Committee operates under the authority of the AHDI National Leadership Board.

Traditional classes are taught at the Oak Ridge Branch Campus. All courses are also available online. Enrollment is limited.

Admission Requirements

1. Complete the Roane State Community College (RSCC) admissions process to become an admitted student.
2. Complete the electronic Allied Health Science (AHS) application on RaiderNet and submit by the published application deadline.
   Note: When choosing the Planned Course of Study, select Healthcare Documentation Specialist. If this program is not selected as a Planned Course of Study you will not be considered for the Healthcare Documentation Specialist Program.
3. Complete the COMPASS. If COMPASS results indicate a reading or writing deficiency, the appropriate Learning Support courses for reading comprehension and/or writing must be successfully completed with a grade of “C” or better to enroll in Medical Transcription I (MDT 104).
   Note: Some applicants may be exempt from COMPASS testing. COMPASS scores within the last three years are accepted. COMPASS scores from other colleges must be turned into the RSCC Admission and Records Office by published application deadline. See the COMPASS webpage for registration directions, exemptions, and more.
4. Demonstrate a basic knowledge of computer/word processing functions by successful completion of a basic computer skills test. (recommend INFS 1010)
5. Demonstrate a high-school level knowledge of grammar, punctuation and spelling by passing a basic transcription test (prior knowledge of medical terminology is not required for the transcription test).
6. Demonstrate a typing speed of 45 words per minute.
7. No auditory (hearing) deficiencies.
8. Complete all other entrance requirements detailed on the Medical Transcription webpage.
   Note: Students may not register for discipline-specific courses until their major has been changed.
   Note: Meeting minimum requirements does not guarantee acceptance. Preference will be given to Tennessee Residents.

Program Application Deadline

June 15. Late applicants may be considered on a space-available basis.

Criminal Background Checks

Criminal background checks and drug screening may be a requirement at affiliated clinical sites utilized for training in the Medical Transcription Program. Based on the results of these checks, an affiliated clinical site may determine to not allow your presence at their facility. This would result in your inability to successfully complete the Medical Transcription Program. Students will be responsible for the costs of the background check. Additionally, a criminal background may preclude licensure or employment. More information is available from your program director.

Health Guidelines

Students will be required to meet all health guidelines of affiliated clinical agencies. Personal health insurance may be required by some agencies. Students are highly encouraged to carry personal health insurance and are responsible for costs incurred due to injury or illness while enrolled. Students will be responsible for the cost of the physical examination and required immunizations and/or testing.

Students will be required, during the course of the program to demonstrate their physical and/or emotional fitness to meet the essential requirements of the program. Such essential requirements include freedom from communicable diseases, the ability to perform certain tasks, and suitable emotional fitness. Any appraisal measures used to determine such physical and/or emotional fitness will be in compliance with Section 504 of the Rehabilitation Act of 1973 and the American Disabilities Act of 1990. Students will be required to meet all health guidelines of the affiliating agencies. Students are responsible for cost incurred from injury or illness while in the Medical Transcription Program.

Retention

Students’ grades will be evaluated at the end of each semester by the Program Director. A student must maintain the following standards or he/she will be dismissed from the program:

1. A grade of “C” or better in each specialty course.
2. Completion of specialty courses as specified by the certificate checklist. A student must be able to complete courses with the class in which he/she was admitted. A student who cannot graduate with the class in which he/she was admitted will be dropped from that class and must re-apply to a subsequent class.
3. Evidence of malpractice insurance and physical examination must be provided prior to clinical training.

The RSCC policy of Student Conduct and Disciplinary Sanctions applies to all students regardless of the program in which they are enrolled. In cases where alcohol and drug violations occur, disciplinary action, as well as the decision whether to test for alcohol or drugs, will be processed through the Dean of Allied Health Sciences and the office of the Dean of Student Services and Multicultural Affairs.

Readmission Procedures

A student must request readmission after a grade of “D” or “F” is received in a core course or after withdrawal from the program at any time during the semester.

A student may be considered for readmission to the program if all of the following criteria are met:

1. Students applying for readmission must meet all admissions criteria listed above.
   The applicant must submit a readmission request in writing to the Program Director at least thirty (30) days prior to enrollment. The request must be a detailed personal reflection of the reason(s) for the unsuccessful performance and a plan of
2. One (1) readmission to the program will be permitted.
3. The applicant applying for readmission may be required to interview with the Program Director for consideration of readmission before the review date by the AHS Admissions Committee.
4. An acceptable level of discipline-specific competency may need to be demonstrated prior to readmission.
5. A student with previous unsatisfactory clinical performance must be recommended for readmission by consensus of the program faculty.
   
   Note: The AHS Program Director will verify that all readmission documents and criteria including licensure/credentials are current and valid.
6. Readmission to an Allied Health Sciences program is contingent upon the availability of space.
7. Students who are dismissed for reasons associated with academic misconduct or violations of a code of ethics will not be considered for re-admission.
8. A student must repeat the specialty course or courses for which he/she was dismissed and attain a “C” or better in the course.
9. A student may be readmitted to the program within two year from the semester they failed. Before being considered for readmission they will be required to take a competency exam for those course(s) which they previously successfully completed. Upon successful completion of those exams they will be considered for readmission to the program and be required to take only the course(s) they failed. If they do not successfully complete the competency exam(s), they can reapply for admission but will have to repeat all courses. Successful completion of a competency exam(s) would mean a grade of 70 or greater.
10. Medical Transcription I (MDT 104) must be repeated before students are allowed to enroll in Medical Transcription II and/or the Clinical Practicum (MDT 112).

Students pursuing this certificate will be advised by the Allied Health Sciences Division. Students wishing to pursue an A.A.S. Allied Health Sciences with an emphasis in Medical Transcription should contact their advisor. A certain number of credit hours in each program must be completed in order to meet the graduation residency requirement. Contact your advisor for the requirement of your program.
Pharmacy Technician

The Roane State Pharmacy Technician Certificate Program is a two-semester program preparing students to enter the pharmacy field as trained technicians. It is intended to provide comprehensive, quality training to students so they will be able to function in community and organized health care pharmacy settings. Upon completion of the certificate program, students will be ready to obtain national certification by taking the Pharmacy Technician Certification Board (PTCB) examination.

All Pharmacy Technician courses are taught at the Harriman Campus. Enrollment is limited.

Admission Requirements

1. Complete the Roane State Community College (RSCC) admissions process to become an admitted student.
2. Complete the electronic Allied Health Science (AHS) application on RaiderNet and submit by the published application deadline.
   Note: When choosing the Planned Course of Study, select Pharmacy Technician. If Pharmacy Technician is not selected as a Planned Course of Study you will not be considered for the Pharmacy Technician Program.
3. Complete the required program admission examination. See the TEAS V for AH webpage for registration directions, exemptions, and more.
4. The applicant must meet one of the following minimum academic requirements:
   a) Students must attain a GPA of 2.0 or better after completion of at least 9 semester hours of courses.
   b) If the student is a first time freshman with no prior college coursework then only the TEAS V for AH score is considered.
5. After a review of TEAS V for AH scores, qualified applicants will be interviewed prior to acceptance.
   a) Qualified applicants will have an optimal TEAS V for AH score defined as an adjusted individual total score of at least the percentage mean for Pharmacy Technology. If a candidate does not meet that criterion but demonstrates, at minimum, the percentage mean for an individual subtest score in the math and reading categories then consideration for admission will be given.
6. Final selection of students will be made by the AHS Admissions Committee.
7. Students will be notified electronically via RaiderNet email of acceptance to the Pharmacy Technician program. Students must acknowledge their acceptance via reply email by the designated response date stated in the acceptance email.
8. The Allied Health Sciences/Nursing Admission Advisor will change the major of all accepted students to accurately reflect their program of study. Students may not register for discipline-specific courses until their major has been changed.
9. Students meeting minimum requirements are not guaranteed acceptance. Preference will be given to Tennessee residents.
10. Students that do not meet minimum requirements may be considered under special circumstances and on a space available basis.

Note: Students may not register for discipline-specific courses until their major has been changed.

Program Application Deadline

March 31. Late applicants may be considered on a space-available basis.

Criminal Background Checks

Criminal background checks and drug screening may be a requirement at affiliated clinical sites utilized for training in Health Science and Nursing programs. Based on the results of these checks, an affiliated clinical site may determine to not allow your presence at their facility. This would result in your inability to successfully complete the requirements of a Health Science or Nursing program. Students will be responsible for the costs of the background check. Additionally, a criminal background may preclude registration with the state board of pharmacy or employment. More information is available from your program director.

Health Guidelines

Students will be required to meet all health guidelines of affiliated clinical agencies. Personal health insurance may be required by some agencies. Students are highly encouraged to carry personal health insurance and are responsible for costs incurred due to injury or illness while enrolled. Students will be responsible for the cost of the physical examination and required immunizations and/or testing.

Students will be required, during the course of the program to demonstrate their physical and/or emotional fitness to meet the essential requirements of the program. Such essential requirements include freedom from communicable diseases, the ability to perform certain tasks, and suitable emotional fitness. Any appraisal measures used to determine such physical and/or emotional fitness will be in compliance with Section 504 of the Rehabilitation Act of 1973 and the American Disabilities Act of 1990. Students will be required to meet all health guidelines of the affiliating agencies. Students are responsible for cost incurred from injury or illness while in the Pharmacy Technician Program.

Retention

A student must maintain the following standards or he/she will be dismissed from the program:

1. A grade of “C” or better in each specialty course.
2. Completion of specialty courses as specified by the certificate checklist. A student must be able to complete courses with the class in which he/she was admitted. A student who cannot graduate with the class in which he/she was admitted will be dropped from that class and must reapply to a subsequent class.
3. Prior to clinical training, evidence of malpractice insurance and a physical examination must be provided.
4. Students may have to register with the Tennessee Board of Pharmacy before attending clinicals.
5. Students admitted to the program whose use of alcohol or consciousness-altering drugs interferes with their performance will be referred for a drug screen and counseling. Failure to correct the problem will result in dismissal from the program. The RSCC policy of Student Conduct and Disciplinary Sanctions applies to all students regardless of the program in which they are enrolled. In cases where alcohol and drug violations occur, disciplinary action, as well as the decision whether to test for alcohol or drugs, will be processed through the Dean of Allied Health Sciences and the office of the Dean of Students.

Readmission Procedures

A student must request readmission after a grade of “D” or “F” is received in a core course or after withdrawal from the program at any time during the semester.
A student may be considered for readmission to the program if all of the following criteria are met:

1. Students applying for readmission must meet all admissions criteria listed above. The applicant must submit a readmission request in writing to the Program Director at least thirty (30) days prior to enrollment. The request must be a detailed personal reflection of the reason(s) for the unsuccessful performance and a plan of correction.
2. One (1) readmission to the program will be permitted.
3. The applicant applying for readmission may be required to interview with the Program Director for consideration of readmission before the review date by the AHS Admissions Committee.
4. An acceptable level of discipline-specific competency may need to be demonstrated prior to readmission.
5. A student with previous unsatisfactory clinical performance must be recommended for readmission by consensus of the program faculty.

   Note: The AHS Program Director will verify that all readmission documents and criteria including licensure/credentials are current and valid.
6. Readmission to an Allied Health Sciences program is contingent upon the availability of space.
7. Students who are dismissed for reasons associated with academic misconduct or violations of a code of ethics will not be considered for re-admission.
8. A student must repeat the specialty course or courses for which he/she was dismissed and attain a “C” or better in the course.
9. A student may be readmitted to the program within one year from the semester they failed. Before being considered for readmission they will be required to take a competency exam for those course(s) which they previously successfully completed. Upon successful completion of those exams they will be considered for readmission to the program and be required to take only the course(s) they failed. If they do not successfully complete the competency exam(s), they can reapply for admission but will have to repeat all courses. Successful completion of a competency exam(s) would mean a grade of 70 or greater.

Students wishing to pursue an A.A.S. Allied Health Sciences with an emphasis in Pharmacy Technology should contact their advisor. A certain number of credit hours in each program must be completed in order to meet the graduation residency requirement. Contact your advisor for the requirement of your program.

Polysonmography

Polysonmography technology is an allied health specialty for the diagnosis and treatment of sleep disorders. There are over 80 different sleep disorders including sleep apnea, narcolepsy and insomnia.

Students will learn how to operate sophisticated electronic monitoring devices which record brain activity (EEG), muscle and eye movements, blood oxygen levels and physiological events. Polysonmography technologists are employed in sleep disorders centers in hospitals, clinics and office settings. This program will provide lectures, laboratory and clinical experiences at quality sleep centers. A major emphasis of the program will be to prepare technologists for board registration by the Association of Polysonmographic Technologists.

It is highly recommended that interested applicants tour a sleep center and observe a polypsonrogram (sleep study) prior to beginning the program.

All Polysonmography courses are taught at the Knox Campus Center for Health Sciences Campus. Enrollment is limited.

Admission Requirements

1. Complete the Roane State Community College (RSACC) admissions process to become an admitted student.
2. Complete the electronic Allied Health Science (AHS) application on RaiderNet and submit by the published application deadline.

   Note: When choosing the Planned Course of Study, select Polysonmography. If Polysonmography is not selected as a Planned Course of Study you will not be considered for the Polysonmography Program.
3. Complete the required program admission examination. See the TEAS V for AH webpage for registration directions, exemptions, and more.
4. Complete all other entrance requirements detailed on the Polysonmography webpage.
5. Qualified applicants will be interviewed prior to acceptance.

   Note: Students may not register for discipline-specific courses until their major has been changed.

   Note: Meeting minimum requirements does not guarantee acceptance. Preference will be given to Tennessee Residents.

Program Application Deadline

June 15. Late applicants may be considered on a space-available basis.

Criminal Background Checks

Criminal background checks and drug screening may be a requirement at affiliated clinical sites utilized for training in the Polysonmography Program. Based on the results of these checks, an affiliated clinical site may determine to not allow your presence at their facility. This would result in your inability to successfully complete the Polysonmography Program. Students will be responsible for the costs of the background check. Additionally, a criminal background may preclude licensure or employment. More information is available from your program director.

Health Guidelines

Students will be required to meet all health guidelines of affiliated clinical agencies. Personal health insurance may be required by some agencies. Students are highly encouraged to carry personal health insurance and are responsible for costs incurred due to injury or illness while enrolled.

 Regents Online Campus Collaborative

The Tennessee Board of Regents (TBR) colleges and universities have joined together in offering Regents Online Campus Collaborative ROCC). Most courses completed in the Regents Online Campus Collaborative are entirely online and are completely transferable among all the participating TBR institutions. Students are able to choose the college or university that will award their degree. All thirteen TBR two-year colleges deliver and award associate degrees, while all six TBR universities deliver and award bachelor degrees. A career/technical program leading to the associate of applied science degree in Professional Studies with a concentration in Information Technology is available.

Associate Degrees and Certificates offered through ROCC

Associate of Arts (A.A.) - Criminal Justice, General Studies

Associate of Science (A.S.) - Criminal Justice, General Studies

Associate of Science in General Studies - Elective Concentration for: Teacher Aides/Paraprofessionals Preparation (*University Parallel)

Associate of Applied Science (A.A.S.) - Early Childhood Education, Health Information Technology, Information Technology, Web Technology

Technical Certificate - Web Page Authoring

Students who pursue online programs should be highly motivated, independent, active learners who have good organizational and time management skills. Students should also have the discipline to study without external reminders and be able to adapt to new learning environments. Visit http://www.rodp.org or call 1-866-462-7722 ext. 4602 or 865-882-4602 for more information. Visit their website for current course offerings, other program offerings, and required books.

Students must meet the graduation requirements of the home institution. The college catalog of the home institution is the final authority for all degree and program requirements. Students must meet Roane State’s graduation requirements.

Course Descriptions

Note: The terms in which a course is normally taught is at the end of each description (F=Fall, Sp=Spring, Su=Summer).

Accounting

ACCT 1010 Principles of Accounting I Credits: 3
Basic principles and procedures in accounting relating to the complete accounting cycle for both service and merchandising companies owned as sole proprietorships and as corporations. Also, detailed analysis of assets and liabilities and owner’s equity. F, Sp, Su
Course designed for transfer and part of the TN Transfer Pathways.

ACCT 1020 Principles of Accounting II Credits: 3
Continues with corporate accounting and long-term liabilities, cash flow statement, and analysis of financial statements. Also, an emphasis on managerial and cost accounting for making sound business decisions. (Prerequisite: ACCT1010; a grade of C or better is strongly recommended in ACCT1010) F, Sp
Course designed for transfer and part of the TN Transfer Pathways.

ACCT 2240 Cost Accounting Credits: 3
Principles of manufacturing and distribution cost accounting. Material, labor, and overhead costs in job order and process cost accounting, budgeting analysis of cost distribution, standard costing, and related problems. (Prerequisite: ACCT1020; a grade of ‘C’ or better is strongly recommended in ACCT1020) Sp
Not part of a TN Transfer Pathway.

ACCT 2250 Income Tax Accounting - Personal Credits: 3
Federal income tax laws with emphasis on the preparation of returns for individuals. Both manual and computerized tax returns will be prepared. (Prerequisite: ACCT 1020 or consent of instructor)
Not part of a TN Transfer Pathway.

ACCT 2260 Income Tax Accounting - Business Credits: 3
Federal income tax laws with emphasis on the preparation of returns for business. Both manual and computerized tax returns will be prepared. (Prerequisite: ACCT1010 & 1020)
Not part of a TN Transfer Pathway.

ACCT 2270 Fund Accounting Credits: 3
The theory and practice of a fund accounting system used by a not-for-profit entity. Emphasis is on the budget process, appropriations and revenue funds for governmental agencies, schools, charities, and not-for-profit medical facilities. (Prerequisite: ACCT1010 or consent of instructor) F
Not part of a TN Transfer Pathway.

ACCT 2330 Intermediate Accounting Credits: 4
Extensive analysis of the principal elements of accounting systems and statements with emphasis on the assets, liabilities, and stockholder’s equity of the balance sheet. (Prerequisite: ACCT1020; a grade of ‘C’ or better is strongly recommended in ACCT1020) F
Not part of a TN Transfer Pathway.

ACCT 2550 Accounting Systems Applications I Credits: 3
A course designed to acquaint business management majors with commercial accounting software applications. (Prerequisites: ACCT1010 and INF51010; a grade of ‘C’ or better is strongly recommended in ACCT1010) Sp
Not part of a TN Transfer Pathway.
ACCT 2570  Accounting Systems Applications II  Credits: 2
A course designed to acquaint the student with commercial accounting software applications for medium size companies. Includes tracking of receivables, payables, inventory, and financial statement preparation. (Prerequisite: ACCT1010 and INFS1010; ACCT2550 is strongly recommended; a grade of ‘C’ or better is strongly recommended in ACCT1010) F
Not part of a TN Transfer Pathway.

Agriculture

AGRI 1020  Introduction to Animal Science  Credits: 4
To introduce the student to the broad field of animal science including a basic study of the anatomy and physiology of farm animals, livestock production systems, and contemporary issues regarding animal science. The student will become familiar with the fundamentals of feeding, genetics, marketing, animal health, and meat production. The student should also develop an appreciation for the importance of the livestock and meats industry in today’s economy. (3 hour lecture and 2 hour lab). This course may be charged a lab fee. F, Sp
Not part of a TN Transfer Pathway.

AGRI 1030  Introduction to Plant Science  Credits: 4
This course will introduce the student to the broad field of plant science including a basic study of the structure, reproduction, physiology, ecology, and classification of plants. The student will become familiar with the principles and practices involved with the culture, management, and utilization of economically important horticultural and agronomic crops.
Not a part of a TN Transfer Pathway.

Allied Health

ALH 1000  Careers in Healthcare  Credits: 3
This course is designed to explore different careers in health care. These are health care careers which require skilled health care professionals and practitioners. Discussion will include places of employment, educational requirements, licensures, occupational descriptions, and career opportunities.

ALH 1010  Introduction to Health-Related Professions  Credits: 3
This course is designed for students who are interested in exploring, planning, and preparing for a career as a health care practitioner. The course presents the essential information that students need to make an informed decision about health care discipline they would like to pursue that best matches their individual interests, skills, and abilities. Course materials and student projects will develop the student’s awareness of the demands and expectations of health care professionals, including technical, ethical, legal, and professional competencies. (3 lecture hours/week)
Not part of a TN Transfer Pathway

ALH 102  Introduction to Physical Therapy  Credits: 2
This is a web course that introduces the student to the profession of physical therapy and the concepts of the total patient. Current issues in health care that impact physical therapy are investigated. It provides information about the role of the physical therapist assistant in terms of professional, legal and ethical standards. It also provides an introduction to the concepts of disability, cultural diversity and ethical decision-making. Part of this class requires the student to complete 12 hours of observation in a physical therapy setting under the supervision of a registered PT or PTA. This experience will be documented and satisfy one of the course requirements as well as serving as one of the admissions criteria. Open to all students. (2 lecture hours/week)
Not part of a TN Transfer Pathway.

ALH 103  Introduction to Radiologic Technology  Credits: 2
This course provides an orientation to the profession, the radiology department, and the hospital organization. Topics include basic radiation protection, body mechanics, patient care, medical terminology, medical ethics, and legal issues. Part of this class requires that the student complete 8 hours of observation in a hospital diagnostic radiology setting. This experience will be documented and satisfy one of the course requirements as well as serving as one of the admissions criteria. Open to all students (2 lecture hours/week).
Not part of a TN Transfer Pathway.

ALH 118  Terminology for Medical Communication  Credits: 2
This is a web course that allows the student to use a combination of learning tools to gain a sound background in medical terminology. This will allow the student to communicate effectively with other professionals.
Not part of a TN Transfer Pathway.

ALH 119  Keyboarding for Allied Health Science Professionals
A software-based computer course designed to develop proper touch keyboarding techniques. Speed, accuracy and control are emphasized in developing mastery for alphabetic, numeric, and symbol information input. This course is designed specifically for students choosing a career in Medical Transcription or a related healthcare discipline. The course will not be considered a substitute for INFS 1010 or related computer science courses. Note: A net minimum typing speed of 45 words per minute is required. 3 hours/week
Not part of a TN Transfer Pathway.

ALH 210  Global Perspectives on Health: Community Based Rehabilitation
This course will expose students to views of health, wellness, and social acceptance from a different cultural perspective. Basic human rights including physical, mental and social well-being will be considered. Conditions supporting or denying these basic rights will be explored. Students will be expected to immerse themselves in the lifestyle of the host country, including working alongside local residents, service providers and recipients of services.
Not part of a TN Transfer Pathway.
ALH 211  Management and Leadership for Allied Health Supervisors  Credits: 3
This course is designed to introduce the student to management functions and leadership principles and their application in health care organizations. Student projects will develop the student’s ability to apply the principles of organizational theory, management theory, management style and behavioral aspects of management across a variety of health care settings. Many allied health practitioners will assume the role of a manager during the course of their career. This course is designed to provide theory and application focusing on the development of leadership and management strategies and skills to prepare these practitioners to assume professional responsibilities in management and administration. (3 lecture hours/week)
Not part of a TN Transfer Pathway.

ALH 212  Contemporary Issues in Healthcare  Credits: 3
This is an issues oriented course that examines the healthcare delivery system in the United States. The course examines the entire continuum of care and uses the construct of a fully integrated system as a means to evaluate the current system to develop recommendations for further developments. The intent is to identify the key issues confronting healthcare today, examine the causes and develop reasonable solutions to the current set of problems. The student will develop an understanding of the unique interplay of the new and changing health care, technology, work force, research findings, financing, regulations, and personal and professional behaviors, values and assumptions that underlie the current health care system. (3 lecture hours/week)
Not part of a TN Transfer Pathway.

ALH 213  Special Topics in Healthcare Management  Credits: 3
This course is designed to allow the student the opportunity to engage in independent study of a selected topic of interest in the field of health care administration, which will enhance the student’s ability to function more effectively as a manager in the healthcare field. The course is conducted in a seminar or symposium format where each student is an active and involved participant in the selection of topic questions and material to be covered. Topics might include organizational learning, women in leadership, adult learning, leadership and culture, re-engineering and organizational learning. (3 lecture hours/week)
Not part of a TN Transfer Pathway.

ALH 214  Medical Law and Ethics  Credits: 3
This course provides an introduction to legal and ethical issues that impact health care professionals. Laws and regulations related to the health care industry such as HIPAA, Patient Bill of Rights, and standard of care are addressed. In addition, ethical and moral issues that health care professionals may encounter are presented. The student will develop an understanding of the unique interplay of the new and changing health care, technology, work force, research, financing, regulation, and personal and professional behaviors, values and assumptions that underlie the current health care system.
Not a part of TN Transfer Pathway.

ALH 215  Experiential Learning  Credits: 3
This course is designed to accommodate the student licensed in an allied health discipline but who has not attended a formal postsecondary program. The student will develop a Professional Experiences portfolio for which they may receive college credit for life/professional experiences ranging from 3 to 18 credit hours. The Professional Experiences portfolio will be evaluated by 2 evaluators using the criteria established by the Council for the Advancement of Experiential Learning (CAEL). Not part of a TN Transfer Pathway.

ALH 254  Human Cross Sectional Anatomy  Credits: 3
A study of the human body in a cross-sectional context. Emphasis will be placed on major anatomical features and radiologic landmarks. Students also explore soft tissue details as resolution allows. This course will serve to prepare students for conventional tomographic radiology, computer tomography, position emission tomography, magnetic resonance scanning and ultrasonography. (Crosslisted with BIOL 2540) This course does not meet any curricular requirements for any program, with the exception of the technical requirement for the A.A.S. General Technology program. (3 lecture hours/week and demonstration exercises)
Not part of a TN Transfer Pathway.

Anthropology

ANTH 2150  Native American Studies  Credits: 3
A general survey of native American cultures with emphasis on cultural development, diversity, and comparative analysis. Topics include prehistory, social organization, kinship, politics, religion, and material culture, as well as discussion of current Native American concerns. (as needed)
Roane State General Education course approved and designed for transfer.

Art (RODP)

ART 1030  Art Appreciation  Credits: 3
Form and meaning in the visual arts, lecture-discussion. Especially for non-majors. F, Sp

Art History

ARTH 2010  Survey of Art History I  Credits: 3
Survey of major monuments in Western art, with an emphasis on the art of Europe from prehistory through the Middle Ages. Class availability determined by Director of Art Program.
Roane State General Education course approved and designed for transfer.

ARTH 2020  Survey of Art History II  Credits: 3
Survey of major monuments in Western art, with an emphasis on Europe and America from 1400 to the present. Class availability determined by Director of Art Program.
Roane State General Education course approved and designed for transfer.

ARTH 2030  Survey of Contemporary Art  Credits: 3
Survey of major monuments in Western art, with an emphasis on Europe and America from 1400 to the present. (Class available as determined by Director of Art Program)
Not part of a TN Transfer Pathway.
ARTH 2500  Special Topics In Art History  Credits: 3
An in-depth study of selected topics in the history of art, including specific artists, stylistic movements, methodology, and/or art criticism. Topics to be announced. Not part of a TN Transfer Pathway.

Art Studio

ARTP 1000  Studio Fundamentals: Drawing  Credits: 2
Development of observational skills and perception of reality. Fundamental aspects of drawing - line, tone, space, form, and composition. Primarily for art, architecture, interior design, and art education majors. Additional work may be required outside class. (2 hours lecture, 2 hours laboratory) F, Sp Not part of a TN Transfer Pathway.

ARTP 1010  Drawing I  Credits: 3
Exploration and refinement of fundamental aspects of drawing with emphasis on composition, techniques, and concepts. A minimum of two hours drawing outside class is required. (3 hours lecture, 3 hours laboratory) F, Sp Course designed for transfer and part of the TN Transfer Pathways.

ARTP 1020  Drawing II  Credits: 3
A continuation of Drawing I. (Prerequisite: ARTP 1010 or instructor approval) (3 hours lecture, 3 hours laboratory) F, Sp Course designed for transfer and part of the TN Transfer Pathways.

ARTP 1110  Two Dimensional Design  Credits: 3
Surface composition and color. Primarily for art, architecture, interior design, and art education majors. Additional work may be required outside class. (3 hours lecture, 3 hours laboratory) F Not part of a TN Transfer Pathway.

ARTP 1120  Three Dimensional Design  Credits: 3
Projects dealing with real space and three dimensional materials. Primarily for art, architecture, art education, and interior design and housing majors. Additional work may be required outside class. (3 hours lecture, 3 hours laboratory) F, Sp Course designed for transfer and part of the TN Transfer Pathways.

ARTP 1130  Painting I: Introduction  Credits: 3
An introduction to the techniques, materials, and tools of oil and acrylic painting. (Prerequisite: ARTP 1000 or ARTP 1110 or instructor approval) (3 hours lecture, 3 hours laboratory) F, Sp Not part of a TN Transfer Pathway.

ARTP 1140  Painting II  Credits: 3
A continuation of ARTP 1130 with an emphasis on individual experimentation. (Prerequisite: ARTP 1130) (3 hours lecture, 3 hours laboratory) F, Sp Not part of a TN Transfer Pathway.

ARTP 1200  Drawing III  Credits: 3
A continuation of Drawing II. (Prerequisite: ARTP 1020 or instructor approval) (3 hours lecture, 3 hours laboratory) (Class availability determined by Director of Art Program). Not part of a TN Transfer Pathway.

ARTP 1310  Photography I  Credits: 3
Introduction to the art of black and white photography. Field and studio shooting, history of photography, basic developing, and enlarging techniques. Some outside lab work will be necessary. Some additional fees for supplies may be required. (3 hours lecture, 3 hours laboratory) F, Sp Not part of a TN Transfer Pathway.

ARTP 1320  Photography II  Credits: 3
Individual research in specific photographic topics. Some additional fees for supplies may be required. (Prerequisite: ARTP 1310) (3 hours lecture, 3 hours laboratory) F, Sp Not part of a TN Transfer Pathway.

ARTP 1330  Photography III  Credits: 3
Continued individual research in specific photographic topics. Some additional fees for supplies may be required. (Prerequisite: ARTP 1320) (3 hours lecture, 3 hours laboratory) F, Sp Not part of a TN Transfer Pathway.

ARTP 1340  Photography IV  Credits: 3
Continued individual research in specific photographic topics. Some additional fees for supplies may be required. (Prerequisite: ARTP 1330) (3 hours lecture, 3 hours laboratory) F, Sp Not part of a TN Transfer Pathway.

ARTP 1350  Photography V  Credits: 3
Continued individual research in specific photographic topics. Some additional fees for supplies may be required. (Prerequisite: ARTP 1340) (3 hours lecture, 3 hours laboratory) (Class availability determined by Director of Art Program). Not part of a TN Transfer Pathway.

ARTP 1360  Photography VI  Credits: 3
Continued individual research in specific photographic topics. Some additional fees for supplies may be required. (Prerequisite: ARTP 1350) (3 hours lecture, 3 hours laboratory). Class availability determined by Director of Art Program. Not part of a TN Transfer Pathway.

ARTP 1410  Beginning Graphic Design  Credits: 3
Survey of graphic design; tools, materials, techniques; lettering, and use of type; layout and design. Some additional work may be required outside class. (Prerequisites: ARTP 1110 & ARTP 1420) (3 hours lecture, 3 hours laboratory) F Not part of a TN Transfer Pathway.

ARTP 1420  Computer Art  Credits: 3
Introduction to various applications of Computer Graphics and an overview of examples produced with the newest technology. Hands-on experience in working with microcomputer graphics software to solve variety of design problems with simple computer graphics. Emphasis on applying the principles of art design to the media to create clear and creative graphic. A minimum of 3 hours lab work per week will be necessary to complete course work. F, Sp Not part of a TN Transfer Pathway.

ARTP 1430  Computer Art II  Credits: 3
Advanced exploration of computer applications and graphic design for pagination, presentation, illustration, three dimensional modeling, or animation. (Prerequisite: ARTP 1420) (2 hours lecture, 1 hour laboratory per week required AND 4-6 hours per week (minimum) computer lab time) F, Sp Not part of a TN Transfer Pathway.

ARTP 1440  Computer Art III  Credits: 3
Continuation of ARTP 1430 (Prerequisite: ARTP 1430) (2 hours lecture, 1 hour laboratory per week required AND 4-6 hours per week (minimum) computer lab time) F, Sp Not part of a TN Transfer Pathway.

ARTP 1450  Computer Art IV  Credits: 3
Continuation of ARTP 1440. (Prerequisite: ARTP 1440) (2 hours lecture, 1 hour laboratory per week required AND 4-6 hours per week (minimum) computer lab time) F, Sp Not part of a TN Transfer Pathway.
ARTP 1510  Ceramics I: Handbuilding  Credits: 3
All ceramic handbuilding techniques including forming methods, glazing, clay preparation, firing, small and large scale pieces. Ceramic history through slide lectures. Some work outside class may be required. (3 hours lecture, 3 hours laboratory) (Class available as determined by Director of Art Program)
Not part of a TN Transfer Pathway.

ARTP 1520  Ceramics II: Throwing  Credits: 3
Thrown ceramic forms including functional utilitarian pottery techniques, glazing and firing methods. Some work outside class may be required. (Prerequisite: ARTP 1510) (3 hours lecture, 3 hours laboratory) (Class available as determined by Director of Art Program)
Not part of a TN Transfer Pathway.

ARTP 1610  Printmaking I  Credits: 3
An introduction to basic printmaking processes such as relief and intaglio, including operation of a press, inking techniques, and registration. (3 hours lecture, 3 hours laboratory) (Class available as determined by Director of Art Program)
Not part of a TN Transfer Pathway.

ARTP 1620  Printmaking II  Credits: 3
Continuation of ARTP 1610. (Prerequisite: ARTP 1610) (3 hours lecture, 3 hours laboratory) (Class available as determined by Director of Art Program)
Not part of a TN Transfer Pathway.

ARTP 1650  Video I  Credits: 3
Exploration of video as an art form. Introduction to contemporary video practice including experimental video, video installation, documentary, and narrative forms. (3 hours lecture, 3 hours lab) (Class available as determined by Director of Art Program).
Not part of a TN Transfer Pathway.

ARTP 1660  Video II  Credits: 3
Continuation of ARTP 1650, Video I. (Prerequisite: ARTP 1650) (3 hours lecture, 3 hours lab) (Class available as determined by Director of Art Program)
Not part of a TN Transfer Pathway.

ARTP 1670  Video III  Credits: 3
Continuation of ARTP 1660 Video II. (Prerequisite: ARTP 1660) (3 hours lecture, 3 hours lab) (Class available as determined by Director of Art Program)
Not part of a TN Transfer Pathway.

ARTP 1810  Visions Seminar I  Credits: 2
Emphasis on research, creative processes, scriptwriting and problem solving in the conceptualization of original projects or the visualization of assigned problems. Group critiques will assist students in the formation and polishing of content for work to be produced with the computer or traditional media. F, Sp
Not part of a TN Transfer Pathway.

ARTP 1820  Visions Seminar II  Credits: 2
Continuation of ARTP 1810. (Prerequisite: ARTP 1810) F, Sp
Not part of a TN Transfer Pathway.

ARTP 1830  Visions Seminar III  Credits: 2
Continuation of ARTP 1820. (Prerequisite: ARTP 1820) F, Sp
Not part of a TN Transfer Pathway.

ARTP 1840  Visions Seminar IV  Credits: 2
Continuation of ARTP 1830. (Prerequisite: ARTP 1830) F, Sp
Not part of a TN Transfer Pathway.

ARTP 2050  Web Design I  Credits: 3
Design and development of websites. (Prerequisite: ARTP 1420 or instructor approval) (3 hours lecture, 3 hours laboratory) (Class available as determined by Director of Art Program)
Not part of a TN Transfer Pathway.

ARTP 2060  Web Design II  Credits: 3
Continuation of ARTP 2050. (Prerequisite: ARTP 2050) (3 hours lecture, 3 hours laboratory) (Class available as determined by Director of Art Program).
Not part of a TN Transfer Pathway.

ARTP 2070  Animation I  Credits: 3
This course is an introduction to basic skills and concepts of 3D animation, modeling, lighting, camera movement, and rendering. Students will learn how to create storyboards and explore the animation development process. F, Sp
Not part of a TN Transfer Pathway.

ARTP 2080  Animation II  Credits: 3
This course continues with intermediate 3D animation and modeling including topics such as hierarchical animation, animation graphs and more advanced script development. (Prerequisite: ARTP 2070) F, Sp
Not part of a TN Transfer Pathway.

ARTP 2090  Animation III  Credits: 3
Advanced topics in 3D modeling/animation, composition and the development of independent creative work. (Prerequisite: ARTP 2080) F, Sp
Not part of a TN Transfer Pathway.

ARTP 2110  Watercolor I: Introduction  Credits: 3
Techniques, materials, and tools of transparent watercolor. A minimum of two hours painting outside class will be required. (Prerequisites: ARTP 1000 or ARTP 1110 or instructor approval) (3 hours lecture, 3 hours laboratory) F, Sp
Not part of a TN Transfer Pathway.

ARTP 2120  Watercolor II  Credits: 3
Further study of the techniques of transparent watercolor, with attention to individual exploration of surface, space, and concept. A minimum of two hours painting outside class will be required. (Prerequisite: ARTP 2110) (3 hours lecture, 3 hours laboratory) F, Sp
Not part of a TN Transfer Pathway.

Astronomy

ASTR 1010  Introduction to Astronomy I  Credits: 4
An introductory survey, with accompanying laboratory, treating the composition, structure, and dynamics of the universe and introducing the basic vocabulary of astronomy and the principles of the scientific method. Components of the solar system are discussed, and hypothesis and theories of the origin and evolution of the solar system are considered in the light of current knowledge and scientific reasoning. (3 hours lecture, 3 hours laboratory) F
Roane State General Education course approved and designed for transfer.

ASTR 1020  Introduction to Astronomy II  Credits: 4
A continuation of ASTR 1010 in which the sequence of stellar birth, evolution, and death is studied. Characteristics of galaxies and of the beginning of the universe are considered in view of modern astrophysics and particle physics. Principles of interpreting astronomical observations are reinforced through laboratory experience. (Prerequisite: ASTR 1010) (3 hours lecture, 3 hours laboratory) Sp
Roane State General Education course approved and designed for transfer.
ASTR 1030  Astronomy  Credits: 4
Topics covered include the history of astronomy, methods of astronomy, formation of the solar system, and the physical characteristics of the sun, planets, moons, and minor members of the solar system. Identification of stellar objects is included. May be taken with PHYS 1030 to form a two-semester sequence in physical science. Prerequisites: Entry-level college reading and math skills. Equivalent to RSCC’s ASTR 1010.

Biology

BIOL 1010  Biology I and Lab  Credits: 4

BIOL 1020  Biology II and Lab  Credits: 4
This course introduces the student to the diversity of life on earth, looking in more detail at the fungi, plants and animals. The structure and function of flowering plants is reviewed. Animal anatomy (tissues, organs and organ systems), physiology, reproduction and development are covered with an emphasis on humans. The final section of the course covers the principles of ecology. Prerequisites - must be eligible for enrollment in ENGL 1010. Equivalent to RSCC’s BIOL 1120.

BIOL 1110  General Biology I  Credits: 4
Introduction to the study of Biology, Biological Chemistry, Cell Structure and Function, Cell Reproduction, Genetics and Inheritance. Each student is assessed a lab fee for this course. (3 hours lecture, 2 hours laboratory) F, Sp, Su
Roane State General Education course approved and designed for transfer.

BIOL 1120  General Biology II  Credits: 4
Evolution, Biological Diversity, Ecology. (Prerequisite: BIOL 1110) Each student is assessed a lab fee for this course. (3 hours lecture, 2 hours laboratory) F, Sp, Su
Roane State General Education course approved and designed for transfer.

BIOL 1430  Nutrition  Credits: 3
A study of nutrients and their relationship to human growth, development, and maintenance. Special emphasis is given to the role of foods and the nutrients they contain, with regard to the physiological, psychological, and sociological well-being of the individual. Practical analysis of food records and application of nutritional knowledge will be included. Prerequisites - Completion of English and Writing remediation. Equivalent to RSCC’s HEC 201.

BIOL 2010  Human Anatomy and Physiology I  Credits: 4
A study of basic biological chemistry, cellular structure and function (including cellular respiration, protein synthesis and cell division), histology, and integumentary, skeletal and nervous system. The laboratory will provide experiments to illustrate principles covered in lecture. (Prerequisite: All learning support classes must be completed prior to enrollment in this course) Each student is assessed a lab fee for this course. (3 hours lecture, 3 hours laboratory) F, Sp, Su
Roane State General Education course approved and designed for transfer. (TTP course)

BIOL 2015  Environmental Science  Credits: 3
A study of chemical, physical and biological processes in nature and how human dependence on these systems is compromised by our activities. Lecture and laboratory activities provide instruction in such topics as resource management, nutrient cycles, biomes, ecosystems, air and water quality, climate, human population growth, soil conservation, and waste management. (This course satisfies the three hour natural science requirement for AAS career education programs such as Paralegal, Criminal Justice, Business Management, and Contemporary Management. Students planning to transfer into a baccalaureate program should consult their advisor when choosing natural science electives). F, Sp
Not part of a TN Transfer Pathway.

BIOL 2020  Human Anatomy and Physiology II  Credits: 4
A study of the anatomy and physiology of the muscular, circulatory and immune systems, respiratory, digestive, excretory, endocrine and reproductive systems. The laboratory will provide anatomical investigation of and physiological experimentation with these systems. (Prerequisite: BIOL 2010) Each student is assessed a lab fee for this course. (3 hours lecture, 3 hours laboratory) F, Sp, Su
Roane State General Education course approved and designed for transfer. (TTP course)

BIOL 2110  Field Biology  Credits: 3
An elective field-oriented course covering fauna and flora identification, basic ecological principles, and outdoor skills. The course will generally be offered as a combination of classroom instruction followed by an extended field experience. A special fee will be assessed to cover equipment, food, and transportation costs. Su
Not part of a TN Transfer Pathway.

BIOL 2120  Cell Biology  Credits: 4
A study of cellular structure and function including cell membranes, organelles, extracellular matrix, enzymes, cell cycle, DNA replication, transcription, translation, and control of gene expression. Special topics include molecular biology, cancer biology, immunology, and cellular communication. (Prerequisites: BIOL 1110, 1120 or the equivalent of 2 years of high school biology and CHEM 1110 and 1120) Each student will be assessed a lab fee for this course. (3 hours lecture, 3 hours laboratory) F
Not part of a TN Transfer Pathway.

BIOL 2230  Microbiology  Credits: 4
An introductory course in microbiology dealing with bacteria, fungi, yeast, viruses, arthropod vectors and helminths to include discussions of cell structure, identification, taxonomy, metabolism, genetics, resistance, infection, disease, and immunity. Laboratory work includes aseptic techniques, biochemical tests and identification of unknowns to complement lecture material. (Prerequisite: BIOL 1110 or 2010 or equivalent college level biology). Each student will be assessed a lab fee for this course. (3 hours lecture, 3 hours laboratory) F, Sp, Su
Not part of a TN Transfer Pathway.

BIOL 2510  Independent Scientific Investigation  Credits: 2
Independent laboratory /library research in biology by qualified students under the supervision of a faculty member. Especially designed to develop interest in and to apply techniques of scientific research. Up to six (6) credit hours may be earned. (Prerequisite: consent of the faculty member)
Not part of a TN Transfer Pathway.
BIOL 2520  Independent Scientific Investigation II  Credits: 2
TO 6
Independent laboratory/library research in biology by qualified students under the supervision of a faculty member. Especially designed to develop interest in and to apply techniques of scientific research. Up to six (6) credit hours may be earned. (Prerequisite: consent of the faculty member)
Not part of a TN Transfer Pathway.

BIOL 2530  General Ecology  Credits: 4
Relations between organisms and their environments, including human environmental problems. (Prerequisites: BIOL 1110 or the equivalent of 2 years of high school biology and satisfactory ACT scores). Each student is assessed a lab fee for this course. (3 hours lecture, 2 hours laboratory/fieldwork) Sp
Not part of a TN Transfer Pathway.

BIOL 2600  Biology Seminar  Credits: 1
TO 4

Microcomputer Appl (RODP)

BIT 1150  Intro to Microcomputers  Credits: 3
A course designed to introduce students to Windows XP and Office 2007. The course will use the following packages in Office 2007: Microsoft Word 2007, Microsoft Excel 2007, Microsoft Access 2007, and Microsoft PowerPoint 2007. In addition, students will have an introductory section on computer hardware/software concepts and Windows file management. Prerequisites/corequisites - basic typing skills; please see minimal software needs on syllabus; you REALLY need Office 2007, not an older version!: please be sure you have Microsoft Access 2007 on your computer. Equivalent to RSCC’s COLL 1020.

Business (RODP)

BUS 1050  Legal Issues for the Web  Credits: 3
This course addresses Internet law and provides guidelines for putting existing material online, creating material specifically for the Internet, using material found on the Internet, e-commerce, and educational aspects of the Internet. Real-world examples are used to illustrate how the rules affect businesses. Students will work on real case studies and will have discussions on what they feel should be the correct outcome based on the law as learned through this course. Prerequisites - DSPR 0800, Developmental Reading and DSPW 0700, Basic Writing or equivalent skills. Elective Credit at RCC.

BUS 1125  Intro to Comp Presentations  Credits: 1
Introduction to creating digital presentations that include sound, video, charts, graphics and other enhancements. F, Sp
Not part of a TN Transfer Pathway.
Formerly BUS 100

BUS 1126  Bus Spreadsheet Fundamentals  Credits: 1
Introduction to spreadsheet and charts creation and design; including table formatting, formulas, and functions. F, Sp
Not part of a TN Transfer Pathway.
Formerly BUS 1025

BUS 1127  Introduction to Database  Credits: 1
Introduction to database management in a business environment including: terminology, creation, querying, report generation, and defining table relationships.
Not part of a TN Transfer Pathway.
Formerly BUS 1035

BUS 1300  Personal Finance  Credits: 3
A course designed to aid the student in practical money management. Topics included are charting financial objectives; budgeting; consumer borrowing, renting, and buying; investing; employee benefits and taxation. (Prerequisite: Completion of Reading Learning Support, if required) F, Sp
Not part of a TN Transfer Pathway.
Formerly BUS 112

BUS 1301  Legal Issues for the Web  Credits: 3
This web-enhanced course emphasizes career assessment, employment searches, networking, resume building, and interviewing techniques. The course will give major exposure to the tools and information available and necessary for acquiring employment. F, Sp
Not part of a TN Transfer Pathway.
Formerly BUS 112

BUS 1305  Introduction to Business  Credits: 3
Orientation course designed to introduce the basic functions of business as a framework for further detailed study into business management and the functional areas of accounting, software applications, marketing, leadership, organizational design, etc. Included are vocational/career opportunities, business terminology, and the functions/ theories that are utilized in the process of business management. F, S
Not part of a TN Transfer Pathway.
Formerly BUS 1010

BUS 1310  Business Communications  Credits: 3
This course focuses on the principles of written and oral communication skills in a business environment. Business letters, memos, e-mail, reports, and presentations, along with other projects, will be covered. Emphasis will be on organization, composition, and evaluation of communications for specific purposes, as well as style, mechanics, and grammar. (Pre- or corequisite: ENGL 1010). F, S
Not part of a TN Transfer Pathway.
Formerly BUS 203
BUSN 1320  Business Calculations  Credits: 3
A course dealing with mathematics as applied to business operations. Included are mathematics of trading, operating, finance, ownership and investment, and summary and analysis. (Prerequisite: Completion of Reading Learning Support, if required) F, Sp
Not part of a TN Transfer Pathway.
Formerly BUS 111

BUSN 1326  Service Learn and Wrld Culture  Credits: 3
This course will allow students to conceptually compare classroom learning with a real-world global experience in business. Students will work as a team to research, examine and study the global business environment of a selected international economy and cultural society. Roane State Community College will partner with an international student exchange organization so that students may travel to a selected international destination as a capstone of this class. Not part of a TN Transfer Pathway.
Formerly BUS 216

BUSN 1330  Entrepreneurship  Credits: 3
An introductory course designed to provide an overview of the business environment and requirements for successfully operating a small business. Topics covered include forms of business, credit management, utilizing professionals, information management, etc. (Prerequisite: Completion of Reading Learning Support, if required) F, Sp
Not part of a TN Transfer Pathway.
Formerly BUS 278

BUSN 1350  Sales and Service  Credits: 3
A course emphasizing the relationship of product and market, industrial and consumer sales, methods of market analysis, sales and sales methods. (Prerequisite: Completion of Reading Learning Support, if required) F, Sp
Not part of a TN Transfer Pathway.
Formerly BUS 271

BUSN 1360  Software Appl for Business  Credits: 3
Business Tools and Applications is an introductory survey and hands-on course designed for business majors that includes computer application tools used in businesses today. These include: Windows, Word, Excel, Access, PowerPoint, Outlook, OneNote, Internet Explorer, Google Earth, Bing, Poll Everywhere, Skype, and many other applications. Students will apply computer technology to a course-long business case. They will learn how to research the industry, create and format text, charts, and graphics for a business plan, a company logo, brochures, a company database, and computer presentations. They will also learn how to communicate using web and cell phone technology. Throughout the course, students will learn and apply soft skills such as problem solving, team works, and leadership.
Not part of a TN Transfer Pathway.
Formerly BUS 106

BUSN 1362  Document Creation and Design  Credits: 3
In this comprehensive course, students will learn how to create and format professional-looking documents including letters, memos, reports, research papers, mailing labels, flyers, and newsletters. In addition, students will learn how to work with tables, mail merge, templates, and desktop publishing, as well as how to collaborate with others, and create web pages. Students will apply critical thinking and problem-solving skills to gain a comprehensive understanding of word processing applications in which they may apply to real-life tasks.
Not part of a TN Transfer Pathway.
Formerly BUS 102

BUSN 1380  Supervisory Management  Credits: 3
This course is designed to introduce the basic aspects of supervisory development, to include the functions of management, communication skills, interpersonal relations, motivation, morale, discipline, leadership training and evaluation, decision-making and self-development. (Prerequisite: Completion of Reading Learning Support, if required) F, Sp
Not part of a TN Transfer Pathway.
Formerly BUS 281

BUSN 1390  Intro to Govt Contracts  Credits: 3
Introduction to Government Contracts is designed to establish a foundational understanding of the federal procurement system and the use of contracts in the acquisition of goods and services required by agencies of the US Government. Students will become familiar with contract types, language and terminology applicable to relevant agencies, and acquire a basic understanding of the Federal Acquisition Regulation. (Prerequisite: Completion of Reading and English Learning Support, if required)
Not part of a TN Transfer Pathway.
Formerly BUS 107

BUSN 1391  Mission Directed Contracting  Credits: 3
Mission Directed Contracting builds upon Introduction to Government Contracts and is designed to establish the basic principles, processes, and techniques of managing procurements that achieve mission objectives. The course will survey the contracting professionals roles and responsibilities in the acquisition process from source selection through negotiation, contract management, and contract close-out. Mission Directed Contracting will focus on leadership, problem solving, analytical, management, and negotiation skills. FAR regulations applicable to source selection, contract management, and contract close-out will be addressed. (Prerequisites: Completion of Reading and English Learning Support, if required)
Not part of a TN Transfer Pathway.
Formerly BUS 108

BUSN 1392  Mission Performance Assessment  Credits: 3
Mission-Performance Assessment builds upon Introduction to Government Contracts and Mission Directed Contracting and is designed to further establish the basic principles and methods of achieving programmatic objectives through the government contracting process. The course will focus on the techniques, processes, and strategies of contract management professionals in ensuring compliant and satisfactory contractor performance, preventing and resolving contract disputes, effecting contract changes, and providing leadership throughout the contracting process. FAR regulations applicable to contractor performance evaluation, contract disputes, changes, subcontracts, terminations, socio-economic programs, and payments will be addressed. (Prerequisite: Completion of Reading and English Learning Support, if required)
Not part of a TN Transfer Pathway.
Formerly BUS 109

BUSN 2300  Business Ethics  Credits: 3
A course concerned with the relationship between business goals and practices and the good of society. Of specific concern will be matters such as fair pay, safe working conditions, well-made products at fair prices and environmental issues. (prerequisite ENGL 1010) Sp
Not part of a TN Transfer Pathway.
Formerly BUS 215

BUSN 2340  Human Resource Management  Credits: 3
This course is a study of principles of human resource management, which may include equal employment law and the recruitment, selection, and development of the human resources.
Not part of a TN Transfer Pathway.
BUSN 2350  Organizational Behavior  Credits: 3  
This course applies psychological principles to business and other organizations concerned with effective management. Topics covered include leadership and supervision; communications and human relation skills; scientific and humanistic management and motivation skills, group dynamics and coping with change. F, Sp  
Not part of a TN Transfer Pathway.  
Formerly BUS 261

BUSN 2362  Neg and Conflict Resolution  Credits: 3  
This course is designed to provide the student with the necessary knowledge and skill to resolve various types of conflict we all encounter. Additionally, the course will focus on both learning and applying negotiation skills in a variety of business situations to reach successful solutions. Students may not receive credit for both BUS 2362 and MGT 225. F, Sp  
Not part of a TN Transfer Pathway.

BUSN 2365  Database Creation and Design  Credits: 3  
Focus is on database management in a business environment, including: terminology, object creation, data manipulation and integration with other business applications. F  
Not part of a TN Transfer Pathway.  
Formerly BUS 105

BUSN 2370  Legal Environment for Business  Credits: 3  
Emphasis is placed on classification of laws, historical background of our systems of law, duties, buying services, insurance, consumer protection, negotiable instruments, and business organization.  
(Prerequisite: Completion of Reading Learning Support, if required) F, Sp  
Not part of a TN Transfer Pathway.  
Formerly BUS 215

BUSN 2380  Principles of Marketing  Credits: 3  
A general but critical survey of the field of marketing, covering international industries and commerce, distribution of resources, factors of distribution and transportation, and the marketing functions.  
(Prerequisite: Completion of Reading Learning Support, if required) F, Sp  
Not part of a TN Transfer Pathway.  
Formerly BUS 251

BUSN 2385  Project Design & Management  Credits: 3  
Students will use PMI principles and hands on Project Management applications to learn all the essential topics of completing a major project including: planning a project, creating project schedules, communicating project information, using the critical path, assigning resources, tracking progress, and sharing information across applications and the Web. Sp  
Not part of a TN Transfer Pathway.  
Formerly BUS 273

BUSN 2390  Business Presentations  Credits: 3  
Students learn the art of designing, creating, and delivering sophisticated and professional computer presentations using PowerPoint. Presentations will include sound, video, charts, graphics, hyperlinks, and other enhancements that will illustrate their topics. S  
Not part of a TN Transfer Pathway.  
Formerly BUS 104

BUSN 2399  Management Seminar  Credits: 3  
Consideration of current problems, issues, and developments in the area of management. Students are guided through individual projects and outside research related to their area of concentration and employment training. (Prerequisite: Completion of Reading Learning Support, if required) Sp  
Not part of a TN Transfer Pathway.  
Formerly BUS 284

Chemistry

CHEM 1000  Fundamentals of Chemistry  Credits: 4  
This course is designed for students desiring to enter a science, engineering or pre-med (veterinarian, pharmacy, etc.) program but who have had no high school chemistry or are not recent high school graduates. The emphasis will be on the fundamental concepts of chemistry, nomenclature, equation writing, simple stoichiometric calculations, bonding, gas laws and property of solutions. NOTE: This course cannot be used to fulfill a natural/physical science requirement where a sequence is indicated.  
(Prerequisite: 2 years of high school algebra with appropriate score of 19 or above on the ACT MATH portion OR MATH 1000, Algebra Essentials)  
Each student is assessed a lab fee for this course.  
(3 hours lecture, 3 hours laboratory) F, Su  
Not part of a TN Transfer Pathway.

CHEM 1010  Introduction to Chemistry I  Credits: 4  
Introductory chemistry dealing with the basic principles such as atomic structure, periodic law, states of matter, chemical bonding, types of compounds, gas laws, solutions, acids and bases, equilibria.  
(Prerequisite: 2 years of high school algebra with appropriate score of 19 or above on the ACT MATH portion OR completion of all Math Learning Support requirements AND MATH 1000 - Algebra Essentials. If you did not have a chemistry course in high school it is STRONGLY advised that you take the CHEM 1000 course first)  
Each student is assessed a lab fee for this course.  
(3 hours lecture, 3 hours laboratory) F, Sp  
Roane State General Education course approved and designed for transfer.

CHEM 1020  Introduction to Chemistry II  Credits: 4  
Aliphatic, aromatic, and heterocyclic organic chemistry with emphasis on structure, nomenclature, and functional groups. Introductory biochemistry concerning lipids, carbohydrates, proteins, and nucleic acids.  
(Prerequisite: CHEM 1010) Each student is assessed a lab fee for this course.  
(3 hours lecture, 3 hours laboratory) Sp  
Roane State General Education course approved and designed for transfer.

CHEM 1110  General Chemistry I  Credits: 4  
A study of fundamental principles of chemistry, such as mathematical calculations of chemical relationships, atomic structure, periodic relationships, molecular structure, bonding, and the chemistry of oxygen, hydrogen, and water, Kinetic Molecular Theory, physical states of matter, solution chemistry, electrolytes and collegiative properties.  
(Prerequisite: 2 years of high school algebra with appropriate score of 19 or above on the ACT MATH portion OR MATH 1000 - Algebra Essentials. If you did not have a chemistry course in high school it is STRONGLY advised that you take the CHEM 1000 course first.)  
Each student is assessed a lab fee for this course.  
(3 hours lecture, 3 hours laboratory) F, Sp  
Roane State General Education course approved and designed for transfer. (TTP course)
CHEM 1120 General Chemistry II Credits: 4
The introduction to the studies of oxidation-reduction, chemical thermodynamics and thermochemistry, molecular and ionic equilibrium, chemical kinetics and electrochemistry.
(Prerequisite: CHEM 1110)
Each student is assessed a lab fee for this course.
(3 hours lecture, 3 hours laboratory) Sp, Su
Roane State General Education course approved and designed for transfer. (TTP course)
CHEM 2010 Organic Chemistry I Credits: 4
A study of the properties, preparations, reactions, and spectroscopy of aliphatic and aromatic compounds, including reaction mechanisms and the relationship between structure and reactivity.
(Prerequisite: CHEM 1120) Each student is assessed a lab fee for this course.
(3 hours lecture, 3 hours laboratory) F
Course designed for transfer and part of the TN Transfer Pathways.
CHEM 2020 Organic Chemistry II Credits: 4
A continuation of CHEM 2010, covering carbanion condensations, heterocyclics, fats, carbohydrates, amino acids, and proteins.
(Prerequisite: CHEM 2010) Each student is assessed a lab fee for this course.
(3 hours lecture, 3 hours laboratory) Sp
Course designed for transfer and part of the TN Transfer Pathways.

Computer Info Systems (RODP)

CIS 113 Programming in Visual Basic Credits: 3
An introduction to Microsoft Visual Basic. Topics to be covered include: event driven programming, interface design, creating menus and dialog boxes, writing event and general procedures, and using operating system services. Prerequisites - a basic computer literacy course (e.g., CIS 100, BIT 1150) or permission of the instructor. Equivalent to RSCC’s CST 117.
CIS 186 Database Programming Credits: 3
This course is designed to enable students to develop customized database applications. A brief survey of relational database techniques and methods is included. The emphasis will be on developing the necessary skills to design, create, and implement user-friendly front ends for relational databases. The course will concentrate on developing and coding procedures using Visual Basic for Application. Prerequisites: CIS 113 or the equivalent. Equivalent to RSCC’s CST 105.
CIS 191 A+ Hardware Certification Training Credits: 3
An introduction to microcomputer hardware installation, maintenance, repair and troubleshooting. Students will learn the processes and procedures for supporting microcomputer hardware in a business environment. This course is designed to assist the student to take the Comp TIA A+ Hardware certification examination.
CIS 192 A+ Software Certification Training Credits: 3
An introduction to microcomputer operating system installation, configuration, upgrading, diagnosing and troubleshooting. Students will learn the processes and procedures for supporting microcomputer software in a business environment. This course is designed to assist the student to take the Comp TIA A+ Hardware certification examination.

Computer Science Programming

CISP 1010 Computer Science I Credits: 4
This course will focus on the following: Problem solving and algorithm development, Organization and characteristics of modern digital computers with emphasis on developing good programming habits; Building abstractions with procedures and data, and programming in a modern computing language. This course is intended for students enrolled in the AS program with concentration in Computer Science, Mathematics, or Engineering. (Prerequisite: MATH 1730 OR ACT of 24 on Math component) Sp
Course designed for transfer and part of the TN Transfer Pathways.
CISP 1020 Computer Science II Credits: 4
Continuation of CISP 1010, Computer Science I. This course will focus on data structures and algorithm analysis. Topics include the estimation of time required for a program, basic data structures, hash tables, binary trees, and sorting algorithms. This course is intended for students enrolled in the AS program with a concentration in Computer Science, Mathematics, or Engineering. (Prerequisite: CISP 1010) F
Course designed for transfer and part of the TN Transfer Pathways.
CISP 1080 Web Fundamentals Credits: 3
This course introduces vital concepts of the Internet and the Web. Students will create web documents for personal use or for business-related purposes using the Hypertext Markup Language (HTML). This course will provide a solid foundation for many other web technologies. (Prerequisite: INFS 1010) F, Sp
Not part of a TN Transfer Pathway.
CISP 1090  Introduction to Programming  Credits: 3
Students will learn the basic principles of object-oriented programming (OOP) and how to design and develop programs using Java. Topics include OOP concepts such as: classes, objects, methods, inheritance, encapsulation, and polymorphism; program design using the Unified Modeling Language (UML). Students will also learn Java language elements and syntax for class definitions, variables, methods, data types, operators, control structures, and strings. Learning will be enhanced through in-class exercises and programming assignments. No previous programming experience is required. (Prerequisites: learning strategies requirements in reading and math, INFS 1010) (2 hours lecture, 2 hours laboratory) F
Not part of a TN Transfer Pathway.

CISP 1100  Introduction to Computer Graphics  Credits: 3
The course is designed to teach students computer graphics with an easy-to-use programming language, Processing. Students will learn not only concepts of computer graphics such as graphics primitive, transformation, shading, animation, and user interaction, but also programming concepts such as variable, function, array, object, class, and control structure. Students will learn programming in a visual environment, which makes programming a fun experience. Students don’t have to have programming experience in order to take the course. However, students who take the course need to be computer literate. (Prerequisite INFS 1010)
Not part of a TN Transfer Pathway.

CISP 1160  Introduction to Oracle  Credits: 3
This course teaches students how to use Oracle database management system to plan, organize, manage and retrieve data. Students will learn the Structural Query Language, Oracle’s SQL *Plus, and other valuable tools. (Prerequisite: INFS 1010) Sp
Not part of a TN Transfer Pathway.

CISP 1170  Introduction to Visual Basic  Credits: 3
Examines the object-based, event driven approach to creating useful applications. Students first learn the user interface design considerations, language constructs, looping structures, error handling, file handling and simple database access. Students then apply their newly acquired skills to create applications to solve problems. (Prerequisite: INFS 1010 or proof of competency) Sp
Not part of a TN Transfer Pathway.

CISP 1350  Spreadsheets  Credits: 3
This course is designed to introduce students to the fundamental operations that can be performed with a spreadsheet. Topics include: spreadsheet design and formatting; mathematical formulas and functions included in Microsoft Excel 2010 (sum, average, max, min, count, if and etc); sorting and filtering data, identifying and using graph types; applying conditional formatting, collaborating and securing data, and manipulating data to and from multiple spreadsheets. Students will use the spreadsheet software, Microsoft Excel 2010. (Prerequisite: INFS 1010) F, Sp
Not part of a TN Transfer Pathway.

CISP 1370  PC Repairs and Maintenance  Credits: 3
Students learn how to install, maintain, repair, troubleshoot and connect computer systems found in typical home and business environments. This course will also assist students who wish to take the CompTIA A+ Hardware Certification examination. (Prerequisite or Corequisite: INFS 1010) F
Not part of a TN Transfer Pathway.

CISP 1420  Networking Essentials  Credits: 3
Introduces the fundamental networking concepts and technologies. Students will develop skills necessary to plan and implement networks in a typical business environment. This is the first networking course for students who wish to pursue networking certification through Cisco. (Prerequisite: INFS 1010) Sp
Not part of a TN Transfer Pathway.

CISP 1430  Introduction to Routers  Credits: 3
Students will learn about routers and their functions. Students will gain valuable networking experience by building networks and configuring routers in labs. This course will also assist students who wish to pursue networking through Cisco. (Prerequisite: CISP 1420) F
Not part of a TN Transfer Pathway.

CISP 1560  Beginning Internet  Credits: 3
Introduces students to services and information featured on the Internet, with an emphasis on using the Internet effectively for research. Course topics include: Internet History, web netiquette, social media, internet radio and news, downloading software, viruses and virus protection, Malware, Web search strategies, utilizing the library for research, how to site references to avoid plagiarism. All materials are presented online. It is recommended that students have computer skills prior to enrolling in this course (See INFS 1010). Students must have a computer, the Internet at home, and a printer. (Prerequisite: Adequate keyboarding skills along with INFS 1010 recommended) F, Sp
Not part of a TN Transfer Pathway.

CISP 2030  Data Structures  Credits: 3
A continuation of CISP 1090 (JAVA). This course takes an object-oriented approach to the design and development of abstract data types and data structures. Topics include abstract data types, recursion, arrays, files, streams, I/O techniques, searching, sorting, and data structures. After completing this course, students will be able to design and implement complex data structures such as stacks, queues, lists, and trees. (Prerequisite: CISP 1090 or CISP 2090). (2 hours lecture, 2 hours lab) Sp
Not part of a TN Transfer Pathway.

CISP 2040  Database Programming  Credits: 3
Students learn how to enhance their database forms and reports using Visual Basic for Applications and SQL coding. Students are required to create a database of their own design. Students may attend a weekly lab if they wish. (Prerequisite:INFS 1010), F, Sp
Not part of a TN Transfer Pathway.

CISP 2060  Introduction to Network Security  Credits: 3
Introduction to Network Security course provides a general overview of computer and network security for home and office users. The topics include General Security Concepts, Communication Security, Infrastructure Security, Basics of Cryptography and Organizational/ Organizational Security. Strong emphasis is placed on developing the skills of applying scientific method to problem solving, a keen awareness of current and future security issues, and working knowledge of safe guarding personal and cooperation electronic data in storage or in transit.(Prerequisites: Learning strategy requirements in reading and math, INFS 1010 and CISP 1370 OR CISP 1420 or instructor approval) F, Sp
Not part of a TN Transfer Pathway.

CISP 2090  Java Programming  Credits: 3
This course will cover the fundamental concepts of Object Oriented programming using Java. (Prerequisites: INFS 1010, 1150 or permission of instructor.
Not part of a TN Transfer Pathway.
CISP 2150  Operating Systems  Credits: 3
This course examines the fundamentals of supporting and troubleshooting computer operating systems. Popular and newest operating systems will be examined. This course is appropriate for students who want to pursue CompTIA's A+ Software Certification and a career as a computer service technician. (Prerequisite: CISP 1370) Sp Not part of a TN Transfer Pathway.

CISP 2170  Introduction to Computer Theory  Credits: 3
This course focuses on Computer Theory. Topics include Languages, Regular Expressions, Finite Automata, Kleen’s Theorem, Regular Languages and non Regular Languages, Pushdown Automata, Context and non Context free languages. This course is intended for students enrolled in the AS Transfer program with a concentration in Computer Science, Mathematics, or Engineering. (Prerequisite: MATH 1910, Corequisite: MATH 2100) Sp Not part of a TN Transfer Pathway.

CISP 2180  Advanced Java  Credits: 3
A continuation course in Object Oriented Programming using JAVA. The JDK tool kit is used. A reminder of the concepts of super classes, subclasses with the issues of inheritance and polymorphism developed in CISP 2090. The course focuses on recursive problem solving throughout many applications and data structures. It compares sequential data structures implementation to recursive data structures implementation. The data structures used and implemented are Stacks, Queues, Lists, and Trees. (Prerequisite: CISP 1090). F, Sp Not part of a TN Transfer Pathway.

CISP 2210  Seminar in Computer Applications  Credits: 1 TO 4
Covers special topics in computer applications. Check with your academic advisor for courses offered each semester. Course availability determined by Dean of Mathematics and Sciences. Not part of a TN Transfer Pathway.

CISP 2330  PHP, MySQL, Apache  Credits: 3
This course follows a step-by-step introduction to the topics concerning programming with MySQL. Topics include introduction to Web development and PHP, working with data types and operators, building functions and control structures, manipulating strings, accessing files and directories, manipulating data in arrays and strings, working with databases and MySQL, manipulating MySQL databases with PHP, managing state information, developing object-oriented PHP, and debugging and error handling. Not part of a TN Transfer Pathway.

CISP 2340  Oracle Database Programming  Credits: 3
Students should have a working knowledge of SQL and Oracle database systems (see prerequisite). In this course, students will learn to use PL/SQL, which is Oracle’s procedural language and is an extension of SQL, to manipulate databases. (Prerequisite: CISP 1160) Sp Not part of a TN Transfer Pathway.

CISP 2360  Web Design Methodology  Credits: 3
A continuation of the web technologies introduced in the Web Fundamentals course. New and exciting web technologies will be introduced. Also, popular WYSIWYG editors will be examined to create attractive and functional web documents. (Prerequisite: CISP 1080). Sp Not part of a TN Transfer Pathway.

CISP 2370  e-Commerce Design  Credits: 3
Students learn how to conduct business online and manage technological issues associated with electronic commerce web sites. This course prepares students for the CIW e-Commerce Design Exam. (Prerequisite: CISP 1080 or CIW Foundations Certificate). Sp Not part of a TN Transfer Pathway.

CISP 2380  Introduction to JavaScript  Credits: 3
JavaScript is a client-side scripting language. Students learn how to use JavaScript to create dynamic web pages, to validate data, and to provide web interactivities for the users. (Prerequisite: CISP 1080). F Not part of a TN Transfer Pathway.

CISP 2410  Assembly and Computer Organization  Credits: 4
This course studies the implementation of a typical computer system. Topics include Boolean Algebra, data representation, logic circuits and memory structures, I/O, instruction representation, error detection and serial protocols. A laboratory part of the course will reinforce the concepts introduced. (Prerequisite: INFS 1010) F Course designed for transfer and part of the TN Transfer Pathways.

CISP 2750  Unix/Linux Operating Systems  Credits: 3
This course covers the essentials of installing, configuring, maintaining, administering, and troubleshooting the Linux Operating System. This course also encompasses a complete coverage of the Unix, including shells, utilities, X-windows and networking. (Prerequisite: INFS 1010) Not part of a TN Transfer Pathway.

Computer Science Web Design

CISW 1030  Beginning HTML  Credits: 3

Cardiovascular Technology

CIT 101  Procedures I  Credits: 3
This course covers an overview of anatomy and physiology, practical applications of interventional procedures, vascular correlations, and surgical intervention for specific diseases processes. (3 lecture hours/week) Not part of a TN Transfer Pathway.

CIT 1080  Procedures II  Credits: 3
This course covers theory and practice of physiological monitoring, emergency care, and pharmacology. (3 lecture hours/week) Not part of a TN Transfer Pathway.

CIT 120  Procedures III  Credits: 3
An overview of patient care and legal considerations, equipment and instrumentations, image quality and control, sterile techniques and isolation procedures. (3 lecture hours/week) Not part of a TN Transfer Pathway.

CIT 150  CIT Review  Credits: 3
This course provides the Radiologic Technologist with CIT experience, an extensive review to sit for the ARRT examination in Cardiovascular Interventional Technology. (3 lecture hours/week) Not part of a TN Transfer Pathway.

Crimin Justice Adm (RODP)

CJA 1100  Intro to Crim Justice Admin  Credits: 3
Survey of the criminal justice system; philosophy and history of criminal justice agencies; analysis of the problems and needs of agencies involved in the criminal justice process; survey of professional career opportunities. No prerequisites. Equivalent to RSCC’s CRJT 101.
CMAT 1010  Introduction to Composite Materials  Credits: 3
An examination of the importance of composite materials in industry today. Learn applications that are suitable for the use of composite materials. Study the polymer chemistry required for the manufacture of composite material products and learn the future of composite materials applications and manufacturing methods. Not part of a TN Transfer Pathway.

CMAT 1020  Introduction to Composite Manufacturing Methods  Credits: 3
Introduction to composite manufacturing processes. Study the various methods currently being used in the manufacturing of composite materials. Recognize the benefits and challenges of each method and learn to evaluate the risk and reward inherent in each application in order to maximize the performance for each application and study the role of automation in composite manufacturing. Not part of a TN Transfer Pathway.

CMAT 1030  Applied Production Methodology  Credits: 3
Introduction to composite manufacturing processes. Study the various methods currently being used in the manufacturing of composite materials. Recognize the benefits and challenges of each method and learn to evaluate the risk and reward inherent in each application in order to maximize the performance for each application and study the role of automation in composite manufacturing. Not part of a TN Transfer Pathway.

CMAT 1040  Matrix Materials for Composites  Credits: 3
Survey of the matrix materials used in composites, to include thermoplastics, thermostets, metals, and carbon fiber. Student will acquire and understand core knowledge and have the ability to demonstrate competency in the following areas: thermostets and thermoplastics; solidification, melting and other thermal considerations; matrix-dominated properties; polyester resins and their uses; crosslinking mechanisms; molding compounds; physical and mechanical properties of cured epoxy composites; special composite applications (prepregs and tooling); epoxy resins; vinyl esters and matrix materials. Not part of a TN Transfer Pathway.

CMAT 1050  Reinforcing Fibers for Composites  Credits: 3
Survey of the reinforcements and reinforcement forms used in composite materials. Students will acquire and understand core knowledge and have the ability to demonstrate competency in the following areas: manufacturing processes for glass, aramid, carbon fiber (PAN & pitch); applications of reinforcements; mechanical properties of reinforcing fibers; sizings, finishes, and coupling agents; pitch-based and PAN-based carbon fibers; tests for fiber/matrix bond strengths; silicon carbide fibers; boron fibers and natural fibers. Not part of a TN Transfer Pathway.

CMAT 1060  Intermediate Composite Products  Credits: 3
Survey of intermediate composite products. Students will acquire and understand core knowledge and have the ability to demonstrate competency in the following areas: filaments, strands, tows, rovings, and yarns; woven and knitted fabrics; non-woven fabrics; thermosetting and thermoplastic prepregs; braided, stitched and 3-dimensional laminates; preforms; hybrids; weaving pattern and physical properties of weaves; random chopped mat and continuous strand mat; SMC and BMC; thermoplastic molding compounds; stitched fabric, and 3-D weave fabric; sandwich structures; core materials; z-direction stiffeners; joints and post-processing operations. Not part of a TN Transfer Pathway.

CMAT 1070  Molding and Conversion Technologies  Credits: 3
A survey of molding and conversion technologies for composites. Students will acquire and understand core knowledge and have the ability to demonstrate competency in the following areas: vacuum and bagging assembly; curing when autoclaves are used; curing a prepreg without autoclave; prepreg molding; compression molding; resin infusion technologies and processes; filament winding processes; filament winding applications; high performance pressure vessels; roll wrapping; pultrusion and injection molding. Not part of a TN Transfer Pathway.

CMAT 1080  Composite Component Design  Credits: 3
A survey of fiber alignment and orientation, fiber content, and matrix selection in design consideration. Students will acquire and understand core knowledge and have the ability to demonstrate competency in the following areas: structure of thermoplastics versus thermostets; property differences caused by structural differences; differences between engineering thermoplastics and advanced thermoplastics; engineering of thermoplastics containing short fibers; properties of composites that depend on nature of resin; advantages of advanced thermoplastics over advanced thermostets and ceramic matrix composites over non-reinforced ceramics and of using metal matrix composites versus metals; methodology of composite structure design; basic stress types; laminate theory; cracking in composites; fatigue in composites and residual stresses in composites. Not part of a TN Transfer Pathway.

CMAT 1090  Quality, Repair & Recycling of Composites  Credits: 3
A survey of composites from raw materials to components and end of life. Students will acquire and understand core knowledge and have the ability to demonstrate competency in the following areas: philosophy of damage to composites; damage prevention; damage assessment; repair of composites; problem of emissions from factories; material storage; contamination in the plant; disposal, waste, and recycling; history of composite materials testing; quality control principles; component testing, mechanical testing; thermal and environmental testing; flammability testing and common failures. Not part of a TN Transfer Pathway.

CMAT 1100  Applications for Composite Materials  Credits: 3
Cover the applications for composite materials across a wide-range of industry groups, and will provide the student with an analysis and understanding of both traditional and future markets. Students will acquire core knowledge and have the ability to demonstrate competency in the following areas: traditional markets for composites; lessons learned from the space program; critical markets: military, law, other; breakthrough markets: airlines, unmanned vehicles; and use of composites in aircraft/aerospace industries. Use of composites in marine industries; in surface transportation industries; energy industries and recreation industries. Not a TN Transfer Pathway.
Technical Communication (RODP)

CMT 1010 Networking and PC Communication Credits: 3
This course introduces the basic concepts of PC communications, telecommunication and networking. It provides an overview of terminology & technologies used with local area networks and wide area networks, and it details processes, protocols, network design and a broad overview of the Internet. Prerequisites: students should be able to use their computers and access the Internet and also be able to send e-mail. Equivalent to RSCC’s CST 142

Cooperative Education

COE 101 Cooperative Education I Credits: 3
Experiential learning that takes place in real employment situations. The student must be approved by the Placement Coordinator, the academic division of the student's major or area that is being explored, and the employer for full-time or part-time paid employment in industry, business or government. A minimum of ten (10) hours of actual work experience per week throughout the semester is required to receive credit. The work experience will be jointly evaluated by the Placement Coordinator and the employer. For further information contact the Placement Coordinator at 865-882-4695.
Not part of a TN Transfer Pathway.

COE 102 Cooperative Education II Credits: 3
Experiential learning that takes place in real employment situations. The student must be approved by the Placement Coordinator, the academic division of the student's major or area that is being explored, and the employer for full-time or part-time paid employment in industry, business or government. A minimum of ten (10) hours of actual work experience per week throughout the semester is required to receive credit. The work experience will be jointly evaluated by the Placement Coordinator and the employer. For further information contact the Placement Coordinator at 865-882-4695.
Not part of a TN Transfer Pathway.

COE 201 Cooperative Education III Credits: 3
Not part of a TN Transfer Pathway.

College Experience (RODP)

COL 101 The College Experience Online Credits: 3
In this course, students will study the best practices for success in college and learning online by using technology smartly, succeeding in workplace situations skillfully, using interpersonal communications respectfully, and developing self management practices expertly. Prerequisites: This course is for first time on-line learners who are willing to learn. Elective Credit at RSCC.

College Learning Strategies

COLS 1010 SOS - Study, Organize, Succeed Credits: 3
This course is designed to help students become more efficient, proficient, and self-aware learners. It focuses on research-based learning strategies which can improve student performance in all courses. This course is being offered as part of Roane State's SAILS (Students Achieving Improved Learning Strategies) initiative and is part of Roane State’s Smart Start curriculum. F,Sp
Not part of a TN Transfer Pathway.

Visual Communication (RODP)

COM 1000 Beginning HTML Credits: 3
A beginning course in HTML, providing instruction in creating web pages. Topics include using HTML tags to format headings and text, to display images, and to create lists, links, tables, frames, and forms. Prerequisites: basic computing and keyboard skills. Equivalent to RSCC’s CST 108.

COM 1010 Basic Web Design Credits: 3
Presents the principles for planning and designing attractive and informative Web pages and Web sites. The course explores the factors that affect Web layout and design such as browser choice, screen resolution, navigation, connection speed, typography, graphics and color. Prerequisites: basic computing and keyboard skills. Elective Credit at RSCC.

COM 1020 Basic Web Graphics Credits: 3
An introductory class using a graphics program, scanner, and other digital devices to create and edit graphic images for web pages. Projects will be included to allow students to demonstrate mastery of the use of a graphics program to edit, optimize and create imagery for the Web, set up hierarchical folders/directories and implement, upload, and edit a functional Web site. This course is taught using Photoshop® CS3 and Photoshop® and Image Ready® (versions 6 -CS2), or Photoshop® Elements (versions 3 & up) and at least a basic HTML editor (Notepad or TextEdit). (3 credits). Prerequisites: COM 1010, Basic Web Design

Communications

COMM Survey of Mass Communications Credits: 3
1010
An overview of systems of mass communications with an emphasis on American media, their ownership, legal and social controls, role and effects. Advertising, broadcasting, journalism and publishing, and public relations will be examined and placed in the context of theories of mass communications. Course availability determined by Dean of the Division.
Course designed for transfer and part of the TN Transfer Pathways.

COMM Introduction to Media Writing Credits: 3
1020
This course is an introduction to print and broadcast journalism with an emphasis on newsgathering methods and the writing of news for print and electronic media. F
Course designed for transfer and part of the TN Transfer Pathways.
COMM 1030 Introduction to Electronic Media Credits: 3
This course is an introduction to the history, special aspects, organization, structure, and function of electronic media. It is a basic introduction to broadcast operations. Sp
Not part of a TN Transfer Pathway.

COMM 1110 American Media and Social Institutions Credits: 3
This course examines the development of various media and their impact on society. Topics include standard print media, radio, television, film, public relations, advertising, new electronic media and the World Wide Web. The course also emphasizes historical, political, social, psychological, cultural, and consumer aspects of mass media. F
Not part of a TN Transfer Pathway.

COMM 2060 Special Topics in Editing Credits: 3
This course is an introduction to various software applications utilized for editing film/images. F
Not part of a TN Transfer Pathway.

COMM 2070 Special Topics in Camera Production Credits: 3
This course emphasizes the operation and use of standard cameras for the television/film industry. Topics will include shooting on location, handling and operation of sound and lighting equipment, and various camera styles. Sp
Not part of a TN Transfer Pathway.

COMM 2100 Television Studio Production I Credits: 4
This course will introduce video production techniques as well as the elements needed to produce television broadcasts. Topics will include camera operation, sound and light maintenance, editing, production, writing, and studio management. This course includes laboratory hours in addition to class time. (Prerequisite: COMM 2070 or permission of instructor). Course availability determined by Dean of the Division. Not part of a TN Transfer Pathway.

COMM 2110 Television Studio Production II Credits: 4
Television Studio Production II is a continuation of Television Studio Production I and will offer a continued study of the applications and basics covered in the first part of this series. This course includes laboratory hours in addition to class time. (Prerequisite: COMM 2100). Course availability determined by Dean of the Division. Not part of a TN Transfer Pathway.

Criminal Justice

CRMJ 1010 Introduction to Criminal Justice Credits: 3
Philosophical and historical background; agencies and respective jurisdictions; police ethics, public relations and career orientation. Prerequisite: Completion of Reading Learning Support requirements.
Course designed for transfer and part of the TN Transfer Pathways.

CRMJ 1020 Introduction to the Legal Process Credits: 3
This course reviews basic laws governing the maintenance of a democratic society and how criminal and constitutional laws meet the challenge of American society. Prerequisite: Completion of any Reading Learning Support requirements and CRMJ 1010, 2010, and 2020. ENGL 1010 is either a prerequisite or can be taken concurrently with this course.
Course designed for transfer and part of the TN Transfer Pathways.

CRMJ 1030 Understanding Terrorism Credits: 3
This course will introduce students to the study of terrorism, and will provide a basic knowledge of the history of terrorism as well as explore contemporary terrorism events. The course will review major theories and organizations in the field of domestic and international terrorism.

CRMJ 1040 Criminal Investigation Credits: 3
This course is an examination of the methods of interviews, interrogation, admissions, confessions, written statements, criminal case report writing, and evidence evaluation used in criminal investigations.

CRMJ 1100 Juvenile Delinquency Credits: 3
A study of new attempts geared toward the rebellious youthful offenders in the areas of treatment, experimentation, innovative programs, and theories of causation. Prerequisites: Completion of any Reading Learning Support requirements and ENGL 1010.
Not part of a TN Transfer Pathway.

CRMJ 1110 Criminal Law Credits: 3
A study of legal concepts and procedures, including the laws of arrest and search warrant procedure, beginning with the issuance of legal process to ultimate court disposition. Prerequisites: Completion of any Reading Learning Support requirements.
Not part of a TN Transfer Pathway.

CRMJ 1130 Criminal Evidence & Procedures Credits: 3
A study of legal concepts and procedures, including the laws of arrest and search warrant procedure, beginning with the issuance of legal process to ultimate court disposition. Prerequisite: Completion of Reading Learning Support requirements.
Not part of a TN Transfer Pathway.

CRMJ 1310 Forensics Credits: 3
This course is an introduction into Forensic Science and itâ€™s applications in Criminalistics. It is an overview of how their structure reflects the underlying philosophy about forensic science as a science and as a profession. The various methodology used in a modern full-service forensic science laboratory is studied and how these methods comprise the activities and specific areas of â€œcriminalisticsâ€. 

CRMJ 2010 Introduction to Law Enforcement Credits: 3
An overview of the American Police, including the philosophy and historical evolution behind the police force. Emphasis on policing procedures; crime prevention and control; functions of law enforcement; problems and needs facing the police; and contemporary issues. Prerequisites: Completion of any Reading and English Learning Support requirements.
Course designed for transfer and part of the TN Transfer Pathways.

CRMJ 2020 Introduction to Corrections Credits: 3
This includes the history to criminal corrections in the United States; analysis of the crime problem; identification of the correctional client; correctional methods used in the United States; and emphasis on correctional goals in the criminal justice system. Prerequisites: Completion of any Reading Learning Support requirements.
Course designed for transfer and part of the TN Transfer Pathways.

CRMJ 2110 Juvenile Justice Credits: 3
This unique course involves direct participation between Roane County juvenile justice students and selected delinquents from the Roane County Juvenile Court System. Student participants meet weekly with their assigned offender. Sp

CRMJ 2130 Criminal Investigation Credits: 3
Fundamentals of criminal investigation procedures; crime scene search and recording, collecting and preserving evidence; scientific and technical aids; case preparation. Prerequisites: Completion of any Reading Learning Support requirements.
Not part of a TN Transfer Pathway.
Understanding Terrorism Credits: 3
An in-depth historical look at terrorism, its origins, types and history. Emphasis will be on philosophical bases, organization, equipment, and operations of terrorist groups. The role of law enforcement agencies in the implementation of anti-terrorist measures is also examined. Prerequisites: Completion of any Reading Learning Support requirements.
Not part of a TN Transfer Pathway.

Criminal Law Credits: 3
Introduces students to the fundamental nature of law and provides an overview of general legal principles. Both criminal law codifications and criminal elements in felonies and misdemeanors will be analyzed. Prerequisite: Completion of any Reading Learning Support requirements.
Not part of a TN Transfer Pathway.

Special Topics in Criminal Justice Credits: 3
A course designed to consolidate the various learning experiences in criminal justice. Emphasis is placed on special problems. Prerequisite: Completion of any Reading Learning Support requirements and ENGL 1010.
Not part of a TN Transfer Pathway.

Criminal Justice Internship I Credits: 3
Students will be assigned to a criminal justice related agency to work a minimum of 80 hours. A student must have completed CRMJ 1010 prior to enrollment in this course. As part of the course requirements students will prepare a capstone paper integrating their work and classroom experience.
Not part of a TN Transfer Pathway.

Criminal Justice Internship II Credits: 3
Students will be assigned to a criminal justice related agency to work a minimum of 80 hours. A student must have completed CRMJ 1010 prior to enrollment in this course. As part of the course requirements students will prepare a ‘capstone’ paper integrating their work and classroom experience.
Not part of a TN Transfer Pathway.

Database Management Systems

Essentials of Info Security Credits: 3

Computer Science Technology

Data Structures Credits: 3
A continuation of CST 109 (JAVA). This course takes an object-oriented approach to the design and development of abstract data types and data structures. Topics include abstract data types, recursion, arrays, files, streams, I/O techniques, searching, sorting, and data structures. After completing this course, students will be able to design and implement complex data structures such as stacks, queues, lists, and trees. (Prerequisite: CST 109 or CST 209). (2 hours lecture, 2 hours lab) Sp

Java Programming Credits: 3
This course will cover the fundamental concepts of Object Oriented programming using Java. Prerequisites: CIS 100, BIT 1150 or permission of instructor.

Advanced JAVA Credits: 3
A continuation course in Object Oriented Programming using JAVA. The JDK tool kit is used. A reminder of the concepts of super classes, subclasses with the issues of inheritance and polymorphism developed in CST 209. The course focuses on recursive problem solving throughout many applications and data structures. It compares sequential data structures implementation to recursive data structures implementation. The data structures used and implemented are Stacks, Queues, Lists, and Trees. (Prerequisite: CST 109). F, Sp

Computed Tomography

Computed Tomography Physics Credits: 3
This course is designed to prepare the Radiologic Technologist with CT experience to take the advanced level examination in Computerized Tomography administered by the American Registry of Radiologic Technologists. (3 lecture hours/week)
Not part of a TN Transfer Pathway.

Clinical Education I Credits: 3
Students perform variety of Computed Tomography procedures under supervision of registered CT technologists at assigned facilities. Students must complete a minimum of 125 exams to qualify for the ARRT Computed Tomography certification exam. (Co-requisite: CT Physics) (24 hours per week)
Not part of a TN Transfer Pathway.

Computed Tomography Patient Applications Credits: 3
This course covers the basic principles of patient management and imaging protocols for Computed Tomography Radiography. Topics include patient care, cross-sectional anatomy, imaging procedures, post-processing techniques, special procedures, and quality control. (3 lecture hours/week) (Prerequisite for course: ARRT certification)
Not part of a TN Transfer Pathway.

Clinical Education II Credits: 3
Students perform variety of Computed Tomography procedures under supervision of registered CT technologists at assigned facilities. Students must complete a minimum of 125 exams in order to qualify for the ARRT Computed Tomography certification exam. (Co-requisite: CT Patient Applications) (24 hours/week)
Not part of a TN Transfer Pathway.

Dental Hygiene Technology

Preclinical Dental Hygiene Credits: 5
This course introduces the theory of the dental hygiene process of care, including assessment, diagnosis, planning, implementation, and evaluation. Emphasis is on providing the student with an ethical and scientific foundation to use in applying appropriate infection control procedures, introductory client assessment procedures, and basic instrumentation skills. The use of the dental hygiene diagnosis in developing a care plan is introduced. This pre-clinical laboratory experience course presents practicum covering the fundamentals of medical emergencies, infection control procedures, ergonomic use of the dental operatory, professional conduct, assessment of the dental hygiene client, development of a dental hygiene diagnosis, instrumentation skills, equipment use and maintenance, and oral health education. (3 lecture hours, 8 laboratory hours/week)
Not part of a TN Transfer Pathway.
DHT 111  Dental Science I  Credits: 3
This course focuses on anatomical structures of the head and neck, including bones, muscles, glandular tissue, and vascular, nervous, and lymphatic systems. The infectious process and the spread of dental infection are discussed. This course provides the student with a detailed study of comparative tooth anatomy and the anatomical structures that support the teeth and their functions. The eruption, arrangement, function, developmental disturbances, occlusion and morphological characteristics of both the permanent and deciduous dentitions is presented. (3 lecture hours/week)
Not part of a TN Transfer Pathway.

DHT 112  Dental Science II  Credits: 3
This course provides the student with a detailed study of the embryological and histological formation of the oral-facial structures of the head, neck oral cavity and underlying structures. (Prerequisites: BIOL 2010 & CHEM 1010)(3 lecture hours/week)
Not part of a TN Transfer Pathway.

DHT 121  Clinical Dental Hygiene I  Credits: 1
This clinical course introduces the dental hygiene student to providing comprehensive dental hygiene treatment. Application of knowledge in infection control practices, development of care plans, assessment, oral health education, coronal polishing technique, delivery of fluorides, radiography, and fundamentals of instrumentation. Supportive dental technology, equipment and products related to dental hygiene treatment are introduced. (120 total hours)
Not part of a TN Transfer Pathway.

DHT 122  Dental Radiography  Credits: 3
This course includes principles of radiation physics, exposing, processing, mounting, evaluating, and interpreting dental radiographs. Biological effects of radiation and protective principles, quality assurance protocols, and infection control are emphasized. Emerging imaging technology is addressed. (2 hours lecture, 2 hours laboratory/week)
Not part of a TN Transfer Pathway.

DHT 133  General and Oral Pathology  Credits: 4
This course will combine general and oral pathology found in the human system. Concepts of pathologic physiology included in this course are the inflammatory process, wound healing, and immunology. Emphasis will be placed on the oral/facial characteristics of systemic disease. Principles of pathology, clinical features, risk factors, etiology, locations, and treatment options are presented. (4 lecture hours/week)
Not part of a TN Transfer Pathway.

DHT 141  Principals of Dental Hygiene I  Credits: 3
This course presents concepts of supportive dental hygiene therapy including ultrasonic debridement, air/powder polishing, subgingival irrigation, treatments for tooth hypersensitivity, patient management techniques (including antibiotic therapy), care of dental appliances/prostheses, and pit and fissure sealants. The use of supportive dental hygiene treatment in providing comprehensive care is introduced. The application of evidence based clinical practice is included. (3 lecture hours/week)
Not part of a TN Transfer Pathway.

DHT 161  Biochemistry and Nutrition  Credits: 3
This course provides principles of biochemistry and nutrition principles including nutritional standards and requirements, dietary sources of nutrients and nutrient utilization as it relates to health, disease and total care of patients. Emphasis will be on the relationship between nutrition and dental caries and periodontal disease. The student will be taught to correlate nutrition and dental health, provide nutritional counseling, and develop dietary plans for patients. (Prerequisite: CHEM 1010) (3 lecture hours/week)
Not part of a TN Transfer Pathway.

DHT 171  Dental Materials  Credits: 3
This course focuses on the study of the physical, chemical, and biologic properties and uses of dental materials. Identification and manipulation of common dental materials are incorporated in laboratory experiences. Two hours lecture, three hours laboratory weekly. (2 lecture hours, 3 laboratory hours/week)
Not part of a TN Transfer Pathway.

DHT 201  Pharmacology and Pain Control  Credits: 3
This course provides an introduction to modern therapeutic drugs. Dosage forms, sources, prescriptions, and metabolism are covered first, then students study human physiological systems and the most important drugs used to affect these systems. Emergency and new drugs are included. This course addresses coverage of pain and anxiety management for conscious dental clients. The indications, contraindications, and pharmacology of local anesthesia and nitrous oxide and oxygen sedation used in dentistry will be discussed. Local anesthesia techniques and the administration of nitrous oxide and oxygen sedation will be studied. Students will be introduced to general anesthesia, parenteral sedation and anti-anxiety medications. (3 lecture hours/week)
Not part of a TN Transfer Pathway.

DHT 211  Dental Hygiene Seminar: Ethics and Jurisprudence  Credits: 2
This course presents professional dental hygiene topics from a historical, economic, legal/ethical, global, political, social, interdisciplinary and multicultural framework. Students will investigate current issues in the field of dental hygiene education, examine ethical and legal concerns in the practice of dental hygiene, and explore the accelerating need for access to care. Students will develop solutions which could be used to influence organizational, institutional, and governmental decisions impacting oral health care. Dental hygiene rules and regulations of the state’s dental practice act are examined with reference to the regulatory agencies, current legislation and making application for licensure. Students make preparation for acquisition of employment with the construction of a resume and practicing interview skills. (2 lecture hours/week)
Not part of a TN Transfer Pathway.

DHT 212  Community Dental Health  Credits: 3
This course is designed to provide concepts and principles related to the practice of community oral health. Prevention, access to care, providers of dental services, financing dental care, and quality assurance are discussed. The dental hygieneist™s role in developing community oral health programs is an integral component. The significance of oral health measures for all members of society is addressed. The dental hygiene student will develop oral health education programs for diverse populations utilizing the dental hygiene process of care paradigm of assessment, planning, implementation, and evaluation. Field experiences will take place in community schools, extended care facilities, outpatient treatment facilities, and acute care facilities. (2 lecture hours, 3 laboratory hours/week)
Not part of a TN Transfer Pathway.

DHT 221  Clinical Dental Hygiene II  Credits: 2
This clinical course focuses on the dental hygiene student building on prior experience in providing comprehensive dental hygiene treatment. Increased opportunity for treating clients with moderate to severe periodontal disease for different age groups (child, adolescent, adult and geriatric) as well as those with complex medical and pharmacological histories is introduced. Students gain experience in applying advanced strategies in assessment, care planning, oral health education, and instrumentation. Student directed judgment and relating theory to the clinical component of dental hygiene education are emphasized. (180 total clinic hours/semester)
Not part of a TN Transfer Pathway.
DHT 222  Clinical Dental Hygiene III  Credits: 2
This clinical course challenges the dental hygiene student to work ethically, professionally and independently in providing comprehensive dental hygiene treatment for clients in all stages of periodontal health with increased concentration on treating clients with moderate to severe periodontal disease. Dental hygiene treatment based on current scientific theories, research, and standard of care is expected. Meeting the individual needs of clients utilizing problem-solving strategies, critical thinking skills, increased efficiency in patient and time management skills, and good communication is emphasized. Students make preparation for a clinical board examination with criterion selection of a suitable patient. (180 total clinic hours/semester)
Not part of a TN Transfer Pathway.

DHT 240  Principles of Dental Hygiene II  Credits: 2
This course addresses the care and clinical management of special needs clients who present with conditions/diseases of significance to dental hygiene care. Included is discussion of the pathophysiology, etiology, psychosocial, physical, and oral characteristics, potential emergencies, and the related dental hygiene process of care associated with these conditions/diseases. Preparation of a case-study document/research paper on a selected topic including accessing and implementation of evidence-based resource materials is included. (2 lecture hours/week)
Not part of a TN Transfer Pathway.

DHT 242  Principles of Dental Hygiene III  Credits: 2
This course provides for the presentation of a prepared case study that includes material in the areas of assessment of patient characteristics, interpretation of radiographs, planned and managed dental hygiene care, utilization of non-surgical periodontal procedures, preventive agents, supportive treatment services and professional responsibilities. Included is a systematic approach to board preparation and dental hygiene curricula review. Information presented in this course will assist senior dental hygiene students in preparing for credentialing examinations and other procedures required for obtaining a dental hygiene license. (2 lecture hours/week)
Not part of a TN Transfer Pathway.

DHT 251  Periodontology  Credits: 3
This course focuses on periodontal diseases and their relevance for the dental hygienist. A review of the anatomy and structures of the periodontium is included. A thorough analysis and application of the clinical dental hygiene diagnosis is provided. Emphasis is placed on the etiology, systemic correlation, clinical and radiographic assessment, diagnosis and classification, treatment planning, treatment evaluation, periodontal maintenance and surgical and non-surgical treatment procedures of periodontal diseases. (3 lecture hours/week)
Not part of a TN Transfer Pathway.

Early Childhood Education

ECED 1310  Intro to Early Childhood Edu  Credits: 3
Introduction to Early Childhood Education is an introduction to the early childhood profession, including an emphasis on professionalism and developmentally appropriate practice. The course also includes an overview of history of early education; theoretical program models; different types of early childhood programs, community resources; professional organizations, and contemporary trends and issues in programs for children ages birth through eight. Field experience required. (Prerequisite: Completion of any Learning Support Reading requirements, if applicable)
Course designed for transfer and part of the TN Transfer Pathways
Formerly ECED 1010

ECED 2186  Special Topics in ECED  Credits: 1
This is a course designed to promote student learning in specially selected topics in early childhood. Topics will be created to address individual student’s learning needs and interests. Topics will help further student’s understanding of early childhood education. Topics may include, but are not limited to, developmentally appropriate practice, early childhood theory and theorists, and professionalism and advocacy in the early childhood field.
Not part of a TN Transfer Pathway.

ECED 2300  The Mentoring Teacher  Credits: 3
The Mentoring Teacher is a study of the philosophy, principles, and methods of mentoring adults who have varying levels of training. Emphasis will be on the role of mentors as facilitators of adult learning, while also addressing the needs of parents, staff, and of children from birth through eight. Field experience is required. (Prerequisite: department approval and completion of Learning Support Reading requirements, if applicable.) F (alternating years)
Not part of a TN Transfer Pathway.

ECED 2310  Safe, Healthy Learning Envir  Credits: 3
Safe, Healthy, Learning Environments is a study of the basic principles and practices of safety, health and nutrition as they relate to the early childhood setting, home and community for children ages birth through eight. Also included is a study of principles of creating appropriate learning environments for young children. Field experience required.
Not part of a TN Transfer Pathway.

ECED 2312  Admin of Child Care Centers  Credits: 3
Administration of Early Childhood Programs is a study of organizational and administrative practices applicable to serving children ages birth through eight. Topics of particular consideration include leadership, enrollment, public relations, staff-management, financial management, facilities, regulations, family relations, and program development. Field experience is required. (Prerequisite: Completion of Learning Support Reading requirements, if applicable) Sp (alternating years)
Not part of a TN Transfer Pathway.

ECED 2315  Early Childhood Curriculum  Credits: 3
Early Childhood Curriculum is a study of developmentally appropriate practices and the teacher’s role in supporting development of young children ages birth through eight. Also included is an emphasis on curriculum planning including goals, environment, roles of teachers and parents, materials and settings. Field experiences required. F, Sp
Not part of a TN Transfer Pathway.

Formerly ECED 2120

Developmental Study Skills (RODP)

DSPS 0800  Learning Strategies  Credits: 3
ECED 2320  Infant, Toddler, Child Dev  Credits: 3
Infant, Toddler, Child Development is a study of the physical, cognitive, social, and emotional aspects of young children and their application to the care, guidance and development of the child birth through eight. Field experience required. (Prerequisites: ECED 2015 or 2315) Sp - alternating years
Course designed for transfer and part of the TN Transfer Pathways
Formerly ECED 2020

ECED 2330  Infant and Toddler Care  Credits: 3
Infant and Toddler Care is a study of the care and education of infants and toddlers ages birth to three in group settings (i.e., child care centers, family child care homes, Early Head Start). Topics include rationales and strategies for supporting the whole child, including cognitive, language, social-emotional, and physical development in a safe, responsive environment. The course emphasizes relationship-based care and education with special attention to the unique environment aspects of programs for the child under three. Field experience required. S (alternating years)
Not part of a TN Transfer Pathway.
Formerly ECED 2030

ECED 2335  Initial Practicum  Credits: 3
Initial Practicum is a supervised practicum which includes a minimum of 30 clock hours in instruction and 45 clock hours in a clinical site approved by the Department (accredited agency, 3-Star, or Department-approved site). These hours may be completed in the student’s employment site with Departmental approval. The course includes a study of the physical and human qualities that combine to create an environment that is safe and healthy and promotes optimum learning and development of young children. Field experience is required. (Corequisite of ECED 2310 recommended) F, Sp
Not part of a TN Transfer Pathway.
Formerly ECED 2130

ECED 2340  Family Dynamics and Comm Invol  Credits: 3
Family Dynamics & Community Involvement is a study of the role of the family and community in the physical, cognitive, social and emotional growth of the child in a diverse society. Topics include benefits of and strategies for developing positive, reciprocal relationships with families in an early childhood setting. Field experience is required. F, Sp
Course designed for transfer and part of the TN Transfer Pathways
Formerly ECED 2040

ECED 2360  Dev of Exceptional Child  Credits: 3
Development of Exceptional Children explores practices that early childhood professionals can apply to develop a more inclusive and accessible environment for all children ages birth through eight. It provides students with skills to include children of all abilities through appropriate arrangement of the environment. The course includes strategies for developing strong relationships with families and other community agencies. Field experience is required. (Prerequisites: ECED 2015 or 2315) F - alternating years
Course designed for transfer and part of the TN Transfer Pathways
Formerly ECED 2060

ECED 2365  Final Practicum  Credits: 3
Final Practicum is a supervised clinical experience with a minimum of 15 clock hours in instruction and 90 clock hours in a Clinical Site approved by the Department (accredited agency, 3-star or Department-approved site). Up to 45 hours may be completed in the student’s employment site with department approval. Focuses on the student’s demonstration of competencies that produce positive developmental outcomes for young children ages birth through eight. (Prerequisite: ECED Department Approval) F (alternating years)
Not part of a TN Transfer Pathway.
Formerly ECED 2160

ECED 2370  Developmental Assessment  Credits: 3
Developmental Assessment covers assessment for children from birth through eight. Both formal and informal instruments will be discussed with the emphasis on tools that can be effectively used by teachers of young children. Considerations in choosing, administering, and reporting results of assessments are also addressed. Field experience is required. (Prerequisite: ECED 2015 or 2315) Sp-alternating years
Not part of a TN Transfer Pathway.

ECED 2375  Socio-Emotional Development  Credits: 3
This course addresses promotion, prevention, and intervention strategies related to young children’s social-emotional development and challenging behavior. The course is built around the Teaching Pyramid (Fox, Dunlap, Hemmeter, Joseph & Strain, 2003), which is a framework for understanding effective practices related to supporting young children’s social-emotional development and addressing challenging behavior. The model includes a focus on building relationships with children, families, and colleagues. The course also stresses designing environments that support young children’s social-emotional competence, developing strategies for teaching social skills, and promoting emotional development. It includes a systematic approach for addressing challenging behavior when it is persistent and not responsive to developmentally appropriate guidance procedures. (Prerequisite: ECED 2015 or 2315)
Not part of a TN Transfer Pathway.

ECED 2380  Language and Lit in Early Chil  Credits: 3
Language and Literacy in Early Childhood focuses on research-based principles and practices for providing young children aged birth through eight with a strong foundation in language and literacy, using a developmentally appropriate approach. Field experience is required. (Prerequisite: ECED 2015 or 2315) F - alternating years
Not part of a TN Transfer Pathway.
Formerly ECED 2080

ECED 2385  Math & Sci in Early Childhood  Credits: 3
Math and Science in Early Childhood is a course covering the standards, principles, and practices in teaching mathematics and science to young children ages birth through eight. The course emphasizes developing an integrated math and science curriculum that includes appropriate content, processes, environment and materials, and child-centered choices. Field experience is required. (Prerequisite: ECED 2015 or 2315) F- alternating years
Not part of a TN Transfer Pathway.
Formerly ECED 2085

ECED 2390  Creative Development  Credits: 3
Creative Development provides strategies for promoting creative development of the child ages birth through eight. Topics include understanding of the concept of creativity: what it is, why it is important, and how the development of creativity relates to art, music, movement, and drama. Field experience is required. (Prerequisite: Completion of any Learning Support Reading requirements, if applicable) Sp (alternating years)
Not part of a TN Transfer Pathway.
Formerly ECED 2090
Economics

ECON 2010  Macroeconomics  Credits: 3
This course is a study of basic economic concepts and macroeconomics. Topics to be covered will include basic economic theory, economic systems, national income accounting, unemployment and inflation, money and banking, fiscal and monetary policy. No prerequisites. Equivalent to RSCC’s ECO 201.
Roane State General Education course approved and designed for transfer.

ECON 2020  Microeconomics  Credits: 3
This course is a study of basic economic concepts and microeconomics. Topics covered include consumer and firm behavior, economic growth, market structures, price and output determination, labor and unions, international trade and finance. No prerequisites. Equivalent to RSCC’s ECO 202.
Roane State General Education course approved and designed for transfer.

ECON 2030  Survey of Economics  Credits: 3
This course is a survey of economics. It covers how modern economics evolved, supply and demand, national income accounting, money and banking, market structures and contemporary economic issues. This course is not for business majors. Elective Credit at RSCC.

Education

EDU 100  Orientation to College  Credits: 1
Valuable information to promote the student’s success in college. Includes registration and advisement procedures; financial aid; counseling and other student services; study habits; and other topics that should contribute to student success. (It is advised that EDU 100 be taken concurrently with ENGL 1010) (as needed)
Not part of a TN Transfer Pathway.

EDU 101  Introduction to the Teaching Profession  Credits: 2
Survey of the roles and responsibilities in the teaching profession and of current educational issues, practices, and problems. Information on employment opportunities, legal issues, changing social expectations of education institutions. F, Sp
Course designed for transfer and part of the TN Transfer Pathways

EDU 110  Technology for Teachers  Credits: 3
Introduction to windows and windows-based microcomputer packages including word processing, spreadsheets, presentations; Internet applications; basic PC troubleshooting; introduction to audio-visual and office equipment currently used to facilitate quality classroom instruction. No prerequisites. Elective Credit at RSCC.

EDU 111  Introduction to Educating Exceptional Children  Credits: 3
Examination of categories of exceptionality (mental retardation, giftedness, deafness, blindness, emotional disturbance, orthopedic impairment, etc). Brief review of educational strategies used with particular problems. Site visits to acquaint the student with services, settings, and teacher roles. F, Sp
Course designed for transfer and part of the TN Transfer Pathways

EDU 201  Foundations of Education  Credits: 3
In this course attention will be given to the historical, philosophical, and sociological foundations underlying the development of American educational institutions. The role of the schools, the aims of education, and the role of state, local, and federal agencies will be emphasized. Some field experience will be required. No prerequisites. Equivalent to RSCC’s EDU 101.

EDU 2050  Classroom Management  Credits: 3
This course is an introduction to K-6 classroom management techniques. Topics include: physical space, behavioral norms, safety, time management, managing student work, and managing other special classroom needs. Prerequisites: No courses as prerequisites; however, this course has an entry level standard of reading and writing at the college level. Elective Credit at RSCC.

EDU 210  Child and Adolescent Development  Credits: 3
Comprehensive overview of human physical, psychological, and social development from prenatal to late adolescent development. F, Sp
Not part of a TN Transfer Pathway.

EDU 211  Educational Psychology  Credits: 3
Focus on making classroom education more effective by applying specific principles from the following areas of psychology: development, learning, motivation, evaluation, individual differences, and adjustment. (Prerequisite: EDU 101 or permission of instructor) F, Sp
Course designed for transfer and part of the TN Transfer Pathways

EDU 223  Instructional Aids and Equipment  Credits: 1
Basic operation of audiovisual hardware and selection, as well as the utilization of materials for developing instructional media. Students will be provided experiences with preparation of instructional materials using a variety of media. (Prerequisites: EDU 101 and computer skills) F, Sp
Not part of a TN Transfer Pathway.

EDU 231  Field Experiences I  Credits: 2
A cooperative classroom experience for the student and local school systems. Student exposure to duties, responsibilities, and requirements of the teaching profession. F, Sp
Not part of a TN Transfer Pathway.

EDU 232  Field Experiences II  Credits: 2
A cooperative classroom experience for the student and local school systems. Student exposure to duties, responsibilities, and requirements of the teaching profession. (as needed)
Not part of a TN Transfer Pathway.

EDU 233  Praxis I Review  Credits: 1
This course will review the three areas tested by the Praxis I, reading, writing and math.
Not part of a TN Transfer Pathway.

EDU 250  Instructional Technology in Education  Credits: 3
An introduction to applications of technology which will assist in efficient management and effective learning within the school environment. Experience will be gained in the development and use of instructional applications including computers and educational software. No prerequisites. Elective Credit at RSCC.

Education (RODP)

EDUC 2120  Intro to Special Education  Credits: 3
A study of the characteristics and needs of children (PK-elementary level) with special needs and/or disabilities with an emphasis on legislation, programs, services and best practices in the educational setting. Pre-requisite: DSPW 0800 and DSPR 0800 or equivalent skill.
Environmental Health Technology

EHT 120  Waste Management and Pollution Prevention  Credits: 3
An overview of the regulatory drivers and systems by which hazardous and non-hazardous wastes are managed. Incentives for waste minimization are presented, as well as techniques and sources of information. (as needed)
Not part of a TN Transfer Pathway.

EHT 130  Industrial Hygiene and Safety I  Credits: 3
An overview of industrial hygiene and safety concepts including a recognition of occupational hazards and classes of control techniques. Human anatomy and physiology as it relates to occupational hazards is presented. Students are also introduced to the Occupational Safety and Health Act and its administration. (as needed)
Not part of a TN Transfer Pathway.

EHT 201  Environmental and Occupational Law and Regulations  Credits: 3
Survey of federal and state laws regulating environmental management, employee health and safety, hazardous substances, waste management and environmental restoration, and water and air pollution. (as needed)
Not part of a TN Transfer Pathway.

EHT 210  Environmental Instrumentation  Credits: 3
Provides an introduction to those instruments used to evaluate such occupational hazards as noise, radiation, heat stress, oxygen deficiency, explosive atmospheres, and hazardous chemicals and an examination of techniques for characterizing water, wastewater, and hazardous wastes. Environmental sampling techniques and protocols are presented. (as needed)
Not part of a TN Transfer Pathway.

EHT 211  Safety and Emergency Response  Credits: 3
A review of federal, state, and local emergency response guidelines and methods for protecting workers employed in hazardous waste operations and emergency response. (as needed)
Not part of a TN Transfer Pathway.

EHT 215  Applied Radiological Control Technology  Credits: 3
Study of the core academic knowledge and skill required of entry level radiation control technicians. Includes applying skills in mathematics, algebra, physical sciences and life sciences to the control of occupational exposure of workers to ionizing radiation. Topics include radiation mathematics, physical sciences, nuclear physics, sources of radiation, biological effects of radiation, radiological protection, exposure control, and radiation detector theory and operation. (as needed)
Not part of a TN Transfer Pathway.

EHT 225  Special Topics in Environmental Health  Credits: 1 TO 3
This elective course is designed to allow instruction in special topics deemed necessary to meet the demands of business and industry. (as needed)
Not part of a TN Transfer Pathway.

EHT 230  Industrial Hygiene and Safety II  Credits: 3
A more in-depth analysis of the physical, biologic, and chemical hazards encountered in the workplace. Topics include exposure to temperature extremes, noise, radiation, hazardous chemicals, and biologic hazards including bloodborne pathogens. Specific administrative and engineering controls and personal protective equipment are presented. (as needed)
Not part of a TN Transfer Pathway.

EMT 242  Internship  Credits: 4
Work experience designed to familiarize students with applications of principles utilized in the environmental field. Students must attain at least 200 contact hours. No student may enroll in an internship without the approval of the instructor. (as needed)
Not part of a TN Transfer Pathway.

Emergency Medical Respond

EMR 1000  Emergency Med Responder  Credits: 3
This is the initial course in pre-hospital emergency medical care. Student learning will focus on patient assessment, current American Heart Association CPR and Stroke guidelines, emergency care and movement of patients without causing injury. Successful completion of this course will allow the student to sit for licensure given by the National Registry of EMTs. (Prerequisite: 17 years old by course completion and ACT Reading Score 19 or higher). (2 hours lecture/ 2 hours lab per week) (Dual Credit Only).
Not part of a TN Transfer Pathway.

Advanced EMT

EMSA 1111  Advanced EMT Clinical  Credits: 1
The Advanced EMT Clinical is one of two courses designed to allow the student to meet all psychomotor and affective objectives for the clinical requirements of an Advanced Emergency Medical Technician program and build upon the concepts and knowledge gained during prior and/or concurrent courses. (72 total clinical hours)
Not part of a TN Transfer Pathway.

EMSA 1112  Advanced EMT Field Internship  Credits: 1
The Advanced EMT Field Internship is the one of two courses designed to allow the student to meet all psychomotor and affective objectives for the clinical requirements of an Advanced Emergency Medical Technician program and build upon the concepts and knowledge gained during prior and/or concurrent courses. (84 total clinical hours)
Not part of a TN Transfer Pathway.

EMSA 1201  Adv EMT Medical Skills Lab  Credits: 2
The Advanced EMT Medical Skills Lab is the one of two laboratory based courses intended to focus the student on developing skills related to theory presented in didactic classes taken as co-requisites for this course. This laboratory experience will utilize scenarios to emphasize airway maintenance, medication administration, and successfully assessing patients with a variety of medical concerns. (2 credit hours/4 hours lab per week)
Not part of a TN Transfer Pathway.

EMSA 1202  Adv EMT Trauma/Med Skills Lab  Credits: 2
The Advanced EMT Trauma and Medical Skills Lab is one of two laboratory based courses intended to focus the student on developing skills related to theory presented in didactic classes taken as co-requisites for this course. This laboratory experience will utilize scenarios to emphasize airway maintenance, medication administration, and successfully assessing patients with a variety of medical concerns. (2 credit hours/4 hours lab per week)
Not part of a TN Transfer Pathway.
EMSA 1501  Adv EMT Medical Emergencies  Credits: 5
The Advanced EMT Medical Emergencies is the one of two lecture courses which includes basic and limited advanced skills focused on the acute management and transportation of critical and emergent patients. This course includes the following topics: Emergency Medical Responder and Emergency Medical Technician- National Educational Standards competencies, roles and responsibilities of the EMT, workforce safety, wellness, public health, communications, documentation, medical/legal/ethical considerations, anatomy and physiology, life span development, pathophysiology, patient assessment, critical thinking, airway management, respiratory emergencies, cardiovascular emergencies, acute diabetic emergencies, abdominal and gastrointestinal emergencies, urologic emergencies, anaphylactic reactions, and behavioral emergencies. (5 hours lecture per week)
Not part of a TN Transfer Pathway.

EMSA 1502  Adv EMT Trauma/Med Emergencies  Credits: 5
The Advanced EMT Trauma and Medical Emergencies is one of two lecture courses which includes basic and limited advanced skills focused on the acute management and transportation of critical and emergent patients. This course includes the following topics: obstetrics and gynecology, neonatal care, pediatric emergencies, geriatric emergencies, environmental emergencies, patients with special challenges, EMS operations, trauma and shock. Trauma and shock will include the following topics: bleeding, soft tissue injuries, head & spine injuries, face & neck injuries, chest injuries, abdominal & genitourinary injuries, and orthopedic injuries. (5 hours lecture per week)
Not part of a TN Transfer Pathway.

Emergency Medical Technology

EMSB 1101  EMT Medical Skills Lab  Credits: 1
EMT Medical Skills Lab is a laboratory based course utilizing scenarios to emphasize EMS operations, communications, documentation, medical/legal/ethical considerations, airway management, respiratory emergencies, cardiovascular emergencies, acute diabetic emergencies, abdominal and gastrointestinal emergencies, urologic emergencies, anaphylactic reactions, behavioral emergencies, assisting with medication administration, and successful assessment of patients with a variety of medical concerns. This course includes application of principles and processes discussed in EMT Medical Emergencies. (2 contact hours per week)
Not part of a TN Transfer Pathway

EMSB 1102  EMT Trauma-Medical Skills Lab  Credits: 1
EMT Trauma and Medical Skills Lab is a laboratory based course utilizing scenarios to emphasize obstetrics and gynecology, neonatal care, pediatric emergencies, geriatric emergencies, environmental emergencies, patients with special challenges, trauma and shock. (2 contact hours per week)
Not part of a TN Transfer Pathway

EMSB 1111  EMT Clinical  Credits: 1
EMT Clinical is the one of two clinical courses designed to allow the student to meet all psychomotor and affective outcomes for the clinical requirements of an EMT program and build upon the concepts and knowledge learned in EMT Medical Emergencies and EMS Operations. (72 total contact hours)
Not part of a TN Transfer Pathway

EMSB 1112  EMT Field Internship  Credits: 1
EMT Field Internship is the one of two clinical courses designed to allow the student to meet all psychomotor and affective outcomes for the clinical requirements of an EMT program and build upon the concepts and knowledge learned during prior and/or concurrent courses. (84 total contact hours)
Not part of a TN Transfer Pathway

Emergency Medical Technology

EMSB 1101  Emergency Medical Technician  Credits: 15
This course, which includes EMR 1000, is designed to provide the student with the knowledge of basic emergency medical care and transportation for critical and emergent patients who access the emergency medical system. Student learning will focus on human anatomy and physiology, disease process, initial assessment and patient stabilization, proper use of equipment such as automatic external defibrillators, airway adjuncts as well as legal issues, scope of practice, extrication, documentation, communication, and ambulance protocols. This course is designed to meet all State and National requirements to prepare in testing for the EMT exam given by the National Registry of EMTs. (Prerequisites: 18 year old, High School Graduate or HSE, TEAS V for AH Exam, and admission to the EMT Program) (10 hours lecture/ 4 hours lab/ 3 hours clinical per week)
Not part of a TN Transfer Pathway.
EMT 1200  Advanced Emergency Medical Technician  Credits: 12
This course is designed to provide the student with knowledge of the acute and critical changes in the physiological, psychological, and clinical symptoms pertaining to pre-hospital emergency medical care of the infant, child, adolescent, adult and geriatric patient. Student learning will focus on knowledge and practical skills related to Medical/Legal/ Ethical Issues, Anatomy, Airway Management, Patient Assessment and Medical/Trauma Emergencies, Scenario Based practice, Pediatrics/ Geriatrics, Ambulance Operations, Domestic Violence, Bio-Terrorism, IV Initiation and Medicine Administration. Students that successfully complete this course will take the National Registry Exam for the Advanced EMT's. (Prerequisite: EMT 1100) (10 hours lecture/ 2 hours lab/ 8 hours clinical per week).
Not part of a TN Transfer Pathway.

EMT 2170  Comprehensive Advanced Cardiac Life  Credits: 3
Support
An introduction to common cardiac emergencies encountered by prehospital care providers in adult and child populations. Emphasis is on the recognition and management of emergencies related to the respiratory and cardiovascular systems. This course covers interpretation of EKG rhythm strips, treatment algorithms, and introduction to ischemia, injury and infarction patterns in 12-lead EKGs. Upon successful completion of this course, students will be ACLS and PALS trained by AHA standards. (Prerequisites: Admission to the Respiratory Therapy Program) (2 hours lecture/ 2 hours lab per week). Sp
Not part of a TN Transfer Pathway.

English

ENGL 0510  Writing Learning Support  Credits: 3
For students who have placed into Writing Learning Support (WLS). ENGL 0510 develops writing skills with special focus on the composing of essays assigned in ENGL 1010, the co-requisite writing class. The control of sentence-level features such as grammar, usage, punctuation, and spelling is emphasized, as is the development of vocabulary, reading comprehension, critical thinking, and study skills. Individualized, computerized instruction allows students to address discrete writing and grammatical skills while targeted small-group discussions, workshops, and conferences give primary focus to the writing of essays. Students who complete all Writing Learning Support competencies earn a passing grade in ENGL 0510. A passing grade in the co-requisite ENGL 1010 class will satisfy WLS requirements regardless of the grade earned in ENGL 0510. ENGL 0510 does not satisfy graduation requirements. (Co-requisite: ENGL 1010) (F, S, SU) Not part of a TN Transfer Pathway.

ENGL 0891  Writing Learning Support I  Credits: 3
A course designed for students who score below 18 on the ACT English subsection or below 77 on the COMPASS writing subsection. The course follows the emporium model with students meeting for designated class time in a computer lab where they can work through materials in Pearson’s My Writing Lab with the assistance of the instructor. Students are also expected to work independently on the course materials outside of class. In addition to the course materials in My Writing Lab, students must complete five essays in consultation with the instructor and tutors in the learning centers. Class time, as necessary, is set aside for discussion and small group work. A minimum standard to pass the course is successful completion of three of the five essays (C or higher), along with mastery of corequisite work in My Writing Lab. Students are encouraged to complete both competencies in a single semester. Not part of a TN Transfer Pathway.

ENGL 0892  Writing Learning Support II  Credits: 2
A ten-week course designed for students who completed only the first learning support writing competency in ENGL 0891. The course follows the same emporium model outlined in ENGL 0891. (F, SP, SU) Not part of a TN Transfer Pathway.

ENGL 1001  English Second Language I  Credits: 3
For more information on this course, please visit the RODP website at http://www.rodp.org

ENGL 1002  English Second Language II  Credits: 3
For more information on this course, please visit the RODP website at http://www.rodp.org

ENGL 1010  Composition I  Credits: 3
Composition I is designed to develop proficiency in essays based on several rhetorical modes of writing, such as narrative (personal experience) and expository (informative) essays. The majority of the essays are applicable to major fields of study and societal issues. Research paper required. Pre-requisite: All writing and reading learning support classes must be completed prior to enrollment in this course. F, Sp, Su
Roane State General Education course approved and designed for transfer.

ENGL 1020  Composition II  Credits: 3
Writing based on literature and research. Includes interpretation and analysis of fiction, drama, poetry, and the novel. (Prerequisite: ENGL 1010) Note: ENGL 1020 may not be used as a humanities elective. F, Sp, Su
Roane State General Education course approved and designed for transfer.

ENGL 1220  ESL Basic Pronunciation  Credits: 3
A course to help international students improve their English speaking skills and master the patterns of English spelling. Students practice the production of English sound patterns and related spelling patterns. Highly recommended to all ESL students who do not have excellent pronunciation. Course availability determined by Dean of the Division. Not part of the TN Transfer Pathway.

ENGL 1225  ESL Advanced Speaking  Credits: 3
A course for non-native speakers of English emphasizing vocabulary development in academic content areas, speaking and listening skills. Recommended to all ESL students entering college level courses. Course availability determined by Dean of the Division. Not part of a TN Transfer Pathway.

ENGL 1230  ESL Grammar Review  Credits: 3
This course is designed to provide students with more exposure to the rules of grammar for academic English. Structures of English with particular focus on patterns of grammar which are frequently troublesome for non-native speakers of English, will be studied. Students will practice applying these structures through extensive speaking, writing, listening and by completing a variety of exercises and writing brief essays. Course availability determined by Dean of the Division. Not part of a TN Transfer Pathway.

ENGL 2110  Survey of American Literature I  Credits: 3
Survey of American literature from the Colonial period to the Civil War. May include selections from Poe, Hawthorne, Thoreau, Dickinson, Whitman, etc. (Prerequisite: ENGL 1020) F, Sp
Roane State General Education course approved and designed for transfer. (TTP Course)
ENGL 2116  Writing for the Web  Credits: 3
This course focuses on developing comprehensible and useful content for websites. Students critique the writing style of current web pages and then design online documentation and develop appropriate online copy. Prerequisites: ENGL 1010. Elective Credit at RSCC.

ENGL 2120  Survey of American Literature II  Credits: 3
Survey of American literature from the Civil War through the Modern period. May include selections from Twain, Frost, Eliot, Faulkner, O’Connor, etc. (Prerequisite: ENGL 1020) F, Sp, Su Roane State General Education course approved and designed for transfer. (TTP course)

ENGL 2210  Survey of British Literature I  Credits: 3
Survey of British literature from the Old (in translation) and Middle periods through the 18th century, with emphasis on primary texts and their link with historical Britain. May include selections from Chaucer, Spenser, Shakespeare, Behn, Swift, etc. (Prerequisite: ENGL 1020) F Roane State General Education course approved and designed for transfer. (TTP course)

ENGL 2220  Survey of British Literature II  Credits: 3
Survey of British literature from the Romantic through the Modern periods, with emphasis on primary texts and their political and social significance in Britain. May include selections from Wollstonecraft, Wordsworth, Keats, Byron, Bronte, Tennyson, the Brownings, Yeats, Eliot, etc. (Prerequisite: ENGL 1020) F Sp Roane State General Education course approved and designed for transfer. (TTP course)

ENGL 2310  Survey of World Literature I  Credits: 3
Survey of world literature from the ancient world to the Renaissance. May include selections from the Bible, Greek and Roman classics, Dante, Marie de France, Chaucer, Cervantes, Shakespeare, etc. (Prerequisite: ENGL 1020) F, Sp Roane State General Education course approved and designed for transfer. (TTP course)

ENGL 2320  Survey of World Literature II  Credits: 3
Survey of world literature from the Renaissance through the Modern periods. Includes selections from Moliere, Voltaire, Swift, Flaubert, Dostoevsky, Tolstoy, contemporary world authors, etc. (Prerequisite: ENGL 1020) F, Sp Roane State General Education course approved and designed for transfer. (TTP course)

ENGR 1110  Survey of Engineering  Credits: 1
Overview of the required skills, types of jobs, and specialty areas in engineering. An overview of the goals, objectives, methods, and ethics of the engineering profession in all the major engineering disciplines is presented. F, Sp Not part of a TN Transfer Pathway.

ENGR 1120  Computer Aided Engineering  Credits: 3
Introduction to computer aided engineering using structured programming in BASIC, Visual BASIC, and C to create solutions to typical engineering applications. Applications of computer packages such as engineering spreadsheet, graphics, and word processors will be included. F, Sp Not part of a TN Transfer Pathway.

ENGR 1610  Fundamentals of Engineering Graphics I  Credits: 2

ENGR 1620  Fundamentals of Engineering Graphics II  Credits: 3
Continuation of Fundamentals of Engineering Graphics I with emphasis on CAD applications in three dimensional drawing, working drawings, assemblies and details, CAD component evaluation and use. Selected problems from the engineering sciences utilizing special drawing techniques on electronic mediums. (As needed) Not part of a TN Transfer Pathway.

ENGR 2010  AutoCAD I  Credits: 3
The utilization of microcomputers in the design and drafting process using AutoCAD. The selection of CAD component, the command and syntax structure, basic drawing and editing techniques, two-dimensional and three-dimensional drawing techniques. Two three-hour periods or three two-hour periods, including two hours lecture per week. (Offered if sufficient demand) Not part of a TN Transfer Pathway.

ENGR 2110  Statics  Credits: 3
Statics of particles and rigid bodies, resultants of force systems, static equilibrium, friction, moments, and application to trusses. (Prerequisites: MATH 1910; Corequisite: PHYS 2110) F Course designed for transfer and part of the TN Transfer Pathways.

ENGR 2120  Dynamics  Credits: 3
Dynamics of particles and rigid bodies, kinematics, kinetics, Newton’s laws, work and energy, and impulse and momentum. (Prerequisite: ENGR 2110) Sp Course designed for transfer and part of the TN Transfer Pathways.
ENGR 2140  Engineering Design Fundamentals  Credits: 3
Introduction to the design process and engineering problem solving, developing teamwork and communication skills, building oral, written and digital presentation skills for the international workplace. This course is designed for students transferring to UTK. Not part of a TN Transfer Pathway.

Engineering Science

ESC 1110  Introduction to Environmental Studies I  Credits: 4
Study of environmental problems at global, national, and local levels. Ecological principles, geophysical processes, and human population dynamics; scientific approach applied to understanding environmental concepts using hands-on field experiences. Prerequisites: College Level in Math, English, Reading.
ESC 1120  Introduction to Environmental Studies II  Credits: 4
Study of environmental problems at global, national, and local levels; soil, water, and mineral resources, food resources and pesticides, hazardous wastes and air pollution, energy, land, and species resources; laboratory emphasis on local field experiences. Prerequisites: College Level in Math, English, Reading.

Financial Services

FNCE 1310  Principles of Finance  Credits: 3
The course examines financial theory and procedures required for the financial decision-making function of business organizations with and specific examination of subject matter related to leasing, dividend policy, capital structure, long-term financing, convertibles, and warrants. (3 Credit hrs) F, S Not part of a TN Transfer Pathway
FNCE 1320  Consumer Lending  Credits: 3
This course examines the comprehensive overview of the consumer lending business. The emphasis will be focused on different credit products and also examine the consumer lending process from developing and taking loan applications to collection and recovery. The course will examine consumer loan information sources and the credit verification process. (3 Credit hrs) F, S Not part of a TN Transfer Pathway
FNCE 1330  Introductions to Investments  Credits: 3
The course presents the various investment alternatives and provides information related to the economic forces that influence the pricing of financial assets as well as providing information related to financial markets and various techniques of security valuation and analysis with emphasis on stock markets and the understanding of portfolio diversification. (3 credit hrs) F, S Not part of a TN Transfer Pathway
FNCE 2310  Money and Banking  Credits: 3
Information is presented to allow the student to analyze the impact of money on some of the economy’s key variables such as interest rates, inflation, and the banking industry. In addition, the roles that commercial banks and the Federal Reserve System play in the process of money creation and U.S. monetary policies. (3 Credit hrs) F, S Not part of a TN Transfer Pathway
FNCE 2320  Principles of Insurance  Credits: 3
This course presents the principles of risk and risk bearing; insurance carriers; survey of principles of life, health and accident, fire, marine, and automobile insurance policies; government regulation of insurance. (3 credit hrs) F, S Not part of a TN Transfer Pathway

French

FREN 1010  Beginning French I  Credits: 3
Elementary grammar, pronunciation, and conversation through textbooks supplemented by audio cassettes, filmstrips, computer programs, and videotapes. F Roane State General Education course approved and designed for transfer. (TTP course)
FREN 1020  Beginning French II  Credits: 3
Continuation of Beginning French I. (Prerequisite: FREN 1010) Sp Roane State General Education course approved and designed for transfer. (TTP course)
FREN 2010  Intermediate French I  Credits: 3
Advanced grammar and conversation through use of textbooks supplemented by audio cassettes, filmstrips, computer programs, videotapes, and selected readings. (Prerequisite: FREN 1020). Course availability determined by Dean of the Division. Roane State General Education course approved and designed for transfer. (TTP course)
FREN 2020  Intermediate French II  Credits: 3
Continuation of Intermediate French I. (Prerequisite: FREN 2010). Course availability determined by Dean of the Division. Roane State General Education course approved and designed for transfer. (TTP course)

Geography

GEOG 105  World Regional Geography  Credits: 3
This course is a survey of the developed and developing regions of the world. Regional cohesion and differentiation will result from the concepts of space/location, place, human environment interaction, movement/diffusion, and regions. Prerequisites: There are no prerequisites or corequisites for this course, although it would benefit the student to have a general understanding of the world’s realms and their interactive relationships prior to entering the course. Equivalent to RSCC’s GEOG 1210.
GEOG 1220  Human Geography  Credits: 3
This course is an overview of man’s spatial distribution over the earth’s surface. It concentrates on the relationship between people, places, and environments and to applying spatial and ecological perspectives to life situations. (as needed) Roane State General Education course approved and designed for transfer.
GEOG 2010  World Regional Geography  Credits: 3
Selected world regions, especially those with problems or situations of contemporary interest, are used to illustrate geographical concepts, points of view, and techniques of analysis. F, Sp, Su Roane State General Education course approved and designed for transfer.
Geology

**GEOL 1040 Physical Geology** Credits: 4
An introduction to the physical processes acting within and upon the Earth’s surface to create its many different features. Topics of interest include identification of minerals and rocks, plate tectonics, mountain building, volcanoes, stream activity, glaciation and regional landform development. Each student is assessed a lab fee for this course. (3 hours lecture, 3 hours laboratory) F
Roane State General Education course approved and designed for transfer.

**GEOL 1050 Historical Geology** Credits: 4
The study of the Earth’s physical and biological history as interpreted from the rock and fossil record. Topics include an introduction to fossils, evolution and ancient environments, stratigraphy, and a review of earth history. Each student is assessed a lab fee for this course. (GEOL 1040 is strongly recommended as a prerequisite) (3 hours lecture, 3 hours laboratory) Sp
Roane State General Education course approved and designed for transfer.

**German**

**GERM 1010 German I** Credits: 3
Essentials of German, developing and reading comprehensive, speaking and writing. Course availability determined by Dean of the Division.
Roane State General Education course approved and designed for transfer. (TTP course)

**GERM 1020 German II** Credits: 3
Continuation of Beginning German I. (Prerequisite: GERM 1010)
Course availability determined by Dean of the Division.
Roane State General Education course approved and designed for transfer. (TTP course)

**GERM 2010 Intermediate German I** Credits: 3
Review of German grammar and a continuation of the approach used in GERM 1010 and 1020. Selected readings. (Prerequisite: GERM 1020)
Course availability determined by Dean of the Division.
Roane State General Education course approved and designed for transfer. (TTP course)

**GERM 2020 Intermediate German II** Credits: 3
Continuation of Intermediate GERM 2010. (Prerequisite: GERM 2010)
Course availability determined by Dean of the Division.
Roane State General Education course approved and designed for transfer. (TTP course)

**Geographic Information Systems**

**GIS 101 Introduction to Geographic Information Systems** Credits: 4
An introductory course dealing with the basics of using computerized map information in science, education, social science, and business applications. Students will learn to organize their own projects using mapping software, spatial data, and a variety of geographic information technologies and tools. Business, education, and social science applications emphasize demographic data while scientific applications emphasize environmental and facility management issues. (Prerequisite: Working knowledge of Windows or Macintosh based PC systems). F, Sp
Not part of a TN Transfer Pathway.

**GIS 105 Computer Cartography** Credits: 3
An introduction to the properties, uses, symbology design and computer production of maps. Covers the creation of cartographically correct hard copy, digital, interactive and animated maps using ESRI ArcGIS. F
Not part of a TN Transfer Pathway.

**GIS 110 Geographic Database Technology** Credits: 3
Geographic Information Systems (GIS) need access to a great variety of data for decision making. This introductory course will cover major aspects of capturing, manipulating, and analyzing geographic and related data. Topics include hierarchical vs. flat-file databases, data tables, geographic objects and attributes, relational databases, geographic data organization, data conversions, import-export, and data quality assessment. The student will learn to construct queries using SQL and query-by-example tools to answer simple and more complex problems. Sp
Not part of a TN Transfer Pathway.

**GIS 210 GPS and Digital Imagery** Credits: 3
Using Global Positioning System (GPS) technology, this course will introduce topics of data capture editing, registration and rectification to provide an image for the extraction of geographic data such as property boundaries, streets, streams and structures. Uses of GPS in this course are to provide reference points for registering and rectification of images, verifying and creating spatial data. F
Not part of a TN Transfer Pathway.

**GIS 211 Internet Mapping Applications** Credits: 3
This course provides the foundation for distributing high-end GIS and mapping services via the internet. Students will learn how to design web based applications for integrating local and internet spatial data sources for query, display and analysis in a user friendly web browser. S
Not part of a TN Transfer Pathway.

**GIS 220 GIS Network and Demographic Applications** Credits: 3
The student will focus on developing a coherent framework for using the vast quantities of data made available by government and other sources along with his/her own data. The student will explore multiple views of a single issue or set of information by looking for new possibilities. (Prerequisites: GIS 101 and GIS 110). Sp
Not part of a TN Transfer Pathway.

**GIS 230 GIS Project Management** Credits: 3
Students in this course will plan, schedule and execute a professional level GIS team project for an outside client. Course objectives include project planning, resource budgeting, project documentation, Q/A, deliverable preparation and team work. (Prerequisites: GIS 101 and GIS 110). Sp
Not part of a TN Transfer Pathway.

**GIS 251 Seminar in Geographic Information Systems** Credits: 1
Special topics in GIS. Check with your advisor for courses available each semester.
Not part of a TN Transfer Pathway.

**GIS 290 Directed Research Project** Credits: 4
This capstone course will consolidate the student’s learning experiences in geographic information systems technology. Students will develop and complete an original, comprehensive project that encompasses geographic and computer mapping fundamentals learned in previous courses. (Prerequisite: Permission of the instructor) Su
Not part of a TN Transfer Pathway.
Healthcare Doc Specialist

HCDS 1102  Medical Terminology I  Credits: 3
A study of medical terminology word elements including prefixes, suffixes and root words. Diagnostic, clinical, laboratory, pharmaceutical and surgical terms are also learned as they pertain to each body system. (3 lecture hours/week) Formerly MDT 102.
Not part of a TN Transfer Pathway.

HCDS 1103  Anat Concept in Healthcare Doc  Credits: 3
This course provides an introduction to the organization of the human body as well as a study of the anatomical structures and basic physiology of body systems. (3 lecture hours/week). Formerly MDT 103.
Not part of a TN Transfer Pathway.

HCDS 1104  Healthcare Doc, Specialist I  Credits: 5
Transcription practice of basic healthcare dictation incorporating skills in English language, technology, medical knowledge, proofreading, editing and research, while meeting progressively demanding accuracy standards. (18 laboratory hours/week) Formerly MDT 104.
Not part of a TN Transfer Pathway.

HCDS 1105  Healthcare Doc Special. Proced  Credits: 3
Emphasis is placed on healthcare documentation standards according to the AHDI Book of Style for Medical Transcription. A general overview of fundamental grammar concepts, capitalization, and punctuation usage relative to clinical documentation is provided. This course also includes an introduction to the content of the medical record, medicolegal issues, and regulatory agency requirements as they relate to the practice of medical transcription. (3 lecture hours/week) Formerly MDT 105
Not part of a TN Transfer Pathway.

HCDS 1110  Tech Concept in Healthcare Doc  Credits: 2
This coursework is designed to introduce the student to word processing applications and related technologies and to develop computer skills and proficiency. It is designed to study, synthesize, and apply technologies used in healthcare documentation. (2 lecture hours/week)
Formerly MDT 110.
Not part of a TN Transfer Pathway.

HCDS 2111  Healthcare Doc Specialist II  Credits: 5
Transcription of intermediate and advanced original healthcare dictation using advanced proofreading, editing, and research skills, while meeting progressively demanding accuracy and productivity standards. This course also provides an introduction to speech recognition editing. (18 laboratory hours/week). Formerly MDT 111.
Not part of a TN Transfer Pathway.

HCDS 2112  Clinical Education  Credits: 3
A study of pharmacology including the correct spelling, pronunciation, classification and therapeutic use of commonly prescribed drugs, routes of administration, and general pharmacology terminology. (2 lecture hours, 16 clinic hours/week) Formerly MDT 112.
Not part of a TN Transfer Pathway.

HCDS 2118  Tech Concep Healthcare Doc II  Credits: 2
A study of advanced Microsoft Word features designed to improve efficiency and accuracy of transcribed reports. Additional topics of study include electronic research techniques, electronic references and resources, troubleshooting, security issues, and related technologies. Practice with typing tutorial software to further increase speed and accuracy. (2 lecture hours/week) Formerly MDT 118.
Not part of a TN Transfer Pathway.

HCDS 2120  Medical Terminology II  Credits: 3
A study of advanced anatomical terms, disease processes and associated pathology, laboratory, and radiology terminology. Common surgical terms, techniques, equipment, and instrumentation are also studied. (3 lecture hours/week) Formerly MDT 120.
Not part of a TN Transfer Pathway.

HCDS 2125  Pharm Concept, Healthcare Doc  Credits: 3
A study of pharmacology including the correct spelling, pronunciation, classification and therapeutic use of commonly prescribed drugs, routes of administration, and general pharmacology terminology. (3 lecture hours/week) Formerly MDT 125.
Not part of a TN Transfer Pathway.

HCDS 2150  Special Topics Healthcare Doc  Credits: 2
Special topics may include the transcription of authentic medical dictation at an intermediate and/or advanced level to satisfy the total number of minutes required for program completion. Other transcription-related topics may be included such as speech recognition editing, transcription of ESL physician dictation, RHDS exam review, etc., (Elective) 18 hours total/week. Formerly MDT 150.
Not part of a TN Transfer Pathway.

Health

HEA 131  Elementary Nutrition  Credits: 2
Applying principles of nutrition in the selection of food for health promotion and maintenance. F, Sp
Not part of a TN Transfer Pathway.

HEA 201  Principles of Nutrition  Credits: 3
This course emphasizes the function, food sources, recommended intake, and assimilation of each of the six nutrient classes. F, Sp
Course designed for transfer and part of the TN Transfer Pathways.

HEA 221  Safety,First Aid and CPR  Credits: 3
This course will provide the knowledge and skills necessary to sustain life, reduce pain and minimize the consequences of illness or injury until medical help arrives. Upon satisfactory course completion, students will receive certificates for First Aid and Adult, Infant and Child CPR. F, Sp
Course designed for transfer and part of the TN Transfer Pathways.

HEA 224  Personal Trainer Certification  Credits: 4
This is a preparation course designed as a study guide for successfully passing the National Council of Strength and Fitness (NCSF) national personal trainer certification tests. This course is based on the NCSF preparation course. F, Sp
Not part of a TN Transfer Pathway.

HEA 225  Care and Prevention of Athletic Injuries  Credits: 3
The student will develop a knowledge of prevention, treatment, and basic rehabilitation of common athletic injuries as commonly seen at the interscholastic level of competition. In addition, the student will be exposed to negligence and liability issues in respect to athletic injuries. F, Sp
Course designed for transfer and part of the TN Transfer Pathways.

HEA 227  Introduction to Exercise Science  Credits: 3
This course is designed to help students appreciate the importance of physical activity, to introduce the discipline of kinesiology and help students understand its relationship to physical activity, and to expand student knowledge of physical activity professions. F, Sp
Course designed for transfer and part of the TN Transfer Pathways.
HEA 241  School Health  Credits: 2
This course for prospective teachers is designed to investigate current
school health issues. This course will include health instruction, health
services and healthful school environment. Sp
Not part of a TN Transfer Pathway.

History

HIST 1010  Survey of Western Civilization I  Credits: 3
A general survey of the major political, social, economic, and cultural
developments in Western Civilization from the Ancient World to 1715.
Emphasis on the Greek World, the Roman Empire, feudal Europe,
Renaissance, Reformation, constitutional monarchy in England in the
17th century and the triumph of absolute monarchy in France under
Louis XIV. (HIST 1010 and HIST 1020 can be taken in any order. Pre-or
corequisite: ENGL 1010). F, Sp, Su
Roane State General Education course approved and designed for
transfer. (TTP course)

HIST 1020  Survey of Western Civilization II  Credits: 3
A general survey of the major political, social, economic, and cultural
developments in Western Civilization from 1715 to the present.
Emphasis on the Enlightenment, French Revolution and Napoleon,
national unification of Germany and Italy, world wars of the 20th
century, Russian Revolution, and post-1945 Europe. (HIST 1010 and
HIST 1020 can be taken in any order. Pre-or corequisite: ENGL 1010) F, Sp, Su
Roane State General Education course approved and designed for
transfer. (TTP course)

HIST 1110  Civilization: Past and Present to 1500  Credits: 3
This course, a three credit-hour class on the web, is the first half of
a two-semester survey of world history. It covers the history of the
world from the origins of humanity to the sixteenth century. The units
are topical in nature and are organized in a chronological format.
Prerequisites: Satisfactory completion of DSPW 0800 and DSPR 0800
or appropriate entrance exam scores. Students are required to read and
write at a level to be expected from a college freshman. Equivalent to
RSCC’s HIST 1210.

HIST 1120  World History Since 1500  Credits: 3
This course is the second half of a two-semester survey of world history.
It covers the history of the world from the sixteenth century. The units
are topical in nature and are organized in a chronological format.
Prerequisites: Satisfactory completion of DSPW 0800 and DSPR 0800
or appropriate entrance exam scores. Students are required to read and
write at a level to be expected from a college freshman. Equivalent to
RSCC’s HIST 1220.

HIST 1210  Survey of World History I  Credits: 3
The study of human history from prehistory to c. 1500 A.D., covering
the beginnings of civilization c. 3000 B.C. and investigating the
economic, social, political, and cultural institutions developed by
humans prior to the beginning of European expansion. (HIST 1210 and
HIST 1220 can be taken in any order. Pre-or corequisite: ENGL 1010) F
Roane State General Education course approved and designed for
transfer. (TTP course)

HIST 1211  Survey of World History II  Credits: 3
The study of human history from c. 1500 A.D. (shortly after Europeans
began their expansion) to the present, and including the investigation
of the economic, social, political, and cultural institutions developed
by humans both in response to European expansion and independent
of European influence. (HIST 1210 and HIST 1220 can be taken in any
order. Pre-or corequisite: ENGL 1010) Sp
Roane State General Education course approved and designed for
transfer. (TTP course)

HIST 2010  Survey of U.S. History I  Credits: 3
An exploration and analysis of major themes and events in the political,
cultural, social, economic, and intellectual history of the United States to
1877. (Pre-or corequisite: ENGL 1010) F, Sp, Su
Roane State General Education course approved and designed for
transfer. (TTP Course)

HIST 2020  Survey of U.S. History II  Credits: 3
Continuation of History 2010. (Pre-or corequisite: ENGL 1010) F, Sp, Su
Roane State General Education course approved and designed for
transfer. (TTP Course)

HIST 2030  Tennessee History  Credits: 3
This course is a general survey and analysis of the history of the
state of Tennessee from the beginning of statehood in 1796 to about
1990. There is also a pre-statehood component that examines Native
American history in the region (with an emphasis on the Cherokees)
and the history of exploration and early settlement. Accepted for history
sequence requirement at UTK, UTC, and MTSU (Pre-or corequisite:
ENGL 1010) as needed.
Roane State General Education course approved and designed for
transfer.

HIST 2050  Appalachian History  Credits: 3
This course will examine the theme of continuity and change in the
Southern and Central Appalachian region from the 14th century to
the present. States included in this study are western Virginia, eastern
Kentucky, western North Carolina, East Tennessee, northern Georgia,
northern Alabama, and southern West Virginia.

HIST 220  African American History  Credits: 3
Please visit http://www.rodp.org for the latest description for this course.

Health Information Technology

HIT 1010  Medical Terminology  Credits: 3
A study of the language of medicine with emphasis on body systems,
prefixes, suffixes, root terms, pronunciation and spelling. Prerequisites:
DSMR 0800 Developmental Reading. COREQUISITES: DSPM 0850
Developmental math and DSPS 0800 study skills.

HIT 1011  Fundamentals of HIT  Credits: 3
This course is designed to introduce students to the principles of health
information technology. The development, content and management
of the medical record will be explored as well as a basic overview of
the healthcare delivery system. Emphasis is placed on hospital and
medical staff organization; patient record content; procedures in filing,
numbering, and retention of patient records; quantitative analysis;
release of patient information; forms control and design; indexes and
registers; regulatory and accrediting agencies; and the transition to an
electronic health record.
HIT 102  Fundamentals of Health Information Management  Credits: 3
This course serves as an introduction to the health information management profession and the health care delivery systems. It is an orientation to the content of the health record in acute care, long-term care, ambulatory care, home health, hospice and psychiatric facilities. The course will also include instruction in numbering, filing, microfilm, accreditation and certification standards. Practice in the assembly and analysis of medical records and numbering and filing systems will occur. Open to all students. Fall Semester (3 lecture hours/week) Not part of a TN Transfer Pathway.

HIT 103  Coding and Classification Systems I  Credits: 3
An introduction to coding and classification systems used in health care including Official Coding Guidelines, ICD-9-CM, and ICD-10-CM. Students will also be introduced to encoding software. Laboratory practice time devoted to coding of case studies using ICD-9-CM and ICD-10-CM coding systems. (Prerequisite and/or Corequisite: BIOL 2010) (2 lecture hours, 3 laboratory hours/week)
Not part of a TN Transfer Pathway.

HIT 104  Coding and Classification Systems II  Credits: 2
An introduction to coding and classification systems used in health care for coding of procedures. Content includes structure and conventions, root operations definition in ICD-10-PCS, and how to code procedures. Course focuses on how to code procedure using applicable ICD coding systems. (Prerequisite: HIT103, BIOL2010, Corequisite HIT112, HIT130) (1 lecture hours, 3 laboratory hours)
Not part of a TN Transfer Pathway.

HIT 106  Health Data Systems  Credits: 3
Introduction to health care data, indexes and registries. The calculation of rates and percentages used by health care facilities will be emphasized. Manual and automated techniques of maintaining data will be discussed along with data display techniques. (3 lecture hours/week)
Not part of a TN Transfer Pathway.

HIT 107  Medical Terminology  Credits: 3
Greek and Latin elements of medical terminology, stems, suffixes, prefixes and root words. Medical terminology pertaining to each body system. Open to all students. Fall and Spring Semesters (3 lecture hours/week)
Not part of a TN Transfer Pathway.

HIT 110  Legal Aspects of Health Information  Credits: 2
For more information on this course, please visit the RODP website at http://www.rodp.org

HIT 111  Legal Aspects of Health Information  Credits: 3

HIT 112  Coding Professional Practice Experience  Credits: 1
This course involves actual clinical coding experience with both scenarios and health records in the classroom and area health facilities. Focus of this professional practice experience is application of Official Coding Guidelines in the professional setting. (Prerequisites: HIT 102, HIT 103; Corequisite: HIT 130, BIOL 2020) (45 hours clinical/semester) Not part of a TN Transfer Pathway.

HIT 1120  Fundamentals of Disease Processes  Credits: 4
For more information on this course, please visit the RODP website at http://www.rodp.org

HIT 113  Legal Aspects of Health Information  Credits: 2
To provide the student a foundation in federal and state legislation regarding medical record release, retention, authorizations, and consents. The importance of confidentiality and professional ethics will be emphasized. The medical record in court and the medicolegal importance of accurate documentation will be presented. (2 lecture hours/week)
Not part of a TN Transfer Pathway.

HIT 1130  Coding and Classification Systems I  Credits: 3
An introduction of the coding and classification of symptoms, diseases, operations and procedures according to the International Classification of Diseases, Clinical Modification (ICD-CM). Prerequisites and Corequisites: Admission to program; Human A & P I

HIT 1131  ICD-10-CM Coding System  Credits: 3

HIT 1140  Computer Applications in Health Information  Credits: 3
For more information on this course, please visit the RODP website at http://www.rodp.org

HIT 117  Principles of Medical Claims Billing and Processing  Credits: 3
An introduction to Medical Insurance and Claims Processing with an emphasis on Managed Care Contracts and various Health Care Payers. This course will introduce the student to the basic fundamentals of medical coding by focusing on ICD-9 and CPT coding systems. (3 lecture hours/week)
Not part of a TN Transfer Pathway.

HIT 130  CPT Coding  Credits: 3
An introduction to the Current Procedural Terminology (CPT) coding system and outpatient coding guidelines. (Prerequisites: HIT 102, HIT 103; Corequisite: BIOL 2020) (3 lecture hours/week)
Not part of a TN Transfer Pathway.

HIT 207  Advanced Medical Terminology  Credits: 3
This course will focus on advanced topics in medical terminology such as eponymic medical conditions and procedures, traumatic injury staging, and advanced body system based terminology and anatomy. The focus will be terminology required for advanced medical coding requirements. Course is open to all students. Prerequisite of HIT 107 and BIOL 2010. (3 hours lecture/week)
Not part of a TN Transfer Pathway.

HIT 2100  Management & Supervision in Health Information  Credits: 3
A study of supervisory and management functions with focus on planning, organizing, staffing, directing, and controlling in healthcare organizations. Special emphasis will study managerial techniques to supervise, motivate, counsel, lead, train, and communicate with staff in health information services. Prerequisites: Admission to program or permission of program director.

HIT 2111  Management & Supervision in Health Information  Credits: 2

HIT 2121  Healthcare Statistics and Reporting  Credits: 2

HIT 2130  Coding & Classifications Systems II  Credits: 3
This course covers the basic principles of coding with Current Procedural Terminology (CPT) coding system including structure and rules. Instruction will also be given in use of HCPCS Level II coding including structure and rules. The use of these coding systems will be studied as they are used in reporting of reimbursable medical services and procedures performed by physicians. Prerequisites: All developmental study courses (if required based on ACT scores or COMPASS test), COLL 1020 Technology Essentials (or higher level computer class), HIT1130 Coding and Classification Systems I Prerequisites or Corequisites: HIT1120 Fundamentals of Medical Science, BIOL2020 Anatomy and Physiology II
HIT 2131  ICD-20-PCS Coding System  Credits: 3

HIT 2140  Professional Practice Experience I  Credits: 3
Emphasis is placed on providing opportunities for students to relate classroom theory to actual functions of health information, such as assembly and record analysis; medicolegal procedures; information retention; filing and retrieval; and the use of technology. Students will meet objectives through assignment to a health care facility or through the use of virtual simulation projects. Prerequisites: HIT 1110, HIT 1130, Admission to the HIT ProgramHIT 2140 is open only to HIT majors who have been officially accepted into the program. An understanding of fundamental HIT concepts and knowledge is required before entering the clinical site portion of the program.

HIT 217  Principles of Healthcare Administration/Quality Resource Management  Credits: 3
This course is an introduction to principles of management and supervision. It is specifically directed toward the health information manager. Personnel management, department budget preparation and maintenance, departmental policies, procedures and job descriptions will be discussed. Requirements of various governmental, third party payers, and accreditation bodies regarding appropriate utilization of resources and continuous quality improvement will also be emphasized. (3 lecture hours/week)
Not part of a TN Transfer Pathway.

HIT 218  Advanced Coding and Classification Systems  Credits: 3
This course focuses on advanced topics in diagnosis and procedural coding using ICD-10-CM and ICD-10-PCS. The course will concentrate on official coding guidelines, selection of appropriate ICD-10-CM diagnosis codes and selection ICD-10-PCS procedure codes. The course will include practice in coding using both case studies and actual health records and computerized coding and grouping software. Students must have, at minimum, an AAS degree in HIT, RHIT credential or CCS credential or permission of the instructor. (2 lecture hours, 3 laboratory hours/week)
Not part of a TN Transfer Pathway.

HIT 221  Advanced Health Information Procedures  Credits: 3
Study of advanced coding topics including chart, management of coding function, revenue cycle management and chargemaster is included. The course will also cover disease registries, professional organization activities and other health information topics as necessary. (3 lecture hours/week)
Not part of a TN Transfer Pathway.

HIT 220  Healthcare Quality Management  Credits: 3

HIT 221  Healthcare Quality Management  Credits: 2

HIT 222  Pathology and Clinical Interpretations  Credits: 4
An introduction to common disease processes, their clinical signs, symptoms, and manifestations. Diagnostic radiology and laboratory examinations, pharmacological and other treatment modalities employed in the treatment of disease will be emphasized. Fall Semester (Prerequisites: BIOL 1010, 2020) (4 lecture hours/week)
Not part of a TN Transfer Pathway.

HIT 2220  Healthcare Reimbursement Methodologies  Credits: 3

HIT 2221  Healthcare Reimbursement Methodologies  Credits: 3

HIT 2230  Advanced Coding and Classifications Systems  Credits: 3
This course focuses on advanced topics in diagnosis and procedural coding including ICD-9-CM and CPT/HCPCS. The course will concentrate on official coding guidelines, sequencing skills and use of ICD-9-CM in healthcare reimbursement as well as prospective payment system theory and methodology. The course will include practice in coding and optimization techniques using both case studies and actual health records and computerized coding and grouping software. Prerequisite: HIT 2130

HIT 2231  Advanced Coding & Classification Systems  Credits: 3

HIT 2240  Professional Practice Experience II  Credits: 3

HIT 2250  Seminar in Health Information Technology  Credits: 3

HIT 2251  Professional Practice Experience I  Credits: 3
Actual practice in an area hospital. Topics covered include chart assembly and analysis, coding, abstracting, release of information, and medical transcription. (135 hours clinical experience/semester)
Not part of a TN Transfer Pathway.

HIT 2252  Professional Practice Experience II  Credits: 2
Clinical experience in quality improvement, utilization management, hospital committee functions, and medical record supervision. Practice is also obtained in specialized facilities such as long term care, psychiatric, ambulatory care, veterinary medicine, and tumor registry. (Prerequisite: HIT 231) (90 hours clinical experience/semester)
Not part of a TN Transfer Pathway.

HIT 224  Automated Health Information Systems  Credits: 3
An introductory course dealing with principles of automated information systems. The flow of patient information from registration through the decision care process and billing, to the end use of information in decision support systems will be explained. The importance of data accuracy, integrity and security will be emphasized. The current state of technology employed in healthcare to make the transition to a total computerized patient record will be discussed. Software packages currently utilized by health information departments will be explained and students will utilize application software packages, build databases, query systems and design reports. (2 lecture hours, 3 laboratory hours/week)
Not part of a TN Transfer Pathway.

HIT 251  Coding for Reimbursement  Credits: 4
Advanced topics in ICD-9-CM coding focusing specifically on Official Coding Guidelines, sequencing skills and the use of ICD-9-CM in health care reimbursement. The prospective payment system theory and methodology will be the course focus. Ambulatory Patient Classifications will be introduced. Laboratory practice in coding and optimization techniques using actual medical records and a computerized grouper. (Prerequisites: HIT 103, 130; Corequisite: HIT 222) (3 lecture hours, 3 laboratory hours/week)
Not part of a TN Transfer Pathway.

HIT 260  Seminar in Health Information Management  Credits: 2
A capstone course of research and testing based on all domains and knowledge clusters of the curriculum to prepare the student for national certification. Students will also be involved in service learning project.(2 lecture hours/week)
Not part of a TN Transfer Pathway.
Human Movement Science Education

**HMSE 1100  Conc of Fitness and Wellness**  
Credits: 2  
Stressing individual responsibility for achieving optimal well-being, this course emphasizes preventative health practices which promote healthful lifestyles and reduce risk factors associated with disease. ***You cannot receive credit for both HMSE1100 and HPRO2100***  
Equivalent to RSCC’s WELL 1010.

Health Promotion (RODP)

**HPRO 2100  Wellness Concepts and Prac**  
Credits: 3  
Stressing individual responsibility for achieving optimal well-being, this course emphasizes preventative health practices which promote healthful lifestyles and reduce risk factors associated with disease. ***You cannot receive credit for both HMSE1100 and HPRO2100***  
No prerequisites.

Health Science (RODP)

**HSC 190  Intro to Human Pathophysiology**  
Credits: 3  
This course is designed to assist the student in understanding the relationship of normal body functioning and the physiologic changes that occur as a result of disease processes, as well as how the body compensates for those changes brought about by disease. All body systems are explored.

Business Commerce (RODP)

**HTL 110  Intro to Hospitality Industry**  
Credits: 3  
This course provides a basic understanding of the lodging and food service industry by tracing the industry’s growth and development, reviewing the organization of hotel and food and beverage operations, and by focusing on industry opportunities and future trends.  
Prerequisites: None, however basic reading, writing, computer skills and study skills are necessary. Elective Credit at RSCC.

Health Unit Coordinator

**HUCR 1010  Health Unit Coordinator Procedures**  
Credits: 4  
A study of health unit coordinator personal and professional skills including the role of communicator and liaison between the patient, nursing staff, physicians, and ancillary departments. This course also provides a study of health unit coordinator responsibilities in an acute care facility medical unit including the processing of doctors’ orders for scheduling diagnostic tests, procedures, treatment modalities, etc. for patients.  
Prerequisites: 1) Graduate of an Allied Health Sciences certificate program; or 2) Currently employed as a Health Unit Coordinator or related position (proof of employment is required); or 3) Graduate of a Tennessee Technology Center health-related program of study (transcripts must be provided); or 4) By permission of the Healthcare Documentation Specialist Program Director.  
(4 lecture hours/week)  
Not part of a TN Transfer Pathway.

**HUCR 1020  Health Unit Coordinator Clinical Practicum**  
Credits: 2  
Students will participate in supervised health unit coordinator practice in a healthcare facility. Prerequisites: 1) Graduate of an Allied Health Sciences certificate program; or 2) Currently employed as a Health Unit Coordinator or related position (proof of employment is required); or 3) Graduate of a Tennessee Technology Center health-related program of study (transcripts must be provided); or 4) By permission of the Healthcare Documentation Specialist Program Director.  
(150 hours total/semester)  
Not part of a TN Transfer Pathway.

Humanities

**HUM 1010  Introduction to Humanities I**  
Credits: 3  
Historical approach to pivotal ideas, systems of thought, and creations of the Western world (e.g., music, drama, painting, sculpture, architecture, and literature) as reflections of the culture that produced them.  
No prerequisites.

**HUM 1020  Introduction to Humanities II**  
Credits: 3  
For more information on this course, please visit the RODP website at http://www.rodp.org

**HUM 261  Humanities Seminar**  
Credits: 1  
TO 3  
This course is designed for those students who are interested in pursuing an in-depth study of some particular humanities problem. Course availability determined by Dean of the Division.  
Not part of a TN Transfer Pathway.

**HUM 262  Great Works - Intro. to Hum.**  
Credits: 3  
The course is a survey of the art, architecture, literature, music and philosophy of various Eastern and Western civilizations from pre-history to the contemporary period. Course availability determined by Dean of the Division.3 credit hours

Information Systems

**INFS 1010  Computer Applications**  
Credits: 3  
An introductory course including fundamental concepts and terminology using Windows 7, Internet Explorer, MS Word, MS Excel, MS PowerPoint. Students also learn how to function in the course management system and online environment, preparing them for other online courses. F, Sp, Su

**INFS 1150  Intro to Microcomputers**  
Credits: 3  
A course designed to introduce students to Windows XP and Office 2007. The course will use the following packages in Office 2007: Microsoft Word 2007, Microsoft Excel 2007, Microsoft Access 2007, and Microsoft PowerPoint 2007. In addition, students will have an introductory section on computer hardware/software concepts and Windows file management.

**INFS 173  Programming in C#**  
Credits: 3

**INFS 186  Database Programming**  
Credits: 3

**INFS 191  A+Hardware Certification Training**  
Credits: 3

**INFS 192  A+Software Certification Training**  
Credits: 3
Computer Graphics (RODP)

INTC 1050  Computer Graphics  Credits: 3
A course designed to introduce the concepts of computer graphics creation. This course is designed to teach computer graphics creation to students with no prior graphics background. Prerequisite: BIT 1150 (Introduction to Computers or equivalent). Equivalent to RSCC’s ERG 161.

International Studies

INTL 1010  Introduction to Global Studies  Credits: 3
This is an interdisciplinary course that approaches global topics from the perspective of various disciplines while analyzing the impacts of globalization on peoples' values and lives. Students will increase their knowledge of global social and cultural institutions, political and economic processes at work in the world, and changes that science and technology are making and have made on the world we live in. The course is designed to enhance the students' appreciation of other cultures and their awareness of personal and ethical responsibilities as global citizens. F, Sp
Roane State General Education course approved and designed for transfer.

Law

LAW 101  Introduction to the Legal Profession and Legal Ethics  Credits: 3
Philosophy and history of law; legal decision making; the American judicial system; business organizations; civil procedure; role of legal assistants; and ethical and professional standards. F
Not part of a TN Transfer Pathway.
LAW 102  Survey of American Law  Credits: 3
Legislation, administrative process; government regulation of business, anti-trust, and consumer law; torts; contracts; investigations; domestic relations; wills, estates, trusts, real property, etc. (F)
Not part of a TN Transfer Pathway.
LAW 140  Legal Research  Credits: 3
Legal bibliography including codes, administrative regulations, reporters, digests, encyclopedias, citators, law reviews, treatises and West law analysis and synthesis of cases. F, Sp
Not part of a TN Transfer Pathway.
LAW 150  Legal Writing  Credits: 3
Legal writing skills including precision and clarity, legal citation, and format; drafting of law office and trial memoranda, trial court brief, appellate brief, and abstracting depositions; analysis and synthesis of legal materials. (Prerequisite: LAW 140 or permission of the program director). F, Sp
Not part of a TN Transfer Pathway.
LAW 160  Torts  Credits: 3
Non-contractual obligations which an individual in society owes others according to common law and statute; emphasis on intentional acts violating legally protected interest. (Prerequisite: LAW 101 and LAW 102 or permission of the program director). F
Not part of a TN Transfer Pathway.

LAW 170  Criminal Law  Credits: 3
Substantive aspects of criminal law including general principles of criminal liability, specific analysis of particular crimes; substantive defenses to crime. (Prerequisites: LAW 101 and LAW 102 or permission of the program director) Sp
Not part of a TN Transfer Pathway.
LAW 201  Domestic Relations  Credits: 3
Laws, procedures, and documents involved in domestic relations; breach of promise to marry; marriage, annulment; divorce; adoption; child custody/support. (Prerequisite: LAW 101 and LAW 102 or permission of the program director) F
Not part of a TN Transfer Pathway.
LAW 211  Civil Trial and Appellate Practice I  Credits: 3
Procedural law; preparation and use of pleadings and other documents involved in the trial and appeal of a civil action. (Prerequisite: LAW 101 and LAW 102 or permission of the program director) F
Not part of a TN Transfer Pathway.
LAW 231  Estates and Trust I  Credits: 3
Effects of various types of ownership upon passage of property at owner death, with or without a will; administration, taxation of estates and inheritances; basic requirements for trusts, wills, guardianships, and conservatorships; administration of a decedents estate including income tax consequences; case analysis; preparation of necessary documents. (Prerequisite: LAW 101 and LAW 102 or permission of the program director) Sp
Not part of a TN Transfer Pathway.
LAW 240  Legal Internship  Credits: 3
Supervised activities in a law firm, agency, or corporate legal department as a paralegal. Sophomore standing and completion of the legal specialty course requirements or permission of the program director. Su
Not part of a TN Transfer Pathway.
LAW 241  Real Property  Credits: 3
Freehold estates, concurrent ownership, leases, real estate contracts and deeds, recording system, title assurance, easements, lateral support, water rights, zoning, and eminent domain, practical aspects of conveyance from drafting of purchase and sale agreements to passing of papers; mechanics of title examining; preparation of documents for mortgages, foreclosures, recordings, and closing. (Prerequisite: LAW 101 and LAW 102 or permission of the program director) Sp
Not part of a TN Transfer Pathway.
Mammography

MAM 110 Principles of Mammography Credits: 3
This course covers the basic principles of anatomy, pathology, and imaging protocols in the field of mammography. Topics include patient care, positioning, special procedures, radiation protection, and mammographic anatomy image correlation. (3 lecture hours/week).
Not part of a TN Transfer Pathway.

MAM 115 Clinical Education I Credits: 3
Students perform a variety of Mammography procedures under supervision of a registered technologist at assigned facilities (students must complete a minimum of 120 mammography exams following specific procedural requirements to qualify for ARRT certification examination). Co-requisite: Principles of Mammography. (24 clinic hours/week)
Not part of a TN Transfer Pathway.

MAM 130 Instrumentation and Quality Control for Mammography Credits: 3
A detailed study of mammography physics, equipment, and quality control tests. Topics include mammographic x-ray tubes, circuitry, generators, instrumentation, digital and film-screen imaging systems. (3 lecture hours/week)
Not part of a TN Transfer Pathway.

MAM 135 Clinical Education II Credits: 3
Students perform a variety of Mammography procedures under supervision of a registered technologist at assigned facilities (students must complete a minimum of 120 mammography exams following specific procedural requirements to qualify for ARRT certification examination). Co-requisite: Instrumentation and Quality Control for Mammography. (24 clinic hours/week)
Not part of a TN Transfer Pathway.

Massage Therapy

MAS 113 Massage Physiology Pathology and Pharmacy I Credits: 3
Students will learn basic anatomy and physiology of the major body systems. Within each body system this course will cover pathologies and medication that massage therapists may commonly encounter. Emphasis will be on understanding the impact of massage techniques on normal physiology as well as on selected pathologies and medications. (3 lecture hours/week)
Not part of a TN Transfer Pathway.

MAS 114 Massage Physiology Pathology and Pharmacy II Credits: 3
Students will learn basic anatomy and physiology of the major body systems. Within each body system this course will cover pathologies and medication that massage therapists may commonly encounter. Emphasis will be on understanding the impact of massage techniques on normal physiology as well as on selected pathologies and medications. (3 lecture hours/week)
Not part of a TN Transfer Pathway.

MAS 117 TN Massage Law & Practice Ethics Credits: 3
This course will cover Tennessee law as it relates to massage therapy, understanding the rules of the Tennessee Board of Massage regulating the practice of massage therapy and scope of practice for massage therapists. The importance of a professional presence will be discussed. Students will begin to develop professional boundaries as well as confidence and compassion in addressing the emotional dimensions of massage therapy. Codes of ethics will be examined and applied to real life dilemmas in massage practice. (3 lecture hours/week)
Not part of a TN Transfer Pathway.

MAS 118 Massage Business, Professionalism & Communication Credits: 2
Designed for a student who plans to work as an employee, a self-employed independent contractor or an employer of other massage therapists, this course will cover basics of business record keeping, taxes, insurance, contracts, job applications, and legal business structures for business. Promotional materials and methods of practice building will also be emphasized. They will learn to write clear, concise and accurate clinical documentation. Students will describe the components of a therapeutic environment, the importance of professional communication, scheduling, time management, and managing stressors and burnout. (2 lecture hours/week)
Not part of a TN Transfer Pathway.

MAS 120 Swedish Massage Credits: 3
Students will be taught the techniques of Swedish Massage, which serves as the foundation in which all Western massage techniques were developed. Swedish Massage dates back to the early 19th century and is based on a scientific system of manipulating soft tissues. (1 lecture hour, 5 laboratory hours/week)
Not part of a TN Transfer Pathway.

MAS 121 The Muscular System I Credits: 2
Students will learn musculoskeletal anatomy, kinesiology, palpation and assessment of the major muscles in the body. Coursework will include building the muscles in clay, finding the muscles and attachment sites in the student’s own body and/or palpating them in other students. Assessment of muscle tone and beginning skills in manual release of specific muscle tension will be emphasized. (1 lecture hour, 3 laboratory hours/week)
Not part of a TN Transfer Pathway.

MAS 122 The Muscular System II Credits: 2
Students will learn musculoskeletal anatomy, kinesiology, palpation and assessment of the major muscles in the body. Coursework will include building the muscles in clay, finding the muscles and attachment sites in the student’s own body and/or palpating them in other students. Assessment of muscle tone and beginning skills in manual release of specific muscle tension will be emphasized. (1 lecture hour, 3 laboratory hours/week)
Not part of a TN Transfer Pathway.

MAS 123 Overview of Somatic Therapies Credits: 2
With hundreds of somatic therapy sub-specialties requiring advanced training, students need exposure to practitioners of as many of these as possible. When guest lecture/demonstration/lab presenters who practice an important sub-specialty are not available, the text will be used. (2 lecture hour, 1 laboratory hour/week)
Not part of a TN Transfer Pathway.

MAS 124 Student Massage Clinic Credits: 1
Under supervision students will provide twelve massages for persons not enrolled in the RSCC Massage Therapy Program. Documentation, time management and body mechanics will be emphasized, as well as client feedback to enhance effective massage and develop the student’s personal style. This course is a transition to the MAS 152 Clinical Massage Practice externship experience. (45 hours total/semester)
Not part of a TN Transfer Pathway.
**MAS 130  Medical Massage Therapies**  
Credits: 4  
Medical Massage Therapies are designed to provide relief for patients suffering from acute and/or chronic myofascial (muscle-connective tissue) pain. Students will apply knowledge of neurological laws, ischemia, trigger points, nerve entrapment, and postural distortion to choose appropriate and effective techniques. Use of SOAP charts to document sessions is required. Main areas of concentration include head and neck, shoulder, carpal tunnel, and low back pain. (2 lecture hours, 6 laboratory hours/week)  
Not part of a TN Transfer Pathway.

**MAS 135  Massage for Special Population**  
Credits: 2  
Infant, pregnancy, and geriatric massage are the main focus of this course. Other populations related to student interests and instructor expertise may be addressed also. (2 lecture hours, 1 laboratory hours/week)  
Not part of a TN Transfer Pathway.

**MAS 152  Clinical Massage Practice**  
Credits: 2  
Students must document at least 60 hours of massage practice and attend at least two seminar sessions. The experiential learning activities of recruiting clients and arranging at least one outside setting for giving massage sessions may be completed prior to the course starting. (60 clinical hours/semester) Summer only.  
Not part of a TN Transfer Pathway.

**Mathematics**

**MATH 0891  Mathematics Learning Support I**  
Credits: 3  
For students who have placed into Mathematics Learning Support (MLS). This course is designed to provide students with real number sense, knowledge of operations on real numbers, knowledge of operations with algebraic expressions (including polynomials) and the ability to solve equations (emphasis on linear equations/inequalities). Mastery of MLS modules one, two and three is necessary to earn a passing grade in this course. This course does not fulfill the math requirement for graduation. Lecture/Lab combined.  
Not part of a TN Transfer Pathway.

**MATH 0892  Mathematics Learning Support II**  
Credits: 2  
For students who have passed MATH 0891, but not yet shown mastery of all five Math Learning Support (MLS) competency points. This course is designed to provide students with the ability to analyze graphs (emphasis on linear functions and graphs, including inequalities) and knowledge of mathematical modeling and critical thinking. Mastery of MLS modules four and five is necessary to earn a passing grade in this course. This course does not fulfill the math requirement for graduation. Lecture/Lab combined.  
Prerequisite: MATH 0891  
Not part of a TN Transfer Pathway.

**MATH 0990  Geometry**  
Credits: 3  
A study of the most used theorems of two- and three-dimensional Euclidean Geometry. Topics include symmetry, congruence, similarity, right triangle relationships, and geometrical modes of thinking in problem solving. NOTE: This course is designed for students majoring in a transfer program who have not had high school geometry or another advanced high school mathematics course with geometry as a major component and will not fulfill the requirement for graduation.  
F, Sp  
Not part of a TN Transfer Pathway.

**MATH 1000  Algebra Essentials**  
Credits: 3  
This course is designed to prepare students for algebra-intensive college level courses. It covers operations on polynomials, solving polynomial and rational equations and other topics necessary for success in MATH 1130 and other algebra-intensive college level courses. This course does not fulfill the math requirement for graduation.  
Not part of a TN Transfer Pathway.

**MATH 1010  Survey of Mathematics**  
Credits: 3  
Cover topics that enhance the student’s problem solving abilities, knowledge of the basic principles of probability/statistics, and guide them to master critical thinking/logic skills, geometric principals, personal finance skills and apply this knowledge to real-world problems. A TI-84 or comparable calculator is required. Prerequisite: ACT Math of 19, Compass Math >38 or completion of all Learning Support Math. F, Sp, Su.  
Roane State General Education course approved and designed for transfer. (TTP course)

**MATH 1030  Mathematics for the Health Sciences**  
Credits: 3  
This course is designed to prepare the allied health student to function in academic and clinical settings with mathematics competence. Topics of study include fractions, fractional equations and formulas, ratios and proportions, apothecaries and metric measurements, dosage calculations, logarithms, and statistics. (Prerequisite: Two years of high school algebra and one year of high school geometry or appropriate learning support mathematics courses) This course does not meet math requirement for AS/AA degree, nor does it carry transfer credit. F, Sp  
Not part of a TN Transfer Pathway.

**MATH 1130  College Algebra**  
Credits: 3  
A course in algebraic functions, their properties and uses-equations, inequalities, graphs, systems of linear equations, analytical geometry including ellipse and hyperbola. Applications are in the mathematics of finance as well as the laws of growth and decay in other areas. (Prerequisites: Two years of high school algebra and one year of geometry with an ACT of 19 or above OR appropriate mathematics learning support courses and MATH 1000) F, Sp, Su  
Roane State General Education course approved and designed for transfer.

**MATH 1200  Mathematics for Adventurers**  
Credits: 3  
Mathematics for Adventurers is a field exploration of applications of mathematics in nature and is appropriate for a wide variety of geographical settings in the United States. Topics will include orienteering, reading topographic maps, navigating by the stars, measuring elevations and depressions using a clinometer, investigating botanical expressions of the Fibonacci sequence, archaeological dating, analyzing wildlife populations through statistics, models of exponential growth and decay, and a survey of career options in math and the natural sciences. In addition, students will gain an appreciation for the literature, history, and culture of the geographic region.  
F, Sp

**MATH 1410  Number Concepts/Algebra Structures**  
Credits: 3  
This course includes symbolic logic, logical reasoning, history of early numeration systems, set theory with rules of operations and Venn diagrams, relations and functions, the systems of whole numbers, of integers, and of rational numbers. Any student would profit from this course, but it is especially targeted to the education major (elementary and non-math secondary). (Prerequisite: Two years of high school algebra and one year of geometry with an ACT of 19 or above OR appropriate learning support math courses.) F, Sp  
Roane State General Education course approved and designed for transfer.
MATH 1420  **Problem Solving Geometry**  Credits: 3
A continuation of MATH 1410, this course includes elementary number theory, irrational number, basic algebra, interest (simple and compound), elements of plane and solid geometry (especially working with measurements and formulas), the metric system, and basic statistics. (Prerequisites: MATH 1410 or consent of instructor). Sp
Not part of a TN Transfer Pathway.

MATH 1530  **Probability and Statistics (Non-Calculus Based)**  Credits: 3
An introduction to probability and statistics without calculus. Topics covered include sampling, frequency distribution, elementary probability, hypotheses testing, linear regression and correlation, analysis of variance and non-parametric statistics. A TI-84 or comparable calculator is required. (Prerequisites: Two years of high school algebra and one year of geometry with an ACT of 19 or above OR appropriate learning support mathematics courses) F, Sp, Su.
Roane State General Education course approved and designed for transfer. (TTP course)

MATH 1630  **Finite Mathematics**  Credits: 3
Brief review of algebra with emphasis on linear, quadratic, exponential, and logarithmic functions. Correlation, regression, matrix algebra, linear programming, mathematics of finance, and probability. Applications to business and finance. (Prerequisites: Two years of high school algebra and one year of geometry with an ACT of 23 or above OR appropriate learning support mathematics courses and MATH 1130). F, Sp
Roane State General Education course approved and designed for transfer. (TTP course)

MATH 1710  **Pre-Calculus**  Credits: 3
This course is a study of the algebra necessary to prepare students for Calculus. Topics covered will include polynomial, rational, exponential, and logarithmic functions; systems of equations and inequalities; matrices and determinants; the binomial theorem; and an introduction to sequences and series. Prerequisites and Corequisites: Two years of high school algebra and an acceptable placement score into collegiate mathematics or successful completion of DSPM 0850. This course along with MATH 1720 is equivalent to RSCC’s MATH 1730.

MATH 1720  **Trigonometry**  Credits: 3
Analysis of functions of angles, solutions of right and general triangles, graphs of trigonometric functions, identities and formulas, equation-solving techniques, polar coordinates. A calculator with trig and log functions will be needed by the student. (Prerequisites: Two years high school algebra and one year of geometry, or appropriate learning support mathematics courses and MATH 1130) F
Roane State General Education course approved and designed for transfer. (TTP course)

MATH 1730  **PreCalculus**  Credits: 4
Designed primarily for students planning to enter the calculus sequence, but who need more mathematical background. Topics include functions and graphing-algebraic, trigonometric, exponential and logarithmic, equations, the binomial theorem, and conics. A calculator with trig and log functions will be needed by the student. (Prerequisites: Two years high school algebra, a year of geometry and a score of 23 or higher on the math component of the ACT, OR appropriate RSCC courses, e.g. learning support and MATH 1130. Regardless of high school background, an ACT of less than 26 on the math component indicates that the student would profit from taking MATH 1730 before calculus.) F, Sp
Roane State General Education course approved and designed for transfer.

MATH 1830  **Calculus for Business**  Credits: 3
A calculus course designed for students in the business or biological sciences. Differential and integral calculus of the algebraic, exponential and logarithmic functions with applications in business and economics. (Prerequisites: Two years of high school algebra and one year of geometry with an ACT of 24 or above or MATH 1130). F, Sp
Roane State General Education course approved and designed for transfer. (TTP course)

MATH 1910  **Calculus I**  Credits: 4
The standard course in single-variable calculus is designed for students of science, engineering, mathematics, and computer science. Topics included are rates of change, limits, continuity, differentiation of algebraic and transcendental functions, applications of the derivative, anti-differentiation, basic integration and the fundamental theorem of the calculus. (Prerequisites: Two years high school algebra, one year of geometry, and one year of advanced math (including trigonometry) plus satisfactory ACT scores of 26 (or equivalent SAT scores) or above on the math component, MATH 1730 OR MATH 1710 and 1720 from RODP) F, Sp
Roane State General Education course approved and designed for transfer.

MATH 1920  **Calculus II**  Credits: 4
A continuation of the standard freshman course, this course includes integration by substitution, by-parts, partial fractions and trigonometric substitutions for both algebraic and transcendental functions. Further applications of integration, such as area between curves, volumes of rotation, and surfaces of revolution are considered. Indeterminate forms, l’Hospital’s Rule, and improper integrals are covered. Infinite series, including Taylor and MacClaurin with applications complete the semester. (Prerequisite: MATH 1910) Sp, Su
Course designed for transfer and part of the TN Transfer Pathways.

MATH 2000  **Matrix Computations**  Credits: 1
Introduction to matrix calculations including determinants, eigenvalues and eigenvectors. This is a five week class. (Prerequisite: MATH 1910 or permission of instructor). Sp
Not part of a TN Transfer Pathway.

MATH 2010  **Matrix Algebra**  Credits: 3
A first course in the algebra of simultaneous linear equations and matrices. Includes Gaussian elimination, determinants, vector spaces, linear transformation, eigenvalues, eigenvectors change of basis, Gram-Schmidt orthonormalization process, and applications. (Prerequisite: MATH 1910 or permission of instructor) Sp
Course designed for transfer and part of the TN Transfer Pathways.

MATH 2050  **Probability and Statistics (Calculus-Based)**  Credits: 3
This calculus-based course is designed primarily for students of Business and Economics. It includes descriptive statistics, concepts of probability and probability distributions, binomial and normal distributions, linear correlation and regression, estimation and significance tests for means, ANOVA, contingency tables and quality control. A calculator and basic computer abilities are necessary. (Prerequisite: MATH 1830 or MATH 1910) Sp
Course designed for transfer and part of the TN Transfer Pathways.

MATH 2100  **Discrete Mathematics**  Credits: 3
This course is designed for mathematics and computer science majors. It includes symbolic logic, sets, relations and functions. Boolean algebra, combinatorics, and the concept of proof in mathematics and elementary number theory. (Prerequisite: MATH 1910) Sp
Course designed for transfer and part of the TN Transfer Pathways.
MATH 2110  Calculus III  Credits: 4
This course is a continuation of the first-year calculus sequence. Topics included are partial differentiation, multiple integrals, polar co-ordinate geometry and parametric equations, 3-D analytical geometry vectors and vector calculus. (Prerequisite: MATH 1920) F
Course designed for transfer and part of the TN Transfer Pathways.

MATH 2120  Differential Equations  Credits: 3
A study of the solution of ordinary differential equations, first order equations, linear equations of any order, series solutions, applications, Laplace transforms, and Runge-Kutta methods. (Prerequisite: MATH 1920 and it is strongly recommended that students also take MATH 2110). Sp
Course designed for transfer and part of the TN Transfer Pathways.

MATH 2810  Disc Struct and Math Reason  Credits: 3
This course uses set theory and logic, along with basic discrete structures, to develop skills in mathematical reasoning and applications. Number theory, modular arithmetic functions, matrices and graphs are used to develop skills in reading and writing formal proofs, invalidating arguments, and discovering counterexamples. Prerequisites: MATH 1910, MATH 1920, and a course in Linear Algebra or Matrix Theory. Equivalent to RSCC's MATH 2100.

Medical Scribe

MDSC 2010  Medical Scribe Procedures  Credits: 4
This course provides simulated practice recording verbal communication encountered during patient-doctor interaction and the recording of clinical events as they unfold. It also includes a study of procedures related to the retrieval of diagnostic test results. Procedures used in scheduling diagnostic tests, follow-up appointments, etc., are discussed and practiced. An emphasis is placed on the study of professional and ethical behavior in a clinical healthcare setting. Prerequisite: Completion of any Reading and English Learning Support requirements. (3 lecture hours/2 lab week)
Not part of a TN Transfer Pathway.

Medical Transcription

MDT 2100  Photoshop Essentials  Credits: 3
Students are introduced to the digital darkroom using Adobe Photoshop and Image Ready with images from film and flatbed scanners, digital cameras, and other media. Topics covered include: selecting, layers, color correction, color theory, retouching, special effects, rollovers, animation, slicing, type effects, and using Photoshop as a design tool. Documents created in class will be optimized for web, print, and multimedia uses. Students will complete a variety of tutorials as well as create personal projects. Prerequisites: Proficiency with 35mm camera. Familiarity with a personal computer; creating and saving documents, document formats. Basic knowledge of HTML, web graphics, and web design or COMN 1000, COMN 1010, and COMN 1020.

Mechatronics

MECH 1010  Mechanical Systems  Credits: 3
This course is a study of the basic mechanical components in a complex mechatronics system. Topics covered include basic functions and physical properties of mechanical components and the roles they play in the system such as: materials, lubrication requirements, and surface properties: troubleshooting techniques and strategies to identify, localize and correct malfunctions; and systemic preventative maintenance; and electrical and mechanical component safety. Technical documentation such as data sheets and specifications of mechanical elements will also be covered. Not part of a TN Transfer Pathway.

MECH 1020  Fundamentals of High-Tech Manufacturing  Credits: 3
This course explores and teaches the basics of process control and automated manufacturing processes. Topics include programmable logic controllers, discrete and analog I/O, PID loops, materials handling processes, automated three-state conveyor applications, physical, chemical and electronic principles necessary for sensors to measure or detect changes in the process physical phenomena. This course also examines the benefits realized using computer integrated manufacturing as applied to a production or assembly process. Not part of a TN Transfer Pathway.

MECH 1030  Introduction to Industrial Electronic Systems  Credits: 3
This course is a study of the basic electrical components in a mechatronic system. Topics covered will include basic functions and physical properties of electrical components; troubleshooting techniques and strategies to identify, localize and correct malfunctions; and systematic preventative maintenance and electrical component safety. Technical documentation such as data sheets, schematics, timing diagrams and system specifications will also be covered. Not part of a TN Transfer Pathway.

MECH 1040  Programmable Logic Controllers  Credits: 3
Introduction to programmable logic controller terminology, input/output modules and memory. Relay schematics and ladder logic diagrams and programming of programmable logic controllers covered and reinforced in practical laboratory experiments. Sensing devices as limit switches, on/off electrical devices, applications of industrial type PLCs requiring motion control are included. Not part of a TN Transfer Pathway.

MECH 1050  Industrial Robotics  Credits: 3
This course introduces the student to robotics and defines the uses in Industrial Manufacturing. Various topics cover robotic classifications, applications, work-cell layout, and software packages for programming various manufacturers robots. Included is an overview of the I/O and sensor interfacing used with the robotic controller. Students gain operating and troubleshooting experience, plus experience in programming an industrial robot for applications assemblies, parts feeding, index table control, conveyor integration and fault detection systems. Not part of a TN Transfer Pathway.

MECH 1110  Fund Mechatronic Sys  Credits: 3
Provides students with basic skills and fundamental knowledge of a sophisticated automation systems. Includes focus on mechanical, electrical, fluid/pneumatic and computers, and the integration of such to achieve machine movement and control. Lecture and discussion provide additional information essential to a qualified operator or technician of mechatronics. Not part of a TN Transfer Pathway.
MECH 1120  Pneumatics and Hydraulics  Credits: 3
This course is a study of fluid power technology using fluids or compressed air as the transfer media. Complete hydraulic and pneumatic systems are studied including power sources, reservoirs, pumps, compressors, lines, valves and actuators. Students will learn troubleshooting strategies to identify, localize and correct malfunctions. Preventative maintenance and safety issues will also be discussed. Not part of a TN Transfer Pathway.

MECH 1130  Programmable Logic Controllers Advanced  Credits: 3
This is an advanced course on applying the basic concepts, programming and applications of a PLC. Topics include various applications of industrial implementation of PLCs requiring programming, program troubleshooting, timers and counters, subroutines. as well as event-driven and time-driven sequences. Ladder logic diagrams and programming PLCs are covered and reinforced in practical laboratory experiments. Not part of a TN Transfer Pathway.

MECH 1140  Computer Aided Design for Mechatronics  Credits: 3
This course is a study of technical drafting techniques and computer aided design for engineering and manufacturing disciplines. Students will learn to create and read basic engineering-type drawings used for mechanical parts, area pns, sheet-metal and mechatronics projects. Students will learn about orthographic and isometric projection, section views, dimensioning, and title blocks. AutoCAD will be the drawing software used for the class. AutoCAD topics covered will be basic commands, file maintenance, creation of 2-D drawings and plotting. Not part of a TN Transfer Pathway.

MECH 1150  Autonomous Robotics  Credits: 3
This is a lab-based course that uses a hands-on approach to introduce the basic concepts of robotics, focusing on the construction and programming of autonomous mobile robots. Students will first learn the basic principles of mechanical construction, electronics, sensors, motors and robot programming. Students will work in groups to build and test increasingly more complex mobile robots, culminating in an end-of-semester robot project. (Prerequisites: Completion of any Learning Support requirements). Not part of a TN Transfer Pathway.

MECH 1160  Industrial Safety  Credits: 3
This course includes the OSHA 30-hour General Industry Safety and Health content. Upon completion, attendees will receive a 30-hour course completion card. Students will also learn the requirements of general material handling and storage, as well as specifics in the storage, movement utilizing powered industrial trucks, combustibility issues of flammable materials, and handling and storage of non-compatible materials. Instruction in the conditions, operations and circumstances of fall protection systems and practices will be provided. Not part of a TN Transfer Pathway.

Management

MGT 200  Foundations of Business  Credits: 4
Nature of business, including economic issues and systems. An overview of the functional areas of business including management, marketing, financial systems, computers, accounting, business law, and careers in business is presented. F Not part of a TN Transfer Pathway.

MGT 201  Management Concepts  Credits: 4
This course is an introduction to management with emphasis on the managerial functions, i.e., planning, organizing, staffing, directing and controlling. Also included is an exploration of leadership, motivation, communication, quality control and decision making from both an individual and a group standpoint. F Not part of a TN Transfer Pathway.

MGT 203  Human Resource Management  Credits: 4
The study of the various aspects of human resource management with special emphasis on the training of personnel for both private and public organizations. Included in the course is the exploration of selection and recruitment; placement; evaluation techniques; collective bargaining and union/management relations; and compensation management including incentives and benefit packages. F Not part of a TN Transfer Pathway.

MGT 205  Marketing in the Global Economy  Credits: 4
An overview and analysis of the activities performed by individuals, businesses, and nonprofit organizations that allow for the exchange of goods and services satisfying the needs of major markets. The course includes the study of controllable and uncontrollable market variables, marketing strategy and consumer behavior. Sp Not part of a TN Transfer Pathway.

MGT 206  Applied Economics  Credits: 4
This course covers the foundations of economics-supply and demand theory as well as features and goals of capitalism market systems, national income determinations, and monetary fiscal policy. Sp Not part of a TN Transfer Pathway.

MGT 207  Managerial Accounting and Finance  Credits: 4
This course focuses on the use of management accounting information and financial accounting information in various business settings. Additionally, the course will focus on accumulation and reporting accounting information. Sp Not part of a TN Transfer Pathway.

MGT 208  Training and Development  Credits: 4
Underscores the most recently developed training techniques with emphasis on needs assessment; teaching and learning skills; instructional systems design (ISD); and training delivery and evaluation. Management electives offered summer term only, on an alternating basis. Not part of a TN Transfer Pathway.

MGT 209  Interpersonal Communication  Credits: 4
An exploration and application of the basic concepts and principles of effective interpersonal and intergroup communication. Emphasis will be on the students’ development of a personal action plan to improve their interpersonal communication skills. Management electives offered summer term only, on an alternating basis. Not part of a TN Transfer Pathway.

MGT 210  Business and Its Legal Environment  Credits: 4
The exploration of the laws and procedures affecting the legal environment of business including the nature and sources of law; courts and legal procedures; constitutional law; and the law of torts; in particular intellectual properties like copyrights and trademarks. Management electives offered summer term only, on an alternating basis. Not part of a TN Transfer Pathway.
MGT 211  Introduction to Global Business  Credits: 4
This course provides an introduction to global business and the evolving
global economy. It focuses on the commercial, economic, financial and
human/social aspects of globalization in the world today. The course
examines what global business is and how it pervades most aspects of
our lives. The course covers a wide range of perspectives on the pros and
cons of globalization. In addition, the future impacts and trends related
to globalization are explored. Management electives offered summer
term only, on an alternating basis. Not part of a TN Transfer Pathway.

MGT 215  Special Topics in Management I  Credits: 1
An in-depth analysis of a particular topic, concern or problem as it
applies to management. May be used for prior learning assessment with
prior approval from the student’s academic advisor. Not part of a TN Transfer Pathway.

MGT 221  Introduction to Green Leadership and Sustainability  Credits: 4
Designed for the beginning student to understand the concepts of ‘Green Leadership’ and ‘Sustainability,’ this course will build the student’s
capacity to analyze, recommend, and implement sustainability programs
within an organization. The course will further enable the student to
initiate or continue quality improvements, develop eco-advantage, and
enhance the triple-bottom-line of People, Planet, and Profit. The student
will be able to perpetuate sustainable business practices which take from
our Planet’s limited resources no more than what can be replaced. The
ultimate goal of sustainable business practices and Green leadership
is to have a ‘zero carbon footprint’ which creates ‘no-harm’ to our
environment. Not part of a TN Transfer Pathway.

MGT 225  Resolving Conflict: Negotiating Successful Solutions  Credits: 4
In this course the student will gain an understanding of the various
types of conflict and the causes of those conflicts. The student will
learn different methods of successfully resolving conflict in both
interpersonal and group environments. Additionally the student will
learn ways to improve negotiation skills and other means of Alternate
Dispute Resolution (ADR) available to resolve conflicts and solve
problems. Students may not receive credit for both MGT 225 and BUS
236. Management electives offered summer term only, on an alternating basis.
Not part of a TN Transfer Pathway.

Marketing

MKT 2450  E-Commerce  Credits: 3
This course is designed to provide in-depth coverage of electronic
commerce concepts. The learner will participate in a variety of activities
designed to provide familiarity with the tools and issues associated with
a web-delivered commercial enterprise. The learner will plan, design,
develop and test web environments designed to meet secure retail and
organizational needs. No prerequisites. Equivalent to RSCC’s CST 237.

Magnetic Resonance Imaging

MRI 111  Physics and Instrumentation  Credits: 3
This course covers the basic principles of physics and instrumentation
in the field of magnetic resonance imaging (MRI). Topics include
magnetization, magnet hardware, gradient and radio-frequency coil
technology, image formation techniques, image characteristics, pulse
sequences, sequence parameters, and image artifacts. The course also
covers the concepts of safety and bio-effects. Corequisite: Clinical
Education I. (3 lecture hours/week) Not part of a TN Transfer Pathway.

MRI 113  Clinical Education I  Credits: 3
Students perform a variety of Magnetic Resonance Imaging procedures
under supervision of a registered technologist at assigned facilities
(students must complete a minimum of 120 exams following
specific procedural requirements to qualify for the ARRT Magnetic
Resonance certification examination). Corequisite: MRI Physics and
Instrumentation. (24 hours/week) Not part of a TN Transfer Pathway.

MRI 115  Magnetic Resonance Imaging Patient Applications  Credits: 3
This course covers the basic principles of patient management and
imaging protocols for Magnetic Resonance Imaging. Topics include
patient care, cross-sectional anatomy, imaging procedures, post-
processing techniques, special procedures, and quality control. Co-
require: Clinical Education II. (3 lecture hours/week) Not part of a TN Transfer Pathway.

MRI 117  Clinical Education II  Credits: 3
Students perform a variety of Magnetic Resonance Imaging procedures
under supervision of a registered technologist at assigned facilities
(students must complete a minimum of 120 exams following specific
procedural requirements to qualify for the ARRT Magnetic Resonance
certification examination). Co-require: Magnetic Resonance Imaging
Patient Applications. (24 hours/week) Not part of a TN Transfer Pathway.

Military Science Army

MSAR 1010  Foundations of Officership  Credits: 2
Discusses organization and role of the Army. Emphasizes basic life
skills pertaining to fitness and communication. Analyzes Army values
and expected ethical behavior. Adventure training skills lab introduces
land navigation, rifle marksmanship, mountaineering and optional field
training exercises. Course availability determined by host institution.
Not part of a TN Transfer Pathway.

MSAR 1020  Basic Leadership  Credits: 2
Develops basic skills that underline effective problem solving.
Examines factors that influence leader and group effectiveness.
Emphasis communication skills to include active listening and feedback
techniques. Adventure training skills lab introduces land navigation, rifle
marksmanship, mountaineering and optional field training exercises.
Course availability determined by host institution. Not part of a TN Transfer Pathway.
**Math-Science**

**MSC 1012 Introduction to Physical Science** Credits: 4
This is a survey course of the principles of physics and chemistry. Topics from the following areas will be covered: The nature of science, mechanics, energy momentum, sound and light, electricity and magnetism, atomic theory, chemical reactions, nuclear reactions, science and modern life. This course is designed primarily for students in the 2+2 education program. Each student is assessed a lab fee for this course. (Prerequisites: Completion of Reading and Math Learning Support requirements, if applicable). (3 hours lecture, 2 hours laboratory) F, Sp, Su
Not part of a TN Transfer Pathway.

**MSC 261 Southwest Field Trip** Credits: 3
The Southwest Field Trip is a multidisciplinary study of the prehistoric and historic peoples and cultures of the ‘Four Corner’ area of the American southwest, including the ecology and geology of the region. Primary attention is given to the Ancestral Puebloans, ancient Native American peoples who lived throughout the Colorado Plateau. The focus of the class may include contributions or considerations from anthropology, archeology, astronomy, biology, geography, geology, history, literature, mathematics, and social sciences. Sp
Not part of a TN Transfer Pathway.

**MSC 262 Southwest Field Trip** Credits: 3
The Southwest Field Trip is a multidisciplinary study of the prehistoric and historic peoples and cultures of the ‘Four Corner’ area of the American southwest, including the ecology and geology of the region. Primary attention is given to the Ancestral Puebloans, ancient Native American peoples who lived throughout the Colorado Plateau. The focus of the class may include contributions or considerations from anthropology, archeology, astronomy, biology, geography, geology, history, literature, mathematics, and social sciences. Sp
Not part of a TN Transfer Pathway.

**Music**

**MUS 010 Solo Class** Credits: 0
Performance opportunity for all students enrolled in Individual Instruction. Required of all students enrolled for two hours credit in Individual Instruction, and for Music and Music Education Option Students each semester. Solo class is also for students with a music scholarship. F, Sp
Not part of a TN Transfer Pathway.

**MUS 020 Recital** Credits: 0
Required of all Music and Music Education majors in their performance area with permission and recommendation of applied instructor. Should be registered for the last semester before graduation. F, Sp
Not part of a TN Transfer Pathway.

**MUS 101 Voice Class I** Credits: 1
Group instruction in basic vocal techniques, focusing on vocal styles of the 20th century. Class meets twice per week. F, Sp
Not part of a TN Transfer Pathway.

**MUS 102 Voice Class II** Credits: 1
Continuation of group instruction in voice, focusing on performance skills and stage presence. Class meets twice per week. F, Sp
Not part of a TN Transfer Pathway.

**MUS 103 Class Piano I** Credits: 1
Group instruction in basic keyboard technique for students with little or no prior training in piano, or for music majors preparing for a piano proficiency exam. F, Sp
Course designed for transfer and part of a TN Transfer Pathway.

**MUS 104 Class Piano II** Credits: 1
Group instruction in basic keyboard technique for students with little prior training in piano, or for music majors preparing for a piano proficiency examination. Electronic pianos will be used. Class meets twice weekly. Daily practice required. Should be taken in sequence. Course availability determined by Program Director. Course designed for transfer and part of a TN Transfer Pathway.

**MUS 105 Accompanying** Credits: 1
Accompany voice lessons, ensembles, and recitals in order to learn the fundamentals of accompanying. Two voice students assigned per semester hour. Admittance by audition. Course availability determined by Program Director. Not part of a TN Transfer Pathway.
MUS 106  Accompanying Credits: 2
Students with acceptable piano proficiency accompany voice lessons, ensembles, and/or recitals. Two voice students assigned per credit hour. Admittance by audition. May be repeated for credit. (Students enrolled in MUS 105 or MUS 106 are eligible for scholarship awards.) Course availability determined by Program Director. Not part of a TN Transfer Pathway.

MUS 108  Contemporary Guitar Class Credits: 1
Group instruction in basic skills of guitar, focusing on contemporary and folk music. Class meets twice weekly. Course availability determined by Program Director. Not part of a TN Transfer Pathway.

MUS 110  Music Theory I Credits: 3
A study of notation, tonality, intervals, triads, seventh chords and chord progressions leading to a fundamental understanding of harmony in 18th century music. (Prerequisite: Knowledge of music fundamentals.) F Course designed for transfer and part of a TN Transfer Pathway.

MUS 111  Ear Training I Credits: 1
Development and proficiency in identifying intervals, scales, and triads aurally. Ability to vocalize and notate basic melodies, harmonies and rhythms. Should be taken concurrently with MUS 110, Music Theory I. F Course designed for transfer and part of a TN Transfer Pathway.

MUS 112  Roane Concert Choir Credits: 1
Performs a variety of music, from pop to major choral works and selections from standard choral literature. Meets three hours per week. May be repeated for credit. Open to all students. F, Sp Not part of a TN Transfer Pathway.

MUS 113  Celebration Credits: 1
A contemporary show choir. Meets four hours per week and begins one week prior to the beginning of fall semester. Students accepted into Celebration are expected to participate in the class both fall and spring semester of the academic year. May be repeated for credit. Admission by audition only (Auditions are held each spring for the following year). F, Sp Not part of a TN Transfer Pathway.

MUS 114  Celebration Choreography Credits: 1
Meets two hours per week and begins one week prior to the beginning of fall semester. Students accepted into Celebration are expected to participate in the class both fall and spring semesters of the academic year. F, Sp Not part of a TN Transfer Pathway.

MUS 115  Small Instrument Ensembles Credits: 1
String, brass, and woodwind ensembles will rehearse three hours per week and perform three times during a semester. Classical literature for standard instrumentation will be emphasized. Rehearsal times arranged according to students’ schedules. Assignment of groups to be determined by instructor. Course availability determined by Program Director. Not part of a TN Transfer Pathway.

MUS 116  Concert Band Credits: 1
Performs traditional and contemporary wind ensemble literature. Open to all qualified students. Meets three hours per week. Open to all students who play band instruments. Course availability determined by Program Director. Not part of a TN Transfer Pathway.

MUS 117  Jazz Band Credits: 1
Performs arrangements for jazz in contemporary and jazz-rock styles. Performances regularly scheduled off-campus, as well as for student body. Meets two hours per week. No audition is required. May be repeated for credit. F, Sp Not part of a TN Transfer Pathway.

MUS 118  Gospel Choir Credits: 1
Perform traditional and contemporary gospel music designed for students who enjoy singing gospel music. Emphasis is placed upon public performances. Meets three hours per week. May be repeated for credit. Open to all students. Course availability determined by Director of Music Program. Not part of a TN Transfer Pathway.

MUS 119  Women’s Choir Credits: 1
Vocal ensemble consisting of female students. Performs a variety of choral literature specifically designed for the female voice. Ensemble will perform a minimum of three times per semester. May be repeated for credit but not to replace a failing grade. Meets on the Oak Ridge campus. Course availability determined by Director of Music Program. Not part of a TN Transfer Pathway.

MUS 120  Music Theory II Credits: 2
This course includes the study of standard vocabulary of harmony, part writing, form and analysis of common practice music. Must be taken in sequence. (Prerequisites: MUS 110; MUS 111) Sp Course designed for transfer and part of a TN Transfer Pathway.

MUS 121  Bluegrass Band Credits: 1
This course explores the idiom of Bluegrass music with an emphasis on performance. Students rehearse together in order to become familiar with playing in an ensemble, improve instrumental proficiency and prepare for performances. F, S Not part of a TN Transfer Pathway.

MUS 123  Ear Training II Credits: 1
This course covers development of proficiency in identifying and notating melodic, harmonic and rhythmic dictation. Must be taken in sequence. Should be taken concurrently with MUS 120. (Prerequisites: MUS 110; MUS 111) Sp Course designed for transfer and part of a TN Transfer Pathway.

MUS 126  Vocal Survey Credits: 1
Addresses issues related to the study of vocal music in a lecture, class discussion and performance format. Subjects of study include an introduction to vocal anatomy, diction (International Phonetic Alphabet), voice classification, voice literature, textual and musical interpretation, performance etiquette, stylistic appropriateness and career opportunities. (This course is intended for music majors with voice as a principle instrument. Students should complete two semesters total whether planning to continue in performance or education.) F, Sp Not part of a TN Transfer Pathway.

MUS 131  Pop Music in America Credits: 3
A survey of American music representative of the present day scene, focusing on the evolution of rock music. Open to all students. Course availability determined by Dean of the Division. Not part of a TN Transfer Pathway.

MUS 132  Stage Production Band Credits: 1
This course concentrates on reading written music of several different styles - pop, jazz, rock, Broadway and classical. Students may work with RSCC musical productions produced through the music or music theatre departments. Instrumentation will vary each semester, but all instrumentalists are welcome including strings, brass, reeds, rhythm section, etc. (Prerequisite: music reading skills on one’s particular instrument)(This course is intended for instrumental students with a strong reading background whether from a high school concert, marching, jazz band, or private study. Offered for students looking to fulfill the ensemble requirement for music majors or anyone wanting to improve their reading and performing skills.) F, Sp Not part of a TN Transfer Pathway.
MUS 140  Fundamentals of Music  Credits: 2
A beginning study of music, its terminology, and its elements such as notes, scales, intervals, keys, triads, meter and smaller forms. Designed to acquaint the student with notation, the keyboard, sight singing, and ear training. Open to all students. Course availability determined by Director of Music Program.
Not part of a TN Transfer Pathway.

MUS 170  Guitar  Credits: 1
This course is an individual instruction class and may be repeated for credit. Students registering for this course should contact the instructor to schedule the lessons. F, Sp
Not part of a TN Transfer Pathway.

MUS 171  Guitar  Credits: 2
This course is an individual instruction class and may be repeated for credit. Students registering for this course should contact the instructor to schedule the lessons. F, Sp
Not part of a TN Transfer Pathway.

MUS 180  Piano  Credits: 1
This course is an individual instruction class and may be repeated for credit. Students registering for this course should contact the instructor to schedule the lessons. F, Sp
Not part of a TN Transfer Pathway.

MUS 181  Piano  Credits: 2
This course is an individual instruction class and may be repeated for credit. Students registering for this course should contact the instructor to schedule the lessons. F, Sp
Not part of a TN Transfer Pathway.

MUS 182  Organ  Credits: 1
This course is an individual instruction class and may be repeated for credit. Students registering for this course should contact the instructor to schedule the lessons. F, Sp
Not part of a TN Transfer Pathway.

MUS 183  Organ  Credits: 2
This course is an individual instruction class and may be repeated for credit. Students registering for this course should contact the instructor to schedule the lessons. F, Sp
Not part of a TN Transfer Pathway.

MUS 190  Voice  Credits: 1
This course is an individual instruction class and may be repeated for credit. Students registering for this course should contact the instructor to schedule the lessons. F, Sp
Not part of a TN Transfer Pathway.

MUS 191  Voice  Credits: 2
This course is an individual instruction class and may be repeated for credit. Students registering for this course should contact the instructor to schedule the lessons. F, Sp
Not part of a TN Transfer Pathway.

MUS 192  Brass  Credits: 1
This course is an individual instruction class and may be repeated for credit. Students registering for this course should contact the instructor to schedule the lessons. Course availability determined by Director of Music Program.
Not part of a TN Transfer Pathway.

MUS 193  Woodwinds  Credits: 1
This course is an individual instruction class and may be repeated for credit. Students registering for this course should contact the instructor to schedule the lessons. Course availability determined by Director of Music Program.
Not part of a TN Transfer Pathway.

MUS 194  Strings  Credits: 1
This course is an individual instruction class and may be repeated for credit. Students registering for this course should contact the instructor to schedule the lessons. Course availability determined by Director of Music Program.
Not part of a TN Transfer Pathway.

MUS 195  Percussion  Credits: 1
This course is an individual instruction class and may be repeated for credit. Students registering for this course should contact the instructor to schedule the lessons. Course availability determined by Director of Music Program.
Not part of a TN Transfer Pathway.

MUS 200  Music Seminar  Credits: 1
This course is designed for those students who are interested in pursuing an in-depth study of some particular music area. Course availability determined by Director of Music Program.
Not part of a TN Transfer Pathway.

MUS 210  Music Theory III  Credits: 2
This course includes a study of tonization, modulation, chromatic harmony, chord progressions, part writing, form and analysis leading to an understanding of harmony and melody in 19th century music. Must be taken in sequence. (Prerequisites: MUS 110, MUS 120) F
Course designed for transfer and part of a TN Transfer Pathway.

MUS 213  Introduction to Digital Music  Credits: 2
Introduction to the use of computer technology in music notation, recording and editing. Course investigates MIDI technology, sequencing and audio recording. While some musical knowledge is a plus, creativity will suffice. F, Sp
Not part of a TN Transfer Pathway.

MUS 214  Digital Music II  Credits: 3
This course is a continuation of Intro to Digital Music. Students will continue to learn the use of computer technology in music notation, recording and edition. This course further investigates MIDI technology, sequencing and audio recording. (Prerequisite: MUS 213) F, Sp
Not part of a TN Transfer Pathway.

MUS 215  Ear Training III  Credits: 1
This course is a continuation of MUS 123, Ear Training II. Student continues to develop aural listening skills and proficiency in identifying intervals, compound intervals, modes and chords. Ability to vocalize and note complex melodies, harmonies and rhythms. Should be taken concurrently with MUS 210. (Prerequisites: MUS 120; MUS 123) F
Course designed for transfer and part of a TN Transfer Pathway.

MUS 220  Music Theory IV  Credits: 2
Study of modulation, chromatic harmonies, 20th century harmonies, and other harmonic procedures since the common practice period. Must be taken in sequence. (Prerequisites: MUS 110, 120, 210) Sp
Not part of a TN Transfer Pathway.

MUS 222  Ear Training IV  Credits: 1
Content covers development of proficiency in identifying and notating complex, melodic, harmonic and rhythmic dictation. Must be taken in sequence. Should be taken concurrently with MUS 220. (Prerequisites: MUS 210; MUS 215) Sp
Not part of a TN Transfer Pathway.

MUS 230  Introduction to Music Literature I  Credits: 3
Study of music in Western civilization from antiquity through the Baroque era. Students learn through class lecture, listening assignments, concert attendance, and performance of representative literature. Offered for non-music majors who can read music; required for music majors. Course availability determined by Director of Music Program.
Not part of a TN Transfer Pathway.
NANO 1110 Nanoscience Fundamentals I Credits: 4
This course is an introduction to nanoscience. It includes the history and significance of nanoscience and nanotechnology and an introduction of the knowledge, skills, and tools needed in the nanoscale world. This course teaches a sense of scale and the need for exponential notation. It also includes the importance of understanding molecular and atomic structure, the effects of surface area to volume ratio, and the predominant forces of the macroscale, microscale, and nanoscale world. These concepts are fundamental to learning how nanoscale interactions and phenomena differ from those in our common macroscale world. The course also includes specific study of the application of nanotechnology to biological areas such as the study of proteins, drug interactions, cell operation and ion channels and of sensing systems and newly developed diagnostic tools that are a result of understanding the biological system at the nanoscale. Finally, the course also includes the impact of nanoscience and nanotechnology on society and the environment and a technology maturity model for projecting the expected future impact. (Prerequisite/Corequisites: BIOL 1110 and MATH 1730)
Not part of a TN Transfer Pathway.
NANO 1120  Nanoscience Fundamentals II  Credits: 4
Focuses on the material science, chemistry and physics aspects of the nanoscale. The course begins with the discussion of elemental attributes and how environment can impact properties and performance of the starting material. Crystal structure and material properties are then discussed with an emphasis on differences in interactions and measurements at various scale realms. Using the current semiconductor fabrication process as a foundation, students are introduced to the concepts and limitations of photolithography and etching processes. New approaches toward electronic circuits are introduced as students gain an understanding of the current process and necessary operation concepts for today’s electronic devices. Connection from electronic circuits to the outside world is also covered. Finally, the concepts of optics, photonics and lasers are discussed with an emphasis on new devices and applications based at nanoscale properties. (Prerequisite: NANO 1110, Corequisites: CHEM 1110 and PHYS 2010) Sp
Not part of a TN Transfer Pathway.

Nursing

NSG 105  Foundations for Nursing Practice  Credits: 10
Introduction to the nursing process as it is applied to individuals at various stages throughout the life cycle. Content areas will include the role of nursing in health care delivery; basic human needs; legal and ethical considerations; the nursing process; therapeutic communication; vital signs; physical assessment; promotion of comfort; safety; hazards of immobility; infection control; wound care; medication administration; elimination; oxygenation; perioperative care; sensory alterations; sleep; nutrition; stress; psychosocial, cultural, and family factors in health care; loss, death, and grief; and patient education. (Prerequisites: Admission to Nursing Program; corequisite: NSG 118; Pre or Co-requisite: BIOL 2020) (6 hours theory, 6 hours clinical, 6 hours laboratory) F
Not part of a TN Transfer Pathway.

NSG 107  Care of the Childbearing Family  Credits: 3
Core of the Childbearing Family 3 creditsStudents will continue to apply the nursing process to care of the childbearing family. Content areas include family planning; conception and fetal development; pregnancy; fetal assessment; labor and delivery; postpartum care; care of the newborn; maternal-infant nutrition; and care of the high-risk child-bearing family. (Prerequisites: BIOL 2010, NSG 105 NSG 118; Corequisites: BIOL 2020, NSG 109) (2.6 hours theory;18 hours clinical/semester). SP
Not part of a TN Transfer Pathway.

NSG 108  Care of the Childbearing Family for LPN  Credits: 3
This course introduces the student to pediatric and adult medical-surgical concepts within the framework of the nursing process. Emphasis is placed on pathophysiologic disturbances and related nursing skills. Content includes fluids and electrolyte, orthopedic, and EENT disorders; oncologic, hematologic, integumentary and reproductive disorders; and communicable diseases (Prerequisites or corequisites for LPNs: NSG 105 and NSG 118; Corequisites BIOL 2020 and NSG 107) 3 hours theory, 6 hours clinical, 6 hours laboratory for 1/2 semester Sp
Not part of a TN Transfer Pathway.

NSG 110  Adult and Child Health I for LPN  Credits: 6
This course will introduce the student to drug standards and legislation pertaining to drug therapy; drug preparation; basic principles of drug action; application of the nursing process in drug therapy; pediatric and geriatric implications in drug therapy; distribution systems; drug orders; mathematical principles related to drug preparation and administration; routes of drug administration; drug classifications; basic mechanisms of action, therapeutic applications, and nursing implications. (Prerequisite: Admission into Nursing Program; corequisite: NSG 105) F
Not part of a TN Transfer Pathway.

NSG 118  Pharmacology in Nursing  Credits: 3
This course will introduce the student to drug standards and legislation pertaining to drug therapy; drug preparation; basic principles of drug action; application of the nursing process in drug therapy; pediatric and geriatric implications in drug therapy; distribution systems; drug orders; mathematical principles related to drug preparation and administration; routes of drug administration; drug classifications; basic mechanisms of action, therapeutic applications, and nursing implications. (Prerequisite: Admission into Nursing Program; corequisite: NSG 105) F
Not part of a TN Transfer Pathway.

NSG 126  Pharmacology in Nursing LPN  Credits: 3
Includes all content in NSG 118. (Prerequisites: Admission to LPN mobility program, Pre or Corequisites BIOL 2020, NSG 107 or 108. Sp:
Not part of a TN Transfer Pathway.

NSG 210  Adult and Child Health II  Credits: 10
A continuation of Adult and Child Health I. This course increases the pathophysiologic knowledge base in pediatric and adult medical-surgical health care within the framework of the nursing process. Content areas include the care of clients with cardiovascular, respiratory, renal, neurologic, endocrine, and gastrointestinal system dysfunctions. (Prerequisites: BIOL 2020, 2230, NSG 109) (6 hours theory, 12 hours clinical) F
Not part of a TN Transfer Pathway.

NSG 211  Adult and Child Health II for LPN  Credits: 10
This course introduces the student to drug standards and legislation pertaining to drug therapy; drug preparation; basic principles of drug action; application of the nursing process in drug therapy; pediatric and geriatric implications in drug therapy; distribution systems; drug orders; mathematical principles related to drug preparation and administration; routes of drug administration; drug classifications; basic mechanisms of action, therapeutic applications, and nursing implications. (Prerequisite: Admission into Nursing Program; corequisite: NSG 105) F
Not part of a TN Transfer Pathway.

NSG 212  Psychosocial Nursing  Credits: 4
This course focuses on the psychosocial needs of individuals of differing age groups at varying points on the mental health continuum. Multiple theoretical models are presented as the scientific bases for the implementation of the nursing process. (Prerequisites NSG 210, Corequisite: NSG 215) (3 hours theory, 45 hours clinical/semester). SP
Not part of a TN Transfer Pathway.

NSG 213  Psychosocial Nursing for LPN  Credits: 4
This course will introduce the student to drug standards and legislation pertaining to drug therapy; drug preparation; basic principles of drug action; application of the nursing process in drug therapy; pediatric and geriatric implications in drug therapy; distribution systems; drug orders; mathematical principles related to drug preparation and administration; routes of drug administration; drug classifications; basic mechanisms of action, therapeutic applications, and nursing implications. (Prerequisite: Admission into Nursing Program; corequisite: NSG 105) F
Not part of a TN Transfer Pathway.

NSG 215  Transitions to Nursing Practice  Credits: 3
A seminar course which focuses on exploration of nursing roles, organizational approaches to the delivery of nursing care, patient and organizational management, and contemporary issues in nursing and health care. Clinical experiences focus on refinement of advanced nursing skills and delegation. (Prerequisite: NSG 210, Corequisite: NSG 212) 1.4 class hours & 72 hours clinical/semester.
Not part of a TN Transfer Pathway.

NSG 217  Transitions to Nursing Practice for LPN  Credits: 3
Includes all content in NSG 215. (Prerequisite:NSG 211, Corequisite: NSG 213) (1.4 class hours, 72 hours clinical/semester) Sp
Not part of a TN Transfer Pathway.
Opticianry

OPT 101  Introduction to Opticianry  Credits: 4
A general overview of the field of Opticianry, intended to provide the student with a broad base for more advanced study. Included is the history of Opticianry, the visual sense, basic geometric optics, normal and abnormal vision, lens theory and design, frame design and principles of decentration, government regulations and licensure, as well as an introduction to the ophthalmic dispensing clinic. (3 lecture hours, 3 clinic hours/week)
Not part of a TN Transfer Pathway.

OPT 110  Ophthalmic Dispensing I  Credits: 4
A continuation of Introduction to Opticianry to include frame fit and adjustment, prescription analysis, visual acuity, resolving prisms, influence of vertex distance on prescription, and introduction to presbyopia. (3 lecture hours, 3 clinic hours/week)
Not part of a TN Transfer Pathway.

OPT 120  Ophthalmic Materials I  Credits: 4
This course is designed to introduce the student to the most commonly used ophthalmic devices, and the physical make-up of these devices. This includes single vision lenses, spectacle frames, and bifocal lenses, with special emphasis on how these devices are produced. Also included is an introduction to fabrication of lenses, developing a basis for layout, blocking, grinding, and verification procedures. Combined lecture/lab. (3 lecture hours, 3 lab hours/week)
Not part of a TN Transfer Pathway.

OPT 123  Geometric Optics for Opticians  Credits: 3
Surveys basic elements of geometric optics. Explores the basic theories of light, the electromagnetic spectrum, shadows and pinhole cameras, refraction at a plane surface, critical angle and internal reflection, lateral shift, apparent depth, prisms, mirrors, thin lenses and image formation. Emphasizes ray tracing and calculations. (Prerequisite: MATH 1130) (3 lecture hours/week)
Not part of a TN Transfer Pathway.

OPT 130  Contact Lenses I  Credits: 4
An introduction to the fitting of contact lenses, following the history of contact and the development of new contact lens materials. Advantages and disadvantages of these materials are outlined, as well as indications and contra-indications to contact lens wear. Emphasis is placed on the optical principles behind contact lens correction, and the introduction of basic skills with related instrumentation. (3 lecture hours, 3 laboratory hours/week)
Not part of a TN Transfer Pathway.

OPT 140  Practicum  Credits: 1
Supervised fieldwork in a retail dispensary under a licensed optician, optometrist, or ophthalmologist. (120 total hours/semester)
Not part of a TN Transfer Pathway.

OPT 143  Anatomy and Physiology of the Eye  Credits: 4
A detailed study of the structures and functions of the eye and its adnexa, as well as an overview of common ocular pathologies. (4 lecture hours/week)
Not part of a TN Transfer Pathway.

OPT 210  Ophthalmic Dispensing II  Credits: 4
A continuation of Ophthalmic Dispensing I to include the optical properties of spectacle lenses and their relationship to the patient’s refractive error, the spectacle management of presbyopia, the spectacle management of high power prescriptions and prescription analysis. (3 lecture hours, 3 clinic hours/week)
Not part of a TN Transfer Pathway.

OPT 220  Ophthalmic Materials II  Credits: 4
A continuation of Ophthalmic Materials I, stressing: multifocal lenses - bifocals, trifocals, occupational, blended and progressives. Increased hands-on experience with lens edging, including insertion, removal, and bench adjustment or spectacles. ANSI standards applied to all lab work. (3 lecture hours, 3 laboratory hours/week)
Not part of a TN Transfer Pathway.

OPT 230  Contact Lenses II  Credits: 4
Continuation of Contact Lenses I with increased attention to lens selection and design. Fitting philosophies of hydrogel and gas permeable contact lenses are put into practice, and follow-up care is stressed. Insertion, removal, and diagnostic skills are increased. (3 lecture hours, 3 laboratory hours/week)
Not part of a TN Transfer Pathway.

OPT 260  Ophthalmic Dispensing III  Credits: 4
A continuation of Ophthalmic Dispensing II to include advanced prescription analysis, clinical astigmatism, fashion spectacle dispensing, aniseikonia, low vision care, clinical types of hyperopia, ocular injuries and emergencies, visual field anomalies, orthoptics, prosthetic eyes, ophthalmic instrumentation, and theory of refraction. (3 lecture hours, 3 clinic hours/week)
Not part of a TN Transfer Pathway.

OPT 270  Ophthalmic Materials III  Credits: 4
A continuation of Ophthalmic Materials II to include cataract eyewear, glass lens tempering, high minus lens designs/materials, and a variety of specialty lenses. Practice management including: ordering, inventory, duty to warn, equipment maintenance, semantics and salesmanship. Licensed professional responsibilities are presented, along with the latest trends (fashion, technological breakthroughs). Advanced spectacle fabrication in the lab, to include: semirimless mounts, various repairs, progressive lenses, bifocal projects, and prism RXs. (3 lecture hours, 3 laboratory hours/week)
Not part of a TN Transfer Pathway.

OPT 280  Contact Lenses III  Credits: 4
Continuation of Contact Lenses II, dealing mainly with special fitting problems and special lens design. Practice management techniques are included, as well as continued use of all needed instrumentation. (3 lecture hours, 3 laboratory hours/week)
Not part of a TN Transfer Pathway.
Occupational Therapy Assistant

OTA 102  Introduction to Occupational Therapy  Credits: 2
This course introduces the student to the profession of occupational therapy and the health care system. The holistic approach of occupation as a concept and an orientation to ethics is provided. Information is presented that relates to the role of the occupational therapy assistant and includes the purpose, philosophy, and history of the profession. (2 lecture hours/week)
Not part of a TN Transfer Pathway.

OTA 107  Therapeutic Activities  Credits: 3
This course will provide a conceptual overview of activity analysis and practice skill in the therapeutic use of technology, manual arts, media, and activity (occupation). Planning, preparation, learning methods, and safety factors are emphasized. Therapeutic occupations will be approached using occupational therapy terminology from the Practice Framework Domain and Process. (2 lecture hours, 3 laboratory hours/week)
Not part of a TN Transfer Pathway.

OTA 110  Theory and Treatment of Psychosocial Dysfunction  Credits: 5
This course will present descriptions of psychosocial dysfunction commonly treated in occupational therapy. Theories of occupational therapy treatment will be explored and students will practice a variety of techniques used in identifying and treating psychosocial disorders to promote rehabilitative change. Reading assignments, discussions, presentations, practice application of standardized assessments in lab, and structured learning activities will be utilized to prepare students to interact effectively and safely in psychosocial treatment situations. (4 lecture hours, 3 laboratory hours/week)
Not part of a TN Transfer Pathway.

OTA 115  Level I Psychosocial Fieldwork  Credits: 2
This course will provide directed observation and participation in either a psychosocial or life-development community setting to develop occupational therapy principles, professional behaviors, and therapeutic skills. (15 lecture hours, 40 clinical fieldwork hours/semester)
Not part of a TN Transfer Pathway.

OTA 117  Neurological Theory and Treatment  Credits: 5
Students will review basic neuroanatomy, neurophysiology and learn pathologies commonly seen in occupational therapy. Students will be introduced to concepts of rehabilitation and accepted treatment techniques through application of treatment principles in lab. Study of normal movement, abnormal movement, and the developmental sequence is included at the entry level of practice. (4 lecture hours, 3 laboratory hours/week)
Not part of a TN Transfer Pathway.

OTA 121  Level I Physical Disability Fieldwork  Credits: 2
Students will experience directed observation and participation with occupational therapy in a physical disability setting to learn the clinical application of occupational therapy principles and practice. (15 lecture hours, 40 clinical fieldwork hours/semester)
Not part of a TN Transfer Pathway.

OTA 124  Human Movement for Occupation  Credits: 3
This course presents a study of the kinetics of human motion. Emphasis will be placed on normal motion and movement patterns in the context of activity and Occupational Therapy. Procedures for range of motion, manual muscle testing and movement analysis will be reinforced. The course will also introduce biomechanical principles, postural considerations and functional characteristics of the musculoskeletal system. (2 hours lecture, 3 hours lab)
Not part of a TN Transfer Pathway.

OTA 210  Theory and Treatment of Physical Dysfunction  Credits: 5
The student will learn about physical pathologies, conditions, and disabilities commonly seen in occupational therapy as well as current evidence-based treatment techniques and methods. Treatment applications and rationale will be explored in lecture and laboratory with simulated treatment practice. (4 lecture hours, 3 laboratory hours/week)
Not part of a TN Transfer Pathway.

OTA 212  Occupational Therapy Practice Management  Credits: 2
Students will develop knowledge of responsibilities required to provide occupational therapy in a community or health care setting. Responsibilities include operations, supervisory requirements, quality assurance, and compliance with regulations. Planning and management of activity service programs are also included. Occupational therapy discussions will include current topics and issues in practice, promotion of the profession, and the changing role from student to practitioner. (2 lecture hours/week)
Not part of a TN Transfer Pathway.

OTA 216  Pediatric Theory and Treatment  Credits: 5
Students will be introduced to commonly treated disorders in children and developmentally disabled individuals. Occupational therapy treatment techniques, rationale and application are presented. Laboratory experience will include entry level treatment skills and simulated treatment practice using purposeful activities (occupation). (4 lecture hours, 3 laboratory hours/week)
Not part of a TN Transfer Pathway.

OTA 221  Level II Fieldwork - Placement 1  Credits: 6
Students will participate in 8 week, full-time (or 320 hours) supervised clinical fieldwork experience in preparation for entry-level practice. Practice settings may include traditional and/or emerging practice areas (ACOTE standards, 2006). Students will integrate academic knowledge, including human growth/development, disease/disability, psychosocial factors, and client-centered, occupation-based treatment interventions in the provision of occupational therapy services across the lifespan. Outside assignments are required. Prerequisites: all academic coursework must be completed prior to beginning Level II Fieldwork. (40 hours/week)
Not part of a TN Transfer Pathway.

OTA 226  Level II Fieldwork - Placement 2  Credits: 6
Students will participate in 8 week, full-time (or 320 hours) supervised clinical fieldwork experience in preparation for entry-level practice. Practice settings may include traditional and/or emerging practice areas (ACOTE standards, 2006). Students will integrate academic knowledge, including human growth/development, disease/disability, psychosocial factors, and client-centered, occupation-based treatment interventions in the provision of occupational therapy services across the lifespan. Outside assignments are required. Prerequisites: all academic coursework must be completed prior to beginning Level II Fieldwork. (40 hours/week)
Not part of a TN Transfer Pathway.
**Paramedic**

**PARA 2100 Paramedic I**  
Credits: 12  
Paramedic I is the first of three lecture and laboratory courses to prepare the student for the National Registry Paramedic examinations. Topics include paramedic roles and responsibilities, medical/legal considerations, general pathophysiology, general pharmacology, airway management, and cardiology. (Prerequisite: Admission to the Paramedic Program; Co-requisite: PARA 2150) (11 lecture hours/4 laboratory hours/week).  
Not part of a TN Transfer Pathway.

**PARA 2150 Clinic I**  
Credits: 2  
This course provides the paramedic student with an opportunity to apply previously learned knowledge and skills in a supervised team lead setting. Rotations in this course include the emergency department, respiratory therapy, psychiatric observation, geriatric care, ambulatory care and critical care. (Co-requisite: PARA 2100) (180 clinical hours/semester)  
Not part of a TN Transfer Pathway.

**PARA 2200 Paramedic II**  
Credits: 12  
Paramedic II is the second of three lecture and laboratory courses to prepare the student for the National Registry Paramedic examinations. Topics include pulmonology, neurology, endocrinology, gastroenterology, urology and nephrology, hematology, gynecology, obstetrics, neonatology, pediatrics, and trauma. (Prerequisite: PARA 2100; Co-requisite: PARA 2250) (11 lecture hours/4 laboratory hours/week).  
Not part of a TN Transfer Pathway.

**PARA 2250 Clinic II**  
Credits: 2  
This course provides the paramedic student with an opportunity to apply previously learned knowledge and skills in a supervised clinical setting. Rotations in this course include surgery, pediatric emergency department, pediatric critical care, labor and delivery and ALS Ambulance Orientation. (Prerequisite: PARA 2150; Co-requisite: PARA 2200) (180 clinical hours/semester).  
Not part of a TN Transfer Pathway.

**PARA 2300 Paramedic III**  
Credits: 12  
Paramedic III is the third of three lecture and laboratory courses to prepare the student for the National Registry Paramedic examinations. Topics include research methodologies, trauma, allergies and anaphylaxis, toxicology and substance abuse, environmental emergencies, psychiatric and behavioral disorders, clinical decision-making, and domestic violence. Upon successful completion of all Paramedic courses, the student will be eligible for State of Tennessee Paramedic licensure. (Prerequisite: PARA 2200; Co-requisite: PARA 2350) (11 lecture hours/4 laboratory hours/week).  
Not part of a TN Transfer Pathway.

**PARA 2350 Clinic III**  
Credits: 2  
This course provides the paramedic student with an opportunity to apply previously learned knowledge and skills in a supervised team lead setting. Rotations in this course include approved ambulance services. (Prerequisite: PARA 2250; Co-requisite: PARA 2300) (180 clinical hours/semester).  
Not part of a TN Transfer Pathway.

**Pharmacy**

**PHAR 1015 Basics of Pharmacy Practice**  
Credits: 4  
Introduction to pharmacy practice as it relates to pharmacy technicians; focus on pharmacy technician’s role and relationship with pharmacists; written and oral communication skill to deal with patients and other health care professionals; automation, computer use, technology use in pharmacy practice; managed care medicine and health care organizations; inventory management, reading and interpreting and filling prescriptions and an introduction to narcotic schedules and laws and compounding. Utilization of prescription order entry software. Field trips to pharmacy practice (Prerequisite: Acceptance into Pharmacy Technician Program) Fall (2 hours lecture and 6 hours laboratory/week)  
Not part of a TN Transfer Pathway.

**PHAR 1020 Sciences for the Pharmacy Technician**  
Credits: 3  
Web based course providing a basic and broad overview of human anatomy and physiology in all body systems, exposure to disease processes and pharmacological treatment is also included. Additionally, chemistry and microbiology are introduced. (3 lecture hours/week)  
Online  
Not part of a TN Transfer Pathway.

**PHAR 1030 Pharmacy and Therapeutics I**  
Credits: 2  
Basic principles of pharmacology, including an introduction into dispensing methods of medication, drug classifications, mechanisms of action, proper dosing frequencies, adverse reactions, and drug interactions. Identify medications used in the different body systems for the treatment of various disease processes. (2 lecture hours/week)  
Not part of a TN Transfer Pathway.

**PHAR 1040 Pharmacy and Therapeutics II**  
Credits: 2  
Basic principles of pharmacology, including an introduction into dispensing methods of medication, drug classifications, mechanisms of action, proper dosing frequencies, adverse reactions, and drug interactions. Identify medications used in the different body systems for the treatment of various disease processes. (2 lecture hours/week)  
Not part of a TN Transfer Pathway.

**PHAR 1050 Pharmacy Calculations**  
Credits: 4  
This course is designed to prepare the pharmacy tech student to function in academic and clinical settings with mathematics competence. There will be a review of fractions, decimals and percentages. Pharmacy calculations will include an introduction to: calculations involving alligation, ratio, flow rates, dilutions, proportions and enlarging or reducing formulae, and dosage calculations. Also included are conversions between household, Apothecary and metric systems and how to interpret and calculate dosages from prescriptions and physician orders. (4 lecture hours/week)  
Not part of a TN Transfer Pathway.

**PHAR 1110 Pharmacy Law and Ethics**  
Credits: 2  
This course will discuss state and federal laws, which govern the practice of pharmacy and the distribution of drugs. Students will also be introduced to the Tennessee Pharmacy Act and the Rules and Regulations promulgated by the Tennessee Board of Pharmacy, health and safety regulations, effective communication with patients and co-workers, patient confidentiality, and other ethical aspects of the profession. (2 lecture hours/week)  
Not part of a TN Transfer Pathway.

**PHAR 1135 Sterile Products**  
Credits: 3  
Fundamentals of sterile product preparation, compounding techniques, blood glucose monitoring and an overview of chemotherapy preparation and quality control measures. Review of pharmacy calculations and advanced prescription interpretation. (Prerequisites: PHAR 1015, 1020, 1050, 1030) Spring (2 lecture hours and 3 laboratory hours/week)  
Not part of a TN Transfer Pathway.
PHAR 1230  Special Projects  Credits: 3
Independent study of special areas in pharmacy which relate to current topics or research projects. No student may enroll in this course without the prior approval of the program director. (3 hours/week)
Not part of a TN Transfer Pathway.

PHAR 1240  Pharmacy Clinical Rotations  Credits: 4
Provides student practical hands on experience in two contemporary settings, one of which is a dispensary setting. The student will work under the direct supervision of a licensed pharmacist. Enrollment is at the discretion of the program director. (Prerequisites: PHAR 1015, 1020, 1050, 1030) Spring (200 contact hours/semester ) 4 credit hours
Not part of a TN Transfer Pathway

PHAR 1300  Seminar in Pharmacy Practice  Credits: 2
Preparatory course for successful completion of the PTCB exam. Course will include exams simulating the Pharmacy Technician Certification Board exam.(Prerequisite: Completion of PHAR 1015, 1020, 1050, 1030) Spring (2 lecture hours/week)
Not part of a TN Transfer Pathway

PHAR 1301  Advanced Pharmacy Practice  Credits: 2
Course work designed to enhance the learning experience of the pharmacy practice clinical rotations. Included are real world case studies, reports on new medications, cover letter and resume preparation and application of learned material. Spring (2 lecture hours/week)
(Prerequisite: PHAR 1015, 1020, 1050, 1030)
Not part of a TN Transfer Pathway

Physical Education

PHED 1080  Jujitsu I  Credits: 1
This course will demonstrate the techniques and movements utilized in Jujitsu, an ancient form of self-defense that originated in Japan. The course will also explore Jujitsu’s underlying philosophy and terminology. Optional addition: Jujitsu was designed to turn the force of an opponent’s attack against him, throw an attacker off-balance, topple the opponent, and immobilize him after getting him on the ground. (as needed)
Not part of a TN Transfer Pathway.

PHED 1090  Team Games & Conditioning  Credits: 1
This course implements all the aspects needed to play various types of team sports, including, but not limited to conditioning, weight training, and fundamentals. Instructor Approval
Not part of a TN Transfer Pathway.

PHED 1100  Fitness Walking  Credits: 1
Proper techniques for walking for fitness. Emphasis on health benefits of walking. F, Sp
Not part of a TN Transfer Pathway.

PHED 1110  Jujitsu II  Credits: 1
This course expands on the material from Jujitsu I. This course will demonstrate the techniques and movements utilized in Jujitsu, an ancient form of self-defense that originated in Japan. The course will also explore Jujitsu’s underlying philosophy and terminology. Prerequisite: PHED 1080 - Jujitsu I.
Not part of a TN Transfer Pathway.

PHED 1120  Exercise and Weight Control  Credits: 1
For those interested in losing body fat and improving physical fitness. (as needed)
Not part of a TN Transfer Pathway.

PHED 1140  Fitness Running  Credits: 1
Fitness Running is endurance conditioning of the heart, lungs, blood vessels, and working muscles. The emphasis is on running. Students will learn basic fitness testing and instruction on running equipment, running form, and warm up/cool down. This course will prepare a student to run a 5 K.
Not part of a TN Transfer Pathway.

PHED 1160  Marathon/ Distance Training  Credits: 1
An advanced running course in which principles of long distance/ marathon running are discussed and applied to provide a foundation for high level aerobic fitness. Knowledge in the areas of bio-mechanics, nutrition, training principles and programs, physiology, and running performance will be developed in lecture/discussion format. Running, both tempo and endurance, will be featured throughout the course. Prerequisite: PHED 1140 or permission from the instructor.
Not part of a TN Transfer Pathway.

PHED 1170  Basketball  Credits: 1
Practice of fundamentals as well as the various types of play. (as needed)
Not part of a TN Transfer Pathway.

PHED 1180  Bowling  Credits: 1
Proper selection of equipment, correct method of approach and release of the bowling ball, and scoring. A fee will be charged for facility and equipment rental. F, Sp
Not part of a TN Transfer Pathway.

PHED 1190  Varsity Sports I  Credits: 1
This course is for first year varsity athletes and implements all the aspects needed to play their particular sport. These aspects include conditioning, weight training, fundamentals, and competitive play. Instructor Approval
Not part of a TN Transfer Pathway

PHED 1210  Golf  Credits: 1
Acquaintance of the beginning player with correct swing, selection and use of the various clubs, and fundamentals. (as needed)
Not part of a TN Transfer Pathway.

PHED 1220  Flag Football  Credits: 1
Instruction and practice in exercises, rules, strategies and skill development designed to promote fitness while engaging friendly competition.
Not part of a TN Transfer Pathway.

PHED 1230  Soccer  Credits: 1
Soccer is an introductory level course designed to help the student develop and maintain an understanding of the fundamental skills and rules for participation in the sport. Not part of a TN Transfer Pathway.

PHED 1300  Beginning Weight Training  Credits: 1
An introduction to the proper techniques and practices of weight training. F, Sp
Not part of a TN Transfer Pathway.

PHED 1340  Tennis  Credits: 1
Instruction and practice in the development of basic strokes, rules, and terminology, with emphasis on learning to play singles and doubles. (as needed)
Not part of a TN Transfer Pathway.

PHED 1350  Volleyball  Credits: 1
Fundamentals, rules, and strategy of play. (as needed)
Not part of a TN Transfer Pathway.

PHED 1380  Fitness for Living I  Credits: 1
An individual total fitness program which encompasses these health related components for physical activity: cardiorespiratory endurance, muscular endurance, muscular strength, flexibility and body composition. There will be an additional emphasis on the development of a healthy, well-balanced nutrition plan. F, Sp, Su
Not part of a TN Transfer Pathway.
PHED 1390  Fitness for Living II  Credits: 1
A continuation of PHED 1380 (Prerequisite: PHED 1380) F, Sp, Su
Not part of a TN Transfer Pathway.

PHED 1400  Fitness for Living III  Credits: 1
An individual fitness program which encompasses these health related components for physical activity: cardio respiratory endurance, muscular endurance, muscular strength, flexibility and body composition. There will be additional emphasis on the development of programs focusing on healthy backs and becoming a smart health consumer. (Prerequisite: PHED 1390) F, Sp, Su
Not part of a TN Transfer Pathway.

PHED 1410  Fitness for Living IV  Credits: 1
An individual fitness program which encompasses cardio respiratory endurance, muscular endurance, muscular strength, flexibility and body composition. (Prerequisite: PHED 1400) F, Sp, Su
Not part of a TN Transfer Pathway.

PHED 1420  Personal Fitness  Credits: 1
To develop a total fitness program which encompasses cardio respiratory endurance, muscular endurance, muscular strength, and flexibility while participating in an exercise plan tailored to their individual needs by utilizing the equipment and facilities at National Fitness Center in Oak Ridge. (An additional course fee is required for this class) F, Sp
Not part of a TN Transfer Pathway.

PHED 1430  Fundamentals of Rappelling and Rock Climbing  Credits: 1
This course is designed to introduce students to the basics of rappelling and rock climbing. Primary topics covered will be: (a) climbing gear and equipment, (b) climbing techniques, (c) anchor building, (d) direct, indirect and redirect belaying techniques, (e) releasable rappels, (f) reading terrain, and (g) site management.
Secondary, emphasis will be placed on the following topics: (a) history of climbing, (b) leadership in climbing environments, (c) basic rock/guiding principles and (d) natural history of climbing environments. In addition, a large portion of the class will focus on risk identification, participant screening, and activity administration.
Not part of a TN Transfer Pathway.

PHED 1450  Beginning Scuba  Credits: 1
This course instructs the novice in the skills of SCUBA diving. Emphasis is placed on safety and a pattern of survival in all phases of underwater instruction. Some time will be spent in classroom theory and lecture. A greater part will be spent in pool/lab work and open water dive trips. Field trips are required for certification. Upon successful completion of the course, the student will become a certified SCUBA diver, receiving an Open Water Diver certification from PADI (Professional Association of Diving Instructors) (An additional fee is required for this class) F, Sp, Su
Not part of a TN Transfer Pathway.

PHED 1550  Advanced Scuba  Credits: 1
Advanced Scuba will provide students with diving exploration, excitement, and experience. Advanced Scuba (PADI Advanced Open Water Diver Course) is focused on these three diving foundations. This course is designed so students can go straight into it after the PADI Open Water Diver Course. Advanced Scuba (PADI Advanced Open Water Diver course) helps students increase their confidence and build additional scuba skills so students can become more comfortable in the water. Advanced Scuba is a great way to get more dives logged while continuing to learn under the supervision of a PADI Dive instructor. Upon satisfactory completion in the class, the student will receive a PADI Advanced Open Water certification card. Advanced Scuba (PADI Advanced Open Water Diver Course) is focused on just diving. The class will introduce students to (and build their skills in) Underwater navigation (Learn how NOT to get lost), Deeper water diving (typically anywhere between 60-80 feet), (Learn the effects of depth and understanding your limits), Fish Identification, and Peak Performance Buoyancy (Learn how to stay off the coral!!!)
Not part of a TN Transfer Pathway.

PHED 1560  Skiing  Credits: 1
Instruction and practice for the development of skiing skills. Class will be held at Ober-Gatlinburg on four sessions. A fee for facility use, ski rental, lift tickets, and insurance will be charged for this activity. (as needed)
Not part of a TN Transfer Pathway.

PHED 1750  Concepts of Wellness  Credits: 2
A course that emphasizes a six-dimensional model of wellness (physical, emotional, occupational, social, spiritual, and intellectual). This course will stress the importance of creating a balance of these dimensions that make up our daily lives. This course will fulfill requirements of one physical education activity course. F, Sp
Not part of a TN Transfer Pathway.

PHED 2030  Intermediate Weight Training  Credits: 1
An introduction of more advanced weight training terminology, concepts, and instruction in developing a weight training program.
Not part of a TN Transfer Pathway.

PHED 2040  Advanced Weight Training  Credits: 1
Instruction and practice in developing and utilizing a weight training program that incorporates periodization.
Not part of a TN Transfer Pathway.

PHED 2050  Recreational Hiking  Credits: 1
Instruction and experience in hiking for exercise and recreational enjoyment. Fundamentals of hiking, safety concerns, preparation and planning, and use of trail maps. Student will certify that they are in good health and have no medical restrictions for hiking. (offered as needed)
Not part of a TN Transfer Pathway.

PHED 2060  Snowboarding  Credits: 1
Instruction and practice for the development of basic skills. Course orientation sessions will include clothing and equipment, exercise and preparation, trail maps, etiquette, and safety. Ski/Snowboarding activities will be at resorts to be arranged for each semester. Fees required for ski rental, group lessons, lift tickets, and insurance; additional fees for travel, meals, and lodging for Colorado excursions.
Not part of a TN Transfer Pathway.

PHED 2070  Jujitsu III  Credits: 1
This course expands on the material from Jujitsu I and II. This course will demonstrate the techniques and movements utilized in Jujitsu, an ancient form of self-defense that originated in Japan. The course will also explore Jujitsu’s underlying philosophy and terminology.
Not part of a TN Transfer Pathway.
PHED 2080  Jujitsu IV  Credits: 1
This course expands on the material from Jujitsu I, II, and III. This course will demonstrate the techniques and movements utilized in Jujitsu, an ancient form of self-defense that originated in Japan. The course will also explore Jujitsu’s underlying philosophy and terminology. Not part of a TN Transfer Pathway.

PHED 2090  Varsity Sports II  Credits: 1
This course is for varsity athletes whom have completed one season of varsity competition and implements all the aspects needed to play their particular sport. These aspects include conditioning, weight training, fundamentals, and competitive play. Instructor Approval Not part of a TN Transfer Pathway

PHED 2310  Wilderness Camping  Credits: 3
A course designed to inform the novice through the experienced outdoors-person on the latest equipment, techniques, and clothing for safe hiking and camping. Students may apply this course toward one of the required physical education activity courses. (as needed) Not part of a TN Transfer Pathway.

PHED 2510  Swimming  Credits: 1
Training for beginners in swimming, emphasizing recreational swimming. A special fee will be charged for this course based on facility rental charges. (as needed) Not part of a TN Transfer Pathway.

PHED 2550  Rowing  Credits: 1
Fundamentals of rowing, including proper technique, safety, physical fitness, terminology, and recreational aspects of rowing. (as needed) Not part of a TN Transfer Pathway.

Philosophy

PHIL 1030  Introduction to Philosophy  Credits: 3
This is a general introductory course designed to familiarize the student with the basics of philosophical inquiry. In this course we will discuss the ‘big’ questions of life while looking at some of the answers the great philosophers of the Western tradition have devised. Prerequisites: No prerequisites except the ability to read and write at a college level; and to enjoy a sense of curiosity about life. Students who are unfamiliar with the internet and/or computers will want to spend some time before class starting to get to know the basics. (Pre- or Corequisite: ENGL 1010) F, Sp Roane State General Education course approved and designed for transfer.

PHIL 111  Elementary Logic  Credits: 3
Study of the principles of reasoning, deductive and inductive fundamentals, and the use of logic as a practical tool for critical thinking. (Pre- or Corequisite: ENGL 1010) Course availability determined by Dean of the Division. Not part of a TN Transfer Pathway.

PHIL 121  Elementary Ethics  Credits: 3
Critical analysis of the principal ethical theories and their application to the problem of life. (Pre- or Corequisite: ENGL 1010) F Roane State General Education course approved and designed for transfer.

PHIL 130  Philosophy Seminar  Credits: 1
Designed to give students an in-depth study of a particular topic in contemporary branches of philosophy. (Pre- or Corequisite: ENGL 1010) Course availability determined by Dean of the Division. Not part of a TN Transfer Pathway.

PHIL 201  Introduction to Religions of the World  Credits: 3
Introduction to the study of religion through selected historical traditions, East and West. (Pre- or Corequisite: ENGL 1010) Course availability determined by Dean of the Division. Roane State General Education course approved and designed for transfer.

PHIL 210  Introduction to Philosophy  Credits: 3
Please visit http://www.rodp.org for the latest description for this course.

PHIL 231  Medical Ethics  Credits: 3
Deals with ethical issues in allied health fields such as abortion, euthanasia, patient-professional relationships, allocation of medical resources, genetic engineering, and related topics. (Pre- or Corequisite: ENGL 1010) Course availability determined by Dean of the Division. Not part of a TN Transfer Pathway.

PHIL 2430  Philosophy of Religion  Credits: 3
For more information on this course, please visit the RODP website at http://www.rodp.org

Physics

PHYS 1020  Introduction to Physics  Credits: 4
Emphasis is placed on understanding the nature of physics and applying basic physics concepts in one’s everyday life experience and work. Topics covered include mechanical motion, energy, temperature and heat, fluids, electricity, magnetism, and wave motion. This course is NOT for science or engineering majors. Prerequisites of Algebra II and Geometry.

PHYS 1030  Physics  Credits: 4
This is a one-semester introductory physics course for non-science and non-engineering majors. Emphasis is placed on understanding the nature of physics and applying basic physics concepts in one’s everyday life experience and work. The use of mathematics is limited to basic algebraic manipulations required to understand and apply physics concepts. Topics covered include mechanical motion, energy, temperature and heat, fluids, electricity, magnetism, and wave motion. Elective Credit at RSCC.

PHYS 2010  Non-Calculus Based Physics I  Credits: 4
Covers mechanics, wave motion, and heat. (Prerequisite: MATH 1130 and MATH 1720 OR MATH 1730 or equivalent) Must be taken in sequence. Each student is assessed a lab fee for this course. (3 hours lecture, 3 hours laboratory) F Roane State General Education course approved and designed for transfer. (TTP course)

PHYS 2020  Non-Calculus Based Physics II  Credits: 4
Covers electricity and magnetism, optics, and modern physics. (Prerequisite: PHYS 2010) Each student is assessed a lab fee for this course. (3 hours lecture, 3 hours laboratory) Sp Roane State General Education course approved and designed for transfer. (TTP course)

PHYS 2110  Calculus Based Physics I  Credits: 4
Covers mechanics, wave motion, and heat (Prerequisite: MATH 1910) Must be taken in sequence. Each student is assessed a lab fee for this course. (3 hours lecture, 3 hours laboratory) F Roane State General Education course approved and designed for transfer. (TTP course)
PHYS 2120  Calculus Based Physics II  Credits: 4
Covers electricity and magnetism, optics, and modern physics.
(Prerequisite: PHYS 2110) Each student is assessed a lab fee for this
course. (3 hours lecture, 3 hours laboratory) Sp
Roane State General Education course approved and designed for
transfer. (TTP course)

Political Science

POL 1020  Introduction to Political Science  Credits: 3
Analysis of politics and political systems in various countries. Students
will acquire a general understanding of the key concepts and ideas upon
which different systems of government are based. Prerequisites: None.
However, Students must be able to read and write at the college level.
Equivalent to RSCC’s POL 102.

Political Science

POL 1025  Introduction to Political Science  Credits: 3
An introduction to the analysis of politics and political systems and
political ideologies in various countries. Sp
Roane State General Education course approved and designed for
transfer.

POLS 1030  American Government  Credits: 3
An introduction to the fundamental institutions and processes of
American national politics including the constitution, civil liberties,
political parties, voting, the presidency, congress, and the courts. F, Sp
Roane State General Education course approved and designed for
transfer. (TTP course)

POLS 1501  Intro to International Rel  Credits: 3
This course is designed to provide you with a broad introduction to
International Relations (IR). This course will introduce you to the
fundamental approaches to studying IR and will consider how each
approach treats selected aspects of current international politics.
Prerequisites: None; however, students must be able to read and write at
the college level.

POLS 2010  State and Local Government  Credits: 3
The course will study state and local government in Tennessee with
a general survey of state and local government in the United States.
The course will look at the Tennessee Constitution, the three branches
and administrative agencies of state government. The course will also
examine the organization and powers of municipalities and counties in
Tennessee.
Not part of a TN Transfer Pathway.

POLS 2140  Tennessee Intercollegiate State  Credits: 1
Legislature (TISL)
An introduction to the institutions and processes of the Tennessee
General Assembly and/or the Tennessee judicial system through a mock
state legislature and/or court. Students prepare for and participate in the
annual Tennessee Intercollegiate State Legislature (TISL). TISL usually
takes place from Thursday-Sunday in mid-November. May be repeated
for up to 2 hours of credit. Registration must be approved by instructor.
F
Not part of a TN Transfer Pathway

Physical Science (RODP)

PSCI 1010  Survey of Physical Sciences I  Credits: 4
PSCI 1010 includes a study of six fundamental components of the
physical sciences: Newtonian mechanics; linear motion, momentum,
energy, gravity, satellite motion, fluid mechanics, Thermodynamics;
thermal energy, heat transfer, Electricity, Magnetism, Waves; sound and
light waves, and the properties of light. This course also includes a study
of Chemistry including the structure of the atom, the atomic nucleus,
periodic table, chemical bonding, chemical reactions, acids, bases,
and molecular mixing, organic chemistry, and nuclear chemistry. This course
will establish a base with which the non-science student can view nature
more perceptive. This course is designed to correct a missing essential
in the sciences: the practice of conceptualizing before calculating. The
equivalent of three hours lecture and three hours laboratory per week
is required. Four (4) credit hours. Prerequisites: Two years high school
algebra and acceptable placement scores, or DSPM 0850. Elective
Credit at RSCC.

PSCI 1020  Survey of Physical Sciences II  Credits: 4
For more information on this course, please visit the RODP website at
http://www.rodp.org

Polysomnography

PSG 101  Polysomnography I  Credits: 4
This course covers the International 10-20 system, application of
sensors used in polysomnograms, calibrations and functioning of
polysomnographic equipment, electrical safety, artifact elimination,
and procedures used in performing sleep studies. (3 lecture hours, 3
laboratory hours/week)
Not part of a TN Transfer Pathway.

PSG 104  Sleep Disorders Diagnosis and Treatments  Credits: 4
This course covers sleep history; symptoms, diagnosis and treatment
of sleep disorders; neuroanatomy, neurophysiology and respiratory
anatomy and functioning during sleep; and medical guidelines for
polysomnography. (4 lecture hours/week)
Not part of a TN Transfer Pathway.

PSG 107  Polysomnographic EKG Interpretation  Credits: 3
This course covers identification of cardiac dysrhythmias, anatomy of
the heart and abnormal heart rhythms seen during polysomnography. (3
lecture hours/week)
Not part of a TN Transfer Pathway.

PSG 111  Polysomnography II  Credits: 4
This course covers troubleshooting equipment malfunctions, CPAP,
Bi-Level, and Auto-titrating therapy titrations, conducting the all
night polysomnogram, MSLTs, MWTs, GER studies and NPT studies.
Ancillary equipment and maintenance of polysomnographic equipment.
(3 lecture hours, 3 laboratory hours/week)
Not part of a TN Transfer Pathway.

PSG 116  Polysomnographic Interpretations  Credits: 3
This course covers all aspects of polysomnogram interpretation and
report calculations. It will include sleep staging, interpretation of normal
and abnormal EEG, respiration, body movements and cardiac rhythms.
(2 lecture hours, 3 laboratory hours/week)
Not part of a TN Transfer Pathway.
Physical Therapist Assistant

Kinesiology

This course presents the basic concept of kinesiology. The perspective taken in studying this subject is from that of a physical therapist assistant or occupational therapy assistant. A detailed understanding of musculoskeletal anatomy will be reinforced and the neurological connections highlighted. Emphasis is placed on normal motion and movement patterns, especially as they apply to physical rehabilitation. Biomechanical principles and functional characteristics of the musculoskeletal system are introduced. The course includes an introduction to posture, normal and pathological gait, goniometry and MMT. (2 lecture hours, 6 laboratory hours/week)

Patient Care Techniques

This course introduces the student to basic skills necessary for safe care of the patient and teaches the theory and techniques of basic patient care procedures. Included are: basic assessment skills, body mechanics, patient positioning, draping, bed mobility, transfers, gait training with assistive devices, wheelchair skills, functional training, ADL training, environmental/architectural barrier identification and modification, bandaging, infection control and asepsis and ROM exercise. (2 lecture hours, 6 laboratory hours/week)

Therapeutic Modalities

The general principles of treatment, indications, contraindications, physiological effects of superficial heat and cold, massage, phototherapy, hydrotherapy, deep heat modalities, mechanical traction, intermittent compression and electrotherapy are discussed and practiced. (3 lecture hours, 6 laboratory hours/week)

Treatment of Medical/Surgical Conditions

This course introduces the student to common medical and surgical conditions. This will include definition and overview, incidence, etiology, risk factor, pathogenesis, clinical manifestation, diagnosis, prognosis, treatment (medical, surgical). Specific attention will be paid to the physical therapy aspect of treatment and management. Implication of patient response to physical therapy intervention will be investigated. This will include how the condition will present in the physical therapist’s evaluation. Also, presented will be: how a condition will alter the physical therapy aspect of treatment and management. Implication of patient response to specific PT interventions, what modification of PT interventions may be indicated, what precautions and contraindications exist. Selected treatments skills will be introduced and developed in the areas of cardiac & pulmonary rehabilitation, wound and burn management.(3 lecture hours/week)

Advanced Physical Therapy Procedures I

This course introduces the student to the fundamentals of therapeutic exercise as they pertain to orthopedic conditions, arthritis, aging and amputations. There will be opportunity to learn and practice specific treatment techniques for these conditions such as selected examination procedures, demonstrating and teaching therapeutic exercises and writing home exercise programs. (4 hours lecture, 6 hours laboratory/ week)

Not part of a TN Transfer Pathway.

Kinesiology

Continuation of Clinical I. (240 total clinical hours/semester)

Not part of a TN Transfer Pathway.

Clinical II

Continuation of Clinical I. (240 total clinical hours/semester)

Not part of a TN Transfer Pathway.

Psychology

General Psychology

A survey course dealing with the scientific analysis of human behavior and mental processes. F, Sp, Su

Roane State General Education course approved and designed for transfer. (TTP course)

Psychology of Adjustment

A survey course dealing with adjustment in modern society focusing on a healthy self-concept, coping with psychological stress, and preventing maladjustment. Emphasis on humanistic principles and research. (as needed)

Course designed for transfer and part of the TN Transfer Pathways.

Social Psychology

Social Psychology focuses on the scientific study of individual behavior in group contexts, group behavior, and associated phenomena. Includes instruction in social learning theory, group theory and dynamics, sex roles, social cognition and inference, attribution theory, attitude formation, criminal behavior and other social pathologies, altruistic behavior, social development, and social ecology. F, SP

Course designed for transfer and part of the TN Transfer Pathways.

Life Span Psychology

A survey course dealing with the physical, cognitive, social and emotional aspects of the human developmental processes—from conception to death. F, Sp, Su

Roane State General Education course approved and designed for transfer. (TTP course)

Biological Basis of Behavior

A survey course describing the theories and research involving the role of genetic factors, nervous and endocrine systems and other biological features influencing human behavior and mental processes. F, Sp

Roane State General Education course approved and designed for transfer.

Abnormal Psychology

Definition of abnormal behavior. Survey of development and treatment of anxiety disorders, affective disorders, schizophrenia, paranoid disorders, personality disorders, organic mental disorders, somatoform disorders, dissociative disorders, childhood disorders, psychosexual disorders, and drug dependence. (Recommended: PSYC 1030) F, Sp

Not part of a TN Transfer Pathway.

Not part of a TN Transfer Pathway.
PTA 236  Advanced Physical Therapy Procedures  Credits: 6
II
This course introduces the student to the treatment fundamental for
the adult or pediatric patient with neurological damage, wound and
burn care. Developmental sequence of gross and fine motor skills,
an introduction to normal/abnormal movement patterns, concepts of
motor learning and training are included. Use of orthotics is introduced.
Rehabilitation concepts and procedures are discussed and practiced in
terms of goals, indications, contraindications/precautions, modifications,
adaptations, documentation and discharge planning per patient status.
Selected pathologies will be covered. This will include definition
and overview, incidence, etiology, risk factors, pathogenesis, clinical
manifestation, diagnosis, prognosis, treatment (medical, surgical,
physical therapy). (4 lecture hours, 6 laboratory hours/week)
Not part of a TN Transfer Pathway.

PTA 238  Clinical Preparation I  Credits: 2
This course prepares the PTA student for his/her clinical experiences
and entry into the field as a physical therapist assistant. Information
on non-verbal, oral and written communication used by rehabilitation
professionals is presented. This will include medical records, patient
documentation, and the use of professional literature to write abstracts
and perform medical literature review. Emphasis will be on the practical
use of medical terminology, medical documentation and medical
conversations. The basic principles of risk management are presented.
The Tennessee Rules for Physical Therapy document is explored.
Investigation and integration of personal and professional attitudes and
behaviors are pursued in selected areas, including supervision and sexual
harassment. The student will learn how to develop an inservice. The
course also provides the student with his/her first clinical experiences
in a variety of settings/formats. The student will begin to develop the
concept of comprehensive patient care with mock clinic assignments
(supervised practice sessions). The student will participate in an
integrated clinical affiliation at the end of the semester. (1.5 lecture
hours, 32 clinic hours/semester)
Not part of a TN Transfer Pathway.

PTA 239  Clinical Preparation II  Credits: 2
This course is a continuation of PTA 238 as it prepares the PTA student
for his/her clinical experiences and entry into the field as a physical
therapist assistant. Strategies for obtaining employment are discussed.
Effective techniques for cover letter/resume writing and interview
performance are presented and practiced. Other important employment
issues including benefits, and management/employee relations will be
presented. The role of the PTA beyond patient care is discussed. Fiscal
management and reimbursement issues are introduced and discussed.
The student will present an inservice to an audience other than PTA
peers. There will be continued assessment and planning of professional
behavior development. During this course, the student will continue to
participate in a variety of clinical experiences including development of
comprehensive patient care with mock clinic assignments (supervised
practice sessions) and participation in an integrated clinical affiliation
during the end of the semester. (1.5 lecture hour, 32 clinic hours/
semester)
Not part of a TN Transfer Pathway.

PTA 244  Seminar  Credits: 1
This online course is designed to coincide with the clinical experiences
of Clinical Preparation I (PTA 256) and Clinical Preparation II
(PTA 257). Students are required to prepare case studies, investigate
community resources and research medical conditions encountered
during the clinical period and/or assigned by the faculty. Additional
assignments are related to issues in administration, diversity and
ethics in physical therapy and health care. Students are provided with
information they need to take the national licensure examination and
seek state licensure as a PTA. (This is an independent study course
requiring 15 hours of preparation to complete online assignments.)
Summer only.
Not part of a TN Transfer Pathway.

PTA 256  Clinical Education I  Credits: 5
Supervised patient care and clinical observation for the final semester
PTA student. (240 hours clinic/semester)
Not part of a TN Transfer Pathway.

PTA 257  Clinical Education II  Credits: 5
Supervised patient care and clinical observation for the final semester
PTA student. (240 hours clinic/semester)
Not part of a TN Transfer Pathway.

Psychology (RODP)

PY 215  Child Growth and Develop  Credits: 3
Physical, emotional, social and intellectual child development from
conception through adolescence; concepts of development and function
derived from theoretical approaches, research and clinical observation
emphasized; child rearing applications included. Activities will include
written assignment, online student presentations, mastery quizzes, mid-
term exam and final exam. Prerequisites: PSY 101, General Psychology.
Equivalent to RSCC’s EDU 210.

Radiologic Technology

RDT 103  Image Analysis I  Credits: 2
This course provides an evaluation of radiographic image criteria. Topics
will include identification of anatomical structures, accurate positioning,
and technical factors on an image. An emphasis will be placed on
problem solving to determine the appropriate changes needed to obtain
optimal image quality. Areas of study include chest, abdomen, shoulder
girdle, and upper extremities (2 lecture hours/week).
Not part of a TN Transfer Pathway.

RDT 106  Clinical Education I  Credits: 2
Application of principles of radiographic positioning under the
supervision of qualified registered ARRT technologists. Skills include
application of technical factors, radiographic positioning, patient
interactions, and professional behavior. Students must demonstrate
competence by performing radiologic examinations unassisted (224
hours clinical experience per semester).
Not part of a TN Transfer Pathway.

RDT 107  Clinical Education II  Credits: 2
Application of principles of radiographic positioning under the
supervision of qualified registered ARRT technologists. Skills include
application of technical factors, radiographic positioning, patient
interaction, and professional behavior. Students must demonstrate
competence by performing radiologic examinations unassisted (224
hours clinical experience per semester).
Not part of a TN Transfer Pathway.

</table>
Reading

READ 0562  Reading Learning Support  Credits: 3
For students who have placed into Reading Learning Support (RLS). READ 0562 is designed to develop college-level reading competence through instruction in comprehension skills, vocabulary development, reading study strategies, and the application of skills in the context of reading tasks associated with the required co-requisite course, HUM 262. "Introduction to Humanities: Great Works. Discussion of reading passages in targeted small-group settings is a focus of the class, as is writing about reading. Higher-order critical and creative thinking--the ability to interpret, analyze, synthesize, and evaluate—is consistently emphasized. Computerized instruction allows students to strengthen discrete reading skills. Students who successfully complete the course earn passing grade and also complete RLS requirements, making them eligible to register for other college-level classes with reading prerequisites. READ 0562 does not satisfy graduation requirements. (Co-requisite: HUM 262) (F, S, SU) Not part of a TN Transfer Pathway.

READ 0891  Reading Learning Support I  Credits: 3
A course designed for students who score below 19 on the ACT reading subsection or below 83 on the reading subsection of the COMPASS. The course follows the emporium model with students meeting for designated class time in a computer lab where they can work through materials in Pearson’s My Reading Lab with the assistance of the instructor. Students are also expected to work independently on the course materials outside of class. In addition to the course materials in My Reading Lab, students must complete journal responses to assigned readings including a novel of the instructor’s choosing and participate in small group work in class. A minimum standard to pass the course is successful completion of the first reading learning support competency, as determined through a combination of the My Reading Labs curriculum and class specific assignments. Students are encouraged to complete both competencies in a single semester. (F, SP, SU) Not part of a TN Transfer Pathway

READ 0892  Reading Learning Support II  Credits: 2
A course designed for those students who have successfully completed the first reading learning support competency in READ 0891. The course follows the same emporium model outlined for READ 0891. F, SP, SU Not part of a TN Transfer Pathway

Respiratory Therapy

RTT 121  Cardiopulmonary-Renal Anatomy and Physiology  Credits: 4
An in-depth study of the structure and function of the cardiopulmonary and renal organ systems, including the study of hemoglobin, oxygen, carbon dioxide, and acid base balance in health and disease. (4 lecture hours/week) Not part of a TN Transfer Pathway.

RTT 122  Respiratory Care Science I  Credits: 4
Course will discuss the following information: ethical/legal issues as they pertain to the respiratory care profession. Patient assessment techniques to include vital signs, cardio/thoracic assessment, radiographic, diagnostic, and laboratory test and results. Medical terminology, stems, suffixes, prefixes and root words. Introduction to charting, utilization of the SOAP technique, and other relative patient information. Principle, operation, maintenance, and trouble-shooting of compressed gas sources and gas administration devices will be discussed. An introduction of humidity and aerosol theories and therapies and an introduction to compressed gas monitoring equipment will be included. (3 lecture hours, 3 laboratory hours/week) Not part of a TN Transfer Pathway.

RTT 123  Respiratory Pharmacology  Credits: 2
Course will discuss drug preparations, basic principles of drug action, distribution systems, drug orders, mathematical principles related to drug preparation and administration, routes of drug administration, drug classifications, basic mechanisms of action, and therapeutic applications for drugs administered by respiratory therapists. (2 lecture hours/week) Not part of a TN Transfer Pathway.

RTT 131  Pathology of Respiratory Diseases I  Credits: 2
A study of common respiratory abnormalities. Anatomical alterations of the lungs due to disease, the etiology of the disease, the major respiratory-related clinical manifestations associated with the disease process, and treatment of the disease will be studied. (2 lecture hours/week) Not part of a TN Transfer Pathway.

RTT 132  Respiratory Care Sciences II  Credits: 6
This course will be a continuation of Respiratory Care Science I. In this course, the following will be discussed: therapeutic aerosol delivery both long and short term. Aspects of airway care to include: tracheal aspiration, various types of airways, intubation/extubation techniques, cuff care, and trach care procedures will be discussed. Continued discussions of medical terminology will occur. Procedures and theory of hyperinflation therapy will be taught to include: deep breathing and coughing techniques, Sustained Maximal Inspiration (SMI), and Intermittent Positive Pressure Breathing (IPPB). Students will be introduced to the clinical sites, and will get an understanding of the clinical policies and procedures. Students will apply procedural methods learned in Respiratory Care Science I in the clinical setting. (3 lecture hours, 3 laboratory hours, 12 clinical hours/week; 168 clinical hours/semester) Not part of a TN Transfer Pathway.

RTT 220  Respiratory Care Science III  Credits: 4
This course will primarily discuss the concepts and physiological effects of mechanical ventilation. Various types of ventilators from hand-held devices to computer controlled devices will be discussed. Various ventilatory adjuncts such as PEEP, CPAP, SIMV, pressure support and others will be discussed. Mechanical ventilation preparation, set-up, monitoring and troubleshooting will be discussed in detail. Students will be introduced to critical care medicine during the clinical rotations and will perform those procedures studied in Respiratory Care Science II. Medical rounds with physicians will be conducted along with patient case presentations. (2 lecture hours, 3 laboratory hours, 128 clinical hours/semester) Not part of a TN Transfer Pathway.
RTT 230  Respiratory Care Science IV  Credits: 6
This course will be a continuation of Respiratory Care Science III.
Concepts of ventilator weaning will be discussed. Various types of
ventilators and techniques for monitoring and adjusting parameters
will be discussed. Students will begin work in the critical care areas.
Procedures learned in Respiratory Care Science III will be performed by
students during this clinical rotation. Students will continue physician
rounds and gain experience in the use of advance patient monitoring
equipment and working with various mechanical ventilators. (3 lecture
hours, 3 laboratory hours, 224 clinic hours/semester)
Not part of a TN Transfer Pathway.

RTT 231  Pathology of Respiratory Diseases II  Credits: 2
A continuation of Pathology of Respiratory Diseases I. (2 lecture hours/
week)
Not part of a TN Transfer Pathway.

RTT 235  Neonatal and Pediatric Care  Credits: 3
A detailed study of respiratory care concepts and techniques in neonatal
and pediatric medicine. A close look at advanced equipment used in this
specialty area as well as disease processes will be discussed. (3 lecture
hours/week)
Not part of a TN Transfer Pathway.

RTT 245  Respiratory Care Science V  Credits: 7
This course introduces students to special therapeutic and diagnostic
procedures in respiratory care. Elements of home care to include:
equipment, patient/environmental assessment, and state/federal
regulations. Theory and introduction to special diagnostics such as
bronchoscopy, stress testing, pulmonary rehabilitation, metabolic
studies, and brachytherapy will also be included. Patient education
methods will be introduced. Care of patients in the subacute care area
will also be introduced. In the clinical setting students will continue
work in the critical care areas and will work with and perform those
modalities discussed in Respiratory Care Science IV. Students will also
gain knowledge of and work in the pediatric and neonatal intensive care
areas. Students must complete a final clinical summation evaluation
during this course. (4 lecture hours, 360 clinic hours/semester)
Not part of a TN Transfer Pathway.

RTT 260  Hemodynamics and Rhythms  Credits: 3
This course will introduce the student to the following: Theory and
application of cardiac output measurement. Arterial line insertion
techniques, care, and hazards. Hemodynamic studies to include:
insertion, care, and hazards of flow directed balloon tipped catheter and
the central venous pressure catheter. Pressure monitoring will discuss
central venous pressures, right arterial pressures, right ventricular
pressures, pulmonary artery pressures, and pulmonary occluding
pressures. Study will also introduce the student to equipment associated
with hemodynamic monitoring such as: transducers and monitoring
deVICES. Waveform interpretation with clinical application will be
discussed. Fundamentals of electrocardiography will be introduced to include:
leAD application, pharmacology for the cardiovascular problems,
and tracing interpretation. Studies in fluid and electrolyte balance as it
relates to respiratory care will also be discussed. (3 lecture hours/week)
Not part of a TN Transfer Pathway.

RTT 261  Respiratory Care Seminar  Credits: 2
A review and practice of the NBRC Self Assessment Examinations
including the entry level written registry, and the clinical simulation.
Students must pass these examinations to receive a certificate of
completion. (2 lecture hours/week)
Not part of a TN Transfer Pathway.

Service Learning

SERV 1010  Service Learning Practicum  Credits: 1
TO 3
This course is designed to provide students with an opportunity to
enrich their college experience by taking part in projects designed to promote
community services and self-discovery. While the emphasis of the
course may vary, according to the instructor, the main goal of the course
will always be to promote community service and discovery learning.
Students will access community needs, discuss them, analyze them and
act on them. (as needed)
Not part of a TN Transfer Pathway.

SERV 1020  Service Learning Practicum II  Credits: 3
This course is designed to provide students with an opportunity to
further enrich their college experience by taking part in projects
designed to promote community services and self-discovery. While the
emphasis of the course may vary, according to the instructor, the main
goal of the course will always be to promote community service and
discovery learning. Students will access community needs, discuss them,
analyze them and act on them.
Not part of a TN Transfer Pathway.

Sociology (RODEN)

SO 217  Sociology of Aging  Credits: 3

Sociology

SOCI 1010  Introduction to Sociology  Credits: 3
This course focuses on the analysis of human social interaction,
patterned social relationships, and social change. Emphasis is placed
on the theoretical perspectives and principles of explanation used by
sociologists, as well as the basic concepts such as culture, socialization,
social organization, social deviance, and social stratification. F, Sp, Su
Roane State General Education course approved and designed for
transfer. (TTP course)

SOCI 1020  Social Problems  Credits: 3
This course focuses on the study of the scope and effects of a number
of societal problems. Attention is given to research findings as well as
social programs and policies that have been or can be taken to attempt
to solve the problems. Some possible social problems examined include
social inequality, social change, environmental concerns, population and
resource challenges, violence, war, and issues related to death and dying.
F, Sp
Roane State General Education course approved and designed for
transfer. (TTP course)

SOCI 1120  Intro to Cultural Anthropology  Credits: 3
This course introduces the study of human culture. It focuses on human
adaptation and diversity, as well as the development and variety of
economic, political, religious, family and expressive institutions.
Prerequisites: All developmental courses in reading and writing/
composition must be completed. The Virtual Library tutorial on line
must be completed. Equivalent to RSCC’S SOC 211.

SOCI 2010  Marriage and Family  Credits: 3
An overview of the effects of societal change on marital and non-marital
relationships. Topics include premarital dynamics, singles, dual career
families, family violence, and divorce.
SOCI 2110  Cultural Anthropology  Credits: 3
This course is an introductory survey of the principles, concepts, methods, and scope of anthropology. Emphasis is placed on the nature of culture, sociocultural adaptation, language, kinship, social systems, subsistence patterns, art, ritual and belief systems, and the impact of change. F, Sp
Roane State General Education course approved and designed for transfer.

SOCI 2120  Prehistoric Archaeology  Credits: 3
This course is an introductory survey of human origins and prehistoric cultures. Emphasis is placed on the general principles, history, theoretical orientations, and methods of archaeology. This course will examine a number of prehistoric cultural lifeways from the beginnings of human culture to the rise of civilization. (as needed)
Roane State General Education course approved and designed for transfer.

Public Speaking (RODP)

SP 110  Fund of Public Speaking  Credits: 3
An introductory public speaking course stressing the organization and presentation of the extemporaneous speech in a variety of settings. Prerequisite: ENGL 1010. Equivalent to RSCC’s SPCH 201.

Spanish

SPAN 1010  Beginning Spanish I  Credits: 3
Elementary grammar, pronunciation and conversation through the use of films, videotapes, cassette tapes, filmstrips and computer programs. (No prerequisite) F
Roane State General Education course approved and designed for transfer. (TTP course)

SPAN 1020  Beginning Spanish II  Credits: 3
Continuation of Beginning Spanish I. (Prerequisite: SPAN 1010.) Sp
Roane State General Education course approved and designed for transfer. (TTP course)

SPAN 2010  Intermediate Spanish I  Credits: 3
Advanced grammar and conversation through use of films, videotapes, cassette tapes, filmstrips, computer programs and library readings. (Prerequisite: SPAN 1020) F
Roane State General Education course approved and designed for transfer. (TTP course)

SPAN 2020  Intermediate Spanish II  Credits: 3
Continuation of Intermediate Spanish I. (Prerequisite: SPAN 2010) Sp
Roane State General Education course approved and designed for transfer. (TTP course)

Speech

SPCH 1010  Fundamentals of Speech Communication  Credits: 3
This course is designed to introduce the student to the skills of interpersonal communication. Emphasis is placed upon the fundamental principles and techniques of public speaking, and the oral and physical aspects of delivery. Emphasis is also placed upon discussion, listening skills, thoughtful examination of diverse ideas, respect for everyone’s right to a point of view and the tenets of free speech. F, Sp, Su
Roane State General Education course approved and designed for transfer.

Social Science

SSC 120  The Civil War  Credits: 3
The purpose of this course is to study and gain an understanding of the great central event of American history, the Civil War. Major political, economic, social, and military developments will be examined through use of a textbook, the PBS video series ‘The Civil War’, lecture, and class discussion. (as needed)
Not part of a TN Transfer Pathway.

SSC 210  Social Science Seminar  Credits: 1
In-depth analysis of a particular topic, concern, or problem in the social sciences. Courses maybe oriented toward any one of the social science disciplines (history, political science, psychology, sociology- anthropology) or may be cross disciplinary in nature combining several social sciences. Social Science elective credit only. Some examples of frequently offered Social Science Seminars include: African American History; The Civil War; Death and Dying; European Studies; Human Sexuality; North American Indians; The Southwest Field Trip; Women in Western Civilization; and World War II. (as needed)
Not part of a TN Transfer Pathway.

SSC 211  Southwest Field Trip  Credits: 3
The Southwest Field Trip is a multidisciplinary study of the prehistoric and historic peoples and cultures of the ‘Four Corner’ area of the American southwest, including the ecology and geology of the region. Primary attention is given to the Ancestral Puebloans, ancient Native American peoples who lived throughout the Colorado Plateau. The focus of the class may include contributions or considerations from anthropology, archaeology, astronomy, biology, geography, geology, history, literature, mathematics, and social sciences. SpNot part of a TN Transfer Pathway.

SSC 212  Southwest Field Trip  Credits: 3
The Southwest Field Trip is a multidisciplinary study of the prehistoric and historic peoples and cultures of the ‘Four Corner’ area of the American southwest, including the ecology and geology of the region. Primary attention is given to the Ancestral Puebloans, ancient Native American peoples who lived throughout the Colorado Plateau. The focus of the class may include contributions or considerations from anthropology, archaeology, astronomy, biology, geography, geology, history, literature, mathematics, and social sciences. SpNot part of a TN Transfer Pathway.

SSC 215  World War II  Credits: 3
This course examines the largest single event in human history, the Second World War. The background to this conflict along with political, diplomatic, and military aspects will be studied through use of a textbook. ‘The World at War’ video series, lecture, and class discussions. (as needed)
Not part of a TN Transfer Pathway.

SSC 221  The Haiti Experience  Credits: 3
Students will learn about Haiti through lectures and research. Aspects covered include language, economics, politics, history and lifestyle. Students will experience cultural immersion through a trip to Haiti where they will work with the Haitians on a service project. (as needed)
Not part of a TN Transfer Pathway.
SSC 223  Social Science Seminar  Credits: 1
In-depth analysis of a particular topic, concern or problem in the social sciences. Courses can be oriented toward any one of the social science disciplines (history, political science, psychology, sociology- anthropology) or may be cross disciplinary in nature, combining several social sciences. Social science elective credit only. Some examples of frequently offered social science seminars include: African American History, The Civil War, Death and Dying, European Studies, Human sexuality, North American Indians, Southwest Fieldtrip, Women in Western Civilization, and World War II. Offered as needed. Not part of a TN Transfer Pathway.

Surgical Technology

SURG 1002  Orientation to Surgical Tech  Credits: 1
Orientation to Surgical Technology is designed to introduce the student to the field, including the operating room setting, reporting relationships, education and experiential needs, minimum physical requirements, working conditions, unavoidable hazards and job performance standards. Information review for National Examination for Surgical Technologists will be presented.
Prerequisite: Acceptance into the Surgical Technology program.
1 lecture hour/week
Not part of a TN Transfer Pathway

SURG 1005  Surgical Tech and Pharmacology  Credits: 3
Surgical Terminology and Pharmacology is designed for public and allied health professionals who need to read and interpret health and medical reports, research reports and/or professional literature. Topics include an analysis of the authorization of medical terms related to various disorders with a focus on pronunciation and spelling, basic word structure, abbreviations and symbols and the body and its systems. Additional focus will include the biomedical and pharmacological effects of therapeutic drugs on the human body, positive and negative reactions to drugs and interaction effects between and among drugs. Attention will be given to metric-weight and measures, terminology, case and handling of drugs, classification of drugs and anesthesia.
Prerequisite: Acceptance into the Surgical Technology program.
3 lecture hours/week
Not part of a TN Transfer Pathway

SURG 1010  Surgical Tech & Patient Care I  Credits: 3
Surgical Technology and Patient Care I covers the duties of the surgical technologist; the surgical team members; hospitals and their backgrounds; hospital organization and management; physical aspects of the operating room; interdepartmental relations; communication and rapport; the development of surgery; and identifying ethical, moral and legal responsibilities. The course also introduces students to patient care concepts and practices and instructional components of electricity, physics, robotics and computer skills are reviewed.
Prerequisite: Acceptance into the Surgical Technology program. Co-requisite: SURG 1011.
3 Credit Hours - 3 lecture hours (F)
Not part of a TN Transfer Pathway

SURG 1011  Surg Tech & Patient Care Lab I  Credits: 1
Surgical Technology and Patient Care Laboratory I introduces students to surgical procedures, incisions, wound closure, operative pathology and common complications that arise in general and specialty surgery. Students gain preparation to work under medical supervision to facilitate the safe and effective conduct of invasive surgical procedures. Particular emphasis is on operating room furniture, instrumentation, supplies, equipment and establishing the sterile field.
Prerequisite: Acceptance into the Surgical Technology program. Co-requisite: SURG 1010
10 lab hours/week
Not part of a TN Transfer Pathway

SURG 1020  Surg Tech & Patient Care II  Credits: 3
Surgical Technology and Patient Care II is a continuation of SURG 1010. Students continue the student of surgical team practice, patient-care concepts and practices.
Prerequisite: Acceptance into the Surgical Technology Program and SURG 1010. Co-requisite SURG 1021.
3 Lecture Hours/week
Not part of a TN Transfer Pathway

SURG 1021  Srg Tech & Patient Care Lab II  Credits: 1
Surgical Technology and Patient Care Laboratory II is a continuation of Surgical Technology and Patient Care Laboratory I. Students will continue studies in surgical procedures, incisions, wound healing, operating, pathology, and common applications.
Prerequisite: Acceptance into the Surgical Technology program and SURG 1011. Co-requisite: SURG 1020.
10 Lab Hours/week
Not part of a TN Transfer Pathway

SURG 2010  Surgical Micro. & Asepsis  Credits: 3
Surgical Microbiology and Asepsis trains students in techniques for keeping the surgical environment free from disease-producing micro-organisms. Aspesis principles, surgical conscience, sanitation/disinfection/sterilization and monitoring techniques are explored.
Prerequisite: Acceptance into the Surgical Technology program.
6 Lecture Hours/week
Not part of a TN Transfer Pathway

SURG 2020  Surgical Procedures I  Credits: 3
Surgical Procedures I focuses on anatomy, physiology, pathophysiology, diagnostic intervention, surgical intervention, postoperative patient care considerations, prognosis complications, and wound classification/management. Twelve surgical sub-specialties are reviewed. Prerequisite: Acceptance into the Surgical Technology program. Co-requisite: SURG 2030.
6 Lecture Hours/week
Not part of a TN Transfer Pathway

SURG 2030  Surgical Procedures II  Credits: 3
Surgical Procedures II is a continuation of SURG 2020 and focuses on anatomy, physiology, pathophysiology, diagnostic intervention, surgical intervention, postoperative patient care considerations, prognosis complications, and wound classification/management. Twelve surgical sub-specialties are reviewed. Prerequisite: Acceptance into the Surgical Technology program. Co-requisite: SURG 2020.
6 Lecture Hours/week
Not part of a TN Transfer Pathway

SURG 2900  Clinical Practicum I  Credits: 1
Clinical Practicum I allows the student to affiliate with the area hospitals under the joint supervision of Walters State and the professional staffs of the hospitals to provide practical clinical work experience in an actual hospital operating room setting. Prerequisite: Acceptance into the Surgical Technology program.
150 Total Clinical Hours/semester
Not part of a TN Transfer Pathway
TELC 2007  Adolescent Learners  Credits: 3  This course focuses on psychological theories related to adolescent cognitive, social and physical development. Adolescents are experiencing a myriad of changes. A better understanding of these changes will help educators plan and implement appropriate lessons, activities, lectures, assignments, and teaching strategies. Issues relevant to intellectual development, socialization, and educational evaluation are examined. Additionally, teacher variables and student variables in the instructional process are explored. Students should be able to apply their knowledge in a variety of settings with a multicultural perspective. No prerequisites.

TELC 2009  Managing the Learning Environ  Credits: 3  This class is designed for the beginning teacher to get started. It focuses on planning, organizing and interacting with your students. The student will complete a series of lessons, assignments, discussions, as well as quizzes and tests. No prerequisites.

TELC 2010  Survey of Exceptionalities and Diversity  Credits: 3  This course will enable instructors to identify psychological, physical, educational, medical, behavioral and learning characteristics and needs of individuals with various disabilities, as well as working with students from diverse cultural, social, ethnic and racial backgrounds. It will also include information regarding the modification and adaptation of instruction as it relates to ADA in order to fit individual needs and learning styles. This course will also enable the instructor to develop individualized educational programs with the principles of normalization and the least restrictive environment. No prerequisites. Elective credit at RSCC.

TELC 2011  Teaching and Learning with Technology in School Settings  Credits: 3  This course will address the ‘Tennessee Statement of Education Teacher Licensure Standards for Professional Education.’ This course, ‘Teaching and Technology,’ will assist instructors in examining various issues related to teaching with Internet technology and resources, as well as, learning to evaluate and integrate this technology into ‘teaching’ and ‘learning’ online and on-ground. In addition, this course will assist instructors in locating curriculum resources that will support and enhance instruction. No prerequisites. Elective Credit at RSCC.

TELC 2012  Teachers as Agent of Change in Schools  Credits: 3  Teachers as Agents of Change is designed for those students working in a public school environment on the Professional Occupational or Alternative C License. The course is designed to provide an overview of current issues, trends, and problems that are commonplace to teaching in public school settings. Students will engage in analytic learning experiences which focus on: a) teaching in urban, suburban, and rural settings, b) meeting the needs of diverse student populations, c) historical, sociological, and philosophical aspects of education in a diverse society, d) legal, financial, equality/inequality of access and resources, e) governance issues related to public schooling in the U.S., f) development knowledge and skills regarding professionalism, national and state initiatives, effective teaching, and licensure, and g) action research to improve current practice. No prerequisites.

TELC 2013  Adult Learners  Credits: 3  This course focuses on Adult Learners and the adult learning process, how they learn best and the classroom format that best relates to them. A better understanding by teachers of adult learners will help them plan and implement appropriate lessons, activities, lectures, assignments, and teaching strategies. Issues relevant to adult learning theories, classroom motivation, addressing learning issues and the 'best practice' learning techniques will be examined. Additionally, variables in the instructional process are explored. Students should be able to apply their knowledge in a variety of educational settings with a multicultural perspective.

TELC 2015  Survey of Exceptionalities and Diversity for Post-Secondary School  Credits: 3  For more information on this course, please visit the RODP website at http://www.rodp.org

TELC 2016  Teachers as Agents of Change in Postsecondary Schools  Credits: 3

Theatre

THEA 1030  Introduction to Theatre  Credits: 3  A survey course in theatre covering the history and development of Western drama. This course will emphasize drama as production rather than as literature. F, Sp
Roane State General Education course approved and designed for transfer.

THEA 110  Theatre History I  Credits: 3  A study of the Greek Period to the Restoration. The development of drama and the theatre; critical study of representative plays of the period. Course availability determined by Program Director.
Not part of a TN Transfer Pathway.

THEA 111  Theatre History II  Credits: 3  A study of the Restoration to Present. The development of drama and the theatre; critical study of representative plays of the period. Course availability determined by Program Director.
Not part of a TN Transfer Pathway.

THEA 115  Costuming  Credits: 3  Designed to meet individual needs for advanced study in costume for entertainment and the arts. Topic to be determined at time of scheduling. A minimum of 40 hours of laboratory work required. (Class available as determined by Director of Theatre Program). Course availability determined by Dean of the Division.
Not part of a TN Transfer Pathway.
THEA 117 Lighting Design Credits: 3
Designed to meet individual needs for advanced study in lighting for entertainment and the arts. Topic to be determined at time of scheduling. A minimum of 40 hours of laboratory work required. (Class available as determined by Director of Theatre Program) Course availability determined by Dean of the Division.
Not part of a TN Transfer Pathway.

THEA 119 Scenic Design Credits: 3
Lectures and practical experience in planning and designing settings for the stage. Emphasis on forms and styles of scenery, historical period research designers, and theatrical materials, methods, and techniques. Major projects in set design. A minimum of 40 hours of laboratory and/or crew requirement. (Class available as determined by Director of Theatre Program).
Not part of a TN Transfer Pathway.

THEA 1520 Stage Craft I Credits: 3
The Stagecraft course is intended to introduce the student to props, scenery, and costume production as well as to the tools, materials, construction techniques, exploration of the terminology, mechanical drawings, practical application in the design areas, and stage machinery used in these areas of theatrical production.
Course designed for transfer and part of the TN Transfer Pathways.

THEA 231 Fundamentals of Acting I Credits: 3
Fundamentals of Acting will emphasize the mechanics (vocal and physical) of presenting a character on stage. F
Course designed for transfer and part of the TN Transfer Pathways.

THEA 232 Fundamentals of Acting II Credits: 3
Improvisations, use of acting techniques in extensive work. Emphasis placed on special problems in contemporary roles. (Prerequisite: THEA 231 or permission of instructor) Sp
Not part of a TN Transfer Pathway.

THEA 233 Fundamentals of Play Directing Credits: 3
Play analysis, production concepts, staging, theory and techniques; rehearsal methods and procedures. Introduction of scene work. Course availability determined by Program Director.
Not part of a TN Transfer Pathway.

THEA 234 Dramatic Theory Credits: 3
Selected major playwrights linked by theme or a particular genre of dramatic theory; and intensive examination of plays which either survey playwrights’ careers or represent a significant portion of genre’s canon.
Course availability determined by Program Director.
Not part of a TN Transfer Pathway.

THEA 235 Intro to Theatre Technology Credits: 3
An introduction to the tools and methods used in modern theatrical productions, including scenery construction, lighting and sound design, and stage management technologies. F
Not part of a TN Transfer Pathway.

THEA 2510 Theatre Production Practicum I Credits: 1
Field experience course offering practical experience for students working in on-campus and off-campus technically oriented or performance oriented theatre activities. Each course carries one hour credit, and students may earn up to six credits by enrolling for one course each semester. (Prerequisite: THEA 2510), F, Sp
Not part of a TN Transfer Pathway.

THEA 2520 Theatre Production Practicum II Credits: 1
Field experience course offering practical experience for students working in on-campus and off-campus technically oriented or performance oriented theatre activities. Each course carries one hour credit, and students may earn up to six credits by enrolling for one course each semester. (Prerequisite: THEA 2520), F, Sp.
Not part of a TN Transfer Pathway.

THEA 2530 Theatre Production Practicum III Credits: 1
Field experience course offering practical experience for students working in on-campus and off-campus technically oriented or performance oriented theatre activities. Each course carries one hour credit, and students may earn up to six credits by enrolling for one course each semester. (Prerequisite: THEA 2530) F, Sp
Not part of a TN Transfer Pathway.

THEA 2540 Theatre Production Practicum IV Credits: 1
Field experience course offering practical experience for students working in on-campus and off-campus technically oriented or performance oriented theatre activities. Each course carries one hour credit, and students may earn up to six credits by enrolling for one course each semester. (Prerequisite: THEA 2540) F, Sp
Not part of a TN Transfer Pathway.

THEA 2550 Theatre Production Practicum V Credits: 1
Field experience course offering practical experience for students working in on-campus and off-campus technically oriented or performance oriented theatre activities. Each course carries one hour credit, and students may earn up to six credits by enrolling for one course each semester. (Prerequisite: THEA 2550) F, Sp
Not part of a TN Transfer Pathway.

THEA 2560 Theatre Production Practicum VI Credits: 1
Field experience course offering practical experience for students working in on-campus and off-campus technically oriented or performance oriented theatre activities. Each course carries one hour credit, and students may earn up to six credits by enrolling for one course each semester. (Prerequisite: THEA 2560) F, Sp
Not part of a TN Transfer Pathway.

Web Design (RODP)

WEB 2110 Motion Vector Graphics Credits: 3
This fundamental course examines and demonstrates essential elements in creating vector-based Web animation. The topics include vector vs. bitmap images, timelines, special effects, and use of plug-ins vs. HTML-only animations. The emphasis of this course will be on creating high-quality Web pages using principles of layout design, color theory as applicable to Web design, and preparation of text for the Web. Prerequisites: COMN 1000--Beginning HTML (NSTCC).

WEB 2120 Audio/Video for the Web Credits: 3
This course is designed to familiarize students with the technologies associated with bringing photographic (film, video and still) images and audio to the Internet environment and enable them to identify and use the tools which facilitate these media in Web sites. Appropriate media selection, software tools for encoding various media, delivery system attributes and limitations, associated file types, audio and video codecs and software players will be discussed. Students will learn to prepare aural and visual media for the Web by creating and encoding assigned projects. Students will learn to design for and solve problems with the integration of audio and video media into pre-existing Web sites. Prerequisites: COMN 1000--Beginning HTML (NSTCC).

WEB 2200 CIW Foundations Credits: 3
CIW Foundations teaches basic hands-on skills and knowledge which Internet professionals are expected to understand. The course is divided into three parts: Internet Business Foundations, Site Development Foundations, and Network Technology Foundations. After completing this course, students will be prepared to take the CIW Foundations Certification Exam. The certification exam is not a part of this course; you should schedule it at a Prometric or Vue Testing Center. Prerequisites: BIT 1150 - Computer Concepts and Applications (RODP); should also be proficient in Windows 98, 2000, or XP.
WEB 2210  CIW Site Designer  Credits: 3
CIW Site Design Methodology and Technology teaches you how
to design and publish Web sites. General topics include Web Site
Development Essentials (such as the site development process, customer
expectations, and ethical and legal issues in Web development), Web
Design Elements (such as aesthetics, the site user's experience,
navigation, usability and accessibility), Basic Web Technologies (such
as basic Hypertext Markup Language [HTML], Extensible HTML
[XHTML] and extended technologies, image files, GUI site development
applications, site publishing and maintenance) and Advanced Web
Technologies (such as multimedia and plug-in technologies, client-side
and server-side technologies, and Web databases). Prerequisites: WEB
2200--CIW Foundations.

WEB 2811  Adv Computer Graphics  Credits: 3
This course is designed to enhance the computer skills of those using
graphics programs to prepare images for the web or print delivery.
Prerequisites: Internet skills, HTML code, graphic formats, web site
building, web pages design, and an introductory knowledge of computer
graphics; COM 1020 (RODP), MDT 2100 (PSTCC) or equivalent
knowledge and training. Elective Credit at RSCC.

WEB 2812  Adv Web Page Site Design  Credits: 3
This problems-oriented course will teach the use of dynamic graphics
elements to enhance web pages and sites. Advanced concepts in page
layout and site optimization will be studied with emphasis on principles
used to craft dynamic web pages that get noticed. Exercises and projects
will allow students to apply the principles of web design to their
own sites that will be created in the course. Prerequisites: A practical
knowledge of how the Internet operates, HTML code, graphic formats,
web site building, web page design, and an introductory knowledge of
a computer graphics program -- these skills can be obtained through the
course COMN 1000--Beginning HTML (NTSCC).

Wellness

WELL 1010  Lifetime Wellness  Credits: 3
In this course, students will expand their knowledge and understanding
of optimal health and wellness as it relates to their personal lives.
Students will learn to evaluate their present health condition, make
decisions for a healthy future and also plan and implement changes for a
healthy lifestyle. F, Sp
Roane State General Education course approved and designed for
transfer.

Women’s Studies (RODP)

WMST 2010  Introduction to Women’s Studies  Credits: 3
The course is an interdisciplinary approach to the study of women’s
social identity and placement throughout history and the world.
Theoretical perspectives and research from sociology, psychology,
biology, and anthropology are used to understand how gender shapes
our lives on individual, cultural, and societal levels. Areas of study
emphasize the role of gender in social institutions including family,
workplace, education, religion, media, and politics. Prerequisites: ENGL
1010.
